MARATHONS AND MONCTON

Games Are Being Arranged Says Moncton Paper--They Also Have a Manager Donald

The Moncton Transcript of yesterday says:—Now that the base ball fever has died out, football has taken its hold Quite a number of the best obtainable material in the city assemble nightly on the M. A. A. A. grounds and turn out for practice. "Sandy" Donald, who so successfully piloted last year's team, is again at the helm this year, and he being popular with his team mates, as well as with the football enthusiasts, will no doubt put a strong team on the field. Arrangements are already being made with the St. John Marathons for a game on the local gridiron at an early date."

AMHERST TO HAVE THREE TEAMS

Amherst is to have three teams. The News of that town has this to say:—"It looks like three football teams for Amherst this year. The Ramblers, Nationals and Regals are all planning to put teams on the field. Although all three teams will be of fair calibre, as the best players will be divided among them, it is unlikely that any will be fast enough to trim provincial and college teams, so why could not we have a local league. Let the representatives of the clubs get together and discuss this matter. Our sports want some amusement between now and hockey time.

BASE BALL

Henry Pattee, the star second baseman of the Harrisburg Tri-State League Club, has been drafted by the Brooklyns, with Butler and Whiting, the Jersey City battery, and Jerry Hurley, of Toronto. Pattee was traded to manager Kittredge to play second base for the Royals last winter, but did not think well enough of him. He not only proved the best second baseman in the Tri-State, but at present leads in both stick work and stolen bases.

Ned Hanlon, manager of Cincinnati, will next season resume charge of the Baltimore team, which he practically own. It is reported that, as well as wanting to stay on the rules cmmittee, he is also looking for Pat Powers' berth as president of the Eastern League. One thing is sure—he never could make a worse mess of a schedule than P. T. made of the Eastern League schedule this season.

JOE KELLEY TO MANAGE THE TORONTO CLUB.

TORONTO, Ont., Sept. 10—Joe Kelley, manager of the Toronto Baseball Club, today signed a contract to manage the Toronto team next season. He will, of course, have to be a bench manager, unless Boston foregoes their draft on him.

THE AUTO

NEW AUTO RECORD.

Bernnin and LeCroix, driving a Renault car, won the 24-hour automobile race at Morris Park, New York, Saturday night, having covered 1,079 miles and beating by nearly 100 miles the American record for the time, made at Brighton Beach a month ago of 997 miles. A Lozier car driven by Smelzer was second with 972 miles and a Hotchkiss third with 892. The only other car to finish the race was an Allen-Kingston, which made 681 miles.

Only a few minor accidents marred the success of the race. A Lozier car, driven by Michener, met with an accident and ran though the fence, but without injuring either of the occupants. Several other cars met with slight accidents, but the four which finished went through the race without trouble.

GOLF

ANDREW JACK WINS THE CHAMPIONSHIP.

Andrew Jack won the championship of the local golf club yesterday from H. N. Stetson at the thirty-fifth hole. Both men were in good form, and throughout the four rounds it looked like anybody's match. They were even at the end of the second round, and at the end of the third Mr. Jack was one up. The match was not only a very close one but the play was admirable.

Equalled Professional Record.

West Newton, Mass., Sept. 11—J. D. Anderson, of Woodland, furnished a highly interesting play in the annual open scratch tournament on the links of the Braeburn County Club today, equalling the amateur record for the links with a card of 74 in the morning, and in the afternoon equalling the professional record for the course, held by Alex. Ross, United States golf champion, with a card of 70, contributing the best scores ever made by an amateur in tournament in Massachusetts.

ATHLETIC

HALFPENNY'S GOOD VAULT.

At the A. A. U. championships on Saturday Halfpenny, the Island athlete, now resident of Montreal, made a record of 11 feet 9 inches in the pole vault, but only finished fourth, E. T. Cooke, Irish A. C., New York, was the winner, with 12 feet 3 inches, who tied with C. A. Allan, New York, Cook winning in jumping off the tie. Glover, Chicago, was third with 12 feet. Ralph Rose, San Francisco, put the 16 lb. shot 49 feet 6 1-2 inches, beating the previous record of W. W. Coe, Portland, Oregon, by one half inch. Coe, who was also in the contest, scored only 45 1-2 feet.

HOCKEY

CROCKETT WILL BE THERE.

Says the Moncton Transcript:—"There have been many rumors that "Joe" Crockett, the veteran captain and rover of the champion Victorian hockey team, would not turn out this year, having decided to retire from the game. "I guess I'll be out again this year," Joe told a Transcript writer on Saturday afternoon, thus setting at rest the rumors that he would not be with the team again."

HAS HIS EYE ON THE DERBY

Kentucky Horseman Has a Colt for the 1909 Event.

NEW YORK, Sept. 10 — Clarence H. Mackay, proprietor of Kingston Stud in Kentucky, is the last American to make an attempt to win the English Derby. Mr. Mackay has his eye on the Derby of 1909, and a bay colt by Meddler out of Won by Waiting was shipped to England Saturday to be trained for this and other rich English stakes.

The colt is the only one reserved out of the sale of Kingston Stud yearlings at Sheepshead Bay, and Mr. Mackay's object in retaining him was primarily that he should ultimately take the place of Meddler at Kingston. In the meantime he will be racing abroad.

A reserve price of $15,000 was put on the colt when offered for sale, and Mr. Mackay's representative, who knew that it was not his desire to lose the colt, trembled in his boots when the bidding reached $13,500. But this was as far as the bidders would go, the colt remaining Mr. Mackay's property under the reserve clause.

A GOOD ONE CHANGES HANDS.

S. N. Dawson, Tryon, P. E. I., has sold his fast pacing mare Lady Evelyn to John P. Irving, Cape Traverse ,the veteran horse trainer and driver. A writer in the P. E. Island Agriculturist has an idea that this well proportioned, smoothly turned, black, three-year-old, will be owned in Charlottetown by a prominent horseman and sport shortly. He says: "Lady Evelyn is by Brazilian dam Minnie Lee, by All Right, a renowned race and brood mare. We hope to see Mr. Irving uncover this high class young pacer at Halifax, where she is entered in the three year old pace stake and forty class. The price paid Mr. Dawson, was the largest probably ever paid in the province, for a three-year-old, and those who have seen this mare step, claim she has unlimited speed although Mr. Dawson's other duties were such that he could not condition her.

CHARLOTTETOWN RACES.

The Charlottetown exhibition races on October 9th and 10th, will be the great provincial event of the year; $375.00 for a 2.18 class trot and pace; $400 for a 2.15 class trot and pace; $350 for a 2.24 class, trot and pace; $225 for a 240 trot; $150 for a two year old trot, and $250 for a 2.30 class trot and pace. Admirers of good racing should remember the dates, Oct. 9th and 10th.

AMERICAN JOCKEY A WINNER.

DONCASTER, Eng., Sept. 10—"Danny" Maher, the American jockey, scored a remarkable series of successes at the opening of the September race meeting here today. Out of seven starts he won three events in succession, was second in two others and once finished third.

Waterville Races.

Waterville, Me., Sept. 11—The third day of the Central Main Fair saw the largest crowd of the week present, about 12,000 people being on the grounds.

The racing in the afternoon was interfered with by a heavy shower after one heat in the 2.16 pace and one in the 2.20 pace had been run off.

The day's racing programme has been put off until 10 o'clock Thursday forenoon, and with the regular Thursday programme there will be six races run off. The summary:

James Donnaruma, manager for Albert Delmont, is out with a challenge to Jimmy Walsh. He says he can get a purse of $1,000 if the match is arranged, and is willing to fight winner take all. Donnaruma is willing to fight ten or fifteen rounds and Delmont will make 115 pounds.

THE OAR

THE HARBOR CHAMPIONSHIP.

There were but two entries for the harbor single scull championship, which closed with Herbert Vroom last night—W. J. Coates and James Ross.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

THE CZAR ON THE ROCKS

Hango, Finland, Sept. 11—The Russian imperial yacht Standart, with Emperor Nicholas and Empress Alexandra and their family aboard, is fast on the rocks off Horsoe, a point on the coast west of this place. The yacht is apparently in no danger, as the emperor and his family remain on board.

The Standart ran upon the rocks, which were submerged at high tide, at 4.30 o'clock this afternoon and remained fast. A steam lifeboat from Reval, on the Gulf of Finland, has arrived upon the scene and seven torpedo boats, which have been escorting the imperial yacht on its tour in Finnish waters, are standing by to render assistance if needed.

Paris, Sept. 11.—Premier Clemenceau announced tonight that he had received no further news from Morocco. He had instructed General Drude, the commander of the French expeditionary force, to deliver a sharp and decisive attack upon the Arab tribesmen when in his judgment the occasion is opportune.

WEDS GREEK POET IN CLASSIC ATTIRE

New York Girl Spends Honeymoon at Bar Harbor Clad in Loose Robe, Jeweled Sandals on Bare Feet and Flowing Hair.

BAR HARBOR, Sept. 12—Garbed like the Greek women of old, even to the filet on her head, Mrs. Angelo Sikelianos, who was Miss Eva Courtlandt Palmer of New York is honeymooning at Somesvillle, ten miles from here. About her statuesque form is a flowing classic robe; on her pink feet, otherwise bare, are jeweled sandals, and her ong hair, which falls to the floor, is loosely braided. Thus was she wedded yesterday at Brook End, the Bar Harbor villa of Dr. and Mrs. Robert Abee of New York, and thus will she journey over seas to the native land of her husband, who is a Greek lyrist of no small renown. Mrs. Sikelianos has adopted the Greek attire for permanent use.

The Rev. Stephen H. Green, rector of St. Saviour's Church, had to sit up all night translating the marriage service into French, for the bridegroom does not understand English. Miss Palmer, who is the daughter of the late Courtlandt Palmer, was attracted to Mr. Sikelianos by admiration for his poetry, which is distinguished by delicacy of sentiment and grace of expression. He is one of the youngest poets of Greece, being 26 years old. Miss Palmer was visiting Athens when Mr. Sikelianos was presented to her. She felt herself deeply interested in art and literature. The late Sir Henry Irving once asked her to play the Beatrice in his "Dante."

Miss Palmer and her fiance reached New York on La Lorraine Aug. 31, she in her classic costume. In Fifth avenue, on the Bar Harbor express and at this resort she was the observed of the observing.

OBJECT TO WASHING THEIR MILK CANS

If Milk Dealers Fulfil the Board of Health Demands Milk Will be Higher.

At a meeting of the Board of Health, held yesterday afternoon, the matter of compelling milk dealers to line up to the regulation requiring them to cleanse their cans before sending or taking them from the city was left in the hands of Col. J. R. Armstrong, counsel for the board. The milk dealers who were notified by Secretary Burns, about a month ago, that they would be compelled to do the work, have not yet communicated with the board.

When the matter of cleansing the cans was first agitated the board agreed to attend to it at the expense of the dealers. They applied to the I. C. R. for a site in or near the station on which to erect a plant, but as this was refused the dealers have again been called upon to do the work.

When the decision of the board in the matter of cleansing the milk cans was communicated to A. E. Macaulay, secretary of the Milk Dealers' Association, last night, he said that personally it would mean about $400 a year for him to take up the work and he did not feel like doing it. He added that the rest of the dealers look at the matter in the same way. They figured it out that it was worth one cent to wash a milk can. They had offered the board of health this rate for the work and that body, after taking nearly a year to consider the matter, expected them (the dealers) to get ready in two or three weeks. They did not feel like imposing on the people and raising the price of milk at the present time but they would be compelled to do so if the present trouble with the board of health and the farmers continued.

Mr. Macaulay in conclusion said that in the present temper of the dealers they would rather throw up the business than wash the cans. The board of health could take away their licenses if they chose. As for the chairman's remark about not allowing the cans to leave the city unless cleansed, in that event the people would have to do without milk as they would make no further effort to bring any in.

It is worthy of note that people taking only a pint each day, are at the present price paying 8 cents a quart for their milk.

CHEAP LABOR IS BEING IMPORTED INTO JAPAN

Strange Commentary on Present Influx from That Country to B. C.

In view of the inrush of Japanese laborers into British Columbia, the following from the Japan Advertiser of Yokohoma, received by the steamer Tosa Maru will be of interest: "While Chinese coolies are being imported by the Kagoshima railway, Korean laborers have been employed by the Yokohama railway (between Kanagawa and Hachioji) since May last, when 41 Koreans arrived at Yokohama on condition that the rate of wages should be 55 sen (27 1-2 cents) per day, if the laborers boarded themselves, or 25 sen (12 1-2 cents) if the employers provided their board. All traveling expenses from Kobe to Yokohama were paid by the railway company and it is agreed that after the completion of the work the company will pay half the amount of the homeward traveling expenses as a bonus. The rate of wages is almost equal to those of Japanese laborers, and, moreover, traveling expenses are paid, but fifteen or sixteen of these Korean laborers ran away recently, probably having been frightened away by threats. They are said to be engaged in the work on the Government Central railway at present. The employers of Korean laborers say that the results of the Korean work are not satisfactory and no more Korean laborers will be imported for the time being. On the other hand, the work of the Chines laborers is satisfactory, as already reported. Koreans are said to be disorderly, lazy and extravagant, but the Chinese work hard for money. The importation of Chinese and Korean laborers into Japan is believed to be due to the lack of laborers in this country as compared with the increase in the number of new enterprises."

The Chinese have since been deported, according to cabled advices.

WILL LEAVE THE ANGLICANS OUT

Church Conference at Toronto Decides to Form Church Union Without Baptists and Anglicans.

Toronto, Sept. 11—There was a large attendance of delegates at the fourth convention of the joint committee on church union which opened this morning in the Metropolitan church. Principal Kilpatrick, of Knox College, was elected chairman for the coming year. A communication was read from the Anglican body in reply to a request from the conference last year. It was, that as the general synod does not meet until 1908 no official reply could be submitted.

The report of the Baptist church was also submitted. It stated it was forced to decline on principle. This decision of the Baptist church was not altogether a surprise to the committee, who knew the feeling of the church on the subject.

From the nature of the meeting so far as the committee is concerned the union of the three bodies will be realized in the near future. By next Tuesday night the committee expects to have the proposition in such shape that it will be prepared for presentation to the various high courts of each church for acceptance. If all goes well at these church tribunals it will then be given to the rank and file of the church and a plebiscite taken. Should it be favorable to union there will still be a few years work before the step will be consummated.

THE FRENCH LANGUAGE IN MONCTON SCHOOLS

Acadians Petition for Establishment of Bilingual System.

Moncton, N. B., Sept. 11.—A deputation of citizens representing the French population, waited on the school board tonight and presented a petition asking for a more thorough system of teaching French in the schools. The petition was signed by about 500 French citizens and set forth the necessity of some such system prevailing as the Ontario schools for teaching the bilingual language in the public schools here. They want French children first grounded in their native tongue before being taught English.

L. C. Daigle was spokesman for the deputation. The school board replied to the effect that the provincial board of education was now dealing with this very question and the text books would be ready soon. In the meantime the board appointed a committee composed of Chairman Hawke, Dr. Bourque and H. H. Ayer to meet the deputation of French citizens and look into the matter.

EVERYTHING POINTS TO BIG WHEAT CROP

Winnipeg, Sept. 10—Some heavy frosts in northern Alberta on Sunday night caused some damage to backward wheat, but very hot weather was reported yesterday. No serious injury is reported by frost from Saskatchewan points, and in many places harvesting is in full swing. Specially good reports come from Indian Head district and large numbers of farmers are cutting and some have finished.

Lethbridge district states all grain is safe from frost, except a few late oats. Unprecedented sales of binders and twine are reported from a large number of points, and there is great scarcity of harvesters. Wheat cutting is finished in many places throughout Manitoba and barley is nearly all cut.

Fine weather has caused revision of estimates and the average yield will be double that estimated two months ago at a large number of points. The wheat now behind is principally on summer fallow and will require only a few days to ripen.

Bowel Troubles

Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move—stop taking purgatives and the bowels become "tight" again.

"Fruit-a-tives" are the one certain cure for Constipation

because their action is upon the liver, "Fruit-a-tives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation.

"Fruit-a-tives are fruit juices with tonics and antiseptics added. In "Fruit-a-tives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. 50c. a box — $2.50 for 6 boxes. Good Bread for You, Friend!

That's what you want without the troublesome task of making and baking, isn't it?

If so, you can surely have it, for *Scotch Zest Bread* is made and baked that you may have it on just those conditions.

That *Scotch Zest Bread* is good, we have no hesitancy in saying.

But it's not for us to do all the saying --- the hundreds who eat it every day have their little tale of its goodness to tell.

Ask them for proof of its goodness, or better proof is the eating.
