A Test Will Tell

What Liquozone Can Do for You--and It Is Free.

You who are waiting—we ask you again to try Liquozone; to try it at our expense. You'll regret this delay when you learn what the product means to you.

Do as millions have done—stop doubting; give Liquozone a test. Then judge it by results. Germ diseases—and there are scores of them—call for a germicide. Those are the diseases to which Liquozone best applies. Don't cling blindly to old-time remedies, if you don't find them effective. Let us prove the power of the new.

What Liquozone Is.

The virtues of Liquozone are derived solely from gases. The formula is sent to each user. The process of making requires large apparatus, and from 8 to 14 days' time. It is directed by chemists of the highest class. The object is to so fix and combine the gases as to carry into the system a powerful tonic-germicide.

Contact with Liquozone kills any form of disease germ, because germs are of vegetable origin. Yet to the body Liquozone is not only harmless, but helpful in the extreme. That is its main distinction. Common germicides are poison when taken internally. That is why medicine has been so helpless in a germ disease. Liquozone is exhilarating, vitalizing, purifying; yet no disease germ can exist in it.

We purchased the American rights to Liquozone after thousands of tests had been made with it. Its power had been proved, again and again, in the most difficult germ diseases. Then we offered to supply the first bottle free in every disease that required it. And over one million dollars have been spent to announce and fulfill this offer.

The result is that 11,000,000 bottles have been used, mostly in the past two years. Today there are countless cured ones, scattered everywhere, to tell what Liquozone has done.

But so many others need it that this offer is published still. In late years, science has traced scores of diseases to germ attacks. Old remedies do not apply to them. We wish to show those sick ones—at our cost—what Liquozone can do.

Where It Applies.

These are the diseases in which Liquozone has been most employed. In these it has earned its widest reputation. In all of these troubles we supply the first bottle free. And in all—no matter how difficult—we offer each user a two months' further test without the risk of a penny.

Asthma	Goitre—Gout
Abscess—Anæmia	Gonorrhea—Gleet
Bronchitis	Hay Fever—Influenza
Blood Poison	La Grippe
Bowel Troubles	Leucorrhea
Coughs—Colds	Malaria—Neuralgia
Consumption	Piles—Quinsy
Contagious Diseases	Rheumatism
Cancer—Catarrh	Scrofula—Syphilis
Dysentery—Diarrhea	Skin Diseases
Dyspepsia—Dandruff	Tuberculosis
Eczema—Erysipelas	Tumors—Ulcers
Fevers—Gall Stones	Throat Troubles

Also most forms of the following:

Kidney Troubles	Liver Troubles
Stomach Troubles	Women's Diseases

Fever, inflammation or catarrh—impure or poisoned blood—usually indicate a germ attack.

In nervous debility Liquozone acts as a vitalizer, accomplishing remarkable results.

50c. Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and will pay the druggist ourselves for it. This is our free gift, made to convince you; to let the product itself show you what it can do. In justice to yourself, please accept it today, for it places you under no obligations whatever.

Liquozone costs 50c. and $1.

CUT OUT THIS COUPON

Fill it out and mail it to The Liquozone Company, 458-464 Wabash Ave., Chicago.

My disease is.....

I have never tried Liquozone, but if you will supply me a 50c bottle free I will take it.

Note that this offer applies to new users only.

Any physician or hospital not yet using Liquozone will be gladly supplied for a test.

SAMUEL COOPER BADLY HURT

Run over and Legs Crushed by Car at Bay Shore

LEG AMPUTATED IN THE HOSPITAL

Fell Between Cars Sunday Afternoon While at Work, and Wheel Passed Over Both Legs—Accident Caused Many Expressions of Regret.

Samuel J. Cooper, of 382 Main street, North End, a C. P. R. brakeman and for some years bookkeeper in the Victoria Hotel, King street, was fearfully injured yesterday afternoon in the Bay Shore yard, a box car passing over his legs, necessitating the amputation of one.

About 2 o'clock yesterday afternoon Cooper, Geo. Green and Isaac Worden were at work in the Bay Shore yard on a string of about fifteen box cars which were being shunted, when in some manner Cooper, who was climbing up or coming down the end of a car, slipped and fell thetween the cars, the wheels passing over both legs. Willing hands picked up the badly injured man and carried him to a brakemen's shack close by and a telephone message was at once sent for the ambulance and he was taken to the hospital.

There the amputation of one leg above the knee was found necessary. Brakeman Geo. Green, who was working about fifteen cars from Cooper, says that when he saw him last before the accident he was near the top of the car but a few minutes afterwards he looked and the man was gone. He looked again and saw him on the ground outside of the rails. The train, Green says, had stopped by that time and he and others hurried to where the unfortunate man was lying. He had evidently been able to roll himself outside of the rail after having been run over. He was quite conscious when picked up and was suffering terrible pain. At a late hour last night he was reported to be in a serious condition because of shock and loss of blood. It was found that the other leg was badly broken about the ankle.

The accident has caused many expressions of regret, for the injured man has very many friends.

FORTY PEOPLE INJURED AND THREE WILL DIE

Street Cars Go Over Embankments Near Pittsburg and Were Smashed to Pieces.

Pittsburg, Pa., Feb. 24—Two street car accidents in which forty people were severely injured, three of whom will die, occurred this evening a few miles above this city on the Milvale and Etna division of the Pittsburg Railway Company. The accidents were only twenty minutes apart and resulted from a similar cause, the warm weather bringing frost from the ground causing the rails to spread. One car left the tracks near Bennet (Pa.) and went over an eighteen foot embankment, injuring thirty persons, while the second car was suddenly derailed opposite the Rising Sun Hotel, located a mile below the Bennet (Pa.), going over a 15 foot embankment and hurting ten of the seventeen occupants. That many people were not killed outright is considered miraculous as both cars were demolished as a result of the terrific compact with which they struck the tracks of the Baltimore & Ohio Railway which runs parallel below the street car tracks.

Those seriously injured:

David C. Jackson, aged 26 years, hurt internally; injuries may prove fatal.

Retta Cuppe, aged 14, badly cut and bruised; injuries internally; will probably die.

Geo. Klingensmith, aged 48, spine injured and paralysis; may die.

The others sustained serious cuts and bruises and many are suffering from shock but it is thought they will all recover.

Following the accidents many physicians were summoned from all directions and the ambulances from the Allegheny General Hospital were quickly on the scene. Injured men, women and children were taken to nearby houses and to the Rising Sun Hotel and their injuries dressed. Some of the more slightly hurt were able to walk to their homes nearby.

THE COPPER SITUATION

Evidences of a Strong Market Continue to Multiply.

(Walker's Copper Letter in Boston Commercial.)

The copper market is more active. Lake and electrolytic are quoted all the way from 18 cents to 18 3-4 cents per pound. A sale of 500,000 pounds of electrolytic at 18 cents is reported, and on almost equally good authority the information is obtained that the Calumet & Hecla Company has within a week sold a large lot of copper for May and June delivery at 18 3-4 cents per pound. It can be stated positively that the four largest interests in the trade believe that the present level of prices will be maintained. They have practically no copper that they can sell for immediate delivery, and their asking prices for April, May and June contracts vary from 18 1-2 to 18 3-4 cents.

The sale of electrolytic at 18 cents per pound is understood to have been the result of nervousness caused by the rather sharp decline in security prices early this week. In view of this reaction on the stock exchange, the firmer tone of the London market for "G. M. B." copper was generally remarked.. The explanation is found in the fact that foreign visible supplies of copper have dropped to an unprecedentedly low level. The situation was such as to frighten the short interest, and when the liquidation in the stock market failed to bring new offerings of metal, the shrewdest of the traders in "G. M. B." hastened to cover their short contracts.

The export movement in copper now promises to be larger this month than it was in either January or December. Foreign consumers who had large stocks on hand a year ago are now bare of supplies. Business is good in Great Britain and Europe as well as in the United States, and there is every reason for the belief that as much copper will be consumed this year as last, notwithstanding the higher level of prices.

The fact that copper wire cannot be purchased in quantity at the present time for delivery at an earlier date than late July or early August is proof positive that consumers of copper are taking no speculative chances in the future. Wire drawers apparently do not buy copper until they require it to complete new contracts, but notwithstanding this extremely conservative policy they are operating on a larger scale than ever before. While the metal market remains on such an unprecedentedly sound basis, as is thus indicated, producing interests need have no fears concerning their future operating profits.

TRADE ENQUIRIES

During February the Chambre de Commerce, Montreal, received the following trade enquiries:—

207——An important firm in Bordeaux asks for a representative on the Canadian market to sell good wines.

208—A French house exporting wines and spirits, desires a representative in Canada.

209—A firm in Matha, near Cognac, desires to be put in touch with Canadian importers of wines and spirits.

210—A firm in Tain (Drome) exporting high French wines, desires to be put in touch with Canadian buyers.

211—A good firm, near Epernay, France, wants an active representative in all the provinces of the Dominion, to sell champagne wines.

212—A Cognac firm desires a good agent to sell in Canada good mark of brandy.

213—A cheese factory in Roquefort wants a good representative in Montreal or Toronto.

214—A French factory of olive oil in Nice desires to be put in touch with Canadian wholesale grocers.

215—A cloth manufacturer in Lisieux wishes an active agent in Canada.

216—A French factory of felt hats for gentlemen and ladies, desires a representative in this country.

217—An important Lyons manufacture of embroideries and novelties wants a representative in Canada.

218—A manufacturer of ribbons in St. Etienne, France, wishes a good agent in Montreal or Toronto.

219—A Parisian manufacturer of articles for clergymen will gladly enter into correspondence with Canadian buyers.

L. C. Prime, of Westfield, and H. W. Woods, of Welsford, were registered at the Victoria Saturday.

EVERYBODY SMOKES "OLD CHUM."

HORRIBLE BRUTALITY OF RUSSIAN POLICE

Young Girl Tortured in Unhuman Manner After Shooting an Official —Now in Hospital in Terrible Condition.

St. Petersburg, Feb. 25—Great wrath has been aroused in Liberal circles by the publication of a letter from Mlle Spirdonova, the 17 year old girl who shot M. Luzhenoffsky, chief of the secret police, at Tamboff, in which she describes the indignities and brutalities to which she was subjected. On account of her youth and her self-sacrifice in executing the sentence against M. Luzhenoffsky, who was detested on account of his cruelty in suppressing the peasant disorders, she has been made one of the heroines of the revolution and is called a second Charlotte Corday.

The letter says that after the shooting of Luzrenoffsky whose bodyguard of Cossacks did not save him from five well aimed bullets, Mlle. Spiridonova was knocked down and beaten with whips of the Cossacks and rifle butts. She was then dragged by her hair down stairs to a sleigh by the enraged Cossacks, taken to the police station, undressed and thrust into a damp, cold cell, where she was subjected to eleven hours torment in order to force her to reveal the names of her accomplices. The girl says that two officers took brutal pleasure in kicking her back and forth across her cell, tearing her hair, burning her flesh with their cigarettes and threatening her with abandonment to the Cossacks unless she confessed.

Mlle. Spiridonova is now in a hospital in a serious condition. Her skull is fractured in two places, one eye is injured and her body is a mass of bruises from head to foot.

The newspapers demand the instant trial and punishment of the two officers whose names are given; but the vengeance of the revolutionists will probably anticipate official action. The Russ also condemns the organization, "which sent this child on such a mission."

A GUARANTEED CURE FOR PILES.

Itching, Blind, Bleeding, Protruding Piles. Druggists are authorized to refund money if PAZO OINTMENT fails to cure in 6 to 14 days. 50c.

BACHE'S LETTER

NEW YORK, Feb. 23—Dear Sir:—The market during the past week has shown no pronounced tendency either way, and, as is usually the case before a holiday, the trading was considerably restricted. Developments recently have been rather bearish, but the week closes with a better feeling in evidence. The Moroccan situation has reached an acute stage. France, feeling confident of English support, refuses further concessions, and European advices would seem to indicate the failure of the Algeciras conference. The result has been a curtailment of speculation and an uneasy feeling in financil circles abroad.

The bearish factors in our own situation are the possibility of a coal strike and the outlook for money. President Mitchell, of the United Mine Workers, has already spoken of a strike as probable. The hopeful factor against a strike is the strong fight being made by a Pittsburg group of miners under the lead of President Dolan. There can be no question of the prosperous condition of the industry and of the miners. A careful survey of labor movements demonstrates that strikes in a vast majority of cases occur only after the crest of an industrial boom is passed. It is safe to say that were the agreement not in existence there would be no strike at this time, but the termination of the agreement brings the matter to a head on April 1, and until definitely settled this cannot but be an unsettling influence on prices.

The stiffening in money rates is due almost entirely to the heavy output of the new securities. Since the first of the year the total amount of stocks and bonds issued or announced to be issued in the near future aggregates $587,000,000, without considering very many smaller industrial and municipal issues. Most of the issues are syndicated, and hence the increased demand for money. The total includes $127,000,000 stocks and $460,000,000 bonds, but 33 per cent of the bond issues are for refunding purposes, excluding the municipal issues. Of the stock issues $27,000,000 will be used for refunding purposes or for the acquisition of securities now on the market. It must be remembered, too, that the payments in several cases are extended over a considerable period of time, and hence will not fall on the money market now. Further, large blocks of these securities will be placed abroad, and the payment coming at a time when we are marketing our crops will probably accelerate the spring movement of gold to this country.

The favorable factors in the situation are that speculation has as yet not been excessive and that trade conditions are excellent, with the exception of certain branches in winter goods. The splendid weather over the entire country means millions added to the net earnings of the railroads. It has kept the steel trade particularly active in the structural department, which usually wanes during the winter months. In spite of favorable conditions orders on the books of the leading steel companies show no decrease. In consequence of these influences we will probably have an irregular market in the immediate future with higher prices later on, should none of the unfavorable developments culminate in hostilities whether between France and Germany or the coal operators and their employees.

Yours truly,

J. S. BACHE & CO.

George Cobb, of Montreal, is registered at the Royal Hotel.

PARIS DEMONSTRATION AGAINST LOUBET

Crowds Marched to His Residence Uttering Insulting Remarks—Blamed Him for Church Troubles.

Paris, Feb. 24—The famous cathedral of Notre-Dame was the centre of much excitement today, which later took the form of a disorderly manifestation against Former President Loubet. Crowds assembled in the Place Notre Dame, expecting the authorities to come and take an inventory of the Chapter House, and a force of 150 policemen patrolled the surrounding streets expecting trouble within the edifice; but as the authorities did not attempt an inventory this did not take place.

The crowds outside gradually increased in numbers, however, and finally several hundred persons marched to the Rue Dante, where M. Loubet has taken up his residence. The manifestants passed before the house of the former president uttering insulting cries against him. A slight affray took place between the police and the manifestants and a dozen arrests were made.

The explanation of the movement against M. Loubet is that the separation of church and state became a law during his administration. Inventories were made at several parish churches today and ten arrests were made, General Recamier being among those taken into custody.

OBITUARY

Miss Annie McClosky.

Miss Annie McCloskey, formerly a resident of the North End, died at her home, 853 Amsterdam avenue, New York, Friday. The body will be brought here for burial, arriving tomorrow, on which day the funeral will be held at 2.30 p. m.

THE ANAEMIC YOUNG GIRL

Easily Noticed by Her Blanched Cheeks, Bloodless Lips, and Dull Eyes.

Perhaps she is sixteen. Suddenly she seems to lose strength. Her beauty fades because her vitality is steadily decreasing. Dark circles appear under the eyes which become lustreless and dull. Her spirits droop, for no girl can be contented and happy in such a condition.

This may be quickly corrected by taking Ferrozone. It supplies what is lacking in the blood, purifies and strengthens it, and keeps it in perfect order. Ferrozone makes plenty of red blood corpuscles that manifest themselves in a healthy ruddy complexion. It aids the stomach to do its work, and creates a natural healthy relish for food.

Every organ of the body is benefited by Ferrozone. It rebuilds the entire system, makes new tissue, strengthens weak flabby muscles, makes thin people fat and sick people well.

No case of Anaemia is too chronic for Ferrozone. It may take time, but if persistently used will cure in the end. It will give you a well developed form, clear complexion, pure breath and will restore the bloom to faded cheeks and color to the lips more quickly than any other remedy.

Every woman who desires a vigorous constitution, and the good looks that come with good health, should take Ferrozone after each meal regularly. It is a wonderful tonic for the brain, the nerves and the blood, and acts also as an efficient but harmless regulator of the menstrual flow. In fact for all diseases peculiar to women and growing girls, Ferrozone has no equal as your druggist can tell you.

Three weeks treatment costs 50c., or six boxes for $2.50. Sold by druggists and dealers in medicine everywhere, or sent by mail if price is forwarded to N. C. Polson & Co., Kingston, Ont., and Hartford, Con., U. S. A.
