MARINE NOTES

Furness steamship Halifax City has arrived at Halifax from London, she comes to this port.

Battle line steamer Pandosia sailed from Cardiff for Buenos Ayres yesterday.

Articles were opened in Portland on Wednesday for the schr Sawyer Bros. to load plaster at Walton, N. S. for New York.

The packet schooner Sparmaker, ran ashore at Raymonds Cove last night and is reported total loss.

Schr W. R. Huntley, before reported ashore at Newfoundland, has become a total wreck.

The owners of steamer Susie D, at Vineyard Haven were paid $525 for putting out the fire on the schr John D Proctor, (before reported),

Machias, Me., Oct. 25—Schr Glenullen (of Machias), 73 tons, went ashore on Ram Island this morning, and will prove a total loss. The captain and crew were taken off by the Cross Island life saving crew.

Hatteras reports 400 life preservers drifting shore there about Oct. 19 to 21; some are marked, as well as can be described "Caswitz Rattunysyurcel, ORDP, No. 108,314," and on one is the word "Sealanana."

The British bark Strathern from Montevideo, which arrived at New Bedford, Mass. last Saturday brought 1,600 barrels oil from bark Wanderer, of that port. She is bound to Boston, and took the oil for New Bedford on the way. She will be towed to Boston as soon as the oil is discharged.

The schooner was an old craft owned by Captain Newton and is said to be uninsured. The Sparmaker, which was about 40 tons had a full general cargo on board shipped by St. John merchnts, and was bound for Parrsboro. She sailed yesterday afternoon.

An unknown schooner of about 125 tons, bound east without a cargo, was reported ashore on Ram Island, in Machias By Thursdy. A heavy southwest wind made her position a perilious one. The tug A. J. Jones and the Cross Island Life Saving crew went to her assistance. The schooner is painted black.

WIRELESS MESSAGES

Sent 900 to 1200 Miles from Newport Signal Station.

NEWPORT, R. I., Oct. 26.—Since the report of the wonderful wireless record made between the naval wireless station at Pensacola and the steamer Preston, which were in constant communication from the time that vessel left New York until its arrival in Honduras, other naval wireless stations have been looking up their figures and reports.

The naval wireless station at the torpedo station here, which has been doing a large amount of excellent work, shows that last spring while the armored cruiser Maryland was coming from Guantamano Bay with the men injured as the result of the gun explosion on the battleship Kearsage, the Newport station was in communication with the Maryland long before she reached Key West and exchanged messages with the cruiser at a distance of quite 1,200 miles.

Another record of the Newport station is recalled. While the armored cruiser was off Key West last spring with President Roosevelt on board, messages with the cruiser were exchanged and transmitted from Newport to Washington.

Later on the Newport station exchanged messages with the station at St. Augustine, a distance of between 900 and 1,000 miles.

THEY WERE "DOING" THE G. T. R. COMPANY

Montreal, Oct. 26—The Grand Trunk is making wholesale dismissals of its passenger conductors and so far fifty-seven have been discharged and it is reported more are to follow.

The lines affected up to date are Montreal to Portland, Maine; Montreal to Massena Springs, Ottawa and Toronto and Toronto to Chicago.

The management declines absolutely to make any official statement on the subject for publication, but, according to information representing the official side of the case, it appears that for some time there have been suspicions of leakages in the receipts received in respect of passengers taken on the trains at intermediate points who had not obtained tickets from any of the regular agents.

Persons were observed to enter the trains at certain stations without having tickets, and there was no record of their having traveled in the conductors' returns. The suspicions that the shortages were of considerable magnitude led to the company engaging the services of a detective agency. The "spotters" employed in the eastern division, which is under the superintendency of M. S. Blaikley, are said to have been two men and two women, persons who were absolutely unknown to the conductors. They traveled on the trains between Montreal and Portland and Montreal and Toronto and on the strength of the reports they presented, at least eight conductors, in this division, have been called upon to turn in their uniforms and empty their lockers at Bonaventure Station, and informed that they need not report further for duty on their respective runs.

It is reported that a similar watch has been kept upon the train staffs on the other divisions of the system, and that as the result no less than fifty-seven conductors in the different parts of the Grand Trunk have been compulsorily retired from their positions.
