Financial and Commercial

THERE IS STILL A SHORTAGE OF MONEY

Speculative Sentiment Varies in Wall Street---The Financial Situation and the Effect of Reports of Corporation Borrowing.

(New York Herald, Tuesday.)

New developments of the day in Wall street were largely of routine character. Those bearing upon the money market were mixed, for against the favorable tendencies of relaxing call and time rates demand sterling advanced here, and the carrying charges assessed upon American stocks in London ruled at 9 to 10 per cent, easing off later, when the more important arrangements had beeen completed. The high carrying charge in London, with the easier money tendencies here, may explain much of the late heaviness of the market, on the theory that speculative stocks were in process of retransference from London to New York. Wall street, however, ascribed the weakness to the rumors of further corporation. No less than three corporations figured in reports of corporation borrowing, Chicago and Northwestern, Chesapeake and Ohio, and Erie. The report in connection with Chesapeake and Ohio was denied, Erie has already issued some short term notes, and aparently there is a basis for the Northwestern report.

SPECULATIVE SENTIMENT.

Speculative sentiment was much depressed at the close of the day as a result of the market's performances. The bullish element, which had counted upon Saturday's more favorable bank statement and relaxing money to revive the market, and perhaps start the much predicted but as yet undeveloped "January boom," was much disheartened. Not a few traders who had closed out short lines on Friday and Saturday and gone long of the market for a turn sold out their long stock in disgust. After business hours brokers began to talk of "something hanging in the market." No concrete idea could be obtained of what this "something" was. Some professionals insisted that the "big men" must be selling out. Others insisted that some important corporation must be in trouble over its inability to finance a floating debt, and there were numerous other conjectures bearing upon the same general subject matter.

MONEY MARKET AFFAIRS.

Money market developments were mixed, but as Wall street viewed the matter, the main tendencies were regarded as highly favorable. Call rates did not go above 5 per cent and ruled easier at about 4 1-2 per cent. Time money was unchanged at 6 per cent, but this rate was only nominal for maturities running from seven to twelve months, as there were no borrowers for those maturities at the quoted rate.

Loan brokers reported the lending of time money as easier, due, however, more to lessened demand than to increased supply of funds. With seventeen banks under their legal reserves there is still a shortage of money. The adverse factor in the money market was in the sharp recovery of demand sterling, indicating clearly enough that any sustained ease in call and time rates is likely to be followed speedily by gold exports.

EXCHANGE AND TREASURY.

Much interest was attracted by the sharp recovery in exchange. All forms of sterling remittance advanced sharply, sixty and ninety day bills running up 40 points to 4.8080 and 4.7870 respectively. Demand sterling recovered 1-2 cent on the pound sterling, or 50 points, to 4.8530, but it eased off to 4.8510 at the close. Cable transfers closed 25 points higher, at 4.8595, after selling as high as 4.8610.

The movements in sterling materially reflected easier money tendencies here, with high carrying charges for American stocks and the 6 per. cent bank rate in London. On Sub-Treasury operations banks gained $1,563,000, making a total gain by the banks from the government since Friday of $4,287,000. During the same interval last week banks gained $945,000 from the treasury.

CORPORATION BORROWING.

Wall street starts like a child at a shadow now over the reports of fresh stock or bond issues or of other forms of corporation borrowing. Nothing so indicates the change of sentiment as this. Only a short time ago the mere rumor of more stock giving 'valuable rights" was sufficient to set everything boiling. But every 'melon" has turned out a "lemon," and hence the rumors of new stock issues now are bear arguments, while reports of bond issues and short term borrowing send chills through stock and bond dealers alike.

The report that Chicago and Northwestern yesterday was to issue $25,000,000 to $30,000,000 in stocks was not confirmed, but it was not denied, and is believed to have a basis in fact. Atchison will have to determine its issue by the last of the month. The rumor of Chesapeake and Ohio borrowing was denied. Recent rumors have included Erie, Canadian Pacific, Southern Railway and Chicago and Alton as prospective borrowers. It is believed that every Gould proposition could use money if it could borrow cheaply. The situation there is said to be painful with some propositions.

MARGARET ANGLIN TURNED OTHER CHEEK

She Gave "Cops" Who Reported Her for Auto Speeding Tickets for the Show.

NEW YORK, Jan 16—Henry Miller and his co-star, Margaret Anglin, of "The Great Divide," are past masters of the Biblical knack of turning the other cheek. After their chauffeur had been arrested and carried with them to a police station for overspeeding in the Bronx the stars presented the police with tickets to the Princess Theatre.

Miss Anglin was in her automobile with her mother and Mr. Miller yesterday afternoon. Thomas Vlake, the chauffeur, went up Jerome avenue at One Hundred and Seventy-ninth street so fast that Policeman Bulman arrested him. On the way back two officers on motor cycles collided and fell, but again caught the machine running rapidly away from the Highbridge police station.

This incident put Miss Anglin and Mr. Miller in good humor. Mr. Miller not only paid $100 cash bail for Blake's release, but gave passes to every policeman in sight. Miss Anglin shook hands all around.

FOUGHT FLAMES IN BITTER COLD

With the Mercury 12 Below Zero Old Town Me. Firemen Put up a Good Fight.

OLDTOWN, Me., Jan. 16—In the face of cold, which the thermometer registered as 12 below zero, the firemen of Oldtown late this afternoon successfully fought a dangerous fire which badly damaged a business block on the Main street and which threatened at one time to spread to nearby buildings. The blaze was confined, however, to the building where it started, which is situated at the corner of Centre and Main streets, and owned by Samuel Bradbury. The fire is believed to have started among liquors in the storeroom of the structure used by special liquor officer Charles Sackliff, and spread very quickly as later a quantity of liquor which had been seized by the officer at different places, exploded. The local department was assisted by hose companies from Milford.

The damage to the building, a three story wooden structure, and to the occupants was about $8,000.

BANK OF ENGLAND

LONDON, Jan. 17—The rate of discount of the Bank of England was reduced today from 6 to 5 per cent.

The reduction was generally anticipated, as the six per cent. rate had been so effective since October 19 that the bank had been enabled to satisfactorily build up its reserve. The improvement in New York exchange helped the directors in deciding upon the changes.

ANOTHER DURBAR TO HONOR AMEER

It is Expected to Be a Dazzling Ceremony---Lord Minto Has Been Busy.

CALCUTTA, Jan. 16—Lord Minto, Viceroy of India, has been having a long rehearsal, so to speak, in spectacular state ceremonies as a preparation for the dazzling durbar at Agra in honor of the visit of the Ameer of Afghanistan. The annual tour of the viceroy was much more extended than usual, taking in the principal native states. At every point on the route where Lord Minto made an official call there was such a display of Oriental pomp as India is world-famous for.

As a wise diplomatic move Great Britain prevailed upon the Ameer, not without patient and persistent pressure, to make a journey into the heart of northern India. Then it became a duty to arrange to entertain him on a scale of magnificence commensurate with the British desire to impress the ruler of the Barmarie "buffer" state in order to win him from Russia.

So the viceroy travelled through the empire to see what India could do and enlist those princes and potentates who could aid him most in making the durbar memorable. Thus the series of gorgeous fetes to culminate in the great durbar was a colossal drill and sumptuous show.

COLD SNAP MAKES GOOD COASTING

Children Enjoying Themselves at this Popular Winter Pastime.

The cold weather of the last few days has made excellent coasting on many of the streets and the younger generation can be seen every afternoon, after school enjoying this exhilirating pleasure. One spot that seems especially popular for this pastime is the Queen Square and hundreds of children have been congregating there every day with their sleds and framers to coast on the southern and eastern sides. A number of accidents have been narrowly averted owing to the large number participating and people passing that way have to keep a wary eye on the continuous stream of racers to avoid a spill.

HEARST MEN WERE CHEAP

Eleven Hearst Aldermen Bought for $500 Each---Now There is Trouble.

NEW YORK, Jan. 16—W. Randolph Hearst's allegations that he is always for the 'peepul" and against graft in all forms received a painful jolt today when it became known that all the aldermen elected on the municipal ownership league ticket at the occasion when Hearst unsuccessfully ran for mayor were involved in bribery disclosures in connection with the election of a successor to Recorder Goff.

Moreover it was shown that they are a cheap lot, as the whole eleven of them offered to sell themselves and their votes for $500 each. There were two candidates for the office, one Meyers on the Republican ticket, and Francis McAvoy for Tammany. Usually the election is by popular ballot, but as Recorder Goff's term does not expire until 1909, and as he had been appointed to the supreme court, the aldermen had the power to appoint his successor for the unserved term.

The Hearst men held the balance of power, as without them neither candidate could obtain a majority. Consequently they fixed up a dummy candidate, Judge Palmieri, and voted consistently for him, waiting for things to come their way.

The New York World, the great metropolitan rival of the Hearst papers, undertook to expose this. A World reporter named Harding purporting to pe a politician, talked prices to the Hearst men. Clifford, the leader, demanded $500 each for votes of the party and $500 more to be paid to David Mann, as stakeholder. The price was agreed upon and parties to the transaction were watched by detectives. Mann was arrested and confessed.

At the meeting of the board of aldermen the whole eleven Hearst men voted for Judge Cowing, the candidate agreed upon by Harding, although Cowing had never been mentioned before. The meeting was adjourned and the money, $6,000, paid over to Clifford. Detectives watched the payment and arrested Clifford with the goods on him. The others involved will be proceeded against.

Hearst's newspaper now disowns Clifford and defends the other ten by asserting that Clifford made no deal with them.

ALL PLEADED GUILTY

End of the Prize Fight Cases Growing Out of the Britt-McGovern go in New York.

NEW YORK, Jan. 16.—The so-called prize fight cases, growing out of the fight between Jimmy Britt and Terry McGovern at Madison Square Garden several months ago, came to an abrupt end today when a plea of guilty was entered by all the fourteen defendants. They included Henry J. Pollock, the promoter of the fight, the two principals and several others who were connected with the contest in an official way. Pollock was fined $100 with the alternative of thirty days in the city prison. Sentence was suspended in the case of Britt and McGovern, and all the other defendants were discharged on their own recognizance.

The outcome of the case caused considerable surprise, as it was regarded as a test case of the anti-boxing law, and a spirited defence was anticipated.

FREMONT, O., Jan. 16—At the trial of a civil case, S. E. Ziegler punched Attorney F. J. Wagner several times on the nose, flooring him. Ziegler was fined and given a jail sentence for contempt of court.

Attorney Wagner had become angered at Ziegler for giving certain testimony, and questioned his veracity.

COBALT INVESTORS WARNED

OTTAWA, Jan. 16.—Geological Director Low of the Geological Survey has issued a short report on Cobalt, in which he says that millions of dollars worth of silver ore are exposed to view. The report continues:

"There is no doubt that great values will be extracted from many of the properties about Cobalt, at the same time it might be wise for the investing public to consider the very large capitalization and abnormal prices of stock of many of these properties, and in consequence the large sum required from production to pay a fair profit on these small veins."

A GOOD PICTURE SHOW

A fairly large audience was present in the Opera House last night to view the pictures presented by the American Vitagraph Company. Those shown were indeed appreciated, the one showing the pleasures of a mother in law was especially funny, and evoked much applause. The Door Keeper's Curiosity was also good. The pictures will be shown again tonight.

Roberts (of very doubtful commercial standing)— "As Shakespeare says, 'What's in a name?'" Jenkins—"Well, if you want to know, why don't you ask your wife?" Roberts—"My wife! What as she got to do with it?" Jenkins—"Why, everything you have is in your wife's name, isn't it?"
