CHICAGO HAS DOLLAR WHEAT

Wheat Prices Passed the Magic Mark in Sensational Trading on Chicago Exchange

Chicago, May 13—In the most sensational opening in the history of the Chicago board of trade, wheat today shot past the dollar mark. Heavy realizing sales pushed the price backward somewhat,but at the close the market was strong and according to the majority of speculators on the board, the demand upon which the late advance has been made is still unsatisfied. The late advance today for wheat was four cents for the July and September options and 4 1-8 cents for the December option.

From the low point of Monday of last week July wheat has advanced 13 3-4. September has gone up 15 3-4. In the December option the high point today was 16 3-4 above the low price of last Monday.

It was a certainty that a strong bulge would take place in the wheat market at the opening. Country orders had poured in, seemingly in an endless stream, and in obedience to them brokers stood ready to buy millions of bushels at the market price. Shorts were in a highly nervous condition and were ready to cover. The result was that as soon as the gong sounded there was a terrific roar of voices, all anxious to buy, and nobody offering to sell. The trade was too big and too broad to be followed with any certainty, and brokers filled orders frequently several cents away from the point at which they had hoped to buy. The confusion was so great that for a few minutes but little actual business was transacted, the brokers fighting and struggling in efforts to get hold of wheat from anybody or at any price.

The rush of buying orders seemed to come from almost every town in the United States which was situated along a telegraph wire. They came from Winnipeg and from Louisiana and from points on the Pacific and Atlantic seaboard. The professional traders were of the opinion that the opening was a little too vigorous and that the chance to seize profits on lines of long wheat carried over Sunday was tempting. As soon, therefore, as trade steadied a trifle, millions of bushels were thrown upon the market in realizing sales. As a result the advance for a time was checked. The buying orders, however, still poured in and the market again soared. Again the long wheat came out and brought a reduction, and again the country buyers forced prices up. The situation was too strong for man or clique of men to stem. The country at large seemed determined to buy at whatever price it could be had.

There were no claims in any direction that the market was being manipulated. The general opinion seemed to be that the advance was based upon natural conditions which are certain to curtail in large degree the world's coming crop of wheat. Advices from all parts of the west and northwest confirmed previous reports of damage by weather and by insects. In addition telegrams from the Canadian Northwest declared that there was still no possibility of seeding in that district and that every day of delay meant the loss of thousands of acres that might otherwise have been sown in wheat.

New York, May 13—The public ran away with the wheat here this morning and scored one of the biggest advances ever seen outside of a corner. On first sales New York jumped four cents a bushel from the regular close of Saturday, making ten cents a bushel advance since the government report last Friday. Liverpool shared the excitement by advancing 3d, but continental markets were indifferent.

NOTICE TO MARINERS.

Boston, Mass., May 11—Notice is given by the Lighthouse Board that while work is being done on the moorings of Pollock Rip light vessel No. 47 the moorings will be buoyed by two spar buoys, one red and the other black. These buoys will be discontinued as soon as the work is completed.

MARINE NOTES

Steamship Justin sailed on Saturday last from Barbados for St. John for orders. She is coming to J. H. Scammell & Co.

The price paid for the wooden bark Kate F. Troop, 1,097 tons register, by the buyer, Mr. Crosby, of Yarmouth, N. S., was $3,275.

The Canadian Pacific Railway Co. have issued a denial of the report that they intend to establish a port on the coast of Maine for the arrival and departure of their new "Empress" vessels.—Shipping Illustrated, May 11.

The New Burrell-Johnson Iron Co., Yarmouth, is now working at its fullest capacity. The company are making about 100 buoys for the dominion government, besides building the machinery for the new steamer Enterprise, launched at Shelburne last month.

The ship J. D. Everett, which was chartered through J. F. Whitney & Co., New York, to load lumber at Weymoutr, for the River Plate, is the largest vessel ever secured to take a cargo from that port. She will carry about 2,000,000 ft. She will have to load in the bay from lighters.

The number of vessels of all kinds on this register book at this port on the 31st of December, 1906, was 339, the tonnage of which is 28,558. A way back in the years 1850 to1860 this port stood fourth in the world's shipping having between three and four hundred thousand tons on the registry. Sailing ships are passing.

ITEMS OF INTEREST

Typewriting Bureau, 20 Canterbury St.

There's economy of money, time and labor in sending your carpets and curtains to Ungar's. Phone Main 58.

A delightful evening is promised all who attend the literary and musical treat in Exmouth street church S. S. room under the auspices of the Y. M. A. Tonight. 15 and 25c.

Look for J. N. Harvey's big ad on page 3 in this issue, it contains more good news for the men and boys of St. John and vicinity, than has appeared in any ad in St. John for a long while.

As has already been stated the Harvey interest now embraces the fourth and last store in the Opera House Block on Union street, which makes the third addition to the business within the small space of six years.

A showing which cannot be equalled by any establishment of a similar kind in this part of the country.

The Harvey business has been built on the bottom foundation of cash payments and consequently low prices coupled with genuine values and styles and a direct catering to the fancy of all patrons.

Then, when this trade extension sale is announced, it is expected beyond the shadow of a doubt that the people of this city and surrounding country will respond to the call of bargains in good numbers, as they have already done before when a sale was advertised at the Harvey establishment.

Friday next the sale opens in full swing, Saturday 25th it terminates.

GOOD FURNITURE POLISH.

Housekeepers who want to have their old furniture and piano looking clean should always have a bottle of furniture polish sold by Amland Bros., Ltd., Waterloo street. This polish has been constantly in use by the most fashionable furniture dealers and home owners throughout the United States and Canada, and is highly recommended by many people in this city. The above firm have it on sale at 25c. per bottle.

M. R. A.'s RADICAL MOVE.

Though today is quite balmy, the weather up to this point has been most remarkably unspringlike, with the result that dry-goods men have found sales in certain lines considerably behind the usual mark. As noticed in today's advertisement M. R A, Ltd., do not hesitate to say that the sale of their large supply of beautiful, new Irish hand-embroidered waists and whole dresses have been interfered with to such a degree that tomorrow morning a sale of sweeping bargains will commence. The handsomest embroidered goods brought to St. John will thus be handed over to the ladies at prices heretofore unequalled in moderation. Here is a chance to have exclusive summer raiment at practically your own price.

ANOTHER POSITION.

Miss Katie Morrissey, of Queen street has been selected as bookkeeper with Chas. F. Francis & Co., by the employment bureau of the Currie Business University.
