MAY BE BLOOD SHED
IN THE GOLD FIELDS

Men Employed by Guggenheims Fighting for Right of Way—Their Opponents Appeal to U. S. Government for Protection.

SEATTLE, Wn., July 3.—A special to the Post-Intelligencer from Valdez, Alaska, tells of the preparations for armed conflict between the Copper River and Northern railway forces and the Alaska-Pacific railway at Katalla. The Copper River railroad, which is known throughout Alaska as the Guggenheim proposition, is attempting to cross the right of way of the Alaska-Pacific company, known as the Bruner line, which also aims for the Copper River District by way of Lake Charlotte. The Bruner people have applied to Governor Hoggatt of Alaska for the protection of the United States troops, alleging that the Guggenheim forces contemplate an armed

attack upon them. Authorities at Valdez admit that the situation is serious. The launch Pioneer, which arrived at Valdez yesterday from Katalla, brings word that the Bruner road has erected a "Go-Devil" at the crossing, which the Guggenheims are trying to take. The machine by means of a donkey engine, swings continually across the tracks, making it impossible for men to come within a radius of 50 feet of the Bruner line. Several times the right of way of the Guggenheim road has been dynamited by the Bruner forces. The Bruner people have also claimed the Copper River road has crossed their territory. An injunction asked recently by the Alaska-Pacific railway and Terminal Company, against the Guggenheim road was denied.

TAFT WILL SPEND THE
SUMMER AT MURRAY BAY

United States Presidential "Probability" Will Take His Vacation Far From the Maddening Crowd—A Mosquito Report.

(From Our Regular Correspondent)

WASHINGTON, D. C., June 27.—Secretary Taft has returned to Washington and will settle down to work on the mass of material that has accumulated during his trip to the Philippines. He came here direct from Sagamore Hill. He came here direct from Sagamore Hill after attending the Yale commencement and after completing his work here he will go to Murray Bay, Canada, to spend the summer with his family until September when he starts on his trip to the Philippines. The report that there has been a weakening in the Taft boom is not credited by his friends here who declare that the popular secretary is more popular than ever and that his prestige will be greatly increased when he returns from the Philippines after having personally directed the first efforts at self government of the Philippines. If it should be that he will undertake diplomatic negotiations with Japan this also will add to his reputation in this country. So confident are his friends that he will get the nomination they are letting his boom rest awhile and the active work will not be undertaken until December when the national republican committee will meet. Mr. Taft will have returned from his trip to the Orient. It is said that the president does not favor active work in the campaign before next fall believing as General Harrison has said, that "early booms often die a-foaming" but that Mr. Taft is still the favorite there can be no doubt even though it is so persistently rumored that that affection is lessening. All such reports, it is easy to see, emanate from the opponents of the administration and may be taken as mere mudslinging.

There is probably no more popular man in Washington than Secretary Taft and though the city is voteless it is always keenly interested in the presidential possibilities. Nearly all presidents are unpopular here, perhaps on the theory that no man is a hero to his valet or that distance lends enchantment. An active president with reform ideas cannot help seeing the sadly mismanaged departments of the government which are right here under his eyes every morning. He gradually starts out to reform them much to the disgust of the department clerks who form a large part of Washington's population. Cleveland was heartily disliked in the district and his name was anathematized at the capital for the eight years he was here. During the McKinley administration there was no activity in social life owing to Mrs. McKinley's ill health and the lack of gaiety at the White House. This made it hard for the merchants and real estate people and detracted from the president's popularity. President Roosevelt is more actively disliked than any of the later presidents except perhaps Cleveland. It was Roosevelt who inaugurated housecleaning in the departments by which many disgruntled and inefficient clerks were discharged. And worse than this he won the dislike of those who remained in office by increasing their working day one half hour. This was the unforgivable sin and since that date small applause follows the mention of his name at the theatre or in the lecture room or his appearance at those places or on the street. Perhaps the same result would follow the election of Mr. Taft but as yet he is extremely popular here and if his nomination depended on the district he would be chosen of all the candidates so far mentioned. He is well liked among the newspaper men and in congress he has few, if any, personal enemies. Mrs. Taft, too is generally regarded with approval as a future mistress of the White House. She is a pleasant faced woman of about forty without any "society manners" or obnoxiousness. She is frankly ambitious and looks with disfavor on her husband's desire to bury himself in the supreme court. Her goal is the White House and her fitness for the place is apparent. She has kept open house here for a few seasons and her days at home are always attended by crowds of friends. She has not attempted to entertain on the scale of the Fairbanks but a dinner invitation to "the Tafts" is something for even the socially elect to boast of. The dinner may be less splendid than one at the vice-president's but the secretary is such a genial host and Mrs. Taft has so much social skill that the guests never go away wondering if they will not be expected to

deliver some votes in payment for the meal. Washington has never been so prosperous as since the coming of the Roosevelt and all those who have something to sell here are quite naturally hoping that who ever becomes president it will be some one who can keep up the social and commercial boom that the city is enjoying.

One of the most interesting government reports received lately is that of the Health Department at Panama, and deals with the mosquito question which is such a vital one in that section. It is proved now that malaria and yellow fever can be conveyed only by the mosquito and that neither is contagious in the ordinary sense of the word. The health department on the isthmus carries on a perpetual war against the insect and when the canal is completed it will be due as much to the discovery of the cause of yellow fever as to digging. The prolonged dry season and the comparative lateness of the season in the Canal zone have been especially favorable to the mosquito and the department has been forced to use the most drastic measures. Heretofore oil on the water in breeding places has been sufficient, but dynamite is now being used to blow out the channel of sluggish streams that the tide may be swifter and the waters forced along. In the Bas Obispo and the whole area of the canal has been blown out to increase the flow into the Chagres and all of the workmen who can be spared from the canal works are engaged in tearing out the vegetation in the stream and along its banks and removing obstructions in the river. Where there were cascades or falls over the solid rock dynamite has been used to open the passage sufficiently wide to prevent the permanent pools of water above, and where there are shallows the channel is narrowed and its banks confined by rough stone work. It is claimed that health conditions and the percentage of disease has run from 98 to 101; due, it is believed, to the favorable climatic conditions and to improved housing and feeding conditions of the employees.

MARCONI SERVICE IN GULF OF ST. LAWRENCE
MONTREAL, July 3.—(Special)—Hugh Allan of the Allan Line today made a statement regarding complaints against the Marconi service. Mr. Allan took the ground that the dispute between Supt. Doute of the government telegraph service and the Marconi people should not be allowed to interfere with the efficiency of the service. It is stated that the Marconi stations in the Gulf are not working yet, with great disadvantage to the steamship companies, while some of the government telegraph lines are giving no service.

MONTREAL STOCKS
MONTREAL, July 3.—(Special)—Despite tight money the stock market continues strong in tone. The outlook seems much more cheerful and with a return of easier money and given the same bright aspect there is no reason to doubt that prices would rally with a rush. There were transactions in Rio Rio at 73 7/8; Detroit, 66 1/2 to 67; Montreal Power, 91 1/2; Montreal Street Ry, 209; Mackay 66 and Dom Iron, 24. The impression in the market is that the Ross buying is over for the present, the recent purchases having given that party all the stock necessary for their purposes of control.

CAPTURED BY RAISULI
TANGIER, July 3.—Kaid General Sir Harry MacLean, commander of the Sultan's body guard, has been made a prisoner by Raisuli, the bandit chief, and will be held as a hostage by the latter until the Sultan agrees to pardon Raisuli on his own terms.

SENATOR KING IN OTTAWA
OTTAWA, July 3.—(Special)—Senator King of New Brunswick is here today on departmental business.

FORESTERS PAY A HIGH
TRIBUTE TO E. P. EASTMAN
THEIR HIGH TREASURER

On His Retirement From Office After 23 Years Service He is Granted a Gratuity and Recommended for Grand Cross of Merit.

The High Court of New Brunswick, I. O. F., resumed its session at 10.15 this morning with H. C. R. Woods in the chair. As a special committee on resolutions relative to the death of the late Supreme Chief Ranger, D. G. Lingley, M. N. Cockburn and A. M. Belding were appointed.

The high court heard with great regret the high chief's statement that E. P. Eastman, so long high treasurer of the court, and who was present, was compelled to give up the office. The chief voiced in fitting terms the court's regret, and appointed J. V. Russell assistant treasurer for this session. Mr. Eastman has been treasurer of high court for twenty-three years.

M. N. Cockburn, R. H. Davis and C. King reported as the committee on petitions and appeals that no grievances existed among the courts in any part of the jurisdiction. Appreciation was expressed of the very efficient work done by the officers in the past year. Prizes to courts which had won them were presented to delegates from Courts Tomah, Seodice, Berry's Mills, Ounagony, Progress and Squatook, by P. H. C. R. A. W. MacRae. These courts had won the prizes by adding to their membership. Mr. MacRae paid a tribute to these courts, and mentioned D. Bradley and J. A. Brooks of St. John as especially active in this city. Mr. MacRae expressed the hope that the example of these courts would encourage others in the very necessary propagation work of the order. The delegates were warmly applauded as they received the checks for the prizes which were in cash.

Mr. MacRae regretted that there were no companion courts on the list, and hoped to see this state of things remedied. Checks had already been issued to Courts City Camp, Dumbarton, Keswick and George for similar prizes. St. Mary's, Andover and Sumbury, are also probably entitled to them, although this was not yet made quite clear to the high executive.

AN INTERESTING DISCUSSION
R. A. Borden, for the committee on constitution and laws, submitted their report, recommending (1) that it be recommended to supreme court that sub-section 6 of Sec. 169 be amended so as to permit sick and funeral benefits being paid to brethren receiving total disability, old age disability and pension and other benefits, they continuing to pay the sick and funeral benefit dues; (2) that the constitution and laws be so amended by the supreme court to provide for sick and funeral benefits for companions of the order.

Mr. Borden supported the report in a brief speech, contending that as the various benefits were separate one would be better off to have them all under one roof. They were and should be kept independent. The report was taken up section by section. A. W. MacRae declared with regard to section 1, that if the proposed action were taken with regard to persons taking the total disability benefit the rates would have to be increased. As far as the funeral benefit was concerned, it might very well be continued, but there are hundreds of members on the total disability list and to pay them the sick and funeral benefit in addition to the other would bankrupt the fund, on treble or quadruple the rates. He suggested an amendment that would only put those totally and permanently disabled on the sick and funeral benefit list. If the word "sick" were omitted, and only "funeral" used he would not oppose the resolution.

D. G. Lingley suggested that Mr. MacRae move an amendment omitting the words "sick benefit."

Andrew DeWolfe, of St. Stephen, supported the report, contending that the section complained of was radically wrong. He urged that the representatives sent to the supreme court to discuss such matters be the best men, and not merely men who wanted to go or had a pull. He urged also that the high court give the most careful and serious attention to all matters coming before them.

Dr. Mullin saw great difficulty, if the action recommended by the report were taken, and gave illustrations to emphasize the fact. Like Mr. MacRae, he would be quite willing to have the funeral benefit paid. (Hear, hear.) He would support an amendment to that effect.

High Secretary Fowler, of P. E. Island, said that as an organizer he had had this matter brought to his attention. He gave an illustration of the hardship involved in the present system. He contended that the sick and funeral benefit should be kept separate, and should be kept so.

The sick and funeral benefit, as at present constituted, was not popular. In no case should the funeral benefit be forfeited as provided in the section under discussion.

Dr. Creed argued that the section operated unjustly in some cases, and should be amended. G. A. Wilson asked if there are no courts now taking more out of the fund than they are paying into it. This was a serious question, and he felt that he could not support the recommendation except as it related to funeral benefits.

After some remarks by Mr. Clair, Dr. MacRae moved as an amendment that the section be referred back for further consideration. The amendment was adopted.

THE FINANCE REPORT.
W. J. S. Myles submitted the finance committee's report. It congratulated the high court on its fine financial position, and recommended the following grants: High chief ranger, \$100; high secretary and assistant, \$60; high treasurer, \$50; high supreme court clerk, \$40; high journal secretary, \$30; mileage committee, \$24; press committee, \$30.

Regarding retiring High Secretary Eastman, the committee said:—"Your committee have learned with deepest regret that Bro. P. Eastman, who has occupied the position of high treasurer of this high court for the past 23 years with credit to himself and to the fullest satisfaction of all the members of this jurisdiction, finds it impossible from personal reasons to continue longer in this important position. In view of Bro. Eastman's long tenure of office, much of which was performed without any remuneration whatever, your committee heartily recommend the payment of a gratuity of \$200 as a token of this high court's appreciation of his faithful labors in the interests of Forestry."

Supreme Secretary Matheson, at this stage said farewell to the court on behalf of himself and S. V. C. R. Clarke, who was ill at the hotel. He spoke of their great pleasure in attending the court, and complimented the members on the fine spirit manifested at their meetings. The high court sang "They Are Jolly Good Fellows," and as the supreme secretary withdrew the members rose and sang a verse of Auld Lang Syne.

The report was adopted, and in a splendid tribute of feeling the high court on motion of Judge Cockburn, urged the high standing committee to recommend at next session of high court that the grand cross of merit be conferred on Mr. Eastman.

Rev. B. H. Thomas submitted the report of the committee on the state of the order. It recommended that sick and funeral benefits be extended to companion members; that organization work be carried on as in the past year, and that as in the past the order be advertised at all public functions. The report was very long and was adopted without discussion.

HIGH STANDING COMMITTEE
H. C. R. Woods.
P. H. C. R. D. G. Lingley.
H. V. C. R. D. G. Lingley.
H. S. F. W. Emmerson.

COLLINS' FATE NOW
HANGS IN BALANCE

The Case Was Given to the Jury This Morning—Chief Justice Back Charges Strongly Against the Prisoner—Sharp Passages With Mr. McKeown.

MONCTON, July 3.—(Special)—The Solicitor General continued summing up of the crown's case to the jury in the Collins murder trial today. He pointed out that Collins on the stand had admitted that he had done practically everything that was charged against him except the striking of the fatal blow. The Solicitor General's address occupied the time till 10.46. Judge Tuck in charging the jury said the case had been admirably tried on both sides. The prisoner's counsel had left nothing undone that could be done and that no amount of money would have improved the defence. The judge charged rather against the prisoner.

Mr. McKeown arose when the judge had finished and said: "Your honor could you not have charged more favorably to the prisoner regarding the watch?" The judge: "What did you wish me to do Mr. McKeown?"

Mr. McKeown: "I have no hesitation in saying your honor that you have charged much harder against the prisoner than Judge Gregory did at the former trial."

His Honor: "I may have spoken in louder voice perhaps."

Mr. McKeown: "I did not touch upon the watch Your Honor, but the learned Solicitor General went into the watch fully and you seemed to me to have strengthened his argument."

The Judge: "I did what I thought was right in the matter."

The Solicitor General objects to Mr. McKeown making any further remarks or any address in the presence of the jury.

Mr. McKeown: "I did not touch upon the watch."

His Honor: "Then you ought to have done so."

The Solicitor General: "I protest against a further address by Mr. McKeown."

His Honor: "I have the right, as chief justice sitting here, to have the last words to the jury. Sit down Mr. McKeown you ought not to persist in your remarks."

The Chief Justice then turned to the jury and said: "Gentlemen, after you go to your juryroom you cannot be separated or go to your boarding places for your meals but if you fail to agree on a verdict by one o'clock I will make arrangements with the sheriff that food will be supplied you. The constables were then sworn and the jury retired at 12 noon."

Solicitor General went into the watch fully and you seemed to me to have strengthened his argument."

The Judge: "I did what I thought was right in the matter."

The Solicitor General objects to Mr. McKeown making any further remarks or any address in the presence of the jury.

Mr. McKeown: "I did not touch upon the watch."

His Honor: "Then you ought to have done so."

The Solicitor General: "I protest against a further address by Mr. McKeown."

His Honor: "I have the right, as chief justice sitting here, to have the last words to the jury. Sit down Mr. McKeown you ought not to persist in your remarks."

The Chief Justice then turned to the jury and said: "Gentlemen, after you go to your juryroom you cannot be separated or go to your boarding places for your meals but if you fail to agree on a verdict by one o'clock I will make arrangements with the sheriff that food will be supplied you. The constables were then sworn and the jury retired at 12 noon."

The property of the late Annie Buxton of St. Marys, was purchased at auction this morning by James Holland for \$20.

STEAMER DAMAGED
MONTREAL, July 3.—(Special)—The Richelieu & Ontario steamer, Prescott, while trying to make a landing at the foot of the Lachine canal last night, ran into the lock and smashed it. The Prescott was then carried back by the water and collided with the steam barge Havard of the Pittsburg and Erie Coal Company, which sank with a load of pulpwood. The Prescott was badly damaged and will have to be repaired. In the meantime her place will be taken by the Rapids King.

THE LEANDERS WON
BISLEY, Eng., July 3.—The Leander crew, as anticipated, won an easy victory over the London Rowing club today in the first heat for the grand challenge cup. Leander led all the way. Time, 7 minutes 35 seconds.

EXPORTS TO UNITED STATES
SHOW GRATIFYING INCREASE

Returns for Quarter End June 30 Show Large Gain Over Corresponding Quarter Last Year.

The following is the valuation of exports to the United States for the quarter ending June 30, 1907, compared with the corresponding quarter for 1906, which shows an increase of \$1,000,000. The exports of wood pulp and American lumber are larger this season than ever before. The summary, as follows, was compiled by the American consul at this port:

Agricultural seeders	131 50	Lime	6,861 40
Horses	237 50	Lumber	42,449 86
Pigs	400 00	Piling	502 50
Sheep	1,742 50	Pulled wood	4,357 33
Calves	22,073 27	Returned American goods	5,992 21
Cork shavings	482 47	Pulp wood	1,857 69
Cotton wrappers	202 53	Rough Buifings	3,977 00
Emigrants' effects	6,535 00	Salt	5,469 22
Fertilizers	1,294 50	Salted slats	15,131 04
Fire bricks	908 34	Sheepskins	2,298 20
Firewood	1,312 50	Shingles	13,592 25
Fish (all kinds)	4,393 38	Ship knees	237 50
Gin	435 00	Staves	173 20
Gold bullion	34,610 00	Tea	5,226 60
Gum chicle	35,917 20	Templates	2,138 80
Hides, green, salted	40,950 21	Wood pulp	186,757 12
Iron	22,343 00	PRODUCT OF AMERICAN LOGS.	
Lath	88,440 54	Clapboards	112 00
		Laths	16,747 15
		Lumber	168,070 44
		Shingles	20,762 13
		Grand total for quarter ending	
		30 June, 1907	\$766,224 24
		Grand total for quarter ending	
		30 June, 1906	\$633,129 64
		Gain for June quarter, 1907	\$133,094 60

THE TIMES NEW REPORTER

HIRAM IS CRITICAL
Mr. Hiram Hornbeam is attending the Foresters' high court. He is one of the older members of the order, and attendance at high court is an annual dissipation with Hiram, sharing the honors with the Sunday school picnic in the Settlement, and the fall fair. From a long and somewhat careful study of the constitution Hiram is in a position to be somewhat critical at times, and he discoursed yesterday to an awed group of young members on the general subject of constitutional procedure. This morning he was in a somewhat combative mood.

"By Hen!" he said to the Times new reporter. "That feller Clarke from Ohio had too much to say last night about red-lee boy in Ohio he used to wonder what made the northern lights, an' now he's found out it was the reflection from red heads in New Brunswick. I s'pose he was hittin' at Harry Woods an' that island feller—but they're both half-headed. He said when he fell out with Yank hee boy in Ohio he used to wonder what made the northern lights, an' now he's found out it was the reflection from red heads in New Brunswick. I s'pose he was hittin' at Harry Woods an' that island feller—but they're both half-headed. He said when he fell out with Yank hee boy in Ohio he used to wonder what made the northern lights, an' now he's found out it was the reflection from red heads in New Brunswick. I s'pose he was hittin' at Harry Woods an' that island feller—but they're both half-headed.
