FINANCIAL and COMMERCIAL

(Furnished by D. C. Clinch, banker and broker.)
Aug. 14th, 08.

N. Y. FINANCIAL BUREAU.

A dragging tendency is succeeding rallies in the stock market with offerings still met on recoveries caused by insiders and short retirement. The bull party still being in control, can force rallies at any time, although the ability of the market to absorb is not as good as it was, and the technical should be improved by short sales which may be fostered. The market is being left more to drift than heretofore. Specialists bearish operations are now experienced as frequently as special bullish work and such policy may continue temporarily, while the general list as a whole yet remains in the trading area. Purchases on declines and sales only on rallies with stop order protection will give daily operators the best returns. The fact that commission houses are not carrying much stock with professional bearish and insiders secure in control upon the foundation of cheap money and good crops affords a potential power for rallies. The confusion provided by the crop current induces through different individual positions has mixed sentiment materially, but daily operators closely following technical individual positions will get good results on both sides. The Times says the Guggenheim's deny hiring Lawson, whose bugle call sounds discord. The Journal of Commerce reports an increase in structural steel orders and a better inquiry for plates and bars in the steel trade. One of the important and favorable developments is the coming out for Taft by the Baltimore Sun, one of the best Democratic newspapers in the South. Alabama is reported making a protest to Washington as to increase in freight rates. The thing most carefully to be analysed by those interested in market affairs now is whether or not the rise has discounted the improvement in general conditions to date and prospective for say 90 days. If it has, then a set-back is due. But on such set-back purchases for reaccumulation will be made to discount improvement that is bound to come with the New Year. Temporarily we suggest caution as a safeguard against a break that would not be at all out of line.

DETAILED STOCK GOSSIP.

Careful investigation indicates that Almalgamated, Smelters, B. R. T., R. I. preferred and Steel are now being sold on all rallies by professionals who claim to find distribution here and elsewhere. Stock is now offered around 147 in St. Paul as reported yesterday, 159 in U. P., with some support near 156, 90 in Atch. with 88 support, 25 in Erie with a holding at 23, 112 LN, 110, N. Y. C., toward 127 in Penna, 129 in Reading with 126 support. Until the offerings are removed higher prices need not be expected. If the support near indicated levels is removed or reduced a temporary break may be witnessed. K. T. still displays an upward trend and may be bought on reactions. We would not buy Nor. Pac. or S. P., except on recessions, Lead appears held between 80 and 90 as yet.

New York Central in first six months of the calendar year earned for dividends 1.02 per cent. versus 3.20 per cent. last year.

The visible supply of copper in Europe July 15th is estimated at 39,675 tons.

Twenty-five roads show decrease in gross earningsc for July of 13.97 per cent.

Twe protective committees have been formed by Southern Indiana bondholders. Bankers handling the new Atch. bond issue of $17,000,000 announce that there is a good demand for them.

Stock exchange settlement in London concluded with a small failure. Professor Bailey declines to serve on Roosevelt's commission to uplift the farmer.

New Haven is barred from building a municipal subway in New York. Twelve industrials decline 98, twenty active railroads decline 98.

EXPECTS A BREAK.

New York, Aug. 14th.—The market went down yesterday, not from bear raiding or from any special news, but simply because it had grown overbought and top-heavy and the decline was due. More realizing and somewhat lower prices are probable today. I don't think however, for the moment that the decline will go far and on any break, especially if attended with activity. I believe stocks are a purchase for a turn. I would sell, however, on any good rally as I think temporarly prices are going to work lower.

ITEMS OF INTEREST

Hazelnut Hard Coal $4.00 delivered, East or West Side. J. S. Gibbon & Co.

The beauty of Ungar's Laundry Work is not all on the outside. It goes right through. Tel. 58.

The right kind of people always appreciate good work. Fall in line with the rest of the right kind and have your upholstering and repairing done by Sinclair, 77 Princess.

See the Parisian Stores ad on page 3 for special bargains for Friday and Saturday. It will pay you to give them a call. The Parisian Store, 47 Brussels street.

To be well dressed at a small cost is the wisest economy. At C. B. Pidgeon's, corner Main and Bridge streets, you can buy for $9.98 the finest black diagonal suit that was ever offered at $12.50.

Everybody come to the big auction sale of picture frames, fancy goods, etc., Saturday, Aug. 15th, at 7.30 p.m., at the Eureka Art Store, 7 Paradise Row, near Main. Don't miss this auction, the last one this season.—W. S. Potts, auctioneer.

One of the strongest features about the great midsummer sale now going on at F. A. Dykeman & Co.'s is that the entire stock is reduced in price and that it is made up of good and stylish goods. Ladies' and children's ready-to-wear materials at less than the cost of the making of the garments ought to induce crowds to patronize this sale.

A whole host of good things put on sale at F. W. Daniel & Co.'s for Friday and Saturday's selling. There are children's wash dresses at about price of making alone, little wash coats for children 2 to 6 years, ladies' fine Persian lawn waists that are pretty for house or evening wear, fine satin foulards in dark effects at small price; just the thing, house wash dresses, choice of whole lot of wash goods for children's wear, ladies' long gloves, etc. See advertisement on page five.

AL. DILLON, COMEDIAN, AT THE CEDAR.

Come and hear Al. Dillon. You don't know what you are missing. If the old proverb, laugh and grow fat, is true, the patrons of the Cedar must be putting on flesh. This comedian is a perfect scream. For Friday and Saturday The White Squaw is a feature picture. It has never been shown in this city, and it is one of the greatest dramatic pictures ever shown. Carnival at Nice is a beautiful spectacular effort, portraying the greatest parade in the world. Do not miss this. The Basket Maker's Daughter is a picture that appeals to all. The popular baritone, Percy Sayce, will be heard in a new song. Equal to the best. Five cents, as usual, is the price of admission.

Richard Harding Davis, the author, was recently appointed deputy sheriff at North Castle, N.Y., where his country place is situated.

FOOD FOR THE FIRE

What to Feed Your Self-Feeder So That It Will Give You a Warm, Pleasant Greeting on a Winter Morning.

For a Self-feeder you want the Hard Coal that lasts the longest, makes the strongest fire, burns up clean and makes little ash.

Gibbon & Co.'s Triple X Lehigh appears to fill these conditions better than any other Hard Coal imported.

The schooner "Georgia" has just arrived from New York with about 600 tons of Triple X Lehigh for Gibbon & Co.

This Coal costs a little more than the other grades of Hard Coal, but is well worth the difference.

A considerable portion of the cargo has been sold in advance, so that it will be advisable to place orders promptly. Telephone 676.

LABOR TROUBLES

(New York Journal of Commerce.)

Labor again threatens to go on a rampage. The occurrences in Alabama, the strike in Canada, the attitude of the Lackawanna's force, the general mien of union labor throughout the country, and the special political priviltges demanded for unions, all combine to stir up legitimate criticism. Hambleton & Co., the well known Southern banking firm, analyze a problem that has arisen in Baltimore over what appear to be absurd stipulations providing for the pampering of labor. The following dtduction is drawn: "The laboring interests all over this country have refused to submit to bearing their share of the effect of the period of depression through which the commercial and industrial classes have passed and are passing. When the traffic of the railroads has been so greatly reduced as to threaten their inability to earn fixed charges and while all economies are being made to meet this condition of affairs, the laborers demand the same wages which were received when we are enjoying a period of great prosperity. Of course, this condition cannot continue, and the laborer will either be compelled to meet the situation as all other interests have done, by a reduction in wages, or else a restoration of activities in our industries, trade and commerce will beg reatly delayed."

A favorite motto of trade unions is: "Unity is strength." Could not this unity be widened so as to embrace employers as well as employes?

MARINE NOTES

Norwegian steamer Lovestakken, Captain Handeland, arrived at Glasgow last Tuesday from this port with a deal cargo.

Steamship Manchester Trader, which left this port recently for Manchester via Philadelphia, took away 401,221 feet of deals.

British bark St. Croix, Captain McLennan, arrived at New York last Tuesday from Port of Spain with a cargo of asphalt.

The St. John schooner Leonard Parker in command of Captain Ljungberg, arrived yesterday from Fernandina (Fla.), with a cargo of pitch pine lumber for Thomas Bell Company.

The Furness steamship St. John City has not yet arrived at Halifax from London. She is expected there today. The agents here had not received word, last night, of her leaving St. John's (N.F.)

The schooner Nellie Morrow, from Albert-on to Northern New Brunswick to load shingles for Boston, is reported ashore at Shippigan Gully, N. B., and is liable to be a total wreck. The vessel is owned by Henry Smith, one of the contractors on the Summerside Breakwater.

Capt. John P. Tapley, a widely known retired sea captain, died recently at West Brooksville, aged 70 years. He was the youngest of the famous nine Tapley brothers, all deep sea captains, who lived to retire. Six brothers still survive.—New York Maritime Register.

The Yarmouth Herald, of Tuesday, says: A large three-masted schooner evidently in distress, was spoken by the Gloucester schr. Lucania on Tuesday of last week, 15 miles S. S. W. of Lurcher lightship. Her foremast was gone ten feet above the deck and a main boom had been rigged up and lashed to the stump, to take the place of the lost spar. The craft was heading apparently for St. John, N. B.

Note.—The above was the schr. Moamo. She arrived here August 1st from New York with a cargo of coal. An account of the disaster was published about that date in the city papers at the time of her arrival. She lost part of her mizzenmast and main and fore topmasts.

Rothesay Collegiate School, Rothesay N. B.

HEADMASTER, REV. W. R. HIBBARD, M. A.

(Late Senior Mathematical Master at Trinity College, School Port Hope.)

Well known boarding school for boys. Preparation for the Universities, R. M. C., or for business.

Manual Training New Gymnasium ready for use in September.

Five resident masters for average attendance of 70 pupils. Situation unexcelled.

The school is managed on what is known as the Home System, i.e., the boarding houses are quite separate from the main building, and each is in charge of two masters.

Next term begins September 10th.

For illustrated calendar and other information, apply to the Head Master.
