FINANCIAL and COMMERCIAL

(Furnished by D. C. Clinch, banker and broker.)

Oct. 8th, 08.

N. Y. FINANCIAL BUREAU.

Bullish special operations seem likely in the stock market today. Otherwise daily operators may find it advisable to maintain temporarily a cautious neutrality pending the disappearance of uncertainties. Low priced stocks are reported more in favor with manipulative interests. High priced issues appear to us to be resting. The European selling in this department may be holding it in check. In consideration of this we would prefer to buy them on declines as a whole. James J. Hill, in an interview, reports improvement in business. He says the crops are good. The government crop report shows corn to be a little lower than expected as regards condition. Hill sees a close election and refrains from predicting who will win. The Journal of Commerce has a Pittsburg special, saying the steel business is dull and discouraging. Market literature is cautious and press comment conservative. The attitude of Conservatism toward the general market seems advisable for the present until the manipulative hand more definitely manifests itself. As before stated, the tendency just now appears to take up special low priced issues singly or in groups.

DETAILED STOCK.

Reports continue to bull Erie, which is said to have a 200,000 shortage. The Perkins following is still predicting higher prices for Steel on prospective big orders from railroads and the Perkins pool is said to be of great strength. Hill's interview is bullish on the stock, in that it says prospecting has shown that there is more ore in the great northern ore lands leased by U. S. Steel than at first indicated.

Atch. may have a sharp rise on shorts soon. The payment of the regular dividend takes the wind out of their sails. A bull tip is noted on Fuel. Alton may be raised still higher. We believe K. T. should not be overlooked by the patient bull. Information on N. P. is still favorable to purchases on reactions, notwithstanding the Hill declarations that no extra div. is likely now. C. Q. should sympathize with N. P. Hill also says today that the Great Nor. will not take over entirely the Burlington. We find the U. P. still held between the figures mentioned yesterday, 163 to 166, with increased reports of segregation privileges that are assumed to foreshadow 200 for U. P. later on. Reading may be hammered on the suit against it on the point that it is a coal combine, but on declines this stock should be bought for turns. We are confident of higher prices later for So. Pac. and would buy it and average. Lead, ACP, A. R. are marking time. The same may be said of Paul, B. R. T., Penna. and Cen. R. I. Pfd. may be bought on reactions only. Con. Gas is bought by insiders on all declines. Steel Pfd. is taken for investment. Hill's interview is, of course, temporarily bearish on Gt. Nor. Ore.

Liverpool.—Due 2 1-2 up on near unchanged to 1 1-2 up on late. Opened irregular 4 lower on near and 2 lower on late months. 12.15 p.m.—Quiet 4 to 4½ points lower. Spot cotton small inquiry 9 lower. Mid. up's 4.97d. Sales 3,000 speculation and expert 200, American 2,000 rect's nil.

Weather.—Rain has been followed by clearing weather in Texas and showers have occurred in central plain states. Elsewhere the weather has been fair during the last twenty-four hours.

Commercial.—"Interests closely connected with New England mills are buying cotton in a quiet way. The professional scalpers are strongest interest on the bear side."

Journal of Commerce.—"The course of prices just as a-head will depend not a little on whether the Lancashire strike is settled at tomorrow's meeting or not."

Manchester reports that the president of the British Board of Trade will make an attempt to arbitrate differences next week. Sentiment is still more or less unsettled over affairs in South Eastern Europe.

SUMMARY.

Americans in London weak ½ to 1 per cent. below parity.

Bank of England rate unchanged.

James J. Hill says that no dividend was declared on Ore lands because the box was empty and that U. S. Steel has not yet taken out a ton of ore.

Democratic candidate for governor of Georgia elected by large majority over Hearst nominee.

Reading's earnings on common estimated at 14 per cent.

Anthracite output much larger than July or August but 301,000 tons below September of last year. Atch. declared regular semi-annual dividend on common.

Sales of electrolytic copper made at 13 ½, but many producers are asking higher figures.

Average new business of steel companies somewhat less than September, but better than expected.

Iron Age says pig iron production has made quite marked progress.

Ills. Central earned 8 5-10 per cent on stock in past fiscal year.

Twenty-seven roads 4th week September show average gros dec. 1.12 per cent.

Twelve industrial advanced .40 per cent.

Twenty active rails advanced .21 per cent.

TOWN TOPICS.

Oct. 8.—It looks as if the more important interests were encouraging the little bull pools in the market with the idea of themselves getting rid of some of the load of stocks they are carrying. Consequently, we rather look for the continuance of bullish demonstration in the case of such issues as Pump, C. F. I., the Iowa Central's and Colo. Southerns and a few of that class. The selling looks rather good in R. I., pfd. now, despite the fact that there are as many bull tips on that stock for 60 as there were for 50. The move in Steel common is said to be to "discount the quarterly earnings" to be reported at the end of the month, but those who are on the inside are well aware of the fact that the bulk of the corporation's business now is for export and is not very profitable. To be sure, there are so many affiliated and subsidiary organizations in the big trust that it will be a comparatively simple matter to make the earnings loom rather large, but we think that there will be selling of the very best character in this stock the rest of the month to discount effects of reformation. We are bearish on Steel common and would sell on all bulges, as we would the Hill and Harriman's, Reading, St. Paul and A. C. P., which we think will be subject to bearish aggressiveness during the next few days.

AN UNCERTAIN MARKET.

While the present condition of affairs continue in the Balkans, the market is apt to be somewhat feverish and irregular, although I think the tendency will be to ignore this feature more and more. The natural tendency of prices I feel confident, is upward and I therefore think stocks should be bought on all weak spots. It will probably pay to take profits on part of stocks as bought on the bulges as there are apt to be plenty of chances to buy them back again. The bull side, however, I believe is the only side of the market to play at present.

ADVICE FROM BROKERS.

Private advices this morning refer to alarm over reported aggressive diplomatic attitude assumed by Germany in the Balkan disturbance.

The London and Paris markets were said to be much agitated over the outlook and more selling orders were cabled here.

London.—Copper market, easy spot 59, 10s, off 3s 9d; futures 60, 6s 3d, off 3s 9d.

New York.—Walter D. Hines has been appointed chairman of Atch. board of directors, succeeding Victor Morawetz, resigned.

Mr. Hines is a railroad attorney.

DOW JONES.

Liverpool.—Wheat opened steady 3-8 up. Corn quiet, unchanged. 1.30 p.m.—Wheat unchanged to 1-8 off from opening. Corn unchanged to 1-8 up.

Flash:—Cotton—Liverpool cables us—"The market feels the influence of South selling. No improvement in position of strike."

E. & C. RANDOLPH.

New York.—There is more evidence of Morgan activity in the stock market. This does not relate to the aggressiveness of the steel and Erie issues, but to other confidential information. The Hill interview does not support this report, but then Hill is often pessimistic just prior to stock market optimism. Reports we received from well posted sources that often participate actively in B. R. T. moves indicate that the stock has been oversold, and intimations are given of a move at the short interest in the near future.

N. Y. FINANCIAL BUREAU.

Chicago:—A more bullish feeling in wheat was noticeable among the traders last night, and those who were inclined to take the buying side presented forcible reasons. One of them was the tightening up on the part of the winter wheat farmers who have stopped selling to any extent owing to drought, and receipts have fallen off, so that winter wheat millers who have made liberal sales of flour are being forced to come to terminal markets for supplies, which means that their stocks will be drawn upon. The bulls argued that the winter and spring wheat propositions are two distinct factors, and that the Chicago market is not in a position to decline to any extent, as it is more of a winter than a spring wheat market, and that there is no pressure of actual wheat upon it.

NEWS AND VIEWS OF THE CAMPAIGN

HE IS PROUD OF LAURIER.

The Montreal Star is inviting its readers to express their preference for one of the political parties and give reasons for so doing. The following is a fair sample of the majority of the replies received

To the Editor of the Montreal Star.

Sir,—I shall cast my first Liberal vote for the following reasons: (1) Because the Opposition present no constructive policy for consideration by the electors. Their leader's Halifax platform is scoffed at by every man of prominence in the Conservative party, except R. L. Borden. (2) Because the Conservative leader is not strong enough to rid his party of its black sheep—Foster, Fowler, Pope, et al, and because he will invite to his platform a man like R. P. Roblin. (3) Because I am pleased with the record of the Laurier government as regards labor, and desire to see William Lyon Mackenzie King "finish his work." (4) Because of the broad-minded Imperialism of Sir Wilfrid Laurier, and because I am proud, as a Canadian, of the place he occupies among the Empire statesmen.

OLD TORY.

MR. AMES' OPPONENT.

H. B. Ames, M. P., the man with the magic lantern, has a very pretty fight on his hands in his own division, St. Antoine, Montreal, this time. His opponent is R. C. Smith, K. C., a prominent Montreal lawyer of whom the Herald says:

"Probably no member of the legal profession in Montreal is more widely known than Mr. Smith. As an orator and after-dinner speaker, he has represented the Bar of the province on many notable occasions, while, in his professional capacity, he has argued some of the most important cases of recent years before the Privy Council. Mr. Smith is commodore of the Royal St. Lawrence Yacht Club and a prominent member of the Royal Montreal Golf Club team. For some years before being called to the bar, he was actively engaged in newspaper work in Montreal. He shines as an expert cross-examiner; and his personality is characterized by extreme geniality."

THE FIGHT IN ST. ANTOINE.

The acceptance by R. C. Smith, K. C., of the Liberal nomination in St. Antoine division means that the electors will now have to choose between two men worthy of each other's steel. Mr. Ames wields a heavy sword of oratory, while Mr. Smith is an adept with the light rapier of speech, and the contest between the two should add to our innocent sources of pleasure and enlightenment. St. Antoine has always been a Conservative stronghold, and the Conservatives are naturally sanguine of keeping it for themselves at this election; but if anybody can wrest it from them, none is more equipped for the feat than Mr. R. C. Smith.—Montreal Witness.

WELL HARDLY.

Laurier, Fielding, Pugsley and Fisher or Borden, Fowler, Foster and Bennett. Will you exchange real cabinet timber for matchwood.

WIND! WIND!! WIND!!!

An exchange says:—"Premier Roblin is what one might term a gusty orator. He resembles one of his own Western blizzards—a whole lot of wind raging over a whole lot of space."

SWEEPING TO VICTORY.

Even in past Tory strongholds throughout Ontario, the wave of enthusiasm for Sir Wilfrid is sweeping onward irresistibly—the leader of the opposition is hurrying from place to place endeavoring as best he can to repair the breaches made by the great Liberal chieftain in his recent record-breaking Ontario tour.—Charlottetown Patriot.

THE SAME OLD STORY.

In all the meetings so far held in Queens, P. E. I., the Conservative candidates have not given any intimation as to what that party will do for the country. All they have done so far is to rake up scandals, condemn the Government and reitereate that tiresome and exploded yarn that Sir Wilfrid Laurier said the Transcontinental would cost only 13 millions.—Charlottetown Patriot.

TWELVE YEARS OF PROGRESS.

"In this growing nation of Canada, with its splendid heritage, we ought to feel it our duty to look to the needs of this country. We are proud we have spent such generous sums of money for the benefit of our country. In doing this we have kept within the bounds of our revenue. We don't for a moment pretend there is no fault. There will never come a time when there is not room for attack upon a Government. In twelve years of Liberal rule there has been splendid progress, blessed peace and grand prosperity."—Hon. W. S. Fielding.

OH, TOMATOES!

R. L. Borden sent the following congratulatory telegram to Honest John Stanfield after the election in Colchester county was "tomatoed" last November:

"A VICTORY FOR THE CAUSE OF GOOD GOVERNMENT."

(Sgd.) R. L. BORDEN.

A SOLID THIRTY-FIVE.

Monday's nominations in Manitoba and Saskatchewan complete the Liberal ticket in the West from Ontario to the Pacific Ocean. There are thirty-five constituencies, and thirty-five candidates in the field—a very considerable majority of whom, says the Winnipeg Free Press, it may safely be said, will be elected.

CABINET TIMBER? NO MATCHWOOD

Mr. Borden says that he could form "three Cabinets" out of his following. So he could, but what would they be like? The most prominent members of the Opposition, apart from Mr. Borden, are Messrs Foster, Bennett, Geo. Taylor, Fowler, Monk, Bergeron and Ames. Would you be willing to risk the destiny of Canada to these men? Think it over. —Halifax Chronicle.

ANOTHER LIBERAL GAIN.

J. B. Morin, of Dorchester, who held for many years one of the few safe Conservative seats in Quebec, will not be a candidate this year owing to his dissatisfaction with the manner in which the party management has been conducted. This means still another seat for the Liberals in Quebec.

LOYALISTS! ATTENTION.

Ottawa Free Press:—Four years ago the slogan of the Conservative party was: "Keep both hands on the Union Jack!" But this year, having agreed to oppose the All-Red steamship project and to do all in their power to render the British preference abortive, it has been apparently decided to abandon that cry. Instead the old Tupper motto that "Laurier is too British for me!" is being worked where it will do the most good.

A PLEASANT FIRESIDE.

There is nothing so pleasant as the cool evenings are coming on as a bright open fire in the grate.

The celebrated Old Mine Sydney Coal leads all other coals for grate purposes.

Gibbon & Co. now have a cargo landing and the Gold Medal Certificate showing that this is the genuine Old Mine Sydney can be seen at their office.
