LOCAL NEWS

Miss E. W. Dunbrack was a passenger on the Boston express for Cambridge, Mass on a visit and will return in two months.

At the quarterly meeting of St. Andrew's Society last night two members were elected. All those present resolved themselves into a committee to call on the other members and solicit subscriptions for the proposed Burns monument at Fredericton.

The attention of members of the medical profession in the city and vicinity is called to the meeting in the rooms of the St. John Medical Society this afternoon at 5 o'clock in reference to the death of Dr. Charles Holden. The notice will be found in another column.

Rev. Egerton Ryerson Young, D. D., will reach the city from Digby, N. S., by steamer, tomorrow evening, and will be found while here at Exmouth street Methodist parsonage. Dr. Young will preach in Exmouth street pulpit Sunday morning and in Portland street in the evening. At these services, so far as known, will be found the only chances to hear the Doctor preach during this visit.

A most delightful and successful concert was held in St. Mary's church last night under the auspices of the ladies' guild. The programme consisted of vocal and instrumental solos and duets, club swinging and banjo selections. The following took part: Mrs. S. Willis, Misses Willis, Sproul, E. Belyea, R. Elderkin, Essington, Paterson, Evans, R. Stephens, Bevel, Rev. A. G. H. Dicker, J. J. English, Bond brothers, John T. Kelly, O. Duncan and Mr. DeVenne.

MARINE NOTES

The old Yarmouth, N. S., ship Vanduara from Philadelphia for Buenos Ayres, has been towed into Rio Janiero, in distress and damaged, no further particulars.

Word came from Montreal stating that the Allan steamship Bavarian, ashore on the rocks near Grosse Isle, in the River St. Lawrence, has been surrendered to the underwriters, which probably means that she will be sold and be broken up.

The St. John bark, Low Wood, now at Boston, has been sold to Captain Rodenheiser, of Bridgewater, N. S. The bark is now in dry dock at Boston being recalked and metaled. She will be reclassed. The Low Wood has been tied up at Boston for more than a year, and her wharfage charges amounted to nearly her value.

An order for a ten thousand ton steamer to replace the Bavarian on the Montreal-Liverpool service has been placed in Glasgow by the Allan line. This was verified at the office of Messrs. H. & A. Allan, where it was also said that the new steamer will not be a turbine vessel. Her speed is to be fifteen knots, while the speed of the turbine vessels is seventeen knots. It was explained that what is desired is a useful type of boat of large carrying capacity, both passenger and cargo, a boat which can fulfil the requirements of the Government in regard to handling the mails, and at the same time prove an economical steamer. From the experiments already made, impression has gained ground that the turbine is economical only as a high speed vessel, while at anything less than seventeen knots it does not compare at all favorably with the ordinary type of ocean ferry. Opinion in the Allan office is that vessels of the Bavarian and Tunisian type are the most useful for the St. Lawrence route as well as the winter service to St. John and Halifax.—Montreal Gazette.

HORSE STATISTICS

(Boston Transcript.)

The horse is always about to be, but never is, put out of business. On the appearance of every new agency of transportation the announcement is solemnly made that the horse, after passing through an era of decreasing prices, will cease and determine. It was so when the railroads began to gain headway; when bicycles came into use, when the electric cars commenced to buzz along the highways, when the auto developed into something more than a curiosity; and yet the horse is still with us and more valuable than ever. Statistics submitted to the House of Representatives, in connection with the agricultural appropriation bill, show that there has been a notable increase both in the number and value of horses in the United States in the last nine years. The aggregate of horses Jan. 1, 1906, stood at 18,718,578 against 14,364,667 at the corresponding date of 1897. Their total value increased from $452,649,396 in 1897 to $1,510,889,906.

This startling rate of increase in value is no more marked than that of mules, according to the same government authorities. There were 2,215,654 mules in 1897 and 3,404,061 in 1906, and the values were respectively $92,302,090 and $334,680,520. If these figures are trustworthy there must have been some improvement in quality as well as noteworthy increase in numbers in the nine years, to account for all the difference. Accuracy in numbers is more easily attainable than accuracy in valuation. An enumeration is not a difficult task, whether it deals with human beings or valuable animals, but the ascertainment of individual wealth, or the valuation of property, is a process fraught with difficulties.

SACKVILLE

SACKVILLE, May 2—A wedding of much interest to Sackville people took place Monday evening, at eight o'clock, at St. Ann's Church, West Sackville, when Timothy-Richardson, of Wood Point, and Miss Emma Siddall, of Sackville, were united by Rev. C. F. Wiggins. A becoming travelling suit of of fawn cloth, with hat to match, formed the bridal costume. There were no attendants, and the ceremony was performed in the presence of the immediate relatives and friends of the contracting parties. Frank Siddall, her father, gave the bride away.

The death of Mrs. Joseph Bulmer, of Sackville, occurred very suddenly at her home, after a short illness of pneumonia. The deceased lady, who was held in the highest esteem by all who knew her, was in her fiftieth year. Besides her husband, she is survived by one brother, Capt. E. Chase, of this town. The funeral will take place this afternoon.

Mrs. David G. Dixon, of this town, left Friday for Halifax, whence she will sail for England, where she will spend several months visiting relatives.

Mr. Alexander Ford, Sr., was ordained an elder of the Presbyterian Church, on Sunday evening.

The Literary Society of Middle Sackville held its closing meeting on Friday evening, at the Baptist parsonage.

At a recent meeting of the Lawn Tennis Club of Sackville, the following officers were elected: President, H. M. Wood; vice-president, F. G. Rainnie; secretary-treasurer, Raleigh Trites.

The engagement is announced of Edna Frances Baker, daughter of Chas. E. Baker, Fort Lawrence, to Edward Harris, of Grand Pre. The marriage will take place in June.

TWO BAD SIGNS

Overdoing in Real Estate Speculation---The Gold Mine Promoting Furore.

(John H. Davis & Co., New York.)

There are two phases of the present business situation which are likely to cause trouble and widespread losses. One is the furore which has existed for months, for speculation as well as investment in suburban lots. Never before has there been such a scramble, on the part of promoters, for tracts which can be subdivided and offered under most flattering descriptions as the very cream of residence sites. Whether located under a gentle knoll, a ledge of rock or in a swamp appears to make little difference in the highly-wrought descriptions and illustrations occupying expensive space in the Sunday newspapers. The greatest activity in the vicinity of New York has been in the Bronx and on Long Island, but the whole country from Boston to Seattle appears to have had the fever. Now, the increase in population and wealth makes a large legitimate demand for home sites, but the thing is being dangerously overdone and there will probably be a serious reaction before the majority of the eager purchasers have realized the 50, 75 or 100 per cent advance which they have been led to expect. To show that this is no fanciful criticism or warning, we quote from a recent comment upon the money situation credited to the president of the Chase National Bank: "The high rates for money are not the result of a currency shortage nor the curtailment of credit. It is over trading speculation, not so much Wall street as other forms of speculation, notably real estate. There is a real estate boom on from Montauk Point to Los Angeles and prices are very high indeed; so much so that savings banks and other institutions that loan upon real estate cannot lend nearly so much as these speculators require. As a result, they are borrowing from discount banks to margin their purchases upon such collateral as they may have, but they are using their business credit in such speculations. Their credit is very much extended and the demands upon discount banks proportionately increased."

The other danger signal is found in the flaming and extensive advertisements of new gold mining companies in Nevada which largely fill the newspapers with their glowing predictions of fabulous profits to be quickly realized by purchase of shares, all the way from 25 cents to $5 per share. That great gold strikes have been developed in regions until lately considered worthless is undoubtedly true. That there are many reputable promoters and companies is doubtless equally true, but upon this foundation of fact has been built up such a stupendous structure of reckless and alluring prediction that it augers ill for thousands who will be carried away with hope and to the investment of sums which they can ill afford to lose. That the promoting business in this line is profitable—as yet—is evidenced by the continued lavish expenditure for full page or half page advertisements of (sometimes) dozens of new projects in a week. Some day a good many people will be sorry they were so trustful.

EMPLOYES OF ANOTHER MONTREAL COTTON MILL GO ON STRIKE

Montreal, May 3.—(Special)—A procession of striking employes of the Dominion Textile Company's Hochelaga mills, marched past St. Ann's mills today and succeeded in enlisting the sympathy of the employes at the latter mill to so high a pitch that enough of them forthwith quit work to make it necessary to close down.

There are now 1,100 hands out from the two mills. The differences were not settled today but both sides seem hopeful.

Miss Kitty Crockett, of Danville (Que.), is visiting her aunt, Mrs. W. S. Clawson, 54 Stanley street.

Rev. R. G. Fulton, of Hampton, returned yesterday from Providence (R. I.), where he was summoned by the illness of his sister, Mrs. Charles Kingston. Her health is improving.

Twenty-five years ago it was difficult to sell spring wheat flour for pastry at any price.

People didn't want it—they were using soft, winter wheat flour, and saw no reason for changing.

But hard wheat flour was persistently pushed and prejudice has been overcome. The women tried it, succeeded with it and appreciated it.—To-day hard wheat flour is the favorite for pastry as well as for bread.

The flour that is doing the most for the reputation of hard wheat flour is the brand known as

Ogilvie's Royal Household

It is hard wheat flour at its best—milled by modern methods, retaining all of the good of the wheat and none of the bad—it is without an equal for every kind of baking in which flour is used.

Talk to your grocer about it—if he isn't enthusiastic it's only because he isn't informed.
