INVESTMENT SECURITIES

Stocks That Would Yield Good Returns if Bought at Present Prices.

T. A. McIntyre & Co. who were extremely bearish for almost a year, say: "The shrinkage in security values has been so enormous during the liquidation of the past six months that it is a question if prices are not now being unduly depressed. We now feel we are passing through about the worst of the present financial and political scare, and also about the worst of the money stringency. The following is a list of good railroad and industrial stocks of tried merit, prospects for the continuance of whose dividends are still good, and which net the largest return on investments, and which we would recommend to be held strictly for investment purposes:

A LONDON VIEW OF SITUATION

Meaning of the Advance in the Bank of England's Rate--The Foreign Markets.

The London correspondent of the New York Evening Post cables as follows:

"Thursday's advance in the bank of England rate to 4 1-2 per cent. was primarily due to your market's financial position, and to knowledge that a high bank rate, in order to be effective against further American borrowings, must be imposed before the autumn commences. The rise would probably have been postponed for a fortnight, but for the fact that our own market was threatening to overwhelm the bank with bills at 4 per cent.

"Continued liquidation on your side with a check to the trade movement, is considered not only inevitable, but desirable. The financial market's aspect possibly depends on whether your executive can reassure capital.

"Although your rate of exchange on London is at present high, a sharp fall is expected in the autumn, for the reason that your genuine trade bills have not been so fully discounted by finance paper as is usual at the time. Our bank rate is not likely to go higher than the present figure, unless indications point to your taking gold from here. We are preparing for South American and Egyptian requirements of gold on the same scale as last year.

"It is remembrance of your heavy withdrawals of gold from us last autumn which more than anything else has damaged your borrowing power in Europe.

"The German situation, though, still bad enough, is being gradually improved by the process of liquidation. New York is really the storm centre of the moment, and if all markets were assured you would take no gold from here, the worst of the monetary crisis would be over.

"The Standard and the Economist agree that, whatever occurs in the immediate future, matters are shaping themselves towards easier money, as a result of the check to trade expansion imparted by the contraction in credit. The expansion which has been going on here for fifteen years has been unprecedented in magnitude; consequently, it is difficult to gauge the exact effects of the present contraction.

"Concerning stocks, it may be said unhesitatingly that it is altogether prudent for the ordinary public to commence buying. Unfortunately, the public's power to absorb securities is limited, while financiers dare not lock up resources, even in the best investments, pending the further test of the general money situation."

A GLOOMY VIEW

Edmund Randolph wired his Montreal office on Tuesday:—

"Many people degard their securities as capital in their business. At any rate they are a basis for banking credits, and also of estimating surpluses of assets over liabilities. It is estimated that since December 1, 1906, the shrinkage in values of securities listed on New York Stock Exchange alone amounts to over five billion dollars. This amount is about three times as large as the National debt of the United States, and about equals the debt of Great Britain and the United States combined. A basis of credit too great for the mind to grasp has withdrawn itself from the business of this country. The result in our opinion must be a great industrial and commercial reaction."

THE WHEAT CROP

OTTAWA, Aug. 21—Col. A. D. Davidson, president of the Saskatchewan Valley Land Company, after a tour of the Canadian West, wires that the wheat crop of the Canadian West this season will probably be ninety-seven million bushels. That of Alberta and Saskatchewan, he added, will be better than last year.

Says the Winnipeg Commercial:—"The opinions of some pessimists that the crop condition will cause duller business here is absurd. Even admitting that the yield would be less this fall, it is estimated each acre of wheat will be worth about $2 more than last year. That would mean that the total value of this year's wheat would exceed that of 1906 by say, $10,000,000. Where, then, is there room for the opinion that poor production will curtail the money circulation of the country?"

NEW SONGS AT THE NICKEL

Large crowds attended the performances at the Nickel yesterday, the change of pictures taking with everybody. They were new in subject matter and photographically perfect, introducing many novel features both for laughing quality and for dramatic interest.

Today and this evening they will be shown for the last time, for tomorrow the show is to be changed again, in keeping with the Nickel's new tri-weekly arrangement.

Miss Felix will sing Charles K. Harris' great success, I'm Trying So Hard to Forget You, and Mr. Brown is booked for Theodore Morse's latest sentimental ballad, No One Knows How Much I Miss You. Mr. Swaney, the banjoist, is also down for new selections. Last evening he regaled the large audiences with a potpourri of national anthems, etc., in excellent style.

A CHEAP PRESENT

Mrs. Greene met a friend, and in the course of conversation, remarked:

"My husband's birthday comes next week."

"Well," asked the other lady, "what gift are you choosing him?"

Mrs. Greene smiled proudly as she replied:

"I've been taking a cigar out of his case every day now for the last four months, and have a hundred now which I'll give him for a birthday present."

I'll stop your pain free. To show you first—before you spend a penny—what my Pink Pain Tablets can do, I will mail you free, a Trial Package of them—Dr. Shoop's Headache Tablets. Neuralgia, Headache, Toothache, Period pains, etc., are due alone to blood congestion. Dr. Shoop's Headache Tablets simply kill pain by coaxing away the unnatural blood pressure. That is all. Address Dr. Shoop, Racine, Wis. Sold by all druggists.

NIGHT AND MORNING.

Where the pale moon glints o'er the ocean wave
And the weeds to the dark rocks cling,
Inspired by the sea and the hour, he gave
Her a beautiful solitaire ring.

But when next day, as her train went out,
His eyes grew suddenly dim,
For he knew that beautiful ring, beyond doubt,
Would never come back to him.

At a meeting of the Board of Health yesterday, it was decided that an inspection of the river passenger boats and some of the boats plying to Nova Scotia should at once be made. It was reported that the sanitary arrangements of the steamer Brunswick were unsatisfactory, consequently the owners will be notified. Officers of the board do not make stated examinations on boats plying to this port. In future, however, more stringent measures will be taken.

ANOTHER POSITION.

Harold A. Cosman, of this city, has been selected to fill the position of assistant bookkeeper for the International Harvester Co. Mr. Cosman is a student at the Currie Business University, Ltd.

Within the next few days the balance of bargain sewing machines in M. R. A.'s. furniture department, Market square, will be cleared out at ridiculously low prices. This clearance affords the most notable opportunities in such household necessities the good housewives of lower Canada have ever had presented them. The machines are their own recommendation, and scores of people in St. John and throughout the Maritime Provinces can attest to their sterling worth. They are made by a most reputable concern, the largest in America, and embody more modern attachments and labor-saving contrivances than any other machine in the market. The prices are surprisingly low, and those who anticipate buying a machine can save from $10 to $30 by seeing this bargain lot before purchasing.

Mr. Frank W. Forster, late with L. Storch Rue Reaumur, Paris, has recently become a member of the staff of the Dunlap, Cooke Co., of Canada, Ltd., the progressive Canadian-American fur house. Mr. Forster gained his experience with such well known London and continental firms as Peter Robinson, Ltd., Regent street, London; L. Storch, of Paris; Gustave Beer, Place Vendome, Paris; Nice also with Hermann Gerson, Berlin, Germany. Besides his attainments as a designer he has acquired through his long experience in the leading fashion centres of Europe and the continent, the Parisienne styles and up-to-date methods of the leading fashion centres, and in consequence of his long residence on the continent he speaks English, French and German fluently.

THE HAPPY HALF HOUR

Comedy, dramatic and travel pictures make up the new programme which commences at The Happy Half Hour today. Bargain at a Fire Sale is the comedy picture, and those who have seen similar bargain sales in this city will enjoy it. Incidentally this picture also shows scenes in New York's east side. A Trip Through Paris, is the travel picture, and those who have heard of the show places in that city will have a chance to see some of them, including the Boulevards, Place de L' Opera, Place de La Republique and others. The dramatic picture is A Corsican's Daughter, the principal character being a seven-year-old child. This picture is one that is sure to create great interest. Napanee, the latest illustrated Indian song will be sung by Le Domino Rouge and Harry B. LeRoy.

Well-Bred Little Polly.

She never soiled her pretty clothes;
She was never known to pout,
When she was told to stay indoors
She never did go out.
If she was told to sit quite still
Upon her little chair,
You really might assure yourself
That she would sit right there.
If ugly children called her names
She merely sat and smiled;
She never quarreled back at them;
She was a well-bred child.
Of course, she never worked a bit;
She couldn't sweep or sew,
She couldn't cook nor make a bed,
For she was a doll, you know.

MAUD WALKER.

FUN.

Off with shoes and stockings,
Then in the brooklet, clear!
Oh, isn't it the mostest fun
To wade this time of year?

The Dangers of Cow's Milk

The whole country is awakened to the grave danger lurking in the Milk Supply of our large cities. Wherever milk is used that has not been properly safeguarded from the cow to the consumer, the infant mortality will always be high. After five years' investigation, the British Royal Commission on Tuberculosis confirms the theory of von Behring, that the tuberculosis of cows is a constant menace to the human race, and that consumption developed in later life has often been contracted in infancy, from tuberculous milk.

NESTLE'S FOOD

does not require the addition of milk in preparing it for use as it is a complete diet in itself. The basis of Nestle's Food is cow's milk, so treated and modified that it will be easily digested and will resemble mother's milk in its composition, as closely as possible. The milk supplied to the Nestle's Factories is collected under the most rigid precautions, from cows that are under the constant supervision of the Company's Veterinarians. Furthermore, the process of manufacture completely sterilizes the milk. This is fully set forth in our pamphlet, "Recent Work in Infant Feeding" A copy of this, with samples of "Nestle's Food," we will be glad to send free by mail.

Don't Put Off!

Procrastination is the Thief of Time . . . . . .

Many young men are earning only $6 or $8 per week now, who, if they had enrolled when they first thought of it, would have been earning $15 to $50 for the past several years.

One man who enrolled on the 8th of this month, thought of doing so ten years ago.

He has been earning $1.00 to to $1.25 per day, and only part time.

If he had enrolled when he first thought of doing so, he would have been earning $15 to $25 for the past several years.

It is no sign of a GREAT MAN to be able to put off.

Get to work!

Everything is easy to the man who knows how. The International Correspondence School's method of instruction is the easiest in the world.
