BASEBALL

Carleton League Meeting.

There will be a meeting of the Carleton Baseball League in the City Hall, west end at 7.30 o'clock this evening, to discuss matters pertaining to the league. A full attendance is requested.

News For the Baseball Fans.

The Jap ball team is due to arrive in America today. The team ought to make a bunch of money playing exhibition games.

Lajoie thinks all the other teams have strengthened, but he believes the time is now ripe for bringing a pennant to Cleveland. With some team work it is possible to do so this year.

Some one has traced the origin of baseball to the time when Eve threw an apple at Adam. The discoverer says that the game has grown somewhat since then.

Cleveland has a hard hitting infield in Vinson, Lajoie, Turner and Bradley. There are few in-fields look better on paper so far as batters are concerned.

Griffith's team received their bumps oftener than any of the other supposedly great teams in the South, but Griffith is very crafty and would not allow his pitchers to hurt their arms for the sake of winning an exhibition game.

William ("Big Bill") Sullivan, last year with P. T. Powers in the Eastern Leagues, has signed as arbitrator in the New York State League. Sullivan came into prominence as umpire in the Catholic League in 1902. In 1903 he went with Tim Murnane in the New England League and last season was in the Eastern.

The Detroit Free Press likes the looks of Boston as champions again and thinks New York, Chicago and Cleveland will be the other three teams in the first division.

Hanlon says it is no worse than fourth for Brooklyn this year. He is the first man that has prophesied a first division place for the Superbas. The general belief is not better than seventh.

Jake Stahl has been informed that he will have entire charge of the Washington team this year. The owners of the club say that Stahl will not be hindered in any plans he wants to enforce.

YACHTING

Motor Boat Sank in Race.

Monte Carlo, April 19.—The Panhard-Levassor, which won the championship of the sea, sank in Monaco Bay with her engines running at full speed. This occurred when she was five kilometres from the start in the fifty kilometre handicap. Less than one month ago the Panhard left Tellier's workshop, apparently the finest vessel of the kind ever built.

The race started at three o'clock. There was little wind, but rather a lumpy sea, which made the going bad for the faster craft. One by one the boats left, according to their handicaps. The fastest of them all, the Panhard-Levassor, was the last to leave, steered by Comte de Vogue. Away she went, cutting through the waves like an arrow, past the first buoy, past the second, and near the third, when she suddenly disappeared.

The spectators asked excitedly, "Where is the Panhard?" A man with a powerful, glass said. "I saw her sink."

Tremendous excitement and confusion followed. Guns were fired and the race was stopped. Comte de Vogue and the two machinists were saved, but small thanks to the organization.

When the accident happened there was no torpedo boat in sight. A slow tug steamed lazily off Cap Martin, but of effective rescuing arrangements there were none. By good luck the Panhard-Levassor sank just as she reached the mark boat, and the crew was quickly picked up.

CYCLING

Waltham Won Easily.

Cambridge, Mass., April 19.—Bobby Walthour, of Atlanta, easily defeated James Moran, of Chelsea, and Nat Butler, of Cambridge, in a thirty-mile motor-paced race at the Charles River track, this afternoon. Time, forty-four minutes, fourteen and three-fifth seconds.

Mettling a Winner.

Revere, Mass, April 19.—Louis Mettling, of Boston, easily won the twenty-five mile motor-paced race behind small motors at the Revere cycle track this afternoon. William Stinson, Cambridge, was second, and Harry Caldwell, Manchester (N. H) third. Time, thirty-nine minutes, fifty-five and three-fifth seconds.

SHOOTING

A Dead Shot.

Alpena, Mich., April 19.—Martin Chase Benjamin, a famous character of Thunder Bay region, is dead at Hubbard Lake, aged 85 years.

Benjamin was a wonderful rifle shot and served in the civil and Mexican wars as a sharpshooter. Until a few years ago, he was the best man in Northern Michigan, and was never defeated. The Chas. Benjamin Gun Club was named in his honor. He had killed 3,000 deer and hundreds of other game.

His early days were spent in the employment of the Hudson Bay Company.

ATHLETIC

Y. M. C. A. Will Move.

Next week the Y. M. C. A. will start the work of moving from its present building to temporary quarters in the same building as C. P. Clarke's drug store. King street. It is understood the flat has been leased for a year.

Won the Marathon.

Boston, April 19.—F. Lorz, of the Mohawk Athletic Club, New York, won the ninth annual of the Marathon road-race of twenty-five miles, held today under the auspices of the Boston Athletic Association. Lorz's time was two hours thirty-eight minutes, twenty-five and two-fifths seconds, nine minutes, one and a quarter seconds, behind the record, established in 1901 by J. J. Caffrey of Hamilton, (Ont.)

Indoor Sports at St. Stephen.

The Thistle A. A., of St. Stephen, intend holding an indoor meet in the curling rink of that city on Friday, May 5. There will be seven events: Forty yard dash, thirty-five hurdles, sack race, obstacle race, potato race, relay team race, tug-of-war. Two good prizes will be given in each of the first five events, and suitable prizes in Nos. 6 and 7. for Nos. 1 and 2 medals will be given as first prizes.

Entries should be addressed to R. E. Hyslip, St. Stephen. Mr. Hyslip will meet members of the Y. M. C. A. and Neptune Club today, and it is altogether likely that a St. John team will go to St. Stephen on the 5th.

NOTES OF SPORT

ITALY'S KING AND J. PIERP.

They Exchanged Graceful Compliments in Rome Today.

Rome, April 19.—King Victor Emmanuel today received in private audience J. Pierpont Morgan, who thanked His Majesty warmly for the Grand Cordon of Saints Maurice and Lazarus, which he wore. The king was most cordial in his manner, and expressed his personal gratification at the generous act of Mr. Morgan in returning to Ascoli, the cope stolen from the Cathedral there and sold to him by an unknown person. The conversation, which was carried on in English, lasted half an hour.

SUSSEX.

Sussex, April 19:—The case of Carrier vs Heaton was continued to-day in the police court. Two or three witnesses were examined and the accused then gave evidence in his own behalf after which the counsel for accused and informant addressed the court at the close of which the magistrate dismissed the case.

The town council met last evening and only business of routine nature was gone through with.

Dr. Burnett performed an operation here today upon Beverly Lockhart, son of John Lockhart of Petitcodiac. The operation was successful.

The funeral of the late Eliza A. Parlee of Waterford took place yesterday, interment at Upper Corner. Rev. J. B. Gough conducted the services.

There's a Reason.

A rainbow in the sky is the symbol of purity and perfection of color. That is why the name was chosen for Rainbow Cut Plug Smoking Tobacco, which is a pure and perfect smoke for the pipe.

HORSE NOTES

Horse Technicalities.

A white spot on the forehead is a star. A white face from eye to eye is a bald face. A strip between the nostril is a snip. A white eye is a glass eye. A horse has pasterns, not ankles, and there is no such point as a hind knee or a fore shoulder. White around the top of the hoof is a white coronet. White below the pastern or above the pastern is a white leg. A snip cannot be anywhere but on the nose. Amble is a gait like pacing, but slower, in which the two legs on the same side are moved together. The croup is that part of the horse back of the saddle. The fore arm is that part of the leg between the elbow and the knee, and the elbow is the joint of the foreleg next the knee and not to the side. When the horse forges it strikes the toe of the hind one, and this is sometimes the result of bad shoeing. Everyone should know that the hand, a term commonly used in describing the height of a horse, is one-third of a foot, or four inches.

THE MAT

Jennings Makes a Match.

New York, April 20.—At a meeting between George Hackenschmidt and Tom Jennings, yesterday, according to the Times the differences of the two wrestlers were brought to an amicable settlement. Upon the proposition of Harry Pollock, Manager for Tom Jennings, to make a side bet of $1000, Hackenschmidt agreed to accept the terms of the match. He will meet the American Champion on the night of May 4, for 50 per cent. of the gross gate receipts.

Catch-as-catch-can rule will govern the contest, the best two out of three falls to decide the match.

Jennings will begin training immediately, Hackenschmidt is in good trim now, having done work daily since his arrival in New York.

THE RING.

Mike Donovan Knocked Out.

Evansville, Ind., April 19.—"Kid" Lemmel of Evansville, tonight, knocked out Mike Donovan, of New York, in the first round of a 15 round bout. The fight was fast and furious. Donovan went down twice from blows on the jaw. The knockout was delivered over the heart

PROSPECTS OF FORMING A NEW BRUNSWICK LEAGUE.

It is probable that a meeting will be arranged for tomorrow, between representatives of the Tartars, of Fredericton and St. John baseball promoters, with the object of talking over the matter of forming a provincial league. A. E. McGinley, business manager of the St. John Base Ball Club, yesterday received a wire from J. D. Black, secretary of the Tartar Base Ball Club, of Fredericton, asking if it would be possible to have a meeting of representatives of all clubs interested on Friday next in this city.

Mr. McGinley replied that he would endeavor to arrange for such a meeting. He therefore requests that the managers of clubs desirous of entering communicate with him, at the Evening Times office, at once.

It is not as yet known whether Moncton will be represented or not, but there seems to be a feeling among the baseball backers in the railway town that it would interfere too much with their local league, and they seem to think that a provincial league would not be a paying proposition from their standpoint, as the jump from Moncton to Fredericton would be too long. However it is understood that the Portlands are anxious to enter a New Brunswick league, and with Joe Page's team and the Fredericton club, it should not be hard to get a fourth nine, and it is not unlikely that Moncton could be persuaded to see things in a different light.

There is very little doubt but that a provincial league would be a paying proposition if properly carried out and such a league should give a great impetus to the "King of games."

PROBLEM OF INDIA'S DEFENCE

An Englishman who has occupied high office in India writes in the 'North American Review,' under the pen-name of 'Anglo-Indian,' of 'The call of Lord Kitchener.' The problem of the defence of India against an attempted Russian invasion is one with which the British and Indian governments have constantly to struggle. It was recently under anxious consideration, as the result of which Lord Kitchener perfected a plan of operations against the contingency more or less remotely apprehended. The choice lay between the policy of mounting guard, so to speak, on the frontier of India, and that of making preparations for meeting Russia the moment she should violate the northern frontier of Afghanistan, and fighting it out in the territory of the Amir. The latter course was decided on as being the wiser, and in the long run the more economical; and 'Anglo-Indian' discusses the measures which must be taken to render it practicable. As to the arm and the sources from which it might be recruited, 'Anglo-Indian says:

'If we include the imperial service troops and the volunteers—a small force under 30,000 men—Lord Kitchener has an army of 203,000 Indians and over 74,000 British regulars. He can find the money, and if he can simultaneously add to his British force—for the most elementary principle of our Indian administration is that, both in peace and in war, the British soldier should be close to the Indian sepoy, and that the sepoys should not outnumber the soldiers by more than two to one. Another axiom of the Indian military system is that the artillery should—with the exception of a few mountain batteries—be British. Both these limitations cramp the power of expansion; but, civilized as India is becoming, Lord Kitchener still has good recruiting grounds, and the Sikhs, Ghoorkas, Pathans, Punjabi Mohammedans and Docras, properly trained and well fed, will hold their own with any fighting men in the world. Lord Kitchener has also splendid material for irregular cavalry in the warrior caste of Rajputana, and an endless supply for irregular infantry as he draws near the country of the frontier. But he wants officers. It would not be over the mark to say that for his existing army, and for irregular forces, which might be usefully employed if India had to be defended against a foreign army, more than 1,000 officers in addition to the present strength would be required. They must know the languages and the customs of the Indian races, and they cannot be improvised at a moment's notice.'

Felt Weak and Nervous.

Had Faint and Dizzy Spells.

These symptoms arise from a weak condition of the heart and nerves. Wherever there are sickly people with weak hearts and deranged nerves.

MILBURNS' HEART AND NERVE PILLS.

will be found an effectual remedy.

Through the medium of the nervous system, they impart a strengthening and restorative influence to every organ and tissue of the body.

They restore enfeebled, enervated, exhausted, devitalized, or overworked men and women to perfect constitutional power.

Miss Maggie L. Cleveland, Bayswater, N. S., tells how she was cured in the following words:—

"I was sick for the past year, and became thoroughly run down. I had faint and dizzy spells, and felt weak and nervous all the time. I tried numerous remedies, but could get no help. I then read in the paper about Milburn's Heart and Nerve Pills, and got a box of them. Before I had used one-half the box I began to get better, so got another one, and by the time the two were finished I was as well as ever."

Milburn's Heart and Nerve Pills, 50 cents per box, or 3 for $1.25. All dealers, of The T. Milburn Co., Limited, Toronto, Ont.

HIGH SPEED YACHT FOR KING EDWARD.

London, April 19.—Work on a new yacht for King Edward has been started by A. and J. Inglis, the Glasgow boat builders. She will be smaller than the royal yacht Victoria and Albert, but will have turbine engines to develop high speed. She will probably be named the Osborne

The draught of the Osborne will be fourteen feet ten inches, while the displacement is to be 2,000 tons, gross, as against 4,700 of the Victoria and Albert. With this draught the Osborne will be able to take the King into Flushing and Nice and many other ports from which he was barred by the size of the Victoria and Albert.

In length the Osborne will be 285 feet, as compared with 490 feet over all and 380 feet between perpendiculars in the case of the larger yacht. Her beam will be forty feet.

Under full speed she will make 17 knots. She will have three turbine engines of the Parsons type, and three separate shafts and propellers. Her boilers will be of the cylindrical type.

STRONG WORDS ABOUT ASYLUMS.

Pres. Burgess Denounces the Spoils System in Official Appointments.

San Aotonio, Tex. April 19—The sixty-first annual meeting of the American Medico-Psychological Association is in session here. About one hundred alienists are in attendance. The meeting will continue three days.)ould find out by the time they left tussel,' but then the sports are from

It is presided over by president T. W. Burgess, of Montreal, Que. The feature of yesterday, the first day, was the annual address of president Burgess on 'The history and conditions of the insane asylum of Canada.'' He said that the rate of increase in mental disorders is so great as to call for stringent measures to suppress it.

President Burgess denounced the spoils system of making appointments to positions in asylums as a reward for party service.

DR. SLOCUM'S WARNING!

"Look Out For Germs of Pneumonia at This Season of the Year."

—Says Dr. T. A. Slocum.

A DANGEROUS TIME

DR. SLOCUM'S

PSYCHINE

"PRONOUNCED SI-KEEN"

Pneumonia is brought on by over-exposure to cold or damp. This weakens the body. At this time of the year the air is full of pneumonia germs, and as soon as your body is weakened they attack you.

If you have exposed youself take a few doses of "Psychine". This will strengthen you, and prevent the cold from deloping.

The symptoms of pneumonia are a general feeling of dulness and langor, quick, short breathing, short, hacking, cough, oppression in the chest, a chilly sensation, and a coldness in the extremities. These are followed by chills or rigors—the cough becomes worse, and high fever sets in.

There is not a druggist in the city who will not advise you to use "Psychine" for coughs, colds and all pulmonary and bronchial troubles.

For sale by all druggists at $1 per bottle. For further advice, information, write or call, Dr. Slocum, Limited, 179 King Street west, Toronto, Can.

$1.00 Per Bottle.

"Which," said the man who used to belong to a debating society, "exercises the greatest influence—love of reward or fear of punishment?"

"Love of reward," answered the member of the grand jury. "Nearly every investigation of graft shows that the fear of punishment is scarcely in evidence at all."

THE USUAL SPRING SCARE.

Christians, Greeks and Mohammedans at Each Other's Throat.

Vienna, April 20.—The condition of affairs in the Balkan states is causing much uneasiness in official circles here. The hope of a comparatively peaceful spring which has prevailed is growing less, and it is declared that the reform work has not been conclusively proved to have good or lasting results.

In Zagoricham, province of Koritza, early this month Greeks fell upon and killed more than 130 Bulgarians, and in Kuamanovo, province of Uskub, Turks have killed several Servians.

Thus it is seen that all nationalities and Christians and Mohammedans continue fighting each other, while Turkey seems unable to control affairs or give protection to the people and stopping the disorders.

Formerly there was only the passive resistance of Turkey to contend with, but now the situation has been aggravated by the growing bitter hatred of the various nationalities against each other. There also is a possibility that some of the Balkan states may actively enter the field on the pretense of protecting their subjects.

ENDED IN A ROW.

A discussion of the proposed water extension to Loch Lomond had rather an unpleasant ending last evening. Charles London, a painter and Charles Thompson a teamster, were parties to the discussion and the men did not agree, London maintaining that the lakes at Mispec were lower than the city, and Thompson that they were higher. After a short dispute the two went at it. Thompson struck the older man a swinging blow on the jaw, and he fell heavily to the sidewalk. It was some minutes before he could be revived. He was helped to his home on Patrick street by some friends. His cheek beneath the left eye was cut open and he seemed to suffer also from his fall.

INSPECTOR ESDAILE MARRIED.

J. P. Esdaile, of Halifax, Inspector of Steamboats for Nova Scotia, was married at Charlottetown, P. E. I., last Tuesday night to Annie Fraser, daughter of the late Simon D. Fraser, formerly proprietor of the Rocklin House. Miss Fraser has been for some years organist of Zion Presbyterian Church. Rev. W. H. Sedgewick, pastor of Zion Church, officiated.
