Every lady is interested in silks, and when one can buy them at nearly half their usual price, when silks are so popular as they are now, it is enough to make one feel in a hurry. F. A. Dykeman & Co. have secured a large lot of these silks at a big discount, and are now offering them for sale.

Snow and Barbour, the engineers who prepared the plans for the water extension here, have been awarded the contract for installing a sewerage system in Milford, Mass. The system will, it is estimated, cost from $250,000 to $300,000. The engineers will receive ten per cent of the total cost.

A quick clearance of sample shirtwaists —lawn, silk and lustre,—also a sale of summer underskirts, will commence at M. R. A's in the morning at 8 o'clock. The goods are first class in every particular, and as the advt. tonight indicates, there will be lots of bargains. Only 750 shirtwaists, and less than 200 skirts. So be early.

ANOTHER POSITION

Frank J. Casey, who has been appointed excise officer, in H. M. Customs, received his commercial training at the Currie Business University, Ltd., and was placed in a good position by its Employment Bureau. This is but another example of the certain promotion of all certified students from this school.

WALL STREET

NEW YORK, April 26—The opening dealings in the stock market today showed irregular price movements. Some of the international issues were benefitted sympathetically by advance in London but others showed declines. Reading rose 3-4 and then reacted and Great Northern pfd. rose a point. Consolidated Gas opened up ½ but fell back to a point under last night. Erie second pfd. declined 1¼, National Biscuit 1 and Northern Pacific ¾. The market opened irregular.

SOUNDS NOTE OF WARNING

Well Known Maritime Province Man is Not Carried Away With Cobalt.

(Montreal Herald.)

Mr. R. G. Leckie, the well-known mine owner of Sudbury, Ont., sounds a note of warning with regard to Cobalt, and sounds it loud and clear.

Mr. Leckie has come east on business which brings him in contact with the authorities at Ottawa and financiers here.

In an interview with the Herald at the Windsor he described the wild rush to Cobalt as the very acme of human folly. "There is nothing to justify it," said he. "Nothing at all. The whole thing is a bubble, a dream, a chimera."

"I have been over the cuttings there many times—you cannot call them mines for there is nothing to justify the term, excepting perhaps the La Rose, which has a shaft sunk ninety feet. Even there the proof is entirely wanting that the veins of silver and nickel ore run deeper than 100 feet.

As for the others the veins that are being worked are only a few feet from the surface, and there is no evidence of anything deeper. On the contrary the evidence so far as it can be read in the formation of the strata points the other way. There is no development being done and no proof that anything is in the ground to warrant it.

"I simply want to caution the people against rushing there upon the exaggerated reports of boomsters and speculators. I am of opinion that the reported fabulous wealth of that district will turn out to be a myth; that the people who go there and have money to lose will lose it.

"I can assure you the Cobalt boom is likely to be brief. Unless I am greatly mistaken the experience of this summer will be sufficient to exhaust the faith and enthusiasm of all except a few who may plod away and pick up a little here and there after the majority have retired despondent and disappointed."

So far as Sudbury is concerned Mr. Leckie presents a picture of an entirely different kind. The fruits of years of patient labor are now, he says, being gathered. The International Company's smelter is now treating 800 tons of ore a day which in the form of matte are being shipped to the company's refinery in New Jersey. The majority of mines in the Sudbury region dispose of their products to the International Company and the French syndicate—the Societie de Nickel, whose mines in New Caledonia are the only possible rivals of the International, and as there is a complete understanding between the two companies as to the quantity to be put on the market each year there is no probability of a disturbance of prices.

"There are," said Mr. Leckie, "several new activities breaking out in the Sudbury region. Perhaps the most important is the commencement of a Mackenzie and Mann venture which is understod to have big American capitalists behind it.

This American company is undertaking the working of enormous deposits of magnetic iron ore which are believed to be practically inexhaustible. The mine is to be connected with the Mackenzie and Mann James Bay Railway by a branch line which will only be a few miles in length.

The mining experts who have been over the country made the most thorough tests, and are satisfied that the ore is of such a character that it can be produced and treated there by the ordinary processes and yield substantial profit.

Mr. Leckie says that the Nickel Company, which consists of a syndicate of English capitalists, at whose head is Dr. Ludwig Mond, is now smelting about 300 tons of ore a day by the Mond process. The matte is being shipped to England direct.

ATHLETIC

Intercollegiate Sports June 2.

Mount Allison, with other colleges, has agreed to June 2 as the date of the intercollegate sports. Halifax is the place agreed upon.

Oplympic Games.

Athens, April 25—The international sports today were conducted under ideal weather conditions. The 100 metres swimming race developed a brilliant contest. C. M. Daniels, New York A. C., showed consummate generalship, setting a furious pace until his followers were fagged out, when he slowed down and won in his own good time of one minute, 13 seconds. Helmay, Hungarian, second and Derbyshire, England finished in the order named.

The fencing finals at the gymnastic hall were well contested. The Italian Pezzarino retired and the Frenchman Dillonkavan was awarded first place, Mirden second.

This afternoon the Stadium was crowded with spectators, the attendance being estimated at 68,000. The greatest excitement attended the running races, in which the Americans highly distinguished themselves. The three preliminary heats of the 100 metre race were won by Americans, while the semi-finals in all three heats were carried off by them. The finals will be run tomorrow.

The 300 metre race was won by the Americans, James G. Lightboy, Chicago University, who won the first heat, and Charles J. Bacon, Irish American A. C., who was second in the same heat, ran consummately as also did Lieut. Wyndham Halswelle, England, who was second in the second heat. The fourth heat was won by P. H. Pilgrim, N. Y. A. C., Ray C. Ewry, N. Y. A. C., won the standing long jump, distance three metres, 30 centimetres.

The five mile race, the great event of the day, was won easily by Lieut Hawtrey, English. Time, 26 minutes 11 4-5 seconds. He finished with a lap to spare over a Swedish competitor whose time was 26 minutes 26 1-5 seconds.

DISHONESTY IN NEW MINING TOWN

Quantity of Silver Ore Stolen from Its Owner in Cobalt.

COBALT, Ont. April 25—(Special)A shack on one of the back streets was raided yesterday and over half a hundred weight of solid silver, which had been stolen from the mine owners, was discovered. As a result a man named Silverman is in custody, charged with retaining ore in his possession knowing that it was stolen.

SPORTING

BASEBALL

"PLAY BALL."

"Play ball!" The old cry echoes o'er the peaceful vale of Cheery Creek, and from the bleachers comes a roar as rows of rooters spring aleak! The batter grasps the willow club, the pitcher strikes an attitude, the catcher gives his hands a rub, the umpire stands with keen eyes glued upon the play; the ball has gone, and once again the season's on!

Way up the telegraph pole the eager small boy perches high, and in the fence each knotty hole—and there are many—frames an eye. The score-card merchant's voice rings out, the voice through all the winter dumb, the peanut venders loudly shout, the kid proclaims his chewing gum, and that same cushion man is there to save our pantalettes from wear.

The knocker with his noisy knock, the kicker with his mulish kick, the talker with his bally talk, upon the seats as flies are thick. The ladies in their smart attire, enthusiasm in their eyes, are there in bevies to admire and laud the players to the skies, and spank their dainty hands when one of handsome figure makes a run.

The old excuses are now fed to bosses from employe's lip. The grandma on her dying bed, the wife at home down with la grippe. That dying grandma will be spied beside her grandson sitting there, the sick wife by her husband's side, and how those frauds will blush and stare to catch their old employer's eyes lit up with half-amused surprise.

The game is on, the season's here, the stricken ball cuts through the air, the batters fan the atmosphere, the runners round the bases tear, the umpire calls the strikes and balls, puts runners out when they are in, nor heeds the rooters' angry squalls that they will kill him sure as sin! The season's here, the same old muss, and on the seats same old us.

National League.

Boston, April 25—Two muffs by Brooklyn in the ninth gave Boston the game, 3 to 2. Lumley's hitting was the feature. Score: Boston, 3; Brooklyn, 2. Batteries—Young and Tenney; McIntyre and Bergan.
At New York—New York, 9; Philadelphia, 7.
At Cincinnati—St. Louis, 5; Cincinnati, 3.
At Chicago—Chicago, 3; Pittsburg, 4.

American League.

Philadelphia, April 25—The champions hit Pitcher Young seven times in two innings today, scoring five runs. Boston failed to score. Attendance 3,089. Score: Philadelphia, 5; Boston, 0. Batteries—Gibson, Young and Peterson; Waddell and Schreck.
At Washington—Washington, 7; New York, 2.
At Detroit—Detroit, 2; Cleveland, 2—eight innings, darkness.
At St. Louis—St. Louis, 4; Chicago, 2.

THE RING

WASTE OF STRENGTH.

NEW YORK, April 24—Tommy Sullivan of Lawrence, Mass., pounded Joe Grim of Philadelphia about the ring at the Navarre Athletic Club in American Theatre Hall last night for four rounds, at the end of which the Italian appeared to be fresher than when he started. Sullivan let loose every blow in his repertoire, but the Lawrence fighter landed wallops on his opponent's jaw that would have killed an ordinary man, but the human punching-bag never flinched and always came back for more.

Grim landed about two blows during the entire four rounds, and each of these was so low that the referee had to caution him. When the bell rang at the end of the last round Grim turned a summersault in the middle of the ring.

THE "FITZ"-RUHLIN TALK.

New York Mail: The Gus Rhulin-Bob Fitzsimmons fight talk has subsided. For which relief much thanks. But they made a big stir, didn't they? The impudence of these fresh young scrappers is amazing. They seem to have a penchant for getting in the limelight.

So long as John L. Sullivan, Charley Mitchell, Jake Kilrain, Col. Bill Clark, "the Belfast Chicken," Ike Weir and a half dozen other mantlings of sixties are alive, what right have these youngsters to be occupying the public eye and attention?

Seriously though, it's not likely Gus Rhulin and Lanky Bob could draw a crowd of newsboys and bootblacks if they fought in an alley. Still they might put it on in Philadelphia, where they fall for about anything in the bunk line, assisted, of course, by a flock of eager come-ons who are ever ready to leave Broadway.

Six Months in "2 in 1."

A Consulting Chemist Makes a Novel Experiment. An Unsolicited Letter that Explains Itself.

"I write to state that on account of your "2 in 1" Shoe Polish being criticised, and the charge made that it injured leather, I made this test as follows:

I mixed the contents of a box of "2 in 1" Shoe Polish, bought at a retail store from regular stock, with four ounces of water and into this mixture put a kid glove, and left the said glove in the mixture in a bottle from June 15th to December 15th, 1905—a full six months. I then took the glove out, washed it and examined it. The fine leather of the glove was not affected in the least. It was as pliable and soft as when new, and was not altered in condition, nor were the stitches affected in any way. This test, I consider, proves that "2 in 1" does not injure the finest leather.

I hereby state that these facts are correct and true.

J. M. WILLIAMS, Consulting Chemist, Hamilton, Dec. 15th, 1905.

A Silk Bargain

WORTH YOUR ATTENTION.

We have secured at a great discount 500 yards of pretty suit and waist silks that we propose selling at 49c. a yard, although they are worth from 75c. to $1.00.

There are fifteen patterns in the lot, in light, medium and dark, also the popular navy and white shepherd's checks.

This is without doubt THE BIGGEST SILK BARGAIN we have had to offer you for some time. They are pure silk, will not cut and are of the usual width. Enough silk for a whole suit will only cost $7.35, or enough silk for a waist will only cost $1.96. They are decidedly new patterns and can be used for any of the above purposes as well as trimmings and for children's garments.

No samples given, but samples will be mailed out of town upon request.
