Financial and Commercial

COMMENT ON WALL STREET

J. B. Picken—Outside of the private despatches of a few grain houses, reports of top conditions although not as favorable as last year, are not alarming. We believe that the market will remain narrow and uninteresting for some little time to come.

Burnett & Co.—The majority do not see much in the market except from a trader's view point until something of a more positively favorable character develops to infuse life in speculation.

Marshall, Spader & Co—The disposition of larger interests to withhold support from the market has been quite manifest recently, and the situation has been almost entirely in the hands of professional traders, which element has accomplished quite a free market movement in the face of dividends.

CANADIAN CLEARINGS

Canadian clearings for the first five months of the year were something out of the ordinary.

There were increases all along the line, fine gains being shown by all the cities west of Montreal.

The comparative five months' showing is as follows:

	1906.	1905
Montreal	$605,462,095	$518,140,042
Toronto	483,745,802	419,560,378
Winnipeg	166,026,233	119,570,995
Ottawa	51,856,604	44,309 6 3
Halifax	36,732,713	34,448,585
Vancouver B C	44,453,323	31,118,833
Quebec	35,982,015	32,594,3 6
Hamilton	28,838,457	26,044,888
St. John, N. B.	22,5 6,218	19,863,239
London	23,031,993	19,696,180
Victoria, B. C.	16,872,173	13,792,243
Total	$1,515,537,626	$1,279,133,571

Calgary and Edmonton are not included, as they are new and no comparisons can be made.

THE PROBATION SYSTEM

What is Being Done in the State of Massachusetts --- The System Has Reached a High State of Efficiency.

(Toronto Globe.)

In response to the suggestion of a deputation representing the Prisoners' Aid Association, which waited on him some time ago, Hon. Mr. Hanna recently sent Dr. Bruce Smith, Inspector of Prisoners and Charities, to Massachusetts to investigate and report upon the probation system of that state. Dr. Smith, who returned to the city yesterday, said in conversation with a Globe reporter, that his inquiries were greatly facilitated by the fact that the probation officers of the state were in annual session at Boston while he was in that city.

The probation system as it applies in Massachusetts, where it has been tried for fifteen years and has reached a state of remarkable efficiency, embraces, Dr. Smith says, everything in the way of first minor offences against the law. In cases of theft its basic principle is restitution. The probation officers visit the cells early in the morning and interview those of the prisoners who are under arrest for the first time for minor offences. The parents or other close relatives or the friends of the prisoners are usually called in, and if after consultation an agreement is reached in theft cases that restitution will be made the terms are fixed according to the circumstances of the parties and the prisoners are allowed to go. Their names and other particulars concerning them are recorded, and they receive a card bearing the same details. Every month for one year they must report to the nearest probation officer. At the end of that time, if they have fulfilled their promises and otherwise behaved themselves, the probation period ends and they are absolutely free. Under this system probationers escape being sent to prison, to come into contact with the criminal classes, their names and their offences are not recorded in the public press, thus making them marked personages, and they have every opportunity of making a fresh start in life. If in the first year the conduct of probationers is not satisfactory they may be brought to court or their probation period extended.

"At least 55 per cent of those arrested are released by the probationers," said Dr. Smith. "The authorities of the state in giving me information regarding the system, spoke of it in terms of praise. They pointed out that today, in spite of the great increase in population, there are 2,000 less prisoners in the prisons and jails of Massachusetts than was the case when this plan was adopted fifteen years ago. In Ontario, I may say, there has been an enormous increase in the number of prisoners during the same period. The decrease in the cost of maintenance and of the general administration of justice in Massachusetts has been more than sufficient to meet the salaries of the probation officers, who are paid partly from state and partly from municipal funds." These officers are appointed by the various municipalities. The system is attracting the attention of the outside world, and there were several delegates from foreign countries at the meeting mentioned, including a judge from Stockholm, sent by the Swedish government.

The doctor is preparing an exhaustive report as to his investigations and conclusions, which will be presented to Hon. Mr. Hanna and the Prisoners' Aid Association.

BRIGHT ADDRESS ON THE METRIC SYSTEM

Prof McLennan of Toronto Spoke Before Board of Trade Yesterday Afternoon.

Professor J. C. McLennan of Toronto University delivered a very interesting and instructive address last evening in the Board of Trade rooms on the metric system of weights and measures. He explained the intricacies of the present system in use on account of the various tables of weights and measures. He referred to the evolving of the present metric system by French scientists and its subsequent adoption by that government and also by other nations. The employment of the new system, he said, would be a saving to business men in time and wages and meant dollars to the country.

The system has been in Canada since 1879, but has never been taken up. Perhaps compulsion is necessary. Its introduction into the United States is now pending, while a bill is to be introduced into the British parliament soon enforcing its use in the old country, and 335 members, half the house, have pledged themselves to support it. New Zealand has already adopted it, but waits until it is put in force in England before making it a law and the only colony backward in taking it up is Canada.

Geo. Robertson, M. P. P., moved a vote of thanks to the speaker, which was seconded by R. B. Emerson, both expressing themselves in favor of the new system.

In tendering the vote of thanks, Mr. Schofield said that he had received considerable enlightenment on the matter and could not see why the system should not appeal to all business men.

THEY ALL FAILED

Many have tried to devise a corn cure equal to Putnam's, but after fifty years nothing has come upon the market that so readily and painlessly cures corns and warts. Don't experiment, use the best, and that's Putnam's.

At a meeting of the firemen, held last evening in No. 1 Hook and Ladder Co.'s rooms, it was decided that the fire ladies who are to compete in the tournament at Fredericton on July 2nd would march from the King street east station to the train on the morning of July 2nd, leaving by the 7.45 train. Chief Kerr has decided to accompany the team and Richard Walsh was appointed captain. Training will be commenced on Tuesday next.

A very interesting service will be held in Brussels street Baptist church tomorrow morning, when the Sunday school children will present a programme of choruses, solos, recitations, etc. The Chinese department will also assist. Rev. A. B. Cohoe will address the scholars.

The Privateer baseball team wish to challenge the Young Douglas Avenues to a game of ball. An answer through this paper is requested.

Sickly and Nervous Women are greatly benefited by three wine glasses daily of

W. T. JEROME IN ST. JOHN

New York's Celebrated District Attorney Passed Through Last Night to Cape Breton.

William Travers Jerome, district attorney of New York, passed through St John last evening on the late train, en

Willaim Travers Jerome

route to Cape Breton on a fishing trip This is the second time that Mr. Jerome has been in this section of the country, as about thirty years ago he spent some days in Quaco on a vacation trip.

The enemy of graft and grafters in New York state talked interestigly of his work. He is alert and active, giving an impression of the man of force he is reputed to be. He is a fluent talker and very entertaining. While he is in the maritime provinces Mr. Jerome intends to devote his time wholly to pleasure and forget for a time the strenuous duties of his office.

He has received an invitation from Col. H. H. McLean to spend a week as his guest either at Bonny River or on the Tobique, and, if possible, he will angle for a time in these waters.

Be Done With Catarrh!

Why allow this filthy disease to poison your system? It drains your strength, ruins digestion, pollutes the breath, makes you repulsive. The one certain cure is "Catarrhozone," it cures because it destroys the cause of the disease, cures thoroughly because it goes wherever the catarrh is, cures every case because its vapor destroys the catarrh germ instantly. To get well and stay free from catarrh get Catarrhozone and use it; satisfaction guaranteed.

WEARY WILLIE WALKER

The steady development of the taste for musical comedy which of late has grown to a full sized habit among the masses who look upon the playhouse as a place where to go for their amusement finds ample exemplification in the favors which have been showered upon "Weary Willie Walker." This big musical comedy, is advertised as a clean cut exposition of animated fun condensed into rational shape for the proper interpolation of the choicest extractions from the popular song hits, and a sufficient number of musical selections to lend cohesiveness to the action of the plot. Smacks of wit and humor of laugh making quality that tells with effect. The production of "Weary Willie Walker," announced for June 21, 22 and 23, at the Opera House, will show a wholesome quantity of unique scenic and costume features, as well as the train load of extremely pretty girls of vivacious variety.

ANOTHER POSITION

O. E. McQuoid, of St. Stephen, has been selected by the employment bureau of the Currie Business University, Ltd. to fill a position on the office staff o fthe National Drug & Chemical Co.

The Cheney House, 11 King Square will be opened on June 17 and will be an up-to-date boarding house in every respect. Everything is new, the furnishing being very costly. Guests will be charged $1.00 per day but a special rate has been made for permanent boarders.

No Typhoid in Bloomfield Milk

I. David M. Lawson, of the City of Saint John, milkman, make oath and say:

1. That after an official of the board of health had taken from my place of business a can of milk which was first sealed in my presence, I learned that the same was in Dr. G. A. B. Addy's care, and desiring to have it examined in Montreal, I went to Doctor Addy, and we opened the sealed can, filled a bottle, re-sealed the can and I brought away the bottle securely corked, and delivered the same to the Dominion Express Company, addressed to "The Bacteriological Laboratory, Montreal." I received an acknowledgment of its safe arrival, and upon the sixth inst., I received a letter addressed to me, which states as follows: "The examination of the sample of milk which you sent us has been completed. A diligent search has been made by Cultural and other methods for the bacillus of typhoid fever. None was found. No typhoid, or typhoid-like organisms were found in our analysis." (Signed) Oskar KLOTZ.

2. That the identical milk that Doctor Addy and I took from the can was sent to Montreal, and no portion of same was removed from the bottle, or any added to it, and that I sent the bottle of milk just as it was taken from the can in Doctor Addy's presence, and same was not out of my custody until it was received by the Express Company.

Sworn to at the City of Saint John in the City and County of Saint John this fourteenth day of June A. D. 1906.

D. M. LAWSON.

Before me,
H. H. PICKETT,
A commissioner for taking affidavits to be read in the Supreme Court.
