FINANCIAL and COMMERCIAL

(Furnished by D. C. Clinch, Banker and Broker.)

The general stock market seems to be sold out so far as frightened holders are concerned. The active issues remain in the trading range, but there appears to us to be a more hopeful feeling in well informed quarters and a hardening of the market may be witnessed. For the present we would therefore prefer to make discriminating purchases on reactions toward indicated supporting levels with the stop order protection if in the daily trading position. If certain "messes" can be cleaned up improvement of a conservative character may be decided upon. The action of the exchange authorities in appointing an investigating committee is highly commendable and will operate to restore confidence. The present failure to make deliveries does not indicate financial embarrassment as we understand it, but the deliveries were a physical impossibility owing to the volume. Larger copper exports are reported by the Journal of Commerce which says there are plenty of buyers in town, but orders are small. The Ills. Man'f'r's Asso. expects a business of large proportions in the fall according to its president. The Herald has a strong editorial today pointing out the untenable stand of shippers against an advance in freight rates. The action of the street railway receivers here and that of the four railroads in attacking the inter state commerce commission's requirements which give it evidence on which ot sue the railroads shows that capital is disposed more and more to stand up for its rights since the recent court decisions. Germany is reported to have issued more than $500,000,000 bonds in the first half of 1908 which exceeds our total so that the United States is not alone in its demand for additional capital. As a growing country its legitimate needs are far ahead of Germany, but, as pointed out by a prominent banking firm at the end of the week, the temper of the public does not favor increase of capital now through misapprehensions engendered by demagogues.

The market literature of brokerage houses is both conservative and diametrically opposed in many cases. Our investigation after the close yesterday did not disclose of a change in individual positions of leading stocks which remain in the trading area approximately as follows: Acp. 75 and 79, reports bullish. Smelters 92 and 95, bullish advices. Paul 140 and 142, tips bullish. Great Northern 135 and 138, high grade reports very bullish. Lead 83 and 85. Nor. Pac. 140 and 144. Reading 122 and 125, information mixed. Pennsylvania 123 and 125, UP. 154 and 159 with reports of good buying on declines. New York Central meets stock toward 105, reports bearish, Southern Pacific should be bought on all reactions with information of high grade, bullish.

Steel sold by professionals on rallies, gossip bearish. Westinghouse rumored ready for a rise. Refusal to issue transfers may cause a covering move in the tractions soon.

LIVERPOOL QUOTATIONS.

Liverpool—Due 2 points lower on Aug. and 1 1-2 to 2 points higher on later months. Opened quiet, one point lower on near and unchanged on late months. At 12.15 p. m.—Aug. was 18 1-2 points net lower, Aug.-Sept. 7 1-2 lower and new crop positions 3 1-2 to 4 1-2 points lower. Later cables reported a further decline of 1 to 2 points. Spot dull and irregular, 13 points lower, middlings 5.27d. Sales 3,000, speculation and export 200, American 2,000, imports 1,000, all American.

Commercial says "Wall Street bulls do not seem to be afraid of spot cotton and are taking up all the cotton that is tendered. Some people say that they believe there is a settlement in Aug. and that the broke[illegible] are stopping the notices and are really acting for spot interests. There does not seem to be any facts appearing on the surface to bear out such a supposition, however."

THE COPPER MARKET.

New York.—Copper metal market has reached a stage of inactivity which is expected to continue for two or three weeks. This condition is really nothing more than the lull which follows any period of activity in any one of the world's commodities. Those qualified to speak expressed themselves as thoroughly satisfied with course of developments. In a word, the conditions are believed to be absolutely sound and when fresh buying demand develops the upward price tendency will doubtless be resumed.

Wabash, 3rd week Aug., 530,921; dec., 52.925.

From July 1st, $3,578,801; dec., $459,017.

LONDON QUOTATIONS.

London, 2 p.m.—Anc 46 1-8, Acp 76 3-4, Atch 87 1-2, BO 93 3-8, CO 41, CPR 172 3-4, Erie 22 3-8, EF 38, ES 27 3-4, Ills 135 3-4, KT 31 3-4, LN 108 1-2, NP 142, Cen 104 3-4 OW 41 5-8, Pa 123 1-4, RG 123, RI 16 1-2, SR 18 3-4, SP 99 1-2, St Paul 145 3-8, UP 157, US 44 7-8, UX 108, WZ 25 3-4.

Buffalo stock exchange firm fails.

Insurance Co.'s take large proportion of the $120-million of new bonds recently issued by various corporations.

12 industrials declined .38. 30 active railroads declined .01 per cent.

The trend is still downward. This is more marked among the industrials than the rails, which, in part, is accounted for by the fact that both leading candidates are committed to an early revision of the tariff which will make for business conservatism if not in the end for serious curtailment in the earning capacity of many leading corporations. The reaction in copper metal is due to the fact that business resumption has not been on the expected sale and we look for a further sharp break in copper stocks. The metal stocks generally, including the Steels and also Smelting, should be sold on all the bulges for turns. The best support is in U. P., S. P. and Reading, and these stocks should be bought on reactions for fair profits. On the other hand, the N. Y. C. and Rock Island clouds still overcast the railroad situation, and we advise the sale of Central and the Hill stocks for turns on every bulge. The rest will, as a rule, maintain a trading position with a downward trend. We look for continued irregularity during the next few days.

WHEAT AND COPPER.

Liverpool—Wheat opened steady, 1-8 up. Corn quiet, 1-8 off. At 1.30 p. m.—Wheat unchanged to 1-8 up from opening. Corn up 3-8.

London.—Copper quiet, spot 60, unchanged, futures 60, 12s. 9d. off 1s. 3d.

EARNINGS.

O. W. quarter ended June 30, 1908, net $791,649. Increase, $119,200. Surplus after charges $496,105, inc. $118,995. 12 months ended June 30th, net $2,702,513, dec. $348,840; surplus after charges, $1,520,589, dec. $134,192.

SHORTS ARE SETTLING.

New York.—A report is current this morning that certain private settlements are being negotiated by big shorts. In this connection a rumor is noted to the effect that two bear houses are badly tanled up. Intimations referred to possible suspensions unless a deal could be arranged. These reports come from different sources. One of the most prominent R. R. men in the country is to-day telling his friends that the grain traffic and cotton movement will literally melt away the car surplus and he predicts that the next report will show a great improvement in this respect. A big reduction will probably be acepted as an indication of permanent revival in business. In uptown professional circles last night a report was noted that the shorts in St. aul would be badly punished by the Rockefeller clique this week.

ADVICE FROM EVANS.

New York.—There seems to be no stock pressing on the market, while there is a considerable short interest still uncovered. I think the selling caused by the wild market of Saturday is about over, speculators having got over the scare caused by that market and I therefore look for the market to gradually harden. I favor buying good stocks on all little dips.

EVANS.

BOSTON PRODUCE MARKET

Boston, Mass., Aug. 24.—Apples, firmer, astrachans $1.50 to $2.00, butter unchanged, Northern $.26 to .27. Cheese steady, York State $.12 1-2 to .13c. Corn lower, no 3 yellow 89 1-2. HARVESTERS DEEDS ARE EXAGGERATED

Were a Rowdy Lot but Did Nothing Like What the Western Reports Say.

(Montreal Herald.)

No information has been received at Canadian Pacific headquarters confirmatory of the reports from the West of outrageous conduct on the part of harvest excursionists from Nova Scotia. Special inquiries have been made from the general offices as to the reported indignities to a woman and cruelty to a team of horses alleged to have been taken from a harvester and tied to the rear of the train. It is not disputed that there were disorderly proceedings on the part of some of the harvesters, but nothing of the character and gravity of the enormities described in the Winnipeg despatches has come to light.

Officials at headquarters are puzzled to know where the harvester from which the team was removed could have been at work between North Bay and Winnipeg. Another point they cannot understand is where the train staff and police could have been while the things happened, and what the hundreds of sober men on the train were doing while the men who drank themselves crazy were behaving as reported. Had such things actually occurred the men in charge of the train would have telegraphed to the divisional superintendents as well as to the general officers both in Montreal and Winnipeg, the officials says. For these reasons the report is discredited, but the whole matter is being investigated.

YOU KNOW WHERE YOU ARE

Do you want a modern office training in a school controlling full equipped public service offices, where you are placed to work on public contracts as soon as competent—where you can earn more than the amount of tuition fee before accepting permanent position, besides gaining public experience that doubles your value—where the school must forfeit part of your fee if it fails to place you in a permanent position at a stated salary? There is but one school in Canada sufficiently equipped and perfectly organized to carry out the foregoing programme in its entirety, that school is The Currie Business University and its graduates are today securing from fifty to one hundred per cent. more salary than graduates of other schools.

Only one-half the fee is required in advance on all contracts closed before Saturday next. The balance may be held until acceptance of position. What other school takes any such responsibility in the matter of the position?

After next week the entrance fee will be advanced.

MARINE NOTES

Yesterday's Halifax Chronicle says:—Bound for a trip around the world on which she will cover over twenty-five thousand miles, be absent from one to two years and visit grounds untouched by sealers for nearly a century, the schooner Agnes G. Donahoe, queen of the Nova Scotia sealing fleet, will sail for the Indian Ocean this morning. Before returning, Capt. Balcolm will have scoured the South seas from Mauitius to the Arctic Circle and from the Kerguelens to New Zealand and back again to the Falklands, a trip that has never before been attempted by any sealer.

THE FREIGHT MARKET.

In the sail tonnage market chartering continues light in all trades and only a limited demand prevails for tonnage. Rates are not quotably changed and tonnage is at hand in ample quantities for all existing requirements. Of the limited demand prevailing the greater portion come from West India and coastwise shippers, long voyage freights of all kinds being scarce.

All the ladies who intend to take part in the work of the women's deaprtment at the exhibition are asked to attend a meeting at the King's Daughters Guild at 3 o'clock on Thursday afternoon.

NO QUESTION OF WAR WITH HOLLAND AND CASTRO'S REPUBLIC

London, Aug. 25.—The correspondent of the Daily Telegraph at The Hague says that after discussing the Venezuelan affair with diplomats there, he has arrived at the conclusion that there can be no question of war, such as advocated by those who are calling upon the Dutch government to take forcible action because, "In the first place Venezeula, has no navy worth mentioning and in the second place apart from the fact that the Monro doctrine would prevent the Dutch from landing, the Dutch warships could do nothing against Venezuela's steep cliffs and that portion of the Dutch army destined for service in the colonies is far too small to affect anything.

"On the other hand, insults to national honor are not matters for arbitration, therefore, with the only course left is a blow which would hit Castro in the only weak spot—his purse. When President Castro finds that every additional day of blockade reduces the revenue from import duties he will soon climb down. Further, the absolute standstill of shipping business would cause dissastisfaction in Venezuela with probable sequel of pronunciamentos and a new President."

DOVER RACES DID NOT FILL.

Readville, Mass., Aug. 25.—Walter R. Cox, lessee of the Granite State Track at Dover, N. H., who is here attending the races, announces that owing to lack of entries the Grand Circuit meet advertised for next week in that city has been declared off. Many of the horses here will go direct to Hartford, Conn., where the circuit will be resumed Labor Day week.

IN MACEDONIA AND MOROCCO

Administrative Autonomy is the Aim of the Young Turks in Macedonia---Little Trouble in Morrocco.

London, Aug. 25.—A special from Constantinople to the Times says that a member of the Young Turks is authority for saying that the Young Turks are ready to go some way in the direction of administrative autonomy for Macedonia, but will refuse to admit it to the enjoyment of privileges denied to other provinces. The committee, he said, desires to make education compulsory, leaving the question of language to be settled by the inhabitants of each locality, but making the study of the Turkish language obligatory. In general, the committee is willing to discuss matters with the different Macedonian committees in a friendly spirit.

Paris, Aug. 25.—Official circles view the situation in Morocco with a calm spirit. It is pointed out that the change in rulers does not change the problems. The act of Algeciras was devised to meet these problems and is equally applicable to the new as to the old regime. Therefore, it is considered unlikely that it will be necessary to summon a new conference of the powers, for there appears to be no reason why an agreement as to concerted action cannot be arranged through the usual diplomatic channels.

THE MERRY WIDOW HAT.

Mr. Stork—Miss Porcupine is quite chic, isn't she?

Miss Monk—Yes, and she made that Merry Widow hat by simply sticking her quills through the crown.
