FINANCIAL and COMMERCIAL

(Furnished by D. C. Clinch, Banker and Broker, September 17.)

NEW YORK FINANCIAL BUREAU.

Important sources expect a recovery in the stock market today. Purchases on weakness should be moderately profitable for discriminating daily operators. Liquidation is being permitted to run its course as anticipated. Trouble rumors multiplied in the last hour yesterday so that some mention of the reports in general is justified. Careful investigation traced among the bear quarters where the published defalcation seem largely responsible although two weak points were referred to as not of serious importance. These rumors will probably be disposed of. It seems hard to understand why there should be trouble when commission houses have been carrying so little stock and there has been no wild market movement lately. The Sun this morning calls Chandler's nomination a strong one for the Democrats but we direct attention to the American in which Hearst declares that Chandler has "sold his birthright" and it is impossible not to infer that Hearst's independents will work against Chandler, a supposition not thought likely in political quarters yesterday when we made inquiry on this point. Bryan's entrance into the East and his reception by "crowds" with the probability of a "crowd" in the metropolis where crowds are always available is being used by the bear element in promoting the Bryan scare, a feature we think is being given too much purposeful prominence by insiders in their discussions or givings out to newspaper men. One of the most important developments is covered by the Times in a front page article today referring to an Erie conference between Harriman and Morgan yesterday afternoon, plans for the rejuvenating of Erie being considered. We desire also to direct special attention to the fundamental development of improving business. The railroad gazette says merchandise moving is increasing, Vice-President Thayer, of the Pennsylvania, says prosperity is nearer, the big Birmingham district is rapidly improving since the mine opening. St. Paul will order 5,000 cars following New Haven with other roads in line; glass orders are increasing; automobile works are increasing forces; the Lackawanna shops are now being put on full time; the Iron Age reports inquiries for iron for 1909. These are a few of the newslets we have noted. The speak loudly for the conservative bull and against the pessimist.

DETAILED STOCK GOSSIP.

General reductions of support occurred yesterday to permit liquidation to run St. Paul, A. R., D. R., Erie, GNQ., Lead, N. P., Cen. Loco. and Steel all exhibit reactionary tendencies now and professionals offered. We would prefer to buy them for turns on weakness today. The Herald has a denial of James estate selling of Great Northern. U. P. support appears lowered toward 162 from which it may rally well. S. P. should be bought on a scale, also K. T. and R. I. Pfd. Reading should again be bought for a turn on heaviness. The annual report issued last night shows a $700,000 increase in surplus. A. C. P. will find some support near 75. Atchison, B. R. T., and Penna. are still in the trading position.

COTTON.

Liverpool.—Duc 1 1-2 higher on near and 2 to 2 1-2 higher on late months. Opened quiet unchanged on near and 2 to 2 1-2 lower on late. 12.15 p.m.—Steady net 2 1-2 to 4 points higher on near and unchanged to 1-2 higher on late months. Spot cotton quiet 9 points higher, middlings up's 5.46d. Sales 6,000 speculation and export 500, American 5,000, imports 6,000 including 5,000 American. Later Liverpool cables were 1-2 to 1 point higher than 12.15 p.m.

SUMMARY.

Americans in London rallied showing gains of 1-4 to 3-4 per cent. on parity.

Uptown branch manager of E. R. Chapman & Co. short $30,000.

Strength in exchange stimulating talk of gold exports.

St. Paul expected to place order for 5,000 cars this week.

Soo surplus applicable to common dividends 8.39 per cent. on stock outstanding.

No confirmation of scare stories current during Wednesday's decline.

Reading surplus for past year $9,448,000 equal to 9 5-10 per cent.. on common and largest surplus since 1905.

Bankers think it unlikely that gold movement from London to South America will be diverted to New York.

Lehigh Valley July net decrease $453,935; 33 roads first week September show average decrease of 10.12 per cent.

Regular quarterly dividend of one per cent. on Kansas City Southern pfd.

Hocking Valley surplus after pfd. dividend $764,681, equal to 6.95 per cent. on common.

Twelve industrials declined 1.21 per cent.; 20 actice r. r's. declined 1.32 per cent.

TOWN TOPICS.

Margin calls will likely cause a good deal of irregularity in the early trading today and we expect to see further weakness manifested through the list. At the same time the technical position of the market has been materially strengthened by the events of the past few days and at any moment the right kind of support is likely to make its appearance when short covering would bring about a decided rally. We do not, however, look for any immediate resumption of the bull movement but rather expect the market to remain in a trading position backing and filling around present levels for a while pending a more definite idea as to the attitude of the most important interests.

For our part we believe that there has been no change in the bull programme and consequently believe that on all drives the leading rails at least are good purchases for fair profits. Should the market open unexpectedly strong, however, and advance sharply during the early trading we think stock may be sold for a turn. We look, however, for very good support now in the Hill issues and St. Paul. Loco and Steel are also receiving good support but we do not look for any real upward movement in industrials.

New York.—The bear tips referred to on D. R. account of prohibition are followed today by the count that indicates that Arkansas has gone dry following the Maine election and the dryness of Jersey Sundays. These features are said to be cutting heavy into the earnings of D. R.

Information received by us indicates that Morgan interests have placed scale down buying orders in U. S. Steel. We have noticed that these scale orders are generally reached.

WALL STREET.

New York, Sept. 17.—Stocks opened at small fractional recoveries from the closing depression of yesterday. Transactions in the general list were small, but there were running sales of Reading at an extreme advance of 1⅛.

MARINE NOTES

Montreal, Que., Sept. 15.—The passengers of the damaged stmr. Corinthian will probably be held at Quebec till Saturday and then transferred to the Corsican, which leaves here Friday for London.

A telegram received at London from Perim states that stmr. Kentra, Doty, from Tandjong, Priok, July 17 for Java and United States, has just arrived with defective machinery. Repairing at Perim.

Percy & Small, shipbuilders, Bath, Me., are now constructing one of the finest vessels ever built. She will be between five and si thousand tons and will cost, when ready for sea, about 180,000. Capt. Ott Clarke, formerly of St. Andrews, will have charge of her. She will be launched about Dec. 1st.

While trying to cut corners getting into the harbor the two-masted schooner Vera B. Roberts, Capt. Roberts, got stuck in the mud on the Lower Middle about noon yesterday. She floated after a while and later proceeded unassisted to an anchorage in the upper harbor. She brought in 152,000 feet of lumber. Capt. Roberts said he didn't count on the tide being so low.

She was from Weymouth, N. S.—Boston Journal, Sept. 16.
