LATE LOCALS

Schooner Arthur M. Gibson, Captain Howard, arrived today with a cargo of hard coal from New York.

In the I. C. R. Depot last night a little daughter of J. A. McKinnon, of Boston, was struck in the mouth with a news-agent's truck and knocked down.

The officers and members of the Every Day Club desire to express their sincere thanks to all who assisted in any way to make their garden party so entertaining and successful.

Policeman Thomas Burchill was yesterday appointed janitor of the city lock-up. It is probable that either Policeman McCollum or Belva will be transferred to the north end division to fill the vacancy.

J. E. Muhlfeld, superintendent of motive power of the Baltimore & Ohio Railway, arrived in the city in his private car attached to the Boston train at noon. Mr. Muhlfeld was on the mechanical department of the I.C.R. about four years ago.

J. D. Medcalf, manager of the Academy of Music, Halifax, was in the city yesterday completing arrangements with Walter Magee for the appearance of the Boston Grand Opera Company in Halifax for the week following the St. John engagement.

The hotels last night were overcrowded with tourists, and cots were brought into requisition. The Eastern line steamer Camden brought 138 passengers from Boston. The Royal Dufferin and Victoria hotels report tourist travel up to the average.

A meeting of the Liberal Conservative voters for the parish of Musquash is called at Dean's hall, Musquash, tomorrow (Saturday) evening, Aug. 15th, at 7.30, for the purpose of electing a president, vice-president and secretary, and for general organization.

William Kenavy arrived here yesterday from Chipman with \$69. Yesterday he was arrested for drunkenness and \$39.20 was found on him. He claimed the remainder had been stolen from him and as a result James Laver was placed under arrest on suspicion of stealing the money.

Steamer Calvin Austin, Captain Pike, arrived this morning direct from Boston and landed 222 passengers. Immigration Agent Lantallum put the new regulations in force this morning by an examination of all the passengers before they landed. This is done to prevent any undesirable persons coming into Canada from the United States. It took the agent only a few minutes to look them over and all were allowed to land.

Frank L. Potts returned this morning from Boston, where he had been attending the Knights of Pythias supreme lodge. He denies the stories that the K. P. encampment was the scene of the wholesale robberies credited to it. Only two losses were reported to headquarters. One Knight left a stranger to guard his suit case and he disappeared. A New Jersey Knight left a fifty dollar watch on his bed, and in five minutes it was missing. The police guard, he states, was poor, but the uniform rank guarded proficiently. In order to pass the pickets one was compelled to possess the countersign of each respective company. The Artillery band received many coniums from Boston people and the press.

A CALAIS MAN DIES OF HEART DISEASE

George McConnell Fell Dead in a St. Stephen Saloon This Morning.

St. Stephen, N. B., Aug. 14—(Special).—George McConnell, a well-known resident of Calais, where he drove a fish cart, expired very suddenly here this morning at about seven o'clock. He had just crossed from Calais and was entering Tyrrell's saloon, when he fell to the floor. Medical aid was summoned but the man was dead when the physician arrived, heart disease being the cause. His remains will be sent to Eastport, his former home. He was about fifty-five years of age, and is survived by a wife and three children.

RAND GOLD OUTPUT

The gold output of the Rand is steadily expanding. The July yield of 584,000 ounces constitutes a new monthly record. This means that approximately \$2,500,000 new gold is being shipped to the London open market every week, where it becomes immediately available for the great banks of Europe. Less than one month elapses from the time the gold is brought to the surface of the mines until it is taken over the counter of the Bank of England. The metal is first conveyed from the mines to the banks in Johannesburg, sent by express train to Cape Town, immediately transferred to the Union-Castle steamships, shipped direct to Southampton, where it arrives usually on Saturday morning, and is forwarded in time for Monday's sale of gold. Yesterday \$3,500,000 Transvaal gold was offered in London, the Bank of Germany purchasing the whole amount at 7s. 10 1-4d. per ounce, or 1 1-4d. above the statutory mint price. The mine owners derive direct benefit from any advance in the price of their product. About six mining groups control the industry.

About 85 per cent. of the lumber mills in Louisiana, Mississippi, Alabama, Arkansas and Texas are in operation, and the percentage will be increased steadily.

CONDITIONS IN COURTENAY BAY

No Rock Has Been Discovered Yet and Bay is Believed to be Suitable for Docks.

So far as the dredging operations in Courtenay Bay have gone, it has been demonstrated that the bottom is adapted for dredging. It has been stated by those acquainted with conditions at the outside of the mouth of the bay that no rock will be found there either. Dredgings, however, will not be completed for some weeks. After the work has been finished, a report will be made to the parties interested—the City of St. John, Grand Trunk Pacific Railway and the Department of Public Works of Canada—when action will be taken. The Minister of Public Works is expected to be in the city the last of this week or the beginning of next. Mayor Bullock will confer with him concerning the construction of docks on Courtenay Bay should the C. T. P. decide to make St. John its terminus.

PRICE WEBBER

LOSES AGAIN

Much of His Property Was Destroyed in Recent Theatre Fire at Amherst.

Masons theatre at Amherst, which was destroyed by fire a short time ago, was under lease to Messrs. Torrie & Winter, of Moncton, who were using it for moving picture entertainments. The day previous to the fire, H. Price Webber, the veteran show man, stored all his scenery, costumes and other paraphernalia in the theatre and his whole outfit went up in smoke. This is the second time that the price has met with the loss of his outfit by fire, the former occasion being a Truro a few years ago whilst playing that town, the theatre being destroyed in like manner, the company losing their entire stock of scenery, wardrobe, etc. Manager Webber's many friends will hope to hear of his early recovery from this latest catastrophe and that he will rise, Sphinx-like, from the ashes, and continue for many a season yet to entertain and amuse his thousands of patrons throughout the Provinces.

STREET CARS STALLED

Car 23 Collided With a Team This Morning and Caused a Delay.

There was the "23" but no skiddoo on Main street North End this morning when a street car bearing that unfortunate number collided with a double team load of scrap iron. The team, the property of James Clark, was hauling a load of scrap iron to the Portland Rolling Mills. It tried to pull across the street, but as the rail was slippery the motorman was unable to stop in time and the fender crashed into the front wheels of the car, smashing one wheel badly, and causing a breakdown. Another car had to be procured. The process of unloading from one to the other entailed a lot of time, and during the ten or fifteen minutes cars 43, 49 and 51 came along and traffic on the main line was tied up; but with the help of the motorman and conductor of the stalled cars the track was cleared.

POLICE COURT

John Lenihan, twenty years old, who was arrested in the West End for throwing stones in the street and wilfully breaking a window in his father's house, faced a charge of being disorderly around the West Side ferry entrance. When requested to plead, he folded his arms and said, "I plead guilty to everything you got a good case against me." He was remanded, as he is believed to be mentally unsound, and his actions and manner in court served to strengthen the opinion.

PROBATE COURT

Estate of Michael Burns, of St. John (West Side), yeoman; last will proved, whereby he gives to his wife, Bridget, for life; after her death, to his son, William J. Burns, subject to the payment of \$250, within two years from the date of the death of his wife to each of the other sons, John Burns, Robert Burns and Edward Burns. William J. Burns sworn in as sole executor. John B. M. Baxter, proctor.

The Great Utility Suits

BLUE OR BLACK IN CHEVIOTS AND WORSTEDS

TAKE a mental census of your male friends and the suits they wear and you will find plain Navy Blue or Black the outnumbering shades. Of course there's a well-grounded reason for this partiality, indeed, several reasons; Blues and Blacks are always dressy, they're permissible at semi-formal functions, and refined when worn to business. Their deep color tones impart neatness and cleanliness, and, in most cases, outlive the more striking patterned goods. For fall and winter, particularly, these suits have first call.
