DOES NOT WISH TO BE FORCED TO PAY DEBTS AT MOUTH OF CANNON

Argentine Republic is in Tantrums Because the Collection of Public Debts by Force May Become Fashionable with the Powers After The Next Hague Conference.

WASHINGTON, June 6.—Argentina is not pleased with the programme agreed upon for the third Pan-American congress to be held in Rio Janeiro in July. Although Argentina is more dissatisfied than any other South or Central American power, there are several republics which are far from pleased with the programme and sympathize with the slight which Argentina feels.

The Drago doctrine is the cause of Argentina's grievance. It was the desire of Mr. Portel, the Argentine minister, that the Drago doctrine should be one of the subjects considered at the coming congress. This doctrine, which was promulgated by the celebrated Argentine jurist, L. F. Drago, at the time of the Venezuelan blockade by Germany, Great Britain

and Italy, holds that force cannot be used by one power to collect money owed to its citizens by another power. After much discussion the committee on programme for the congress prepared the following section relating to the general subject covered by the Drago doctrine:

"A resolution recommending that the second peace conference at The Hague be requested to consider the extent to which the use of force for the collection of public debts is admissible."

This statement does not grant that the use of force is ever justified, but is not a clear statement of the subject covered by the Drago doctrine, in the opinion of a number of the countries which are to participate in the congress.

Mr. Drago, who was named by Argentina as one of its delegates to the Rio Janeiro congress, is reported to have attended and participate in the discussion of the programme as agreed upon.

Several other sections of the programme are also unsatisfactory to a number of the powers.

A BORE-PARK FOR MONCTON

MONCTON, June 6.—(Special).—Moncton is to have a park from which tourists may view the Petitcodiac river bore. An agitation for a bore park was commenced over a year ago, but some hitch occurred in the movement and the matter was dropped until the present. At last night's meeting of the city council, a resolution was passed authorizing the purchase of property for a park, the city to pay seven thousand dollars and a number of citizens the balance, amounting in all to nearly eleven thousand.

Much of the time of last night's council meeting was taken up with a vigorous discussion over the city's banking account. The Royal Bank asked for part of the account, which has been carried in the past by the Bank of Montreal. It was finally carried by a majority vote to transfer the account of the water and light department to the Royal Bank.

WALL STREET

NEW YORK, June 6.—Opening prices today were higher than last night on a moderate volume of business. Gains were small outside a few specialties. Anaconda rose 3/4, Smelter 1/4, Virginia Carolina Chemical a point, and Great Northern 1/4. Corn Products 1/4. A decline of 1/4 in United States Steel and Reading was the only notable exception to the advancing tendency. The market opened firm.

THE TIMES NEW REPORTER

AN ALDERMAN'S WOES.

An alderman complained at the police station this morning that he was being subjected to great annoyance by dogs wherever he went about the city. They would run up and sniff at his heels and then run away, or meet him at one corner and race away to meet him again at the next corner, or set up a howl when they saw him coming, or form in groups and gaze at him as he passed by, or follow him as he trudged along the street as if he were a dog himself. He observed also an expression on their faces that was very far from being respectful; in fact he was convinced they intended to annoy him. The police officer enquired if any of these dogs were collars.

The alderman replied that they did not. "Then," said the officer, "they must have learned in some way how little you aldermen know about the law concerning

dogs, when you pass resolutions asking the police to do what they have no power to do. If I were a dog I'd have some fun with you myself."

The alderman went straightway to City Hall and asked the common clerk to show him the dog-law. He will at the next meeting of the safety board move that the board recommend the appointment of a pound-keeper and a dog-catcher, and will privately add to the reward paid to these officials.

WARNING TO COTTAGERS.

An incident that occurred at the summer cottage at Renforth last evening should prove a warning to cottagers generally. The occupants of this cottage had invited some friends to spend the night with them, and when bedtime came it was found that all the beds would be occupied and there were only six blankets for each person. No extra provision had been made

Nisbet-Irons

A pretty house wedding takes place at the home of the bride's parents, 103 Main street, north end, at 8 o'clock to-night, when Miss Cora C. Irons, only daughter of Mr. and Mrs. Christie W. Irons, will become the wife of Fred J. Nisbet, of Baywater, Rev. C. W. Nichols, curate of St. Luke's, officiating.

The bride who will be unattended will wear a pretty costume of blue broadcloth with hat to correspond and will carry a bouquet of white carnations.

After the ceremony the happy couple will leave for a tour of the maritime provinces and on their return will take up their residence at 139 Main street.

The bride has been the recipient of a large number of costly wedding gifts, among them being a very handsome piano from her father.

Both bride and groom have a large circle of friends and acquaintances who will wish them every happiness in wedded life.

Isaacs-McDevitt

St. John Baptist Mission church was the scene of a quiet wedding at 7.30 this morning when Miss Lizzie McDevitt, of Petersville, was married to Michael Isaacs, son of Joseph Isaacs, and of the employ of J. V. Russell, Rev. Father Chapman, V. G. officiating.

The bride who was attended by Miss Nellie Sullivan was given away by the groom's father. Her costume was of a pretty blue material with white trimmings with picture hat to match.

AUTO AND TRAIN IN AN EXCITING RACE

Sussex Express and John Sayre's Motor Car had Speed Contest from Rothesay in.

Passengers and train hands on the Sussex express this morning were much interested in a race between the train and an automobile. The train and John Sayre's auto left Rothesay at the same time and from there to the One Mile House it was quite an exciting contest. At times the train would obtain a lead, but on hauling up for the stations the auto would catch up and lead for a while, then gradually the train would catch up and for a while they would tear along together, until the train again obtained a lead, only to lose it at the stops.

The contest, however, was pretty even and both reached the One Mile House at the same time.

BURGLARY IN THE NORTH END

Royal Bakery Branch Store Entered and Candies and Money Stolen.

The Main street branch of the Royal Bakery has been twice broken into during the present week and in each case a quantity of cash was taken from the till.

When the young lady in charge of the store returned to work yesterday morning she discovered that a quantity of copper coins that had been left in the till for change were missing, and upon further investigation found that a large iron pad that had been fastened against the back window to replace a broken pane of glass, had been displaced. The iron bars on the inner side of the casing as just far enough apart to admit a small boy.

When the store was closed last evening the blinds were left half way up to facilitate the discovery of the thief, should he return; but this had no effect; as, upon opening this morning it was discovered that not only was the pad displaced, but the till had been removed from its place in the front of the store and carried to a small room in the rear.

J. T. Quinn, of Quinn & Co., who lives over the store, heard a noise about 10.30 last night in the rear of the Royal Bakery branch, and earlier in the evening noticed a small boy distributing chocolates pretty freely. Mr. Quinn, who took several of the candies, showed them to the young lady in charge, who said they resembled those earned in the store.

A small boy in the North End is suspected. The police have the case in hand.

The question of dogs and dog taxes seems to be creating considerable comment and various remedies for the existing conditions are suggested. One of the aldermen speaking of the matter this morning, said he thought an inspector should be appointed to look after the canines and their owners. The Mayor's clerk, whose duty it is to issue the licenses suggests that the tax on female dogs be raised say to \$5 each. In this way he contends the number of dogs in the city would decrease greatly in the next year or two. In all other towns, he says, the charge for the females is double or triple that charged for males. In some of the American cities the rate is as high as \$10 each.

William Wilson, of 12 Victoria street, while working on the hoisting gear of Robert Roberts & Sons, at Long wharf, got his foot caught in the machinery and had two of his toes badly crushed. He was taken to Dr. Gilchrist's office where the injured members were amputated, after which the patient was conveyed to his home. When last heard from he was resting easily.

An intoxicated man had a narrow escape from serious injury at the Union depot this morning. He arrived on No. 9 train from Halifax and in staggering about the train shed he fell across the rails, just as the train was backing into the yard. A couple of railway employees hauled the man from almost under the wheels of the moving cars, just in time to save him. He was put on a truck and Police Officer Collins put him in the cooler for safe keeping.
