LIBERAL PROSPERITY OR CONSERVATIVE HARD TIMES---WHICH?

FIELDING AND SURPLUSES OR FOSTER AND DEFICITS

This is the Choice Held Out to Canada in the Present Election Says Sir Wilfrid Laurier Addressing 5000 People at Stormont, Ont—A Great Meeting.

Cornwall, Ont., Sept. 30.—Stormont's welcome to Sir Wilfrid Laurier today took the form of a civic reception at the station and a monster meeting in the auditorium, which was packed by an audience numbering at the lowest computation, 5,000 people.

Few, if any, political demonstrations of such magnitude and enthusiasm have ever been held in the riding and the Liberal standard will be carried to victory.

Of the many remarkable receptions accorded to Sir Wilfrid on his tour, the greatest public tribute, as Hon. Mr. Graham put it, ever paid to a man in Canada, that of the Stormont Liberals will rank as not the least.

Sir Wilfrid's speech, while largely a recapitulation of the views he had already expressed, contained not a few new points and nothing could have been more convincing than his reply to the opposition charges of corruption and extravagance.

A feature of the meeting was the slashing attack made by Hon. Charles Murphy, the new secretary of state, upon Mr. Borden. He recalled what happened in Quebec in 1904, when Mr. Borden, while appealing for purity, was writing to Hugh Graham, of the Montreal Star, telling him to send what he euphemistically called gifts of money under the code names of Zandray, Zandride and Zandring. While Mr. Borden was talking of purity, Mr. Graham, and other apostles of purity, were, under Mr. Borden's instructions, operating under code names and distributing money in sums varying from $1,000 to $10,000 in the various constituencies in the province of Quebec.

"Up to date," continued Mr. Murphy, "I am not aware that Mr. Borden has ever attempted to reconcile his professions with his practice in this particular case. As he remains unrepentant, so far as my knowledge goes, it is only fair to assume that if he gets the same chance in this campaign he will do the same again."

The Premier, who had a magnificent reception, said that although he was getting older he could yet do something for his party and country. We have been twelve years in office, twelve years is not a very long period in the history of Canada, but these twelve years will count in the life of this nation. As everybody knows those twelve years have been years of unexampled prosperity in the history of Canada. When we took office in 1896, Canada was a small colony, but today, after twelve years of office, Canada has become a new star to which is directed the gaze of the whole civilized world. That is what we have done.

"Do you want to go back to the old days of 1896, to the reign of the lean kine or do you want to remain in the reign of fat kine?

"Do you want to go back to Mr. Foster and his deficits, or do you want Mr. Fielding and his surpluses? This is the question for you.

"We want to give you an honest government. We have given you an honest government and we intend to do so to the last" (cheers).

Sir Wilfrid closed with a strong appeal to Liberals to rally round R. Smith, the candidate who was nominated at the convention, but who is being opposed by A. F. Mulhern, who styles himself an independent Liberal.

A rousing speech was also delivered by Hon. G. P. Graham.

MARYSVILLE SCENE OF ROUSING MEETING

E. H. McAlpine and R. W. MacLellan Were the Speakers at Last Evening's Rally.

Fredericton, N. B., Sept. 30—(Special).—E. H. McAlpine, K.C., of St. John, and R. W. MacLellan, of Fredericton, were speakers at a very successful political meeting in the interests of the Liberal candidate in the Orange Hall at Marysville this evening. The audience numbered 400 persons, including several ladies and the greatest enthusiasm prevailed.

Mayor Gibson presided and in opening the meeting, eulogised the Liberal candidate and pledged him his hearty support.

Mr. McAlpine was called upon as the first speaker and for an hour and half held the rapt attention of the large audience. He alluded to Alex Gibson, Sr., as New Brunswick's greatest captain of industry and a man who in his time had given employment to more than any ten men in the province. He then took up the different issues of the campaign, and exposed the hollowness of the Tory scandal charges against the government. He was in splendid form and his strong arguments in favor of the Laurier government carried weight with the audience. His address was one of the most effective campaign deliverances ever heard in Marysville, and undoubtedly won votes for the Liberal candidate.

Mr. McLellan spoke briefly, urging upon the Liberals of Marysville the necessity of organizing for the campaign.

The meeting closed with cheers for the King, Laurier and Brown. Tomorrow evening Mr. McAlpine will address the electors of Gibson.

SUNBURY-QUEENS IN LINE FOR McLEAN

Liberal Organization There is Very Effective and His Victory is Assured.

Chipman, N.B., Sept. 30.—The Liberal organization in Queens-Sunbury is proving very effective and the election of Col. H. H. McLean, the Liberal candidate, is assured. He will have a particularly large majority in Queens County.

Among features of the campaign which are causing much discussion is the local

COLONEL H. H. McLEAN.

government's action in reference to W. C. Hunter, late manager of the Central railway, in paying him $525 for three months' salary to release him from his contract solely to put another man in his place. People cannot see how this is in the interests of economy as the government might well have had the benefit of Mr. Hunter's services during the three months.

It is said also that he did not find favor because he would not discharge nine men who were Liberals, and take the responsibility of their dismissal.

There is discusion also over the action of the officials of the road in purchasing lumber from Jones Bros., of Apohaqui and paying freight on it to Hampton when lumber could have been bought at a number of places along the Central line, and the I.C.R. freight charges saved.

A canvas which is doing Col. McLean much good in both counties of the constituency is that a very large number of Foresters are considerably exercised over the Foster and Fowler finances in connection with the Foresters.

SIR WILFRID STAGGERS THE CONSERVATIVES IN OTTAWA

The Premier Himself Will Lead the Liberal Party to Victory in the Capital—Quebec Solid for the Government—Charles Marcil Predicts a Clean Sweep For Liberals.

Ottawa, Sept. 30.—What the Conservatives of Ottawa have been dreading for some time eventuated today, yet the party lieutenants, so great was their chagrin, would scarcely believe the evidence of the bulletin boards that Sir Wilfrid Laurier had consented to accept the Liberal nomination for the city and would have as his running mate Hal. B. McGiverin, one of the most popular young men of the town..

In proportion as the news was unpalatable to the Conservatives it was welcome to the Liberals. Some three weeks ago a party convention was held, and to the surprise of almost everybody, the sitting member, Mr. Stewart, was turned down while the French nomination went to a gentleman of little or no great political experience, albeit a staunch Liberal and a respected citizen. It was generally recognized, as George E. Foster declared at the famous bolt of 1896, the strongest elements of the party were now at its head. As to some extent the Conservatives themselves had undergone a similar experience in connection with their convention, their hopes of a partial victory were buoyed up by the unpropitious choice of their opponents. But the delusion was dispelled today when after an interview had by a number of leading Liberals with the prime minister, Senator Belcourt gave out the following announcement:—

"In order to unite all sections of the Liberal party in Ottawa, Messrs. Fraser and Chevrier, the Liberal candidates nominated at the recent convention had decided to withdraw from the contest and they this morning, along with Messrs. Stewart and Lemieux, the other gentlemen nominated at the convention, waited upon Sir Wilfrid Laurier to convey to him the desire so frequently and generally expressed by the citizens of Ottawa that he should consent to represent the capital in the house, and to earnestly press his acceptance of the nomination.

"Sir Wilfrid, in deference to the representations made to him and upon the assurance that his acceptance of the candidature would meet with universal approval, informed the gentlemen who waited upon him that he would accept with pleasure the nomination at the hands of the party in Ottawa. It is quite likely that Sir Wilfrid's running mate will be H. B. McGiverin. It is conceded that this settles the result in Ottawa. The government will carry both seats by large majorities."

Mr. McGiverin is an able young barrister, a cricketer and a football player, and has hosts of friends in both parties. He is a son-in-law of Hon. C. H. MacIntosh, who at one time represented the city in the commons in the Conservative interests.

Following the success which attended Sir Wilfrid's tour in western Ontario comes the news that the ministers of finance, justice, and agriculture, are everywhere meeting with enthusiastic receptions. The slander campaign waged at the outset by the Conservatives is reacting upon the party as a result of the speeches of Messrs. Fielding and Aylesworth.

In eastern Ontario there are dissentions in the Tory camp. Independent Conservative candidates are actively in the field in Cornwall and Dundas. The former is conceded as almost certain to go Liberal.

Montreal, Sept. 30 (Special).—Candidates are now in the field for all the Montreal divisions, except Maisonneuve, Hon. Raymond Prefontaine's old division, which was represented in the last commons by Alphonse Verville, president of the Dominion Trades and Labor Congress. He was elected as a labor man over the Liberal candidate, but voted with the government throughout, but there is much opposition now against him getting the Liberal nomination. Verville will run whether he gets the nomination or not, and a three-cornered contest may be the result.

Maisonneuve in the past has been overwhelmingly Liberal, and there is no danger of losing the seat, even if the vote is split.

There is yet no Liberal candidate for St. Antoine, the Conservative stronghold, but Henry Dalby, who managed the Conservative campaign of 1900, may run there as an independent.

In Montreal, the attitude of the Star, a strong Conservative supporter since 1896, is a matter of some concern to the party. Mr. Graham, the publisher, not only gave up his editor to manage the 1906 campaign, but was a heavy personal contributor to the funds. So far in this campaign, Mr. Graham's newspaper has given no support to Mr. Borden, but on the other hand has been outspoken against the return of Hon. Mr. Foster and Geo. W. Fowler.

An agreement for the conduct of a clean election in the county of Argenteuil, drawn up in accordance with suggestions proceeding from both parties, and providing for a forfeit of $500 by either candidate who shall be convicted of a breach of its terms, has been signed by the Liberal candidate, Mr. McGibbon, and is now awaiting the signature of Mr. Perley, the Conservative candidate, and ex-member.

At a meeting in Quebec last night, Chas. Marcil, who was deputy speaker in the last house, prophesied that the lower provinces, Quebec, Alberta and Saskatchewan, would go far Laurier, and that Ontario, Manitoba and British Columbia, would be divided, leaving no chance to the Conservatives of even a creditable showing.

St. Stephen, N.B., Sept. 30—(Special)—The Liberal and Liberal-Conservative clubs today each appointed a committee to form a basis for agreement to carry on pure elections in this county in the coming campaign. The committees will probably reach a decision tomorrow.

The Liberals will hold a political picnic at Oak Bay on Wednesday afternoon, Oct. 7. Addresses will be delivered by Hon. Mr. Fielding and other prominent Liberals.

Mr. Ganong and Mr. Todd, accompanied by their friends, are nightly addressing meetings throughout the county.

Yarmouth, Sept. 30—(Special)—The Liberals of Yarmouth county held their nominating convention this afternoon. On motion of William Burrill, of Yarmouth, and Captain George Davis, of Rockville, a unanimous nomination was tendered to B. B. Law, who represented the county in the old parliament. Mr. Law accepted.

A pain prescription is printed upon each 25c. box of Dr. Shoop's Pink Pain Tablets. Ask your Doctor or Druggist if this formula is not complete. Head pains, womanly pains, pains anywhere get instant relief from a Pink Pain Tablet. Sold by all Druggists.

POLITICAL MEETINGS

The Liberals will have a monster rally in the York Theatre tomorrow evening. Among the speakers will be Hon. Dr. Pugsley.

The Conservatives announce a rally in the Opera House this evening and another in the Carleton public hall on Friday evening.

The officers of the St. John district lodge, L.O.A., intend paying an official visit to York L.O.L. No. 3 this evening.

C. P. R. STRIKE NOT SETTLED

But Labor Leaders are Confident That the Trouble Will be Adjusted Very Soon.

Montreal, Sept. 30.—That there is some one endeavoring to mediate between the C. P. R. strikers and the company was the statement made tonight by James O'Connell, president of the Metal Workers' Association of the International Union. The statement was that the matter was now a question of settlement between the C. P. R. and the strikers and he hoped that the dispute would be settled speedily.

Mr. O'Connell admitted frankly that he was here in connection with the strike and by his side was Mr. Morrisey, chairman of the International Brotherhood of Trainmen.

Mr. O'Connell added that he was quite sure that the negotiations now in progress would be the means of a happy settlement between the company and the strikers.

Mr. O'Connell said the strike had not been called off and he declined to say who would be the mediator between the men and the company.

AN INJUNCTION AGAINST FORESTERS.

Buffalo, September 30.—Justice Brown, in the Supreme Court, issued an injunction restraining the Independent Order of Foresters from enforcing the increased assessments on old members until the suit to test the validity of the increase is settled. Over 100,000 members are affected by the increase. While the injunction stands foresters can pay their assessments at the old rate.

Go to the blood, if you are to drive out Rheumatism. A Wisconsin physician, Dr. Shoop, does this with his Rheumatic Remedy—and with seeming success. Rubon's, says the doctor, never did cure Rheumatism. It is more than skin deep—it is constitutional, always. Because of this principle, Dr. Shoop's Rheumatic Remedy is perhaps the most popular in existence. It goes by word of mouth from one to another, everywhere. Grateful patients gladly spread results. It is an act of humanity, to tell the sick of a way to health. Tell some sick one. Sold by all Druggists.

THE LIBERAL WARD WORKERS ARE WORKING FOR VICTORY

Keen Interest is Shown Everywhere and Attendance is Large In all the Wards.

Large attendance of workers, keen interest and a spirit of enthusiasm mark the nightly meetings of the Liberal ward committees in St. John. There is nothing half hearted about it, all seem confident of electing both Dr. Pugsley and Mr. Pender and energies are now directed to the matter of majority—that it shall be so great that it will show in marked manner the confidence of St. John in the administration of Sir Wilfrid Laurier.

Telegraph reporters who visited the ward rooms last evening found hustle in all. At the headquarters of Queens, Dukes and Sydney wards in Berryman's hall last night a brisk campaign was being carried on. The attendance was large and there was close interest shown in the work. When the balloting of October 26 was discussed there was no doubt of the return of Dr. Pugsley and Mr. Pender.

In Wellington, the work has advanced finely and a bigger majority than ever is expected in this home of sturdy Liberals. The work here is being carried on with fine spirit. In Prince, also, matters were found progressing well with excellent work being done.

The Liberal electors of Guys ward held a smoker in their committee rooms last night. A very pleasant informal programme was given. A feature of the evening was a number of gramaphone selections which were much enjoyed. Reports received showed that all the committeemen are hard at work. They say that the people seem to be taking a greater interest than ever in this campaign. The outlook was also said to be most encouraging. It is the intention to hold smokers twice a week.

All was bustle and activity in the North End wards. In the new temple of Honor Hall, Main street, where Lorne, Lansdowne and Stanley have their quarters, upwards of 100 workers were gathered and they worked industriously on the lists and many signatures were added to the nomination papers of Dr. Pugsley and Mr. Pender. Several prominent workers expressed confidence that these wards would give a good majority for the Liberal candidates.

At the Dufferin ward headquarters more than fifty of the electors were gathered. The chairman, J. V. Russell, reported that organization had been completed and that effective work was being done. The men were turning out better than at any previous election and the outlook was very bright for a larger vote for the Liberal candidates than ever before.

At Victoria ward quarters the same feeling was expressed. A greater interest was being taken than usual and though Victoria was Conservative at the last election they expressed confidence that they would make a change this year.

CANADA'S CREDIT NEVER BETTER IN LONDON

Montreal, Sept. 30.—A special London cable says:

The Canadian government loan of five millions sterling of 3½ per cent. inscribed stock at par, which the Bank of Montreal announces today, is partly for conversion purposes and holders of the £2,250,000 four per cents which are redeemable in November, may convert into the new issue.

Canada's existing 3½ per cents stand at about 101½. The present issue has been underwritten, and the conclusion of good authorities is that the new issue will be a public success.

The assertion is heard in many quarters that Canada's credit is as high as ever in the best market of the world.

Other Canadian issues being underwritten include two industrials and several municipalities.

DISMISSED FROM FERRY SERVICE

Engineer Fred Lewis Dismissed by Superintendent Glasgow Following Accident to the Ludlow.

Frederick J. Lewis, engineer in the ferry service, was dismissed by Superintendent Glasgow last evening for not being at his post in the engine room of the Ludlow when the accident occurred on July 21, at the east side floats. He was relieved of his duties about 7 p. m., his place being taken by Mr. Parks, who acts as relieving engineer when necessary.

The action of the superintendent will, it is thought, lead to a warm debate at the council meeting next Monday as the aldermen are not of one mind in the matter. Having delegated the power of appointment, suspension and dismissal, to the heads of departments, no action could be taken by the council but opinions on both sides have been freely expressed.

The committee which held an investigation under oath reported that they found the mate Allan K. Lambert was not at his post, but that his absence did not contribute to the accident. With regard to Mr. Lewis they held that if he had been at his post the accident might have been avoided.

The general opinion among members of the council appeared to be that the superintendent would have to take some action as the result of this finding or render himself open to blame. Now that definite action has been taken it is contended by some of the aldermen that Mr. Lambert should also have been dealt with.

LIQUOR SEIZED IN FREDERICTON

Two Hotels and a Pool Room Raided and Much Liquor Found

Fredericton, N. B., Sept. 30.—The first Scott act raid which this city has witnessed in recent years, took place this afternoon and created considerable excitement. At 4 o'clock Chief of Police Winter, Sergeant Phillips and Policeman Foss, armed with search warrants, issued by Colonel Marsh and accompanied by several local temperance people, including A. D. Gunter, F. S. Creed, Clifford Creed, William O'Donnell and H. G. Veness, swooped down on the Lorne and Waverly Hotels, Regent street. At the first named hotel they had difficulty in obtaining admission to the bar and when they finally succeeded all they could find was a cask of stale ale.

At the Lorne Hotel they were more fortunate, however. Here they secured enough ale, whiskey and gin to fill a barrel, also a demijohn of whiskey, a dozen bottles of brandy, and a cask partly filled with whiskey.

The contraband goods were loaded on a sloven and hauled to the police station where they were stored for safe-keeping. A large crowd of people watched the seizure and seemed to be much interested.

After completing the work on Regent street the officers visited William Walls' billiard saloon on King street and seized a barrel of Pilsner beer. While it was being removed from the wagon at the police station the bung blew out and the contents of the barrel was partially spilled.

It is said that as a sequel to today's operations, informations will at once be laid against the parties for keeping liquor for sale.

There was a very well attended and enthusiastic meeting last night in St. Mary's church in aid of the Laymen's Missionary movement. The chair was taken by Richard I. Carloss. A number of selections were played by St. Mary's orchestra. The speakers were J. N. Rogers, W. C. Cross and R. T. Hayes, who delivered speeches in support of the mission work, both home and foreign. These addresses were followed with close attention and the meeting closed with a hearty vote of thanks to each of the speakers.

The best of Ceylon is in her teas. Nowhere else do they grow to such perfection. The best of Ceylon's teas are in "Salada."

LOGGIE WILL HAVE A GREAT MAJORITY

Northumberland County Will Certainly Elect Him Over Donald Morrison.

Chatham, Sept. 30.—Political matters are surprisingly quiet in Chatham and vicinity. There is little excitement and the general impression seems to be that Mr. Loggie will be elected by a large majority. No public meetings have been held here, but the candidates have contented themselves with stumping the outlying parishes and Mr. Morrison is working overtime by holding two meetings a day. Mr. Loggie is also out of town holding meetings and is expected to return to-morrow.

THE INGLENOOK PHILOSOPHER OF KENNEBECCASIS BAY

Recollections of Ebenezer Wallis, (through a lapse of memory I spelled his name Wallace, but such is fame) recall another character, on a corner of whose farm the school house stood in which my ideas were first taught how to shoot. He was old, and bent, and withered, and about the time I made my first appearance in our hall of learning he became harmlessly insane. He was constantly searching through his fields and woods for buried treasure, or something he thought he had lost, it was hard to guess which, and as he searched he constantly talked to imaginary companions, sometimes screaming so his voice was heard at a distance of a mile and more. He would keep up his search day and night until he became thoroughly exhausted and then he would disappear for a day or two, as soon as able to resume his fruitless quest. He sometimes chased the boys who were heartless enough to annoy him and sometimes pelted them with stones, but he was not fleet of foot nor strong of arm, so his wrath was futile.

He disappeared altogether many years ago, and I sometimes wonder if he has since found the object of his quest! And the school house disappeared so long ago that it has been forgotten and so have most of the children who sought wisdom within its walls. We wither like the grass: we exhale like the mist: today we are, and tomorrow we are not.

Was the old man insane, and if he was who is there among us who has a perfectly balanced mind? Wealth is the ignis fatuus that the multitude chase, but it never satisfies: the rich are as well assured that it is yet to be attained as are the poor, that it will be their reward 'by and by,' and like the poor who pursue the elusive dime and dollar they pursue the million to the brink of the grave, and are never content. Honor? What is honor to Admiral Dewey, once the most honored man in America, and though he still lives, already forgotten. Love? Men and women marry for love and a month later are in the divorce court! The old man of whom I have a shadowy memory was as sane as the sanest of the most of us.

Whitehead, Kings County, Sept. 28.

A MAGNIFICENT BEQUEST.

Berlin, September, 30.—The Prussian Academy of Science, an association of eminent men under the patronage of the government, has inherited the sum of $7,500,000 from a banker named Sampson, who died recently in Brussels. The money is to be expended for scientific purposes.

TWO MEETINGS IN NORTH END

Conservative Candidates and Others Addressed Two Gatherings Last Evening.

A fair sized audience assembled in the Conservative ward rooms in St. Peter's Y.M.A. hall, Main street, last evening, to hear addresses by Dr. J. W. Daniel, M.P., Dr. A. W. MacRae, D. Mullin, Hon. Robert Maxwell, and Miles E. Agar. Ald. Holder presided. Many in the audience went out before the full programme had been completed.

Dr. Daniel referred to the sanctity of the ballot and said the approaching election was the most important since 1867. No one believing in honest government could vote for the government candidates. He ridiculed the promises made by Dr. Pugsley and said the borings at Courtenay Bay were of no benefit to St. John.

The Liberals had claimed the credit for everything in sight as due to their progressive policy. He discussed the trade returns of various countries and claimed that Canada had not advanced as much as it should have done. He contended that the only platform before the people was that enunciated by Mr. Borden in Halifax. It was so good that the Liberals had stolen two of its planks. One of these was the free rural mail delivery system, which, he said, Dr. Pugsley had opposed.

He then dealt with the question of maritime province representation and contended that Dr. Pugsley had been silent when he had brought up this subject in the house. The speaker then took up the employers' liability act and said he favored such a measure, but his opponent, Mr. Pender, had strenuously opposed the bill at Fredericton and was therefore no friend of labor.

Many people left the hall at the conclusion of the doctor's address.

Miles E. Agar was the next speaker. He said the Conservative party had suffered on account of limited press information. He reviewed the history of Canada at some length and gave Sir John McDonald the credit for doing everything that had made Canada the great country it was today. There might be a time, he said, when the Conservative policy would be free trade, but the country needed protection until the population had grown larger.

He then spent some time in reading a comparative statement of figures and claimed that the national debt had been increased $12,000,000 from 1896 to 1908.

While Mr. Agar was dealing with these figures, others left the hall.

The speaker, however, went on and argued that the Transcontinental railway should be owned by the government, and concluded his address with an appeal for support for the Conservative candidates.

Dr. MacRae entered the hall at this point and was applauded as he walked to the platform.

Hon. Robert Maxwell, in a speech that was largely a repetition of what he had said in Fairville, claimed that the Conservative party had made Canada what it was today. He ridiculed Dr. Pugsley's attitude in the St. John valley railway scheme, and claimed the minister should have asked the Dominion government to build the road. He then spent some time in going over a statement of Dr. Pugsley's account with the provincial government, and finally at 10 o'clock said he would make way for the candidate for the city and county.

Others left the hall as Dr. MacRae rose to speak and he hastened to begin his address. He referred to Preston, who he said was celebrated as the ballot switcher, who, he said, was forced to leave the country and later turned up in England as the Canadian emigration agent, at a salary of $3,000 a year.

The credit of the dominion, the speaker claimed, had been ruined by the reckless extravagance of the government, and they could not float a loan in London for $5,000,000 at 3½ per cent., though a municipality in Ireland had had a loan oversubscribed many times. He predicted government defeat in the election of October 26.

Daniel Mullin was then called upon to address the remaining auditors, more having left after hearing Dr. MacRae. Mr. Mullin said it had been insinuated that Dr. MacRae was not of the calibre of the minister of public works, but he would say that at the same age, Dr. Pugsley had not shown the same ability as Dr. MacRae. He dealt with Dr. Pugsley's account with the province of New Brunswick, and ridiculed the cry that the minister could do more for St. John than anyone else. He repeated some portions of his speech of the night previous in Fairville and the gathering was brought to a close with cheers for the King and the candidates.

The same speakers addressed a small audience in Fairyland Hall, Mill street.

DIPHTHERIA IN FAIRVILLE

Because of the prevalence of diphtheria in Fairville—a report says that there are sixteen cases—the matter was brought to the attention of the board of health yesterday and one of the officials was sent to investigate. Three houses in Main street and one other are placarded and it is said there are other cases.

There was talk yesterday that it might be well to close the public schools there but no action has been taken. The board of health official inspected a drain and cesspool and looked into conditions yesterday but his report was not learned last night. It was said, however, that there had been a good deal of sore throat lately and one man expressed the opinion that if it had not been for the summer school vacation Fairville would likely have had a diphtheria epidemic.

In commenting on the matter last night a resident asked what could be done in view of the fact that there was no sewerage system. A proposal to install sewerage was made some time ago and was voted down.

Stomach troubles would more quickly disappear if the idea of treating the cause, rather than the effect, would come into practice. A tiny, inside, hidden nerve, says Dr. Shoop, governs and gives strength to the stomach. A branch also goes to the Heart, and one to the Kidneys. When these "inside nerves" fail, then the organs must falter. Dr. Shoop's Restorative is directed specifically to these failing nerves. Within 48 hours after starting the Restorative treatment patients say they realize a gain. Sold by all Druggists.

LIBERAL MASS MEETING

A public meeting in the interest of the Liberal Party will be held in the

Nickel or York Theatre

Friday Evening, Oct. 2

Addresses will be made by

Hon. Wm. Pugsley, M.P.

Minister of Public Works.

James Pender, Esq.

AND OTHERS

Seats will be reserved for the ladies. Chair will be taken at 8 o'clock.
