

MURDEROUS MOB AWED BY TROOPS

State Militia Patrolling the Streets of Springfield, Missouri--Colored Clergymen Will Ask President to Hold Official Investigation Into Whole Shameful Affair.

SPRINGFIELD, Mo., April 16.—Quiet prevailed here today and the indications were that the race trouble was over. The presence of the troops has had the effect of bringing the people to a full realization of the situation. The last of the state militia ordered here by Governor Folk arrived early today, and six companies now patrol the streets.

With the first appearance of the soldiers last evening there came a revulsion of sentiment. Before midnight a decided reaction had set in and people began to condemn the mob that lynched the three negroes and burned their bodies. Today this feeling gained strength, especially when it became thoroughly appreciated that Mabel Edmondson, the

TO WORK N. S. GOLD AREAS

Syndicate Formed to Mine Gold in Victoria County, Cape Breton.

SYDNEY, N. S., April 16.—(Special)—A syndicate composed of A. C. Ross, M. H. H. McCurdy, C. J. Burchell, A. J. McDonald, Mayor Maddocks, F. W. Bishop, E. W. McCurdy, W. J. Griffiths, S. Ross, Reynolds Harrington, D. D. McCurdy, has been formed to work the gold areas at Middle River, Victoria county. This project resulted from a discussion at a meeting of the board of trade held a month ago, when Mayor W. J. Griffiths, a mine expert from South Africa dealt with the possibility of the existence of valuable gold reefs and deposits of the precious metal. Immediately following the meeting the syndicate was formed, and Griffiths was sent to the gold region of Middle River valley. But little trouble was found in locating the quartz which extends to a distance of about eight miles. An assay on the samples brought back determine an average result of 25dwts. to the ton.

Some of the specimens were of very high grade, and the total results far surpass the expectations of the promoters. The claim is made that this gold section will yield even larger returns than the famous Deershoof Hat. Gold was first found at Middle River 35 years ago, some nuggets and dust being panned out from the workings of these, and in the river bed. Some few years ago a group of Chinamen located at the river and made a large profit on the gold strike from the sand. A local resident for several years has made a profitable dividend for himself and family from a shaft sunk in the gold belt. Griffiths, who is an Englishman, and who is here at present, was for 15 years engaged in gold and diamond mining in South Africa.

THE TIMES NEW REPORTER

THE INTELLIGENT VOTER.

Mr. Peter Binks remarked this morning that the more he saw of some voters the more he respected imbeciles.

"I met a man this morning," said Mr. Binks, "who said he had intended to vote for one candidate, but that candidate did not ask him for his vote, and another one did. Therefore he would vote for the other one. Now that," said Mr. Binks, "reveals discrimination and discrimination doesn't it? I vote for a man because he asks me, and I don't vote for another man because he doesn't ask me. I'm a wooden man on a string. Somebody pulls the string, and I dance. Nice thing— isn't it? I have no views whatever. I don't know one man from another, till one of them asks me—and then I'm his man. That's the way to get a good city council and a
