FINANCIAL and COMMERCIAL

MORE CHEERFUL FEELING IN WALL STREET THIS WEEK

Review of Situation---Both Stocks and Sentiment Undergo Improvement--Measures Taken to Aid Money and Bonds Effective.

(New York Journal of Commerce.)

The stock market enters September with an enthusiasm that may or may not be justified by whatever changes have taken place in fundamental conditions. Several developments last week contributed to improve sentiment and price, and the unfavorable influence that arose was regarded as of minor importance. Since money lies at the root of the stock market, the decided relaxation of tension was calculated to dilute the gloom of the financial district. The demoralized state of the bond market, which is intertwined with stocks to a degree not always recognized by the laymen had also seriously depressed stocks and the better feeling that had been inspired in bond circles by the prospect of the removal of the New York City deadlock has naturally been signalized by greater interest in securities. The monetary stringency was lessened, first, by the Bank of England, which lent freely; and, second, by the Secretary of the United States Treasury, who formulated a novel plan for aiding the banks of this country to handle the crops. His plan for paying out an unfixed sum week by week as and where occasion may demand has universally commended itself, and the moral effect has been very great. As one banker expressed it: "The knowledge that every week we will receive some help from the Treasury allays alarm and encourages us all to hope that no serious trouble will be permitted to break out. Secretary Cortelyou has arrogated to himself amazing discretionary powers—he can practically use the public money as he deems fit—and he will feel that the responsibility of preventing a crisis rests almost entirely with him, provided always no wild speculation occurs in Wall street." During the week discount rates abroad and at home weakened, and foreign exchange declined 3-4c on the receipt of new cotton and grain bills, together with additional finance bills drawn since London became calmer. Thus the danger of gold exports has been removed, leaving the Secretary free to pay out Treasury money without fear that it will be sent to Europe. A steady, uneventful stock and exchange market is now desired pending the movement of the new crops; the corner may be turned within two months, by which time we will be in a better position to levy upon Europe with impunity. The underlying reason for the greater cheerfulness—or, more accurately, for the mitigation of pessimism—in the bond market is well known; all acounts agree that the $40,000,000 4 1-2s offered by the city will be taken either in the regular way or by an influential syndicate of bankers, and though no definite confirmation of any such arrangement can be obtained, there is no reason to anticipate even a partial failure of the sale. Politics did not obtrude during the week to the disturbance of securities; the most significant incident was a pointed intimation by Speaker Cannon that Republicans are alive to the vital necessity of doing nothing that would unecessarily disturb business prosperity.

A NEW INDUSTRY

Richard D. Isaacs Has a Plan to Erect Large Car Works Here---Submits it to City Council.

Yesterday the common council received through Richard D. Isaacs, managing director of the Northwestern Lands and Investment Company, an offer backed by outside capitalists to erect a car works in this city with a preliminary capital of $25,000, to be increased to $1,000,000, and with a guarantee to employ 300 men in return for a free site and tax exemption for twenty years. The matter was referred to a joint committee of the treasury and safety boards.

Mr. Isaacs, in talking of the matter, said that all those interested, with but one exception, were outside capitalists. The one St. John man had $10,000 invested. C. K. Hamilton, of New York, is also among the number.

A number of sites have been looked at, but the most suitable was on the Marsh Creek property now under lease to the Horticultural Association. It is situated at the foot of the hill leading to Rockwood Park.

INVESTMENT BUYING

It Is on a Restricted Scale, But Cheerful Tone Prevails in London.

LONDON, Sept. 4—Settlement last week was concluded with the utmost ease. On account of covering it was a far more satisfactory period for bills than any of its immediate predecessors. The changes generally were in favor of holders. Business during the early part of last week was more lively than it has been for a long time past, but the reaction which marked the latter half of the week was to indicate that the bulls had not run up prices unduly in the hope of the public coming in later. In fact, though investment buying has been begun, it is on a very restricted scale, and is not commensurate with the rise in prices. However, a very cheerful tone prevails in Capel court, especially by contrast with the previous depression. This is partly due to Mr. Cortelyou's move in depositing money with banks which has to some extent relieved the fears of serious monetary stringency in America, and, as the Statist puts it, "So far as the London market is concerned, it seems reasonable to hope that New York banks will not be compelled to bid eagerly against the Bank of England for gold, and still further, wil not have to withdraw gold from the Bank of England."

Another favorable influence is the demonstration that the position is really sounder than it was supposed to be, settlement having proved that the rumors of large firms being in difficulties were unfounded. Credits have been superabundant and loan rates at times almost nominal. Discount rates were eased off appreciably. In some quarters banks are taken to task for having contributed to the alarms recently current by refusing to take perfectly good bills, and it is significant of the changed conditions of affairs that one London authority which not long ago asserted it to be the plain duty of the banks to differentiate against a certain class of finance bills, now lays stress upon the advice that such differentiation should be exercised with great prudence and caution.

OVER A BILLION

Montreal bank clearings showed an excellent gain in August, and the billion mark was passed, eight months' clearings being $1,-16,887,203, against $982,521,917 last year increase of $34,365,000.

The official figures, as supplied the Montreal Star by the clearing house are as follows:

	1907	1906
January	$128,194,689	$129,415,413
February	107,654,099	121,910,224
March	125,041,649	119,615,694
April	117,054,398	107,582,688
May	135,587,776	126,938,673
June	123,589,787	127,027,778
July	142,256,969	125,253,269
August	137,507,656	124,783,776
	$1,016,887,203	$982,526,917

It will be noticed that three months out of the eight showed decreases compared with a year ago—January, February and June

LOOKS FOR STILL HIGHER PRICES

A Winnipeg Miller on the Recent Jump of Twenty Cents on Flour.

(Winnipeg Free Press, Sept. 2.)

The price of flour has advanced to the extent of 20 cents a barrel, which is equal to ten cents per sack. The increase is general from coast to coast, and simply follows a similar advance made in United States markets about three weeks ago in nearly all cereals. The reason given by local millers is the foreign reports of crop shortages, which have bulled wheat prices to an extent which has compelled the millers here to follow the lead.

One of the prominent milling firms of Winnipeg, interviewed Saturday, said "The advance in price is practically forced on us. As you know, the Manitoba and western market forms only a small item in the world's supply, and the condition of our crop, were it ever so favorable, would have little effect on the world's prices, by which we are governed. As a matter of fact, we have to follow the Chicago market, which is usually a fair index of the world prices.

"At Saturday's prices for wheat there should even be a further advance, and we look for another advance as soon as this year's crop begins to be marketed, as it seems impossible that conditions can sufficiently improve the world over to prevent such an increase.

"The Oriental market to which such a large bulk of our wheat is sent, will not be as adversely affected as the Canadian and European trade, owing to the fact that their business is largely in the inferior grade of flour, the prices of which are not so liable to be affected by the conditions which bring about the increase in prices."

New York, Sept 6th.

Summary—Substantial demand for stocks in loan crowd in spite of covering of shorts on Thursday's advance.

No truth in Morgan Union Pacific control..

LONDON 2.30 p. m.—Generally speaking the securities market is dull and in some sections there is a disposition to sag. The foreign bourses show a heavy tone and British home rails after an advance are easing. Foreigners disclosed irregularity early but have steadied and South-Africans are improving. Hedging in Americans has been quietly progressing in advance of the stock exchange holiday tomorrow and the Jewish holiday on Monday next. The operations are mainly professional and it is to be noted that there is an absence of real pressure.

LIVERPOOL 2 p. m.—Futures quiet 2 to 4½ net lower.

NEW YORK, Sept. 6—Evidently London did not take kindly to the announcement of the extra Burlington dividend and instead was more influenced by the deterrent factors as the failure of Watson & Co. and the action of the Inter. Met. directors. Possibly London may be a seller of our stocks this morning but the strong tone which prevailed yesterday afternoon will hardly be counteracted by any selling for the foreign account. The increase of the dividend rate in the Burlington stock means an additional one million dollars a year to be divided between Great Northern and Northern Pacific and the extra dividend will give them over six million more. The disposition which they will make of the money is not known, but it is rumored that it will be disbursed to the stock holders immediately in a special dividend. We look for a firm undertone in our market during the day.

ADVANCE IN CHEESE

(Montreal Star, Wednesday.)

Conditions affecting the cheese trade have resulted in an advance in prices of 3-8 to 1-2c. per lb. These conditions are stated to be the strength which developed at the country cheese boards on Saturday last, owing to the keen competition between buyers for supplies, coupled with the improved demand from over the cable, which resulted in a fair amount of business being done, and at the same time created more activity and a stronger feeling. Sales are reported as follows Finest Western at 12 3-8 to 12 1-2c; Townships at 12 1-8 to 12 1-4c; Quebec at 11 7-8 to 12c., and the undergrades at 11 1-2 to 11 3-4c. At the boat the offerings were sold at 11 1-2c. and freight.

Local butter prices remain steady under a fair local demand, but there is little or no improvement to note in the export trade, and the market on the whole is quiet, with no change in prices. We quote: Finest fresh made Townships creamery, 22 to 22 1-4c; Quebec at 21 1-2 to 21 3-4c., and Western dairy at 19 to 19 1-2c.

THE HAPPY HALF HOUR

Judging by the laughter that was heard at The Happy Half Hour last evening, the new comedy pictures made an immense hit. They are three in number—A Birthday Reception gave promise of being a pleasant affair, but mamma's pet spoiled it, and led the guests a merry chase. He Couldn't help It shows that it is easy to make good resolutions but very hard to keep them when kind friends interfere. His Mother-in-Law's Visit caused her son-in-law to go into ecstacies of delight as soon as she arrived, and he couldn't do too much for her.

One of the handsomest pictures ever seen in the city, is The Seaman's Widow. It is a beautifully colored picture of marine life taken off the coast of Brittany and deals with the life of the fisher folk. There is a strong touch of pathos running throughout the picture and there were many favorable comments made upon it by those present.

Le Domino Rouge and Harry LeRoy received their usual applause for their singing of the illustrated song, Madge and I. The handsomely colored views of the local fire department are still being shown, and as the spectators saw their favorites, each received applause. They will be shown for the balance of the week and this will be the last chance to see them.

NEW SHOW AT THE NICKEL

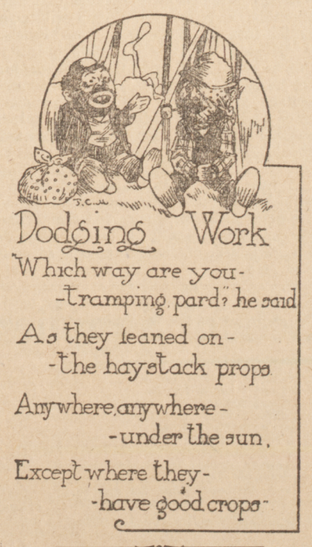

The new bill at the Nickel for today and tomorrow will be one of the strongest yet presented, and will increase the interest already manifested in motion photographs at this popular place of amusement. Yesterday the last presentation of the remarkably fine film picturing the British home fleet in action was made and delighted the large crowds that attended despite the very inclement weather.

Today the new pictures will be the latest hits in the moving picture business, entitled The Magnetized Man, The Easterner, Papa's Letter, Looking for the Balloon, and Smoking Chimneys. These are all brand new pictures and will prove of exceptional amusement to those who enjoy this kind of entertainment. The new songs are: When You Know You're Not Forgotten by the Girl You Can't Forget, and I'm Longing for My Old Kentucky Home; new scenic views and new banjo music.

AT THE OPERA HOUSE

The Klark-Urband Company continue to please their audiences at the Opera House, both with the plays furnished and the manner of presentation.

Tonight there is a strong bill, Wedded, Yet No Wife. Good specialties add to the pleasure of those attending the company's performances.

Peterborough is suffering at the present time from an epidemic of crime among the women.

The Start for 1908.

NEW YORK HERALD.

PEOPLE OF NOTE

R. Garbiras Guzman

Senor R. Garbiras Guzman, the latest representative of President Cipriano Castro of Venezuela at Washington is a splendidly educated Venezuelan and was sent to Washington in an attempt to straighten out the many financial and diplomatic tangles connected with Venezuela. He is a master of modern languages, speaking French, German, Spanish and English well. He has taken a handsome house in the diplomatic quarters of Washington and is considered one of the best entertainers in the foreign diplomatic circles of the national capital.

ITEMS OF INTEREST

Whether it be ladies' shirtwaists or gentlemen's linen, Ungar's unexcelled process is equally good. No rough work; scrupulous in detail. Phone 58.

"The Willows," Hugh J. McCormick's summer hotel on the Kennebeccasis, will close for the season on Sept. 9.

When you order Philps' breakfast bacon specify whether you want it thick or thin we give it to you any thickness desired, every slice same thickness. 'Phone 886.

There is a difference from fitting glasses to selling glasses. D. Boyaner, graduate optician, devotes his time to optics only. Get your eyes tested at 38 Dock street.

A crippled lad, the 13-year-old son of Chas. W. Alley, of 154 Metcalf street, while walking in the vicinity of his home Wednesday afternoon, slipped on a banana peel and fell, breaking his weak limb. The necessary surgical aid was rendered by Dr. Lewin.

Prof. T. Wilkinson leaves this city next week, having been appointed swimming instructor to the Montreal Athletic Association. Mr. Wilkinson has a lucrative business to dispose of at 515 Main street, which he will sacrifice to prompt cash purchasers. This is a golden opportunity for someone.

The synod committees last night concluded their meetings here in preparation for the synod meeting next month. Those in session yesterday were the committee on canons, executive of the synod, education committee, board of church literature and the cathedral chapter. Among the matters to come before the synod is that of taking over Rothesay College for Boys.

ANOTHER POSITION.

Chas. F. Hannagan, of Buctouche, has been selected to fill the position of assistant bookkeeper in the general offices of the Intercolonial railway at Moncton. Mr. Hannagan received his training at the Currie Business University, Ltd.

REFUSE SUBSTITUTES OR IMITATIONS—GET WHAT YOU ASK FOR.

When you ask your dealer for an advertised article and he tries to sell you a substitute, which he claims is just as good, it's because he makes a larger profit on the substitute. Insist on getting what you ask for.

LOSSES IN CATTLE TRADE

MONTREAL, Sept. 5—The market abroad for Canadian cattle seems to be in a bad way. Glasgow reported heavy supplies and sales ranged from £10 5s to £16 10s per head, which prices would lose shippers on an average $10 per head. Cables also stated that there was little prospect of any improvement as long as arrivals were kept up to their present numbers. The exports of live stock since the opening of navigation to date were 60,129 cattle and 4,145 sheep. The cattle show a decrease of 13,926 head and sheep 1,947, as compared with the corresponding period last year. Of the number of cattle shipped there were 16,715 from the United States, as against 14,855 for the same time a year ago, showing an increase of 1,860 head.

Mrs. Robert O'Brine, of 184 Brittain street, was severely bruised and shaken up by jumping from a moving street car. Car No. 75, with Motorman McFarland and Conductor Smith in charge, while going up Main street, north end, yesterday afternoon, commenced to slide backward on the slippery rails. Mrs. O'Brine, who was a passenger, became alarmed and jumped to the pavement. She struck heavily on her head and when picked up was unconscious. After being taken into McMillin's drug store she recovered, and was sent home on a car. Dr. Berryman attended her. The back of her head is bruised and she is badly shaken up.

DEATHS

WARD—At Victoria, B. C. Barton W. Ward, native of St. John, N. B., aged 73 years.

HALL—In Chicago, after a short illness, Frederick J. Hall, aged fifty-six years, leaving a widow and three children.
