LONDON STATIST ON STOCK MARKET

Gives Reasons for the Great and Prolonged Dullness on the Exchange.

NEW YORK, May 22—New York brokers may complain—and with reason—of dull times, but they may congratulate themselves that they are not located in London, for there "the oldest member of the Stock Exchange does not remember a time when business has been so utterly wanting." London wraps its stock market dealing in mystery, hence no statistics of transactions can be quoted; can be accepted as the truth is that business is at a low ebb. Why?

This question is discussed by the "Statist" to hand yesterday. Summarizing the causes of depression, it says:

"First among them is the long and painful liquidation during the first quarter of the present year. That liquidation made it necessary for large amounts of stocks to be taken over and nursed, and as the markets have not been favorable it has not been possible to dispose of them since. A second reason is the international situation — the temper of Germany, the anarchy of Morocco, the unsatisfactory relations between Austria and Hungary, the unrest of North Africa and throughout Asia, and, lastly, the state of the Balkan peninsula and of Turkey. A third reason is the fear of short harvests all over Europe and the United States. It is very early yet to entertain such fears, and it is especially early for the tears to affect either the money or stock markets. But that they have some influence upon both can hardly be denied. A fourth reason is the depression in the United States, in France and in Germany, the first and the last owing to the wild speculation of the past couple of years and the liquidation of the first three months of the present year, the depression in France being due partly to undue speculation in copper and diamond shares and partly to the active intervention of the Bank of France. A fifth cause is the strike in the Rand, which, coming after such a long series of disasters, very seriously affects the disposition of all markets The last cause of the depression to which we need refer is the intense dislike entertained by the city of the policy of the present government." However, improvement is predicted.

WORKING UP CROP SCARES

NEW YORK, May 22—Curiosly enough the house with which Mr. Jones, the crop expert, is connected, has been bearish on the grain outlook, and even yesterday its advices are not bullish, notwithstanding that Mr. Jones' estimate of 825,000,000 bushels is the lowest yet published. The total is 170,000,000 below last year's actual yield. On its publication wheat rushed up excitedly, though why it should have done so was not apparent to those closely posted, since it was well known last week that this report was to be published yesterday. Manipulators are unquestionably hard at work, and they are given every encouragement by the public, whereas the stock market manipulators have failed to muster up a following and have evidently given up in despair. One facetious Western authority on crops states that the greatest enemy the crops have had to endure has been the green bug that travels around the country in a Pullman car and whose movements are manouvered from Wall street. There is probably wisdom as well as wit in this statement.

Marlborough Lodge, No. 207, Sons of England, will meet this evening in Oddfellows' Hall, to arrange for their parade next Sunday morning to Main street Baptist church. A large number of candidates wil be initiated at this meeting.

The work of having the street railway tracks put through the Queen Square, Carleton, will be completed today. It is now being planned to have the loop from Union street run around to the northern side of the square to be connected with the present line. In about a week the line will be completed as far down as Union street and the cars will run down and return. When Union street is completed the round service will be given. A new switch was put in at Seaside Park yesterday.

A lady complains to the Times that the fence between the Suspension bridge and the asylum grounds is in a dangerous condition. She states that while passing along the roadway yesterday she saw an intoxicated man reel towards the opening in the fence and he narrowly escaped rolling down the bank and into the falls below. The lady referred to suggests that the proper authorities should make it their business to see that the matter is attended to as the fence in its present condition is not a safe place for children.

THEATRES

CAMILLE SCORED HIT

The theatre goers still continue to show their appreciation of Kirk Brown and his excellent company. Last night Camille was presented before a good sized house in a manner that was highly commended by those present. Camille has been seen here frequently, but Kirk Brown as Adrian, and Miss Fields as Camille, last night well merited by their work the hearty applause of the audience. The other members of the cast, without an exception, handled their parts with great ability and added much to the success of the presentation.

This evening The Lady of Lyons will be put on, the play in which Kirk Brown takes particular pride. The lovers of the stage were greatly pleased with the play as presented by Kirk Brown before, and no doubt fine acting, handsome scenery and elaborate stage settings will be enjoyed this evening by a crowded house.

For the holiday attractive bills will be presented afternoon and evening. In the afternoon The Cherry Pickers will be the attraction, and the evening bill will be A Gentleman of France.

MR. JELENKO NEXT WEEK

Monday night will signalize the return of the popular Lyceum Stock Co with N. L. Jelenko and all the favorites in the cast. The return of this splendid company, which has been filling a profitable engagement in Halifax, will be warmly welcomed by patrons of the Opera House. "A Night Off," one of the best comedies ever written, will be the opening attraction on Monday and Tuesday nights, and will introduce N. L. Jelenko in a role which he made famous in St. John three years ago with the Daily Stock Co. Mr. Jelenko will portray the character of Marcus Brutus Snap, a broken down actor, who essays to produce a drama written by a college professor. The play turns out to be a failure and amusing complications ensue, which keep the audience continually laughing. Mr. Jelenko has wide scope wherein to display his versality and his support, including Frank Powell, Harry G. Hockey, John Stepphing, Jack Butler, Milton Dawson, W. J. Baumann, Miss Lee, Miss Hollis, Miss Hicks, Miss Atkinson and Miss Arno will all be seen to advantage. "A Night Off" ensures an enjoyable evening, and the company will be given a cordial reception on Monday night. Thelma will be revived by popular request at the Wednesday matinee with the melo-dramatic success, "Sherlock Holmes, in The Sign of the Four," on Wednesday night and Saturday matinee. There will be a souvenir and reception matinee as usual.

CHANGE AT THE NICKEL

As regular as the days of the week, comes the "mid-week change" of programme of motion pictures and illustrated songs at the Nickel on Thursdays, and at noon today an entirely new series will be reproduced. They are five in number and are entitled Love and Money, Lady Plumpton's Motor Car, Jail Birds, An Evil Day, and the Rival Brothers. Mr. Austin will sing Nobody's Little Girl, illustrated by means of some beautifully colored shides.

If one may judge by the phenomenally large attendances throughout each day, the Nickel has touched a popular chord, both in the class and quality of entertainment and in the remarkably small price of admission. And who, indeed, is not in a position to expend this sum two or three times a week on good clean amusement—which is also of considerable educational value? Very few to be sure.

The management announce that the performance will commence at 10 a. m. tomorrow, Victoria Day, and run till 10.30 with the usual intermission from 6 p. m. till 7 p. m.

SECURE A GOOD SEAT

The seating plan for the Ralph Connor evening at the Opera House Friday, May 31st, will be open for the exchange of advance sale tickets at Hall's bookstore on Tuesday morning next at 8 o'clock. Tuesday and Wednesday are given holders of these advance sale tickets to secure their seats before any sale to the general public. The surest way to get a good seat is to buy a ticket now from any member of the Marathon Athletic Club, as no extra charge is made for these advance sale tickets.

VICTORIA RINK

The re-opening of the Victoria Rink for a season of roller skating will prove a boon to all lovers of this healthful recreation. The Victoria, which is acknowledged by everybody to be the best ice rink in Canada is equally as famous as a summer roller rink. Its magnificent floor space, as smooth and level as glass; its gigantic height, giving a pure breathing area, free from the impure and unhealthful atmosphere usually found in all low-ceiling rinks; the obnoxious roar and din of the hollow floor, cramped roof and vile-smelling roller rink is unknown in the Victoria Rink, which is a veritable palace when compared with those dens of disease, too often styled roller rinks. When out for a night of clean, healthful recreation on roller skates, attend the Victoria Rink and enjoy pure air, have gentlemanly attendants and every attention usually found in first-class, well conducted places of amusement.
