SCHOONERS HAD
EXCITING RACEThe Water Witch and
Nicola Reached Port
Together

THIS MORNING

Left Barbados on Same Day
but Never Sighted Each
Other Until Just Before Ar-
riving Here.

Two Nova Scotia schooners, the Water Witch, in command of Captain Godfrey, and the Nicola, in command of Captain Zine, arrived in port this morning from Barbados, with molasses cargoes for the Crosby Molasses Company. Both vessels made the passage in sixteen days. The Water Witch brought on board passengers twenty-four negroes and two whites; some of them are going to Ontario, and Sydney, N. S. The Water Witch called at St. Vincent for five passengers, and had fog for about four days, from lat. 30 until the vessel reached the Leeward Islands.

The Nicola had a fine run and made port at the same time as the Water Witch. The best day's run made by the Water Witch was 202 miles. As both these vessels are clipper built and are now moored at Walker's wharf discharging, they present a pretty sight. Both are painted white and are sleek looking crafts. Both vessels left and arrived together, but on the whole voyage they never were in sight of each other.

Inspector Lantulum and Dr. Ellis examined the passengers of the Water Witch and all were allowed to land.

The Nicola has on board 200 puncheons, 25 casks, and 20 barrels of molasses, and the Water Witch 412 puncheons, 32 casks and 96 barrels of molasses. The Nicola sails from Lunenburg, N. S., and the Water Witch, Liverpool, N. S.

SIR WILFRID AT
THE CONFERENCEWhat a Writer in the Ottawa
Journal Has to Say of Laurier's
Achievements in England.

OTTAWA, July 22.—(Special)—John S. Ewart, K. C., a writer on imperial subjects, in reviewing the work of the Colonial Conference in the Evening Journal, concludes as follows:

"Two points principally remain in one's mind as one rises from a perusal of the records of the 1907 conference.

"First of these is the facility with which all suggestions of imperial federation, all proposals for even a commencement at it are turned aside by the principle of colonial self-government. It is, as Sir Wilfrid says, 'We can keep this in view, show us if you can, how Canada can be a completely self-governing community and yet in some respects be under other control than her own. If you cannot, then tell us plainly whether you want Canada to be self-governing or not.'

"And a second point is the wonderful way that Sir Wilfrid keeps his eye on the ball, as the golf men say, and keeps control of his clubs. He is an extraordinarily expert player at that great game of politics. Mark his patience, exerting far more influence at the conference than all others, he remained silent while others spoke more than 600 pages of debates. He made but one speech on 'Preferential Trade,' one short one on the 'All-Red Route,' and the rest of his remarks consisted of little more than reminders or check marks. But let us not forget that Sir Wilfrid had the enormous advantage, not only of a Canadian training in the ideals of self-government, but in the fact that he was well assured that Canada agreed with all he did. There is no reason to think that had Mr. R. L. Borden been at the conference and that he had been in any essential particular different from Sir Wilfrid's and Sir Charles Tupper has very generously published his approbation of Sir Wilfrid's action. Nevertheless Sir Wilfrid was for the moment in command. He did his work magnificently. Canada does well to honor him for it upon his return to his native land."

The Methodist ministers met this morning in the parlors of Centenary church. A communication from the president of the conference on behalf of the committee on application to England for men to fill vacancies in this conference stated that nearly all vacancies were filled and application to England would be unnecessary.

A BODY FOUND
IN THE HARBORA Badly Decomposed
Corpse Picked up
Today

IN LOWER COVE SLIP

Probably Wm. A. Goldsworthy
Who Disappeared from Tug
Lord Kitchener Some Weeks
Ago—An Inquest Unlikely.

A body, badly decomposed, was found in Lower Cove slip about 5.30 o'clock this morning by Wm. J. Turner, a fish dealer. Turner notified Patrolman James Ross and the two towed the body to the steps and notified Coroner Berryman by telephone, who ordered its removal to the morgue.

From what can be ascertained at present the corpse is probably that of William A. Goldsworthy, a member of the crew of tug boat Lord Kitchener whose disappearance has been unaccounted for, for the past three weeks. Goldsworthy, who, it is said, was a Nova Scotian, was, with four others, transferred from the government steamer Lansdowne to the Kitchener as the latter has been doing duty while the government vessel is being repaired. He was known on the Kitchener as "Billy Halifax," and his name appears on the pay sheet as such though he signed for his wages as W. A. Goldsworthy. The register of the Lansdowne also bears the same signature.

From the condition of the body identification is difficult.

Arthur Jefferson, boatswain of the Lansdowne who was well acquainted with the missing man, after visiting the morgue expressed the opinion that it was Goldsworthy.

About a dozen others also viewed the remains and the general opinion expressed was that it was none other.

Coroner Berryman said that from present indications there would be no inquest. He also expressed the opinion that from the length of time Goldsworthy has been missing and the state of the body everything would point to a positive identification. The body will be buried tomorrow.

in Pittsburgh Auto Accident Last
Night.

PITTSBURGH, Pa., July 22.—John J. Wallace, a well known business man of this city is dead with a broken neck, his wife is dying with internal injuries and J. S. Henner, and wife, friends of the Wallaces, are in a serious condition as a result of an accident to their motor which plunged over a 150 foot embankment on the road to Butler last night. About 5 miles out from this city the chauffeur stopped the car to inquire as to the direction to Butler. The car started without apparent cause and the chauffeur jumped up on the side step of the motor, but before he could get control, the machine with the entire party, plunged over the embankment and landed in a big tree. Wallace was dead when picked up. The others were unconscious.

PROBATE COURT

Several Cases of Importance
Were Taken Up Today

In the probate court this morning the matter of the estate of the late Countess de Bury came up for hearing and postponement was made until August 25.

Further hearing in the estate of the late Wm. Jordan was postponed until September 3rd.

In the matter of the estate of the late John Thompson, a citation had been issued on July 11, and made returnable today calling on Enock Thompson, administrator of the estate of John Thompson, the deceased, to show cause upon the petition of Deborah A. Thompson, why an order should not be made to compel the administrator to file an inventory of the estate, also accounts of his administration of the said estate. S. A. M. Skinner acted as proctor for the petitioner and Silas Alward, K. C., for Enock Thompson, with whom was associated J. Douglas Hazen, K. C., as counsel.

On the opening of the court it was made to appear that the estate had already been administered in equity, the judge having decreed upon it and the amount as decreed and been paid. It was shown that Mr. Corey, A. O. Barle, K. C., counsel for Mrs. Deborah A. Thompson, in full settlement of all matters in dispute.

On Mr. Skinner's application adjournment was made for a week.

In the estate of the late C. L. Corey, an application was made by the administrator for power to sell certain property belonging to the estate. It was shown that Mr. Corey had been dead only a few months and the question arose as to whether such power could be granted inside of six months from date of decease. It also developed that the administrator was a creditor and the question arose as to whether, she, as a creditor, could make such application.

The matter was adjourned until Friday next.

THE TIMES NEW REPORTER

JAMESSEY'S RESOLUTION.

Our esteemed fellow-citizen, Mr. Jamessey Jones, has been asked by the Select Committee of the House of Commons to prepare a paper on the relation between Hot Weather and Boozing in the Progress of Civilization.

Jamessey was around town on Saturday evening looking for material. He witnessed several fights, listened with groups of children to much foul and filthy language, saw many persons under the influence of liquor which they procured after the legal hour for closing bars, and concluded

his tour with a visit to the lockup where a few (only sixteen) of these persons diffused an atmosphere of stale beer, tobacco, perspiration and profanity.

Jamessey confessed to the Times new reporter that he had secured much valuable information, but had decided that before writing his impressions he would go and pay up his back dues in the temperance organization with which he is connected.

Enquirer—You are quite wrong in paying any attention to rumors to the effect that work is not going on satisfactorily on the west side of the harbor. There has never been any difficulty over there. No mistakes have been made. No money has been wasted. Everything has worked like clock-work. All work has been ac-

ording to specification and finished sharp on time. A west side contractor can always be depended on. He is a philanthropist. There is no need of a director of public works. The department can run itself. St. John is an exceptionally happy community in this respect. Every one knows as much as his boss and the boss knows as much as the aldermen, and the aldermen say that everything is all right. What more do you expect? Go chase yourself.

CASE WAS
ADJOURNEDDeAngelis-Harrington Case in
Police Court Goes Over Un-
til Wednesday.

The case against Charles W. Harrington and John De Angelis the shoe chisels, for fighting together in front of the latter's establishment, King street, on Saturday night was given an airing in the police court this morning and adjournment was made until ten o'clock on Wednesday morning.

As stated in another column of this issue, the trouble arose out of a statement made by Harrington that he had lost a purse containing \$55 and had some words with De Angelis, who intimated that Harrington suspected some of the employees of the shoe shining establishment.

John Gridley, the first witness told of seeing De Angelis and Harrington in conflict. He saw Antonio De Matteo strike Harrington on the jaw with the metal cigar cutter.

Hert. Sharp an Englishman, who is employed on the new Royal Bank building said he saw De Angelis and Harrington in a clinic and saw De Matteo throw the cigar cutter at Harrington. De Matteo later to the conclusion that it was a dirty row and that two men were fighting and that a third stood in the doorway and deliberately threw an iron instrument at one of them. Previous to this he had heard Harrington tell De Angelis that he would have him arrested.

Thomas Pope swore he saw Harrington and De Angelis in a scrap. He saw a cigar shot come out through De Angelis's store door and strike Harrington's head causing blood to flow.

Ernest Kenney told of seeing De Angelis and Harrington fighting. He also told of taking Harrington to the Dufferin where the blood was washed from his face and later to the drug store and from there to the central police station.

Walter Deenen told of seeing Harrington and De Angelis fighting and that he was arrested and bleeding but did not see the fight.

An adjournment was made until Wednesday morning at ten o'clock and it was arranged that the depositions held good till then.

THE SATURDAY
NIGHT DRUNKSSixteen Prisoners on the Police
Court Bench This Morning
Summarily Disposed Of.

From the number of cases of drunkenness recorded on the arrest book at police headquarters it may be safely assumed that Saturday night and Sunday jags are popular with a certain element in St. John.

There were sixteen prisoners in the police court this morning and the majority were drunk.

Joseph Robichaud was fined \$4 or ten days for being drunk on Union street, and Edward Murphy, Hugh McAdam, Michael Malone, Daniel Daley, Frank Danaher and Michael Cogswell were fined \$8 or from twenty days to two months on similar charges.

Robert King and Andrew Ganson were fined \$20 or two months each for fighting together on Mill street.

Charles Burns and Laura Holmes forfeited \$8 each for lying and lurking on Lawton's wharf.

Kenneth McLean, about 50 years old, of Glace Bay, and who arrived in the city on Saturday, bound for Alberta, lost his ticket while here and was endeavoring to have the C. P. R. help him out.

Attention was also called by a west side citizen to the fact that the city is paying \$5 a day to the C. P. R. for a pile driver, is supplying all the material and paying the men for doing work that will only be used by the C. P. R. He expressed the opinion that the C. P. R. should do this work of restoring the tracks at its own expense.

In connection with the dredging on the west side it is stated that a scow of mud was hung up for over an hour in the channel, one day last week, having grounded at low water. It is pointed out that a great deal of work is yet to be done in the channel is dredged sufficiently to allow the new wharf to be used this winter.

WORK TO BE DONE OVER

Foundations of New Warehouse
Must Be Moved to Make
Way for Grain Conveyor
A Director Needed at Once.

The need of a director to take charge of the various works now under way on the west side, has become very apparent the past few days.

been remedied in time to save doing a lot last week because of a misunderstanding about the foundation of the warehouse and it now transpires that sufficient allowance was not made on the southerly side of the wharf for a grain conveyor and as a result Mr. Clarke will have to tear up some bents and piling already put down and shift the foundation for the warehouse two feet to the north.

If a competent director had been engaged on the work, these matters could have been remedied in time to save doing a lot of work over the second time.

About 100 feet of the foundation for the warehouse has been completed according to the original plans and were it not for the changes that will have to be made, Clarke & Adams could commence the erection of the warehouse tomorrow morning.

The commencement of these recent delays, for there were others at various times caused through the lack of proper supervision, was made last week when Mr. Clark was over on the east side on business and when he returned he found his men knocked off. He inquired what the trouble was and received the reply that Mr. Duffy, the city inspector had told them to quit work as the foundation for the warehouse was too low. Mr. Duffy on being asked about the matter said he was acting on instructions from Engineer Peters.

Subsequently a meeting of the west side improvements committee was held and on the evening of that day Mr. Clarke received word to go ahead, that the foundation would be made to do, as it was. However, one day had been lost and it was late on the following day before the hoisting scow could be put back at the work, so that two days' time was lost.

It now seems that only fifteen feet was allowed on the southerly side of the wharf from the warehouse to the face of the wharf and it will be necessary to change the plans so that seventeen feet will be obtained in order to put the conveyor down.

This will necessitate Mr. Clark's tearing up a portion of the structure on which the railway tracks will run to make longer piling for continuing the warehouse two feet north. About 80 extra piles will be needed, and as this is extra work, of course it will mean extra expense. Just how much could not be learned, as, although the west side committee met this morning and received a report from Engineer Peters on the matter, they refused to discuss any of the business done.

It is also reported that there are several omissions from the specifications of the wharf, that will make a lot of trouble in the future if they are not remedied.

It was stated that the northerly section of the Clarke wharf was too low for the C. P. R. to lay their tracks to it from Union street, but investigation this morning showed that there was no foundation for the report. Inspector Duffy said the wharf was the same height as the Sand Point wharves, and there would be no trouble for the C. P. R. to lay their tracks on a slight grade.

Attention was also called by a west side citizen to the fact that the city is paying \$5 a day to the C. P. R. for a pile driver, is supplying all the material and paying the men for doing work that will only be used by the C. P. R. He expressed the opinion that the C. P. R. should do this work of restoring the tracks at its own expense.

In connection with the dredging on the west side it is stated that a scow of mud was hung up for over an hour in the channel, one day last week, having grounded at low water. It is pointed out that a great deal of work is yet to be done in the channel is dredged sufficiently to allow the new wharf to be used this winter.
