COREAN GLUED CLOTHES

"In Corea," said a tailor, "needle and thread are unknown to tailoring. Their place is taken by glue."

"Glue?"

"Glue. A peculiarly fine, strong glue made of fish. Making Corean clothes, the tailor does not bring two edges of cloth together and slowly and painfully unite them with fine stitches of the needle. No, he overlaps the edges slightly, brushes on a little glue, presses the seam together and sets the agrment away to dry.

"I wore glued clothes in Corea and found that they lasted almost as well as if sewed."—Minneapolis Journal.

Joyful Jokes.

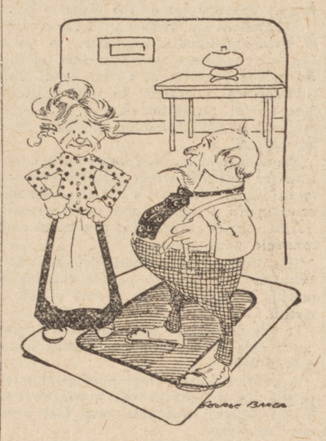

By GEORGE O. BAKER.

THE RESPONSIBLE PARTY.

Customer—Three of those eggs you sent me were bad.

Fresh Clerk—Don't talk to me, ma'am. Blame it on the hen.

She—I am sorry I ever married you! He—Oh! don't worry about me. I'm pretty tough and can stand it!

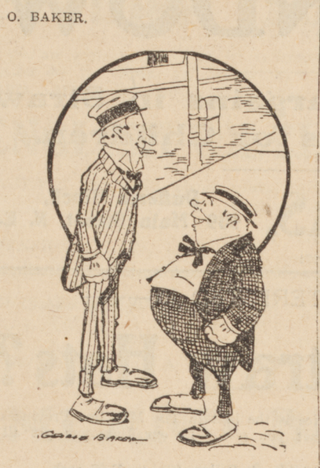

IN THE BOOK SHOP.

The Clerk (a joker)—Have you read this bit of fiction, "The Story of a Bird?"

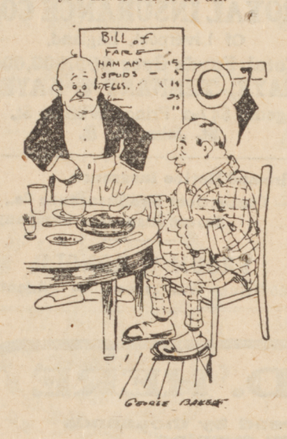

Customer—It's pretty highly colored, isn't it?

The Clerk—Yes; it's a peacock tail.

The Tall Man—They put the pictures of great men on our money to keep them in the public eye.

The Short Man—Don't do any good. Why, if you have a one-dollar bill you can't keep it long enough to get acquainted, and if it's twenty dollars the chances are that you never see it at all.

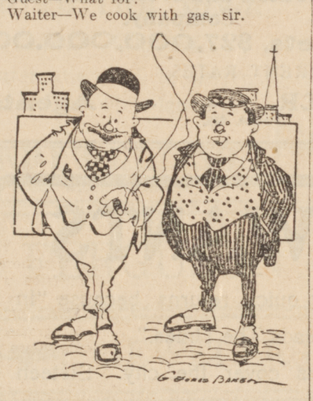

EXPENSIVE.

Guest—That steak is too rare. Take it back and have it cooked well done.

Waiter—It'll cost you 25 cents extra, sir.

Guest—What for?

Waiter—We cook with gas, sir.

THE MOSQUITO.

Jinks—What is good for a mosquito's bite?

Wink—Most any sort of human flesh, I believe, is considered good.

NEW CANADIAN ATLAS

A specially designed atlas of Canada, is the latest publication of the Department of the Interior. It was prepared by James White, F. R. G. S., the department's geographer, and, besides maps showing the political divisions of the country, contains geological, mineral, tree line, telegraph and telephone lines, railway, canal and sailing route, isothermal, temperature, population and boundary charts, with a mass of information from the census tables and government records bearing on the commerce of the country. As a book of reference it is of high value, and should be appreciated by those who have occasion to require such a work.
