

HOW TO FIND OUT.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains the linen it is evidence of kidney trouble; too frequent desire to pass it, or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It cures inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp Root is soon realized. It stands the high test for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in Canada in 75 and 125 cents.

You may have a sample bottle of Swamp Root, the great kidney remedy, and a book that tells all about it, both sent absolutely free by mail. Address: Dr. Kilmer & Co., Binghamton, N. Y. When writing be sure to mention that you read this generous offer in the St. John Daily Times. Don't make any mistake, but remember the name, Swamp Root, Dr. Kilmer's Swamp Root, and the address, Binghamton, N. Y., on every bottle.

WALKING ON WATER EASY

When a Person Knows How He Can Travel Long Distances.

(Technical World Magazine)
Man has learned to travel down snow-covered mountains in safety by use of the snowshoe or ski; he can skim over frozen surfaces on skates, but he has not fully learned to wing the air; nor could he until recently tread the waves.

A pair of aquatic shoes has been constructed which enables its wearer to walk on the water as easily as a ship sails the sea. "Canal boats," for sure, are these water shoes; but when a foot is slipped into each, the wearer gives a slight lunge forward with the body and a deft push with first the right and then the left the shore begins to slip behind him as if he were wearing the famed seven-league boots, size is of no consideration. A long pull, a strong pull, first with one foot and then the other and he is slipping down stream as easily and poetically and as noiselessly as a smokestack the Indian in his birch bark canoe.

Lieutenant Arthur T. Sadler, of the United States volunteer life saving crew at Charlesbank, Mass., is the discoverer of this new sport and he is also the inventor of the novel boat shoes. "Foot craft," he calls his invention, and his call: "Come on boys, bring up the craft and we have a 'treasure,'" always produces a hearty response, for the sport has found favor with all who have tried it.

The shoes are light and the very newest are much shorter than those first made. A "carry" with this, or more correctly speaking, these novel craft is made easier than with the old ones.

Mr. Sadler has proved that his water shoes are perfectly manageable. He can turn directly about in them, round a bend in the river with ease, pull a round stroke or take a short step, stand perfectly still or slide along with the tide at will.

N. B. TRAIN RAN OFF THE RAILS

The N. B. Southern train from St. Stephen ran into an open switch near Beaty's rocks last night and left the rails. No one was hurt, but the train crew jumped for safety.

A special lumber train from Lepreau had been run on the siding near Beaty's rocks. By some oversight the switch was not closed, and when the regular train came up the engine and two cars went over the points, plunging up the ties and gravel for several yards.

The cars were replaced on the rails and work was started to place the engine on again.

There were quite a few passengers on the train at the time of the accident, among whom was Hon. J. L. Chillois, chief commissioner of public works, who was returning to the city from St. George. Had the train been going at her usual rate of speed she probably would have gone over the bank and the results might have been serious.

SUSSEX NEWS

SUSSEX, Sept. 28.—Announcement has been received here of the marriage of Miss Letitia H. Hallett, only daughter of Edwin Hallett, of Greenwood, B. C., formerly of Sussex, to Edwin Dill, of Greenwood, B. C.

Mr. and Mrs. A. S. Moore, are receiving congratulations on the arrival of a daughter.

Mr. and Mrs. Harry W. Wilson, of Montreal, are visiting in Sussex.

Miss Alice Harrington, of Norton is visiting Mrs. J. Macdougall.

Miss Chloe McLeod, of St. John, is the guest of Miss Annie Falkins.

George Barnes and Frank Lansdowne, are at Arnold Lake after the moose.

Miss Henry Patton, of St. John, is visiting her uncle, Frank Lansdowne.

Miss Ida Robinson, who has been visiting her parents here, returned to her duties as nurse in Boston Hospital.

Mrs. John Mace, of Maple Avenue, entertained her Sunday school class last evening at tea.

H. B. Fleming, chief train dispatcher, L. C. R. Montreal, was in town today on railway business.

John Watters, (Tailor) of this place, was suddenly called to Sydney today on account of his brother's serious illness.

Ora P. King went to Halifax last evening to attend the Halifax exhibition.

H. B. Price, bookkeeper for the Sussex Mill Co., left yesterday for the west on a six weeks tour.

George H. Davidson, station agent at Anagnaw, left yesterday for Winnipeg.

The funeral of the late Henry S. Parlee took place this afternoon at two o'clock from his late residence Smith's Creek. Interment at Smith's Creek cemetery.

Rev. Scoville Noyes conducted the services. The funeral was largely attended.

J. A. Stevens, of St. Stephen; T. S. Wilkinson, of Fredericton, and F. W. Emmerson, of Moncton, were among the late arrivals at the Royal last night.

Financial and Commercial
THE BANK SHOWING IS NOT A FAVORABLE ONE

Reasons Why Secretary Shaw Should Extend Aid to the Money Market—Big Increase in Loans and Decrease in Cash Reserves.

(Wall Street Journal.)

The difficulties of the money market are clearly explained by the condition of the national banks as disclosed in their reports to the comptroller of the currency on the 4th of September.

During the past year their loans have increased \$20,474,414, and their cash reserves have decreased \$3,540,889. Since September, 1905, the national banks have increased their loans over \$1,000,000,000, while their increase in cash has amounted to only \$111,000,000. It is evident that the expansion of credit has been out of proportion to the growth of reserves. The condition of the national banks on September 4, as compared with corresponding figures for preceding years, is shown by the following table:

Under our system of taxation, property of the country always means a big surplus revenue, and unless the secretary of the treasury relieves during the day, and the surplus goes back into circulation, property would cease to be a factor of money with which to do business.

The crooked movement of currency to the interior will not be over for eight weeks, if the requirements of the treasury are great as they were last year. The indications of the last few weeks are that more money will be wanted during the day, and the surplus than the New York banks parted with last year.

Under our system of taxation, property of the country always means a big surplus revenue, and unless the secretary of the treasury relieves during the day, and the surplus goes back into circulation, property would cease to be a factor of money with which to do business.
