THE SITUATION IS
GROWING SERIOUS**French Writer Predicts War Between the
United States and Japan With Japan
as the Victor---Secretary Taft Says
There Will Be No War.**

PARIS, June 11--Ernest Judet has a remarkable article in L'Eclair in which he declares his belief that war is inevitable between Japan and America.

"In the contest for control of the Pacific, America will lose," says the writer. "A few years ago the United States loudly boasted of her position in the world between Europe, which she did not fear, and Asia, which she treated with contempt. Everything is changed now. The Pacific Ocean, which was supposed to be an American lake, is simply a dangerous route for invasion which is open to Japanese ambitions. President Roosevelt's recent pacific actions can be imputed to his desire to stave off the evil day.

"But the Japanese are not duped. They know the weakness of the American army, the difficulties experienced in beginning the Panama Canal work and the condition of the American fleet, which has good ships but crews made up of adventurers of all races, including many Japanese."

M. Judet thinks that many troubles in American ports are due to the influence of foreign agents and spies, and he concludes that if a hostile war fleet should arrive the ports would be devoid of all security.

SEATTLE, Wn., June 11--General Baron Kuraki, spent his last day yesterday in the United States busily. He gave a luncheon in a local hotel to prominent mem-

bers of the local Japanese colony as well as several prominent citizens, James Dunsmuir, lieutenant governor of British Columbia, with Mayor Moreley of Victoria, were among the guests. In the evening the baron and suite were given a reception by Judge Thomas Burke of the Asiatic Society. From this reception the baron's party was taken in carriages direct to the steamship Kaga, which will sail today for the Orient.

A Deal With Italy

ROME, June 11--It is reported here that M. Kogoro Takahira, ex-Japanese minister to the United States, who is announced, is to be appointed Japanese ambassador to Italy, is charged to negotiate an agreement between Japan and Italy, connecting the country with the chain of treaties Japan is making with European powers regarding the Far East.

Taft Says No War

MILWAUKEE, Wis., June 11--U. S. Secretary of War Taft, in an interview last night said that there would be no war with Japan. He had faith that the United States and Japan would continue their way along most peacefully together. The secretary said: "Never mind the news that keeps coming, it does not always mean all that it says. We will have no war with Japan."

**SALARY OF COLLEGE
JANITOR IS \$18,435****"I Think I'll Take That Job
Myself," Says Metz at Board
Meeting.**

NEW YORK, June 10--For a few moments last Saturday every member of the board of estimate and apportionment considered the question of resigning his position and accepting an appointment as janitor of the college of the City of New York. This was due to a resolution fixing the salary of this worthy at \$18,435 a year.

"What in the world is this?" exclaimed the controller when the resolution was reached on the calendar. "Eight thousand four hundred and thirty-five dollars a year to a janitor! I think I'll take that job myself, and I'll throw off that odd thirty-five dollars besides."

Patrick J. McGowan, who championed the resolution, explained that the janitor was forced to pay all of his help out of this sum. He said that the items for scrub-women, window cleaners and other laborers brought his own salary down to a very small figure.

**MRS. EDDY CALLED
A MENTAL WRECK****"Next Friends" File Amended
Complaint, Emphasizing Her
Hallucinations.**

CONCORD, N. H., June 10--An amended complaint in the suit brought by "next friends" of Mrs. Mary Baker Eddy, head of the Christian Science Church, to secure an accounting of her estate, was filed by counsel for the plaintiffs. The amendment is intended to emphasize the portion of the original bill in equity relating to alleged hallucinations and delusions of Mrs. Eddy.

The amendment declares that Mrs. Eddy has not only been for a long time in need of protection, but that her mind is and has been for many years so impaired because of hallucinations and delusions that her contracts and business transactions are of doubtful validity.

The plaintiffs demand an accounting from all persons who have had any business transactions with Mrs. Eddy.

SUMMER HOTEL BURNED

NORWAY, Me., June 10--The Glen Mountain House, a hotel with accommodation for 100 guests, stables, George Stephens' store, two dwellings owned by him and Edward Andrews' ice-house and automobile garage, at Bryant's Pond, 18 miles from Norway, were burned today, resulting a total loss of \$15,000.

The fire started near the chimney in the hotel kitchen and spread with such rapidity that some of the guests did not have time enough to save their personal effects.

Norway and Locks Mills sent assistance to the village. The fire was placed under control after the flames had extended to and destroyed Stephens' and Andrews' buildings.

Misses Jessie and Florence Ward, sisters of Clarence Ward, the mayor's clerk, arrived in the city on Saturday evening from Providence, R. I., and are staying with Mr. Ward at his home on Queen street. They will leave in a few days for St. Martins where they will spend the summer.

**KICKED DOWN STEPS
OF THE CITY HALL****A Russian Gets a Warm Re-
ception from New York's
Mayor.**

NEW YORK, June 10--After being kicked from the front and rear steps of City Hall several times and being repeatedly ejected from the length of the corridor leading to Mayor McClellan's office, Charles Gaiinoff, a young Russian who speaks little English, was locked up in the Tombs in default of a fine of \$10.

Gaiinoff says he was arrested unjustly and improperly treated by the police. Several weeks ago, unable to secure redress, he went to appeal to the "Mayor." He had been haunting the outer offices of the "Mayor" since Monday.

He was thrown out of the lobby in front of the "Mayor's" private office several times, but came back each time. He was kicked from the "Mayor's" office, and then out of the front door and down the broad marble steps.

Gaiinoff was back to the City Hall early in hope of getting to the "Mayor." Saturday afternoon he entered the lobby and refused to budge until he had been conducted to the "Mayor's" office. Unable to beat him into submission, the police placed him under arrest. He fought desperately, but was dragged to the substation in City Hall.

He was taken to the Centre street police court, where Magistrate Moss sent him to the Tombs for ten days in default of the fine.

MR. MAYES'

COAL SHED

**Expected There Will Be Strong
Opposition to Erection of
Coal Shed on Rodney Wharf**

It is altogether likely that quite a strong opposition will develop among the aldermen against the proposal to allow G. S. Mayes to build a coal shed on North Rodney wharf. An alderman speaking of the matter said he would certainly oppose it unless the city was to get a good rental.

The fact that Mr. Mayes would give the building to the city when he was through with it, the alderman claimed, was no argument in its favor, as the city had no use for an old coal shed. He thought also that it would be annoying for the passengers on the ferry to have the coal dust blowing down on them.

A DYNAMITE HORROR

PANAMA, June 11--A premature explosion of dynamite yesterday at Pedro Miguel, on the Isthmus of the canal, resulted in the instant death of seven men and the wounding of several others. Four men were killed a short time ago at the same spot by another premature explosion.

The funeral of the late Mrs. Eliza Vincent was held this afternoon at 2:30 o'clock from her late residence, Richmond street to Fernhill cemetery, where interment was made. Rev. Mr. Comben read the burial service.

While John Hannay was driving along Main street, opposite the car shed, this morning, the wheel of his milk team caught in the switch and left the body of the wagon. Fortunately none of the milk was spilled.

The concrete pipe on section 2 of the water extension will be tested this evening. Men have been making repairs and it is thought that their work is now about completed, but test will be made and the pipe examined again before the supply is permanently turned on. Chairman Frink of the water and sewerage board will go out to the scene of operations this afternoon.

INTEREST NOW CENTRES
IN WHAT ADAMS MAY SAY**Steve Adams Expected to Tell a Story Rivaling Orchard's at
the Haywood Trial--Lawyers for Defence Intimate There
Was a Counter Plot on the Part of the Mine Owners.**

BOISE, Idaho, June 11--There is much speculation as to what Steve Adams will say when placed on the stand as a witness for the state against Wm. D. Haywood. Orchard has said that Adams was his partner in many of his most desperate undertakings, such as the blowing up of the Independence Depot. Adams, who came to Boise yesterday from Shoshone County, where he is awaiting trial for murder, is said to be in a sullen mood and not likely to answer any of the questions. It is known that his repudiated confession is in the hands of counsel for the prosecution of Haywood, but it is doubted if this confession can be brought within the cognizance of the jury unless Adams himself consents. Mrs. Annie Adams, who has been in Boise since the trial began, and who is in daily attendance at the court room, saw her husband at the county jail last night. Mrs. Adams is one of the few with much influence over her husband. It was at her solicitation, it is said, that he repudiated the confession he made last

year. He went so far after making the confession as to travel to Colorado with General Bulkley Wells, and report has it under the direction of Adams, evidence was discovered that cleared up the mysteries of the several disappearances. Skeletons of non-union miners who were believed to have been killed, but the proof of whose death had never been found, were discovered.

It is said that should Adams be acquitted for the murder for which he is yet to stand trial, the Colorado authorities will request the governor of Idaho and will charge the murder of Collins. There is some belief that Adams may yet repeat his alleged confession.

Counsel for the prosecution say they are not depending on Adams to confirm Orchard's story, but they have sufficient corroborative testimony.

Harry Orchard goes on for his fourth day of cross-examination today. He shows not the slightest sign of fatigue. On the contrary he grows apparently stronger, clearer and more unshakable every minute.

Even counsel for the defence admit he is a native.

Today he will complete his story of the attempt to kill Fred Bradley, former manager and now president of the Bunker Hill mine, which was blown up by the striking miners in 1898.

As in the rest of his cross-examination, Orchard, under the fire of questions, has only strengthened his direct testimony as to the San Francisco story. He is going into the most minute details and has given the names of a dozen people who can confirm or deny. For instance, he has said where he bought the strychnine for the milk, where he bought the gunpowder, how and where he got the money from Pettibone, and the names of the servants. He took the cook to the theatre, he said, in order to find out from her the habits of the household, and as the he placed strychnine in the milk, that by his own admission might have poisoned a baby, the mother, three women servants and Fred Bradley.

**GUILTY, BUT DON'T
DO IT ANY MORE****Men Who Went Fishing in Lily
Lake on Sunday Dismissed
With a Caution.**

"You had better not do it again." It was with this caution that Hugh Logan, Sylvanus Seely and William McIntyre, charged with poaching at Lily Lake on the 8th inst., were sent out of court this morning.

They were warned also that a repetition of the offence necessitate their facing not only a charge of poaching but one of Sabbath desecration.

None of the young men had really done any fishing, but were about to do it. Logan said he was driver for a local house; Seely is a blacksmith's helper in Cushing's mill, and McIntyre is a cooper for James Ready.

They had started to fish Farren's brook, and had landed at the lake referred to and were looking for good fishing spots.

His honor told them that if they had been dabbling with liquor he might have fined them \$8 each, but since they had been dabbling in water he would stretch a point and let them go.

**THE MCCLARY
THEFT CASE****Witnesses Cross Examined in
the Police Court This Morning**

Preliminary examination in the McClary theft case was resumed today, when the defendant, Geldert, was cross examined and the evidence of Manager Irvine of the McClary Co. concluded. His honor said there was enough evidence to send up Oscar Petersen, the second defendant, on a charge of assaulting and beating him in a yard off St. James street, was also remanded, as was Fred Wilson, charged with receiving stolen goods, which he knew were stolen.

The prisoner, Geldert, was allowed out on suspended sentence on \$1,000, and instructed to appear June 29th for sentence. D. Mullin, K. C. for Petersen; J. B. M. Baxter for Geldert, and Dr. A. W. MacRae for the McClarys.

POLICE COURT

In the police court this morning Thomas Dunlap and Maude Lester, found together in Dunlap's home, off Union street, were remanded. Dunlap is charged with adultery and the Lester woman was very drunk.

Samuel Baxter, given in charge by Caroline Arsenault, on a charge of assaulting and beating her in a yard off St. James street, was also remanded, as was Fred Wilson, charged with receiving stolen goods, which he knew were stolen.

Frances Valandria, charged with deserting from the bank Titanic, was remanded, and the case of Joseph Carr for using bad language was set aside for the present.

J. Mills, who has been catching for St. Joseph's team left this morning for Presque Isle, where he will join the Presque Isle team. Mills was asked to bring McEachern with him but "Don" is not in the city.

THE TIMES NEW REPORTER

CIVIC ORNAMENTATION.

The addition of a large, bright red box, beside the little dark red box, to the area around the "three lamps" at Reed's Point, is much praised by observers of an artistic temperament. In addition to these boxes there are three old unpainted posts standing at various angles, in a careless sort of way, like the dead trees in Queen Square. The whole effect is very impressive, and visitors arriving by the Boston and Digby steamers often stand for some time to admire the evidence of a local appreciation of the "city beautiful." The proprietor of a hotel down that way has said that in his opinion a nice grass plot would look better, but such an idea is absurd, even when hay is twenty dollars a ton. He also insists that the posts, if they

must be left there, should be painted. But a man of that kind would use colored man-

uments in a cemetery. He has no soul for art, nor reverence for the ancient days.

MR. BINKS IS WORSE.

Mr. Peter Binks, we regret to state, is not so well today. It was noted yesterday that this valued fellow-citizen had contracted a chill by going out without his overcoat and mittens. A few days ago he had removed the double windows from his residence, and had permitted the fire in the furnace to go out. This was unfortunate, as yesterday the house was so draughty that Mr. Binks took more cold, and is today confined to his bed with hot drinks, warm flannels, and a blazing fire in the grate.

AN AMERICAN SCHR.
LOST IN THE BAY?**Schr. Alma Evidently Struck on a Ledge
---She Was Full of Water When Spoken
by Steamer---Aside Park Man
Saw Her Turn Over.**

The American two-masted schooner, Alma, bound from up the bay to a port in the United States with a cargo of laths was sighted this morning about nine o'clock about six or seven miles off Partridge Island by the Norwegian steamship Pors, in command of Captain Hanssen, bound here from Sydney with coal.

She was firing signals of distress with the United States ensign flying reversed. Captain Hanssen went to the vessel's assistance and asked the captain and crew if they wanted to be taken off the vessel. The captain declined to leave his vessel but asked to have a tug sent out to him. He placed strychnine in the milk, that by his own admission might have poisoned a baby, the mother, three women servants and Fred Bradley.

Captain Hanssen said he wanted to take the men off as he considered their position very dangerous.

The wind, at the time, was blowing hard from the north east, and had been blowing

in the early morning a perfect gale. The schooner was stuck under sail with, her foremast and jib hoisted but was drifting toward the west with the tide. The tug Neptune went out to the vessel at 11:30 o'clock this morning to tow her into port.

Harry D. White of the Frank White Company telephoned this office this morning about the accident. Mr. White had been at Seaside Park and early in the morning noticed the schooner coming along very slowly. She was deep in the water and from this he got the impression that she was coal laden. About 9:30 he saw her again, as far as he could judge about 1 1/2 miles southeast of Manawagonish Island. She seemed to settle in the current. Soon after the steamer Aurora for Grand Manan came along. She stopped and went close to the schooner but Mr. White could not see whether she took any men off or not. Then the Aurora went to another schooner which was apparently bound in the direction of Nova Scotia. Then the Aurora continued on her way. Shortly after, the vessel he had first seen, seemed to turn over.

**GIRL BRANDED BY
HOT HORSESHOE****Child Charges Employe of Her
Father With Inflicting the
Torture.**

NEW YORK, June 10--A case of extreme cruelty and torture, in which a little girl was the victim, resulted in the arrest of Pasquale Roman, fifty-three years old, of No. 214 Canal street, by Detectives Wall and Amocis of the Oak Street station.

Roman is employed as a tailor in the establishment of Leo Feldman, at No. 689 Cherry street. He had been ironing and pressing garments all day yesterday and was using a horse shoe as a rest for his hot iron. Lily Feldman, six years old, daughter of the proprietor, was playing about the shop late yesterday and in some way annoyed Roman.

The child was seized by the man, who tested the heat of the horseshoe iron rest with his finger and then pressed her back against the hot metal, branding her through her thin clothing with a terrible scar. She was treated by Dr. Burrows, of the Hudson street hospital.

Feldman complained against Roman and the detectives found him at work in the shop. He seemed surprised at his arrest and said that he had not meant to hurt the little girl, but merely to lift her to the bench in order that she might rest. He was locked up.

FUSHIMI IN OTTAWA**Experimental Farm Was Centre
of Attraction for Royal Visitor
Yesterday.**

OTTAWA, June 11--(Special)--Prince Fushimi got a royal welcome in Ottawa yesterday. After luncheon at Rideau Hall where his royal highness is the guest of Lord Grey, the prince and party were presented with a civic address at the city hall, and from there drove to the experimental farm, where elaborate arrangements were carried out under the direction of the deputy minister of agriculture Mr. O'Halloran.

Hon. Mr. Lemieux received the prince, who was accompanied by the governor general and took them to a marquee on the lawn, where there was an excellent exhibit of the products of Canada. After viewing the exhibit, and having a cup of Japanese tea with strawberries and cream, the royal visitor was presented with a fine album of views, illustrating the resources of Canada from ocean to ocean. On leaving the marquee the prince was taken to the cattle stables and the horse stables where there was a parade of the animals and the poultry quarters were also visited. This was followed by a tour of the whole farm. The prince was greatly pleased with what he saw. A state dinner was given at Rideau Hall last night and the prince left this morning for Brockville, Kingston and Toronto.

WILL OBSERVE NATAL DAY

HALIFAX, June 11--(Special)--Halifax aldermen decided last night after less than one minute's consideration to observe the 21st of June, the "nat", as a public holiday and they directed the mayor to proclaim it as such.

MAY HAVE BEEN DROWNED

WOODSTOCK, June 11--Mrs. James Brewer left her home last night and has not been found. It is thought she may have been drowned in Meduxnawick creek.

The secret service men who are working on the Lord case are hot on the trail of two men at Penfield, supposed to be the ones who assaulted and robbed Fred. Lord. This morning the detectives learn that two men had called at a Penfield farm house and bought some eatables, and then went into the woods. They are believed to be the guilty parties.

Convalescent (effusively)--"How can I ever repay you, doctor?"
Doctor (practically)--"By cheque, notes, or gold; and I hope soon, my dear sir!"
