DR. STOCKTON DECLARES EXPENDITURE FOR I. C. R. ELEVATOR WAS USELESS

Member for St. John City and County Delivers Spirited Address in Parliament --- Says Elevator is Only Used in Election Times.

OTTAWA, Nov. 27.—Before the debate on the address was proceeded with today, Mr. Lemieux said he had received word that a settlement of the strike at Lethbridge was in progress. Archie Campbell (Centre York), Mr. Broder (Dundas) and Col. Tisdale (Norfolk) discussed the election scandals.

Dr. Stockton in dealing with the question of expenditures said: "It was thrown out to me that I should not object to the expenditures in my own constituency, that no member of this house should object to expenditures in his constituency. I wish to say, sir, that I want no expenditure in my constituency unless it is needed and is for a work of utility and if it is not actually needed in the public interest and is not a work of utility but is merely an expenditure to catch votes, then it is an extravagant expenditure and should not be tolerated by this or any other government.

"I was asked what I thought about the construction of a grain elevator at the mouth of the harbor of St. John. I suppose the honorable gentleman who asked me that question imagined that he had put to me a poser and that I would be unable to answer such a magnificent question as that, that it might possibly lose me votes in the constituency, if I should happen to answer it as the honorable gentleman thought I might answer it. Well, sir, let me say that the expenditure of $200,000 or $300,000 at the mouth of the river St. John on the north side of the harbor of St. John six or seven years ago has been absolutely a dead expenditure so far as this country is concerned. We have the grain elevator there and the appliances to ship grain from the north side and the east side of the harbor of St. John, but thus far, sir, although it has been there for six or seven years, no grain, except a few bushels at the time of a dominion election, has passed through that elevator.

"I do not know whether that will become a work of utility or not in the near future. The prophetic insight of my honorable friend, who propounded this question to me, is of the opinion that it will be a work of great utility. Unless it is taken hold of by the C. P. R. I fear that for the next six or seven years it will remain as it has remained for the last six or seven years.

"The C. P. R., I am happy to say, has acquired the railway bridge spanning the falls at the mouth of the river St. John, and when their trade is congested on the west side of the harbor they are in a position now to use that elevator and I believe my honorable friend, the minister of railways, although he is not in a position to use it himself on behalf of the government of Canada, on behalf of the people of Canada, is about to permit the C. P. R. to use that public work to avoid congestion on the western side of the harbor.

"But, sir, let me suggest in the mildest manner possible that if the transportation policy of the honorable gentleman who suggested that question to me is carried out that elevator never would be worth anything, the people of St. John may always have an opportunity of looking at it as a dead letter, money improvidently expended, and I believe I can appeal to honorable members from the river constituencies of the province of New Brunswick, irrespective of their party affiliations, to corroborate me in the statements I am making.

"'I come back to the question, are all expenditures commendable? No, they must depend on utility and general result. I want to show you with respect to one expenditure and I take it from the mouth of a gentleman who is supporting the government and I regret that the minister of marine (Mr. Brodeur) is not in his place so that I might bring it to his notice, that the money voted by parliament has not been properly expended. The honorable member for Digby (Mr. Copp), was in the city of St. John a short time ago and he is frequently there, and we are always glad to see him. He was interviewed by one of the newspapers in the city of St. John, with reference to the Nova Scotia fisheries. This interview appears in the Daily Telegraph of St. John of the 18th of October, 1906. He said:

'They are not as good as last year, in fact they are falling off considerably of late, a condition that has been in evidence for the past two or three years. The condition applies to the whole of the North American fisheries and it is a great pity that it is so.'

"I commend this to my right honorable friend, the leader of the government (Sir Wilfrid Laurier) in the absence of his minister of marine and fisheries (Mr. Brodeur). But that was not all, sir. The member for Digby (Mr. Copp), said:

'The real cause is that the money apportioned for the preservation and protection of the fisheries is not properly expended.'

"Now, sir, that brings me back to my other question, are all expenditures commendable? No, they must depend on utility and general result. Is it commendable to vote money on the floors of this house for the fisheries of Nova Scotia and the Atlantic provinces of this dominion, if the money is not properly expended? I say, sir, that expenditure of that kind is extravagant and is a vigorous indictment against the administration of the department of marine and fisheries."

Dr. Stockton next turned his attention to the Shelburne election. He complained of the delay in bringing it to trial, which should be remedied for the future. He spoke of the Halifax elections and denounced the Rothesay election frauds although he did not blame the entire Liberal party for such.

Sir Wilfrid Laurier moved for Thursday for government business. This is for the budget speech.

There was a lengthy discussion on the Lethbridge strike matter. The house adjourned to meet at two o'clock tomorrow.

SENATOR TILLMAN IS STIRRING UP NEGROES

Another Reckless and Violent Speech in Which a Profane Expression is Necessary to Give Vent to His Feelings.

CHICAGO, Nov. 27—The effort of the colored citizens of Chicago to prevent United States Senator Benjamin R. Tillman from delivering an address here tonight in Orchestra Hall was unsuccessful.

Senator Tillman gave his address protected by forty detectives. In anticipation of trouble a number of policemen were kept at nearby stations in reserve but they were not called for. Six negro policemen mingled with the crowd which blocked the street in front of the hall. In the audience were many negroes, but they listened to Senator Tillman's remarks good naturedly, and although he was interrupted a number of times, the meeting passed off without trouble.

In leading up to his address, "Shall the United States annex Cuba?" Mr. Tillman took occasion to criticise Mayor Dunne's action in refusing to preside at the meeting.

"I have been told that I have been snubbed by the mayor of this city," said the senator. "I did not ask Mayor Dunne to be here tonight. If anyone has been snubbed it is the gracious ladies, who planned this meeting to secure money for the Chicago Union Hospital, and who requested Mayor Dunne, the creature of a political hour, to come forward and add his mite. I have been advertised to discuss the annexation of Cuba," continued Mr. Tillman, "but in view of the fact that I could not discuss that subject without discussing the race question, I am going at the matter hammer and tongs. Therefore I shall discuss the race problem pure and simple from an American standpoint, and not from a Cuban standpoint. Owing to my experience with the question and the diligent study I have made of it, I believe I am better qualified to discuss this question than any other man in America."

While discussing the 15th amendment to the constitution, which he declared gave the negro every right that a white man had, he was interrupted several times by one of his listeners, who kept asking: "How about Kentucky."

Finally Mr. Tillman seemed to lose his temper and exclaimed: "Oh shut your mouth. You do not know the A B C of this thing. I forgot forty years ago more than you ever knew."

"You make up your minds that equality before the law which the 15th amendment guarantees is right and should be enforced notwithstanding its result. If this law was enforced it would result in two states at least being dominated absolutely by negroes, while four other states would be so near being governed by the negro that there would practically be an equal division of officers."

A voice: "How about the law?"

Senator Tillman: "The law? To hell with such laws."

After telling in detail how the negro is prevented from casting his ballot in the south, Senator Tillman said:

"There is a great deal more to this question than the little racket here years ago."

A voice: "How about the negro judge?"

Senator Tillman: "Well, I will tell you about your negro judge and about your political machine putting him on the ticket, and bamboozling those poor baboons into electing him, and then, afterwards, you fellows who voted the ticket without knowing what was on it, find a way to cheat him out of it.

"No matter what the people in the north may say or do, the white race in the south will never be dominated by the negro, and I want to tell you now that, if some state should ever make an attempt to 'save South Carolina' we will show them in their fanaticism that we will make it red before we make it black.

"God Almighty made the Caucasian of better clay than the Mongolian or the African or any other race. The Ethiopian is a burden carrier. He has done absolutely nothing for history, nor has he ever achieved anything of great importance. There are no great men among the race. Yet this people has been picked out by the fanatics of the north and lifted up to the equality of citizenship and to the rights of suffrage. No doubt many of you have listened to the oratory of the greatest colored man in this country, Booker T. Washington. He had a white father, however, and his brains and his character he inherited from that father."

Senator Tillman then told his audience of the attacks on white women by negroes in the south and declared that the people of the north were in a great measure responsible for this state of affairs.

In conclusion Senator Tillman said:

"Now, as a general illustration of the injustice that is sometimes done. President Roosevelt discharged three companies of colored soldiers without a court-martial, and in doing [illegible] innocent men for the crime of a few. In doing this he transcended the authority of the law and he ought not to have done it."

During Mr. Tillman's speech a colored man and a Russian were arrested for creating a disturbance in the gallery.

The attention of advertisers is called to the fact that The Telegraph and Times have maintained the lead for months over the Sun and Star in advertising carried.

That The Telegraph and Times reach the money-spending class and bring results is evident from the patronage they enjoy. Business men who desire to approach the greatest number of Christmas shoppers, at the least expense and with absolutely no risk, are invited to use the columns of The Telegraph and Times, the papers that carry the bulk of the advertising in the city of St. John.

Think it over.
