PRISONER UNABLE TO SECURE LAWYER FOR CASE

Consequently the Trial of the Charge of Scott Act Violation Against James Hanley Was Not Heard at Sussex Yesterday.

Sussex, N. B., Aug. 3.—Scott Act affairs continue to be the talk of the town. A trial was made Friday evening, July 31, in the building on Peter street, supposed to be run by a man named Doyle. A small quantity of whiskey was found and destroyed on the premises. A man who gave his name as Henry McFarlane, who was in charge of the building at the time, was this afternoon arrested on a charge of keeping liquor for sale. He was remanded to Hampton jail without the option of bail and was taken there this evening by Constable Asbell where he will remain until Thursday when his case will be heard before Justice Hornbrook here.

The case of James Hanley, which was postponed from 10 o'clock until 2 this afternoon, was again postponed until 9:30 tomorrow morning, because the defendant could not get counsel. A strange thing to say, so Mr. Hanley had the option of waiting here in custody of the constable until 9:30 o'clock tomorrow morning for counsel or going to Hampton jail and wait until Thursday 10 o'clock.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves leave us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a falling appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all Druggists.

Clarence Needham, of the Malden, Mass., fire department, is visiting his father, Geo. C. Needham, of the I.C.R.

NOVA SCOTIA'S GIFT TO THE PRINCESS OF WALES

The part that Nova Scotia played in the Quebec celebration reflects the greatest credit on the very thoughtful ladies who planned and carried out so successfully the gift that brought Nova Scotia so very prominently to the front in the great celebration at which more than 100,000 people assembled than we may see again in Canada for many years.

The gift seemed so appropriate, fashioned as it was from the native products of the province and all made within the province, and the idea of presenting it to the Princess across the seas, was indeed a gracious tribute from the people of Nova Scotia to their future Queen. Then the realization of the royal gift would lend splendor even to a throne. A coat of the finest mink, with buttons of finest gold, pearls and amethysts.

The prince was, of course, delighted, and will be may be. G. W. Cooke of The Dunlop Cooke Co., Ltd., who accompanied the gift to Quebec, returned on Saturday. The presentation was made by Governor Fraser, Premier Murray and Hon. Wm. Fielding.

After the royal party had ample opportunity of admiring the garment, the Prince summoned Mr. Cooke, and full particulars regarding the gift were rendered by the Prince's secretary. His Royal Highness also gave permission to place the garment on view, and notwithstanding that the Chateau Frontenac was crowded, a parlor was reserved for this purpose, and the royal garment shown to the great assemblage of distinguished personages besides the governors and premiers and members of parliament of the different provinces, and their ladies. Among those who viewed the garment were Lord Strathcona, the Duke of Norfolk, Lord Lovat, Sir Thomas Shaughnessy, Vice-President Fairbairn, Lord and Countess Grey.

Byron M. Walker, president of the Battle Field Association, particularly requests that all records of the gift be forwarded to him to be preserved with the records of the anniversary of the founding of Quebec.

The following address accompanied the gift, which seems particularly pleasing to His Royal Highness.

To the Most Illustrious Prince, George Albert, Prince of Wales, Duke of Saxony, Prince of Coburg and Gotha, Duke of Cornwall and of Rothesay, Earl of Chester, Carrick and Dublin, Baron of Renfrew and Lord of the Isles, Great Steward of Scotland, Knight of the Most Noble Order of the Garter, etc.

May it please Your Royal Highness:

The people of Nova Scotia desire to take advantage of the opportunity presented by your visit to Canada as the central and august figure in the Celebration of the Three Hundredth Anniversary of the founding of

FIVE PEOPLE KILLED AUTOMOBILE ACCIDENT

Huge Car Containing Five Women and Two Children Plunged Down Steep Embankment—Woman Chaffeur Could Not Stop Car.

San Francisco, Cal., Aug. 3.—Five persons were killed and two were injured today near Burlingame, a fashionable suburb, when a huge automobile, occupied by five women and two children, plunged down a steep embankment as the result of the snapping of the brakes. The dead: Mrs. Thomas A. McCormick, Miss Clara McCormick, aged 16, Robert O'Brien, son of Mrs. Ira G. O'Brien, Ira G. O'Brien, Jr., aged 3 years, Mrs. Ira G. O'Brien.

The injured: Mrs. McCauley, both arms broken, Miss Ethel McCormick, shoulders sprained. The party had been on a visit to the home of Prince Poniatowski, near Burlingame, and was returning to San Mateo where both families have their summer homes. Coming down a steep grade, near Crystal Lake, Miss Ethel McCormick, who was at the wheel, endeavored to check the speed of the car by applying the foot brake. It failed to hold the automobile. The front wheel struck a rock, swerved to the left and then plunged down a 35 foot embankment, striking against a large tree. So terrific was the force with which the automobile struck the tree that the occupants were shot out of the car as from a catapult, landing on another road twenty feet below.

Mrs. McCormick, her daughter Clara, and infant son of Mrs. O'Brien struck on their heads and were instantly killed. Mrs. Ira O'Brien and her three-year old son, died three hours later in the Red Cross Hospital at San Mateo.

Mrs. McCormick was the wife of Thos. A. McCormick, president of the McCormick Iron Works of San Francisco, and Mrs. O'Brien's husband is the proprietor of the Keystone Manufacturing Works. Both families are prominent in society circles.

ARTILLERY INSPECTION

Major-General P. H. N. Lake will inspect the 3rd "N. B." Regt. Canadian Garrison Artillery tonight at 8:30. In the absence of the regimental band, the officer commanding the 62nd Regt. has placed their band at the disposal of the artillery and they will parade at the drill shed at 8 o'clock. No. 2 Battery will meet at 8 o'clock. No. 3 Battery will meet at 8 o'clock. No. 4 Battery will meet at 8 o'clock. No. 5 Battery will meet at 8 o'clock. No. 6 Battery will meet at 8 o'clock. A NEW SALVATION

Ensign Cornish the successor to Adjutant Bowerman in charge of the Metropole will inaugurate this week a new labor in the nature of a social and salvage department. A team will tour the city every day driven by army men to collect all cast-off articles such as junk, apparel, provisions, etc. Those who require clothing can procure the same at a warehouse, where the headquarters of the movement will be made and clothing which is unfit to use will be sold to rag dealers. An employment bureau will also be established in connection with the department. The Metropole is also in progress of renovation.

THE A. O. H. CONVENTION.

The ladies auxiliary of the Ancient Order of Hibernians met last night at the home of Miss Gertrude McCarthy and made final arrangements for the annual convention on August 25. Keiths assisted in the arrangements and will hold the convention in these rooms at the same time on the evening of the opening day the auxiliary will entertain the local members and visiting delegates. There will be dancing. The ladies will also have reserved pews at the High Mass in the Cathedral.

D. M. Condon, of the I. C. R., Moncton, was at the Royal yesterday.

KOOTENAY VALLEY FIRE CAUSED BIG LOSS OF LIFE

Sixty Known Dead and Number Likely to be Greatly Increased—Ferne, Coal Creek and Hosmer in Ruins—Prisoners Released to Fight Flames.

Nelson, B.C., Aug. 3.—The latest news from the Crow's Nest Pass district disasters says there is a death list of sixty-two which will probably be increased to seventy or eighty, a property loss exceeding \$5,000,000 and about 7,000 homeless people.

Ferne and Michel have been wiped out, and Coal Creek, five miles east from Ferne, is also destroyed. Hosmer lost some ten houses, and the coal company's surface works were destroyed.

The powder magazine at Hosmer exploded, killing one man.

Five blackhand suspects who were in Ferne jail were brought in from Cranbrook, and will be brought here. Other prisoners were given their liberty.

Two hundred refugees will reach here this evening and will be housed and looked after. Nelson raised \$2,000 yesterday, and sent Aid McMorris and two cartloads of food and clothing to the scene. Vancouver wired \$5,000, and Spokane rushed in a carload of provisions.

Ferne is in ruins today, only thirty-two houses having survived the disastrous fire which swept the city out of existence. It is not definitely known as yet whether any lives were lost in the city proper, but the finding of several corpses in the neighborhood of the city is reported, and it is feared many have perished in the relentless flames.

The bush fire which was raging in west Ferne in the morning jumped the river about 3 o'clock in the afternoon, striking the south end of the town. For some time the fire was the first to go, and from there the sparks carried the fire into the old town which was soon a pall of smoking embers. At the same time the Elk Lumber Company's mill and Cedar Valley mills caught fire and in an incredibly short time the entire town was a seething mass of flames, people fleeing in all directions for their lives.

The conflagration jumped the river by the wagon bridge, and set fire to the west end of the town, and fanned by the hurricane that was blowing, the district was at the mercy of the fire fiend, the wind attaining the velocity and force of a cyclone.

Frightened people were thrown off their feet in many cases, trees crashed to the ground, and the scene was most appalling. The fire rushed to the railway stations in the hope of getting away, and in the manner manner reached Hosmer in safety, though the trains had to run through sheets of flame, which repeatedly set fire to the coaches.

Two hundred and fifty men, women and children sought refuge in the coal company's office, while others ran for shelter into the Western Canada Wholesale Company's building. The organization at these places was beyond praise and to the heroism and indomitable courage of the volunteer force of firefighters many owe their lives today. Had these buildings burned the loss of life would have been appalling.

Relief organization was immediately completed when the worst was over and provisions from the Western Canada Wholesale Company, whose building was saved, were distributed. Hundreds of women and children were sent to Cranbrook by special train, and special constables were sworn in to protect the property that had escaped the fire.

Prisoners in jail were liberated and patients in the hospital were hurried to the coal company's buildings and made as comfortable as possible. Today cook stoves have arrived from Cranbrook and the people are being fed upon the coal company's lawns.

Everything is running as smoothly as can be expected, and hundreds of homeless people are being sent to neighboring towns.

The scene during the conflagration defies description. It was simply a fight for every life, and to the credit of the citizens, it can be said they fought nobly and did their duty without flinching.

The blow is the severest ever dealt a Canadian town but with the courage which enabled them to overcome apparently insurmountable troubles in the past, the citizens of Ferne, many of them ruined, are giving in to no despondent apathy, and in all human probability a greater Ferne will arise on the ashes of the old one.

It is impossible to get further details of the losses or the names of those killed.

Ottawa, Aug. 3 (Special).—The federal government has not yet decided what contribution shall be made from the national exchequer in aid of the sufferers by Sunday's fire in the Crow's Nest mining district. That non-allocation, however, seems highly probable, although the president of the Three Rivers confederation is cited as an argument in favor of leaving to the provincial government the duty of providing for the destitute.

In the meantime, however, relief in the way of providing shelter for the homeless is being forwarded. General MacDonald has ordered all available militia units in the district be sent to the localities where the people are gathered in the open. It had been expected that the question of relief would have been considered by the government this afternoon, but there was no meeting of the cabinet. The subject will probably be brought up in council tomorrow by Hon. Mr. Templeman, who has been in communication with the local authorities.

Prior Wilfrid Laurier today forwarded to Premier McBride, of British Columbia, a telegram offering the services of a detachment of the Royal North West Mounted Police to patrol the stricken districts and assist in preserving law and order. This move was necessitated by the fact that the jurisdiction of the Mounted Police does not extend beyond the western boundary of Alberta. If their services are accepted the police will take with them the Crow's Nest region all available tents and place them at the disposal of the homeless.

Up to a late hour tonight the prime minister had not received a reply to his message.

Files are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by All Druggists.

BRINGING REFUGEES OF THE LABRADOR STORM

Crews of the Forty Fishing Vessels Now on Their Way to Newfoundland—One Steamer Has 980 Survivors Who Were Wrecked.

St. John's, N. F., Aug. 3.—The crews of the forty fishing vessels which were wrecked by a hurricane off the northern Labrador coast in the early part of last week, have been taken aboard the cruiser Fiona and the tourist steamer Virginia Lake and are now on their way south to their homes in Newfoundland. The Virginia Lake has 980 fishermen and members of their families who were "on Labrador" for the summer fishing season, while the government cruiser has 113 others.

Many of the wrecked men suffered greatly from exposure and hunger at isolated points along the barren northern shores before rescuers reached them. The reports of the disaster which have thus far reached here are still meagre, but it is evident that the loss in vessels and fishing gear was greater than in any storm in recent years. As far as known here only three lives were lost.

Sir William MacGregor, governor of Newfoundland, who was on board the Fiona, on an official tour of the island, settlement when the disaster was reported, is returning south on the cruiser.

W. S. FISHER RESIGNS

Pressure of Business Compels Him to Give Up Chairmanship of Exhibition Committee.

A meeting of the manufacturers' committee of the exhibition association, was held in the rooms yesterday afternoon. The chairman, W. S. Fisher, on account of increased pressure of business handed in his resignation, which the committee reluctantly accepted. W. F. Burditt was elected chairman in his place.

A good deal of routine business was transacted. The exhibits are coming in quite freely and it is hoped that machinery will be a feature of the exhibition. There will be a meeting of the executive in a few days and important matters will be dealt with.

C.P.R. CHANGES

The appointment of Robert King to the position of C.P.R. terminal agent at West St. John in succession to J. R. Gilliland, transferred to Montreal, was announced yesterday. In the past three years, Mr. King has been station agent at McAdam where he has become very popular with the traveling public.

The vacancy at McAdam will be filled by W. C. S. Paynter, a resident on the west side where he has been C.P.R. warehouse foreman. His many friends will congratulate him on his promotion.

J. G. Shewen, chief clerk to William Downie, general superintendent, is retiring from the company's service and will be succeeded by George Kydd, a member of the staff who has had much experience in the office.

Some people look upon tea as a mere drink. It all depends upon the tea. "Salada" Tea is a delicious and refreshing beverage. Sold only in sealed lead packets.

PLAYS AND PLAYERS

HUMANOV COMPANY MADE HIT AT NICKEL

Moving Pictures and Spoken Lines of the Famous Two Orphans is a Distinct Novelty.

Though it may be truly said that there is nothing new under the sun, yet the thousands who visited the Nickel yesterday afternoon saw a theatrical production which is certainly new outside of that breeding place of new things—New York. Though always of the first water, the programme at the popular Carleton street amusement house was made doubly attractive yesterday by the performance of the famous Humanov Company.

As the name indicates, the company give to motion pictures the last human touch and there were many yesterday who preferred the combination of photographic and historical art to the demonstration of either by itself.

Few can witness the pathetic drama of the Two Orphans without feeling a stirring of the heart strings, but when the pictures virtually speak, when one hears the strident tones of the old hag, the pain sharpened voice of the unfortunate orphan, the bulging tones of appeal from blind Louie, the pitiful notes of appeal from blind Louie, all timed and paced properly in accompaniment to the reproduction of the scenes of the famous play, one can feel the spirit of the play almost better than if the actors were going through the parts themselves.

The pictures were shown just as the Nickel patrons have been shown them daily but as the play was thus reproduced the Humanov Company letter perfect in their parts and just to the second with the motions of the picture figure spoke the lines, and there you were—the drama just as presented by a complete company—stage setting, costuming, acting and declamation.

The Nickel in St. John has the honor of being the first to present this latest form of entertainment to a Canadian audience and the St. John people appreciated this. There were big gatherings in the afternoon, but the rush in the evening was very great and would even have been a record. The latest attraction, and the best yet, has proven a tremendous hit.

AT THE PRINCESS

The re-opening of the Princess Theatre yesterday was greeted with pleasure by large gatherings. Harry Newcombe, one of the best baritone singers heard in the city for some time was given a warm reception, and the excellent manner in which he sang a pretty ballad entitled "Roses" sustained for him the very favorable reputation he had before he left the city a few months ago.

JAPANESE NAVY JUMPS INTO IMPORTANT POSITION

It Will Soon Stand in Third Place Among the Navies of the World—Many Big Ships Built and More Building Says German League Report.

Berlin, Aug. 3.—The Japanese navy will take third place in the navies of the world in 1910, according to the tabulation made by the German navy league in its August leaflet, set out. "Notwithstanding the assertions of Japan's financial position," the article says, "the so-called programme of 1907 appears to provide for considerably more new construction than has been reported."

From a usually well informed quarter it is affirmed that Japan, besides building the three battleships Aki, "A" and "B," and the four armed cruisers Kurama, Ibuki and "E" and "F," has appropriated money for four additional battleships, each of 28,000 tons, and four or five armed cruisers, each of 18,500 tons.

Japan has in actual service fourteen battleships, with a total tonnage of 191,400, and twelve large cruisers with a tonnage of 113,000.

JAMES A. BERRY AND THE JOKERS

Former City Editor of St. John Sun is Located in Butte, Montana.

(Anacoda Standard.)

Former Canadians who are now residents of Butte are much interested in the visit to Quebec of his royal highness, the Prince of Wales, George Frederick, who some day will be George V., should he survive his father. Butte has a number of them, among them being some of the city's most distinguished citizens.

One is Dr. C. T. Pigot, who was a big man in the Toronto guards when the Duke of York visited the American possessions of the king along about seven years ago. The doctor met him, also he met the doctor. Another prominent citizen of Butte, who formerly lived in Canada is James A. Berry of the Inter Mountain. Mr. Berry also has met his royal highness. On the day of the arrival of the Prince of Wales in Quebec, Mr. Berry is said to have received the following telegram:

"Dear Boy:—How are all my former subjects who left my coming demonstrations for the United States, and please let me know about Pigot and Jerry Mullins, and especially yourself—hope you made good on your Barnes King stock, and that Jerry is still selling ye old mule. Am having a blooming hot time; come up and help me."

To this Mr. Berry replied as follows: "I can persuade the police court to adjourn over a few days, and get Mayor Corby to write no more letters while I am out of town, will start this evening with Harry O'Gorman to help you out. Want to get there the worst way possible and will see the Great Northern."

Jerry Mullins, who was asked to go along, refused, saying he was too busy saving money after getting out of the city council. Dr. Pigot also was anxious to go, but he was to the races Friday. As Mr. Berry could not be found down town last night the presumption is that he had gone to Canada or to bed.

G. D. Grimmer, of St. Andrews, was registered at the Victoria yesterday.

KNIGHTS OF PYTHIAS OWN BOSTON THIS WEEK

Thousands of Delegates to Big Biennial Convention Have Already Arrived—New Brunswick Knights Warmly Welcomed—Big Parade Today.

Boston, Mass., Aug. 3.—By train and boat thousands of Pythians poured into this city today, in time to take part in the exercises preliminary to the formal opening tomorrow, of the 25th convention of the supreme lodge and the biennial convention of the Knights of Pythias and the annual convention of the Pythian Sisters. The chief official action of the convention was the formal dedication late today of Camp Joseph M. Lyons, on Franklin Field, one of the largest public playgrounds in the city, where a canvas city of 2,500 tents accommodates the greater portion of the large numbers of guests. The dedicatory exercises were brief but impressive. Supreme Representative D. Sidney Woodworth, president of the Boston Ways and Means Committee for this convention, transferred the camp to Charles A. Barnes, supreme chancellor of the order, who, in turn, transferred it to Arthur J. Stobart, major-general, commanding the connection with the event, there was an address by Governor Curtis Guild, Jr., and Mayor George A. Hibbard.

The first business session in connection with Pythian week was the opening session of the biennial convention of Grand Keeper of Records and Seal of the Association, in Kingsley, Ford Building, President U. S. Burns, of Wisconsin, presided, and R. W. Bartlett, of Little Rock (Ark.), was the secretary. Grand Chancellor George W. Pennington, of the Grand Lodge of Massachusetts, welcomed the members.

During the afternoon there was an exemplification of work by King Solomon Temple, No. 63, Pythian Sisters of Boston. Tonight there was another exemplification of work by Lynn Temple, No. 3, Pythian Sisters, of Lynn, at Union Hall.

The thousands of Knights in the tented city at Franklin Field, after spending the day in getting settled under their canvas roofs, enjoyed themselves at a vaudeville performance in the camp.

An important meeting of the advisory board of the Pythian Sisters was held in Hotel Brunswick during the day, attended by Anna M. Young, of Zanesville (O.), supreme chief of the Pythian Sisters, and many other officials of this auxiliary. The meeting was secret.

Tomorrow the big parade is held.

Boston, Mass., August 3.—Most of the New Brunswick Knights of Pythias spent today in sightseeing and visiting friends and relatives. The St. John delegation visited the historic Faneuil Hall, where the post office for the Pythians was established. They announced their presence from the entry way with this cheer: "S—A—L—N—T, Saint John, N. B., K. of P.," after which they entered the hall decorated with smiles and bright colored bunting.

The New Brunswick delegation, with the exception of thirty St. John men, who have taken a cottage at Nantasket Beach, is encamped on Franklin Field, Dorchester, with the Minnesota and Dakota delegations under the command of Brig. Gen. Fred E. Wheaton. Major Gen. Stobart has complimented the Canadians on their splendid military appearance and upon the progress made in the provinces during the past two years.

The Artillery Band of St. John is highly complimented by the press and public. It will give several concerts besides appearing in uniform rank parade Tuesday afternoon and endorsement rank parade Wednesday.

On Thursday the Second Regiment of Massachusetts, which visited St. John two years ago, will devote the day to entertaining the New Brunswickers. Among those who met many old friends were Capt. Frank Magee of the Artillery, H. Kinnear, George Milne (the veteran engineer of St. John), R. B. Patchell, James Moulson and Capt. Palmer, latter of Moncton. Weather cool.

WINS GOLD MEDAL

By taking first place among the St. John students who wrote the provincial high school entrance examinations, Miss Doris L. Jones, daughter of Mrs. East Jones, of Duke street, wins the corporation gold medal. There is still some doubt as to the winner of the Parker silver medal for high standing in mathematics. The competition has been close. The prize offered by Senator Ellis for the best specimen of English composition is also being contested. Seven essays have been submitted.

There has been another advance of one cent in the price of fancy Barbados molasses, making a rise of two cents in a short time, and still higher prices are expected, as the supply is short.
