Dykeman's

WORTHY SPRING DRESS MATERIALS OF THE CORRECT STYLES.

The writer of this advertisement has just returned from a trip to the large centres, and it was most pleasing to him to note that no newer or no different styles of goods were shown in these large trade centres than are shown in this store. The strongest features for the New Spring garments are the plain materials in Tans, Browns, Blues and Greens, with a few lines shown in Tweeds and Coverts, the latter being the strong material for separate coats.

The newest weaves are shown in *Panamas, Batistes, Venetians, Serges and Kerseys.* Venetians are the popular materials for suits.

We are showing three *Venetians* in five prices, **55c., 75c., $1.00. $1.35 and $1.60.**

Panamas at 45c., 55c., 75c. and 95c.

Wool Batistes, 55c. and 75c.

We have large ranges of these goods in each coloring. The range of prices is sufficient to meet every requirement. You can have any of the above goods *sponged and made up on the premises* at the most reasonable figures. Samples sent to out-of-town customers.

59 CHARLOTTE STREET

MOTHER ST. STEPHEN DEAD IN MONTREAL

Superioress of the Monastry of the Good Shepherd in St. John Died This Morning.

His Lordship Bishop Casey received a telegram from Montreal Monday conveying the sad intelligence of the death of Mother St. Stephen, superioress of the monastery of the Good Shepherd in St. John. The news of the death of the reverend mother will cause a great shock as she was revered by all with whom she came in contact. Mother St. Stephen, though she never complained, had for years been a sufferer from Bright's disease. Only last Friday she went to Montreal in response to a call from the provincial of the order, who wished her to seek medical advice and treatment there.

On Sunday afternoon a telegram was received by Bishop Casey conveying the information that she was seriously ill. His lordship was asked to notify the sisters in the monastery here. This was followed by the despatch ofy Monda telling of her death. The news has caused great sorrow among the sisters of the community among whom the reverend mother was greatly beloved. She was devoted to the work pursued by the order. She was most charitable and was always ready with a kindly word or help for the unfortunate. Although never complaining of her own illness she was ever solicitous about the welfare of others and her tender ministrations will be remembered by many. Her friends were not only among the members of her own community but many in the world held her in high esteem.

Mother St. Stephen was about 65 years of age and was born in the vicinity of Montreal. She had been a member of the Order of the Good Shepherd for a great many years. Her notable business qualities as well as general fitness in other directions had won for her deserved recognition and placed her in positions of responsibility in the communities. For 20 years she was superioress of the monastery at St. Hubert near Montreal, and for three years superioress of the female jail conducted by the order in Montreal. For the last seven years she had been the honored head of the monastery in Waterloo street in this city.

That the death of the reverend mother was sudden is shown by the fact that a letter was received from her in the monastery here Monday. The letter had been written on Saturday morning at 11 o'clock. It told of her safe arrival in Montreal and how she had been met at the train by two of the outside sisters. The letter also told of a good night spent on the train and of Mother St. Stephen's intention to visit a niece, who is also a member of the order, and who is sick in the Montreal convent. The funeral will be held in Montreal on Wednesday.

BULLETIN OF THE NATURAL HISTORY SOCIETY OF N. B.

A copy of the 26th bulletin of the Natural History Society, which has been received, shows that this society is in an active, and very prosperous state, and doing good work along its own peculiar lines. Its articles are valuable and interesting.

The first contribution is that by Dr. G. F. Matthew, on "The Physical Evolution of Acadia," part 1st, "The Insular stage of preDevonian Development." This, although claimed to be written "in a somewhat popular view," yet bears evidence of the technical knowledge of the writer, and appeals to the scientific geologist, in nomenclature and statement. As usual, Dr. Matthew has gone very minutely and carefully into the subject, and gives information of value to the geologist, and of interest to the general reader. He state that the upper series of the "Laurentian Range" has a clear succession of limestones, quartzites, and gneisses. In the limestone reefs are found that very interesting calcareous fossil (archaezoon), which shows organic life at this "dawn period" of the world's physical history. A view, of course, opposed to those who do not believe that this fossil is the remains of a once living form.

He states that "no remains of animals or plants have been found in the Huronian of either New Brunsick or Nova Scotia, worm burrows, however, and some obscure markings are known in the quartzites of the gold bearing series in the latter province. But as there are well marked indications of organic forms in the Laurentian rocks below, no doubt lowly forms of life existed through all these periods."

W. F. Ganong contributes an article "On the Physiographic Characteristics of Portage and Fox Islands, Miramichi." Why the name of "Portage" is applied is not certain, unless this, and Fox Island, were at one time united. Also, possibly, Fox Island is named after the 'great parliamentary leader,' and not after the fox. The vegetation, structure and topography of these islands are carefully stated.

Then follows a brief, but interesting article, by the same writer, on "The Height of the Highest New Brunswick Waterfall," and "Fall Brook," Miramichi, estimated at about 100 feet, appears to have that honor. "It is remarkably beautiful when seen at high water. It is not truly vertical, but runs in a symmetrical sheet down the very steep face of a great cliff, against the ledges of which it is dashed to the finest veil of fleecy lace, while all the surroundings are strikingly wild and fine." This fall is about fifteen miles above Boiestown.

An interesting article by Mr. Ganong, on the "Occurrence of the Wolf in New Brunswick," is opposed to "Fake Naturalists," and the naturalist president of the United States can find herein solid comfort. Not so those, however, who find a charm in the expression of the imaginative faculty and like to think of "airy nothings," without "local habitation," or "a name." Naturally, following this is an article "On the Psychological Basis of New Brunswick Sea Serpents," by the same writer. Lake Utopia must lose one of its charms if we must believe that the only true serpent to be found there has its environment in the lineal descendants of the Adamic species.

The article on "The Fungi of New Brunswick," is carefully and lovingly written by Dr. G. U. Hay. He tabulates 321 additions to previous lists. The writer advocates the use of mushrooms, which apart from their beauty, taste good, that is, the non-poisonous kinds. Dr. Hay also contributes an "In Memoriam." for his late nature-loving friend, John Moser, who died recently at Havelock, N. B.

D. Leavitt Hutchinson, contributes articles "Phenomena of the Tides at Indiantown," stating that high water at Indiantown "occurs on an average, 1 hour and 6 minutes later than the St. John harbor high, and the low at Indiantown, an average of two hours and twenty minutes later."

Interesting and accurate meterological data for 1907 by the same writer follow.

In the appendix of the bulletin is a summary of the annual address, by the president of the society, the Hon. Senator J. V. Ellis, subject: "The influence of the imagination upon the scientific minds in studies of nature."

The council's report states that this society has a membership of 535 members in various classes. Its finances are in a good condition as regards ordinary revenue, but the mortgage upon the building, has led to the insertion of a foot note in the Bulletin instancing the "munificent benefaction of $1,000.000 given by the late Morris K. Jessup to the American Museum of Natural History of New York," and hoping "that this may stimulate some liberal minded Canadian, to aid the museum of this society in a similar way." Smaller amounts, however, we presume, will not be rejected.

The report of the curator, Mr. McIntosh, which is full of information, shows that the museum contains, in various departments. 25,000 specimens, and the library 10,333 volumes, pamphlets and maps.

The society has 284 lady associate members, whose energies have been marked during the past year. The series of scientific and regular lectures, conducted during 1907 and 1908 have been duly noticed in the Times.

Mention of 47 junior members, must be made, as herein is to be found the nucleus of the famous local naturalists of the future.

The Bulletin is neatly printed by Barnes & Co. and is for sale at the book stores.

ITEMS OF INTEREST

Not an article allowed to pass out of Ungar's Laundry doors without passing the close scrutiny of our inspector. Clean, well-ironed and beautiful work.

Real economy in shoe buying is only possible when the regular prices afford real honest values. Throughout this entire community Pidgeon's North End Store is known as St. John's leading popular priced outfitting house. Pidgeon's shoes at reduced prices mean genuine bargains in the truest sense of real economy.

NEW SINGER AT THE PRINCESS

D. Macdonald has joined the Princess staff of singers. He has a pleasing baritone voice. In "A Little Child Shall Lead Them,' he was encored repeatedly. Mr. Harry Newcombe sang "Good Night Beloved, Good Night," with great success. The programme comprised six new pictures, "Buster Brown and His Dog Tige," created roars of laughter. "Disagreeable Passengers," the trouble an old maid has with a gentleman about the closing of a window; "Uncle Josh at the Moving Picture Show" is a comedy of a countryman's first visit to a moving picture theatre. "A Country Drama," "Woman's Armies," and "Love and a Bycicle," complete a first class programme, which will be repeated for the last time tonight.

OTHELLO AT THE NICKEL THEATRE

Tomorrow at the Nickel a distinct novelty will be introduced in Shakespeare's famous play, Othello, The Moor of Venice. The picture will be a long one, and magnificent in every particular, embracing all the strong points of the Shakespearian play. The Venetian water scenes will be particularly lovely.

Blew Out His Brains

Had no more sense than the man who tries to cure corns by a cheap acid corn salve. The only painless and sure cure is Putnam's—contains no acids, is purely vegetable. Use only Putnam's Painless Corn Extractor.

A LARGE FORTUNE AWAITS CLAIMANTS

Estate of $750,000,000 in England Wants Its Rightful Heirs.

St. Thomas, Ont., March 16—A number of relatives here of Henry Page, who died in Marble Arch, London (Eng.), in 1829, will make a fight for the estate which was left by Page and which, it is said, amounts to $750,000,000. Attempts to dispose of the property were impossible because of inability to give a clear deed. Subsequently the property was leased for ninety-nine years, the lease having yet twenty-one years to run.

The claimants include the Pages in Saginaw, Michigan and Canadians in London and St. Thomas. The St. Thomas heirs are Mary, widow of Luke Page; Joseph Knight, the well known ex-ball player of the Eastern League; his daughter, Valerie, Byron Knight, and his two sons and daughters.

So far the number of claimants do not exceed fifty persons. The original Page from whom the legacy is descended was a brother of Joseph and Byron Knight's great grandfather. The important point for the St. Thomas heirs to establish is the Christian name of their grandfather Page, who died and was buried in St. Thomas about 1860.

Montreal, March 16.—What is considered a practical offer for the removal of snow from the streets on which there are car tracks was made today by the Montreal Street Railway. The company guarantee that the maximum cost shall not exceed $3,000 a mile, the city paying half. The reduction on the present system is ten per cent. The offer is for ten years.

He Knows

Consult your doctor freely about medical matters. He knows. Trust him. Do as he says. Follow his advice.

Talk with your doctor about Ayer's non-alcoholic Sarsaparilla. Ask him if he prescribes it for pale, delicate children. Ask him if he recommends it when the blood is thin and impure, and when the nerves are weak and unsteady. Ask him if it aids nature in building up the general health. J. C. Ayer Co., Lowell, Mass.

WHAT IT COST TO RE-ORGANIZE THE I. C. R. BOOKKEEPING SYSTEM

Nearly $350,000 Paid for This Alone---Subsidies for Canadian Associated Press---Supplementary Estimates Presented.

Ottawa, March 16—At the opening of the house today, Dr. Sproul said he had not given incorrect figures of senate pages and their religions to the general meeting of the Orangemen. He had given the pages and messengers of both houses, and had expressed the opinion that the proportion of Roman Catholics was too great.

Mr. Lefurgey denied he had sent back returns in a mutilated condition, as stated in the press. The returns were intact.

Mr. Turriff denied that he had, when dominion lands commissioner, ever accepted a tender after the date for closing.

Mr. Foster asked what departments other than that of marine and fisheries had employed Kenneth Falconer or his firm in connection with their accounting business and what sums had been paid for such services.

The minister of railways and canals replied that Mr. Falconer and his associates had been employed in connection with the reorganization of the entire system of accounting on the Intercolonial and Prince Edward Island railways in 1906. The work included detail incident to the business which these roads transacted, not only at the head office but at every station along their lines, and Mr. Falconer's staff was under the necessity, therefore, of visiting every station of importance on both systems.

They not only reorganized the system of accounting, but spent a year and a half instructing and assisting the railway staff in the proper carrying out of the system in question so that the results expected might be obtained. The work was done at scheduled prices, and totalled $343,084. In addition to this reorganization proper the railways department had been furnished with several expert reports by this same firm, which were almost invaluable. The results obtained have already much more than compensated for the outlay for this purpose.

Dr. Roche (Marquette) had a question on the order paper relative to the government subsidies which have been paid to the Canadian Associated Press in the last five years which were stated by the finance minister to have been as follows:

Year ended June 30, 1904, $12,500; 1905, $11,592; 1906, $10,765; 1907, $10,000; seven months ended Jan. 31, 1908, $2,916.

Mr. Fielding was unable to say what proportion this represented of the entire cost of the service. The subsidy will expire on June 30 next, but application has been made for its renewal for a further term.

Dr. Roche asked whether any proposal has been made to the government for a subsidy to a domestic Canadian news service, to which the finance minister said "no."

Dr. Roche asked further: "Is the government aware that in the event of a further bonus to the Canadian Associated Press being granted, it is proposed to confine the use of this service to newspapers which will undertake to subscribe also to the domestic service?"

To this last question the minister's answer was "no."

Cigarette smoking was up in the house today and Mr. Blain (Peel), moved the following resolution:

"That the object of good government is to promote the general welfare of the people by a careful encouragement and protection of whatever makes for the public good, and by an equally careful discouragement and suppression of whatever tends to the public disadvantage.

"That the smoking of cigarettes has been proved by overwhelming testimony to be productive of serious physical and moral injury to young people, impairing health, arresting development, weakening intellectual power and thus constituting a social and national evil.

"That the legislation, licensing and restricting the sale of cigarettes has not proven sufficient to prevent these evils which will continue while the public sale of the cause of the mischief is permitted to go on.

"That this house is of opinion, for the reasons hereofore set forth, that the right and most effectual remedy for these evils is to be found in the enactment and enforcement of a low prohibiting the importation, manufacture and sale of cigarettes, and that it is expedient to bring in a bill at this session to prohibit the importation, manufacture and sale of cigarettes."

Mr. Elson (Middlesex), seconded the resolution. It was supported by Martin (P. E. I.), Dr. Barr (Dufferin), Mr. Telford (North Grey.)

G. W. Ganong wants to know whether the government will make an appropriation for wharf at Welch's Cove and also how many station platforms of the I. C. R. have been built or rebuilt of asphalt in 1905, 1906, and 1907 and if the work was satisfactory.

Dr. Daniel will make an enquiry about the submarine signal apparatus off Negro Point, Bay of Fundy.

Mr. Fielding presented the supplementary estimates to the house tonight for the fiscal year ending March 31, 1908.

There is an item of $125,000 for immigration general expenses, $235,000 for annual drill of militia.

Intercolonial Railway—To increase accommodation at Halifax, $220,000.

Rolling stock, $80,000.

St. Rosalie, improvements, $30,000.

To increase accommodation at Pictou, $13,000.

To increase accommodation at Springhill Junction, $2,500.

St. John quarantine station on Partridge Island, water service, additional amount $6,300.

St. John dominion buildings, improvements and repairs, $1,300.

St. John quarantine station on Partridge Island, $2,400.

St. John harbor improvements, $330,000.

Dalhousie harbor improvements, $6,000.

Maritime Provinces.

Dominion steamers—Further amount required for maintenance and repairs to government steamers and ice breakers, $85,000.

Removal of obstructions, $3,600.

Tidal service—To provide for the purchase of a steam windlass for deep sea anchorage for stmr. Gulnare, $3,000.

Gratuity to the daughter of the late Robert Angus in his lifetime a clerk in the tidal service, equal to two months' salary, $166.

Amount required to meet expenses connected with the reception and entertainment of His Imperial Highness Prince Fushimi, of Japan, during his visit to Canada, $37,000.

To provide an amount in aid of the sufferers by earthquake and fire in the Island of Jamaica, $7,255.

Intercolonial Railway, $1,400,000.

Prince Edward Island Railway, $50,000.

Prince Edward Island Railway—To pay to the widow of the late Harry Houle, trackmaster, a gratuity equal to two months' salary, $176.66.

The total amount asked for is $5,325,633, of which $595,608 is charged to capital.

Additional amount required for the service between Canada and Great Britain, $90,000.

Additional amount required for the service between Canada and Australia, $3,471.

Additional amount required for extra daily trips between Baddeck and Grand Narrows, $825.

Land and cable telegraph lines, lower St. Lawrence and Maritime Provinces, including vessels required for cable service, $15,000.

Mr. Miller (South Grey) supported the resolution.

Hon. Mr. Fisher also supported it, adding that Mr. Blain should have brought in a bill so that something definite should be before the house.

Dr. Sproule, in giving his support, said that it was the duty of the government to bring in legislation, and Mr. Henderson (Halton) took this view. Mr. MacPherson moved to adjourn the debate, which was carried by 61 for and 51 against.

How's This?

We offer One Hundred dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists.

Take Hall's Family Pills for constipation.

WANTS THEM TURNED OUT

Conservative Association of Albert County Favors Complete Change of Provincial Office Holders.

Hillsboro, Albert county, March 16—At the annual meeting of the Liberal-Conservative Association of Albert county, held in the Opera House here today, a resolution in favor of a complete change of office holders under the present administration of the province was unanimously adopted. The meeting was the largest and most representative gathering of the kind ever held in the county. W. B. Dickson, M. P. P.-elect, presided. A large amount of business was transacted.

Lewis Smith, of Coverdale, a young man of much promise, was elected president for the ensuing year amid much enthusiasm. Harry J. Stevens, warden of Albert county, was elected vice-president, and William M. Burns was continued as secretary-treasurer.

Among the resolutions passed was one congratulating George W. Fowler, M. P., on his excellent work during the last campaign; another pledged the association as unanimously in favor of a complete change of office holders under the present administration, and a third endorsed the platform laid down by J. D. Hazen.

While boarding the Salisbury & Harvey train at Albert, on his way to the convention, Charles W. Anderson suddenly expired. Mr. Anderson was a civil court commissioner of Harvey parish, and a much respected farmer. Although ailing for some time his condition was not thought to be serious, and the sad event came as a great shock to a large circle of friends.

Mr. Anderson is survived by his wife, who is lying helpless from paralysis, and he also leaves two sons and three daughters. He was aged sixty-seven years.

The Liberal-Conservative Association, of whose principles Mr. Anderson was a staunch supporter, passed a unanimous resolution of condolence with his widow and family.

Grippe is sweeping the country. Stop it with Preventics, before it gets deeply seated. To check early colds with these little Candy Cold Cure Tablets is surely sensible and safe. Preventics contain no Quinine, no laxative, nothing harsh or sickening. Pneumonia would never appear if early colds were promptly broken. Also good for feverish children. Large box, 48 tablets, 25 cents. Vest pocket boxes 5 cents. Sold by all Druggists.

AT THE NICKEL

It seems as if all St. John was bound towards the Nickel last evening, the streets were actually black with those who were either going towards or coming from this popular picture house. Those who did attend saw one of the best shows in a long time. The leading film, The Workman's Honor, was watched with tense interest from the time the men came from the gates of the big manufacturing establishment until the hero of the story made his solemn vow against liquor in front of the tavern that had done him so much harm. As a temperance lesson this film is a strong one.

To many the long picture, entitled The Miller's Daughter, appealed more strongly. It is a charming story of New England country life, the tale of a pretty maid who became enamored of a visiting city fellow and started to elope with him until she found the man to be already possessed of a wife. Though she returned to the paternal roof the puritanical old father would not allow her to enter. Her struggles in New York, her poverty and rescue from self-destruction and final reunion and marriage were faithfully portrayed. That Mother-in-Law Is A Bore made everybody laugh.

This afternoon and tonight the musical portion of the programme will be typically Irish in honor of the day. Sydney Beckley will sing Tom Moore's immortal song, The Minstrel Boy, elaborately orchestraed. The orchestra will render an irresistable pot-pourri of Irish airs, including present-day and old time numbers. The Nickel's orchestra is one of the strongest features of the house, and its music is not only sweet and perfectly rendered, but is at all times timely and intelligently chosen. Mr. Weston is singing a delicious little number, entitled I Love You Marie.

Fortune may point out the way, but it is energy alone which achieves success.

SAVE THE CHILDREN

Insure Them Good Health

Ninety per cent of children, under twelve years of age, are being poisoned and parents don't realize it.

Irregular bowels are the chief cause. You parents know that your bowels should move every day. You know you must be as regular as clock-work, or the blood will become tainted.

Don't you realize that the children must be as orderly in getting rid of the waste matter of their system?

Then, if you find that any of the little ones go two or three days without action of the bowels, don't run to castor oil, senna tea, calomel, cascara or harsh "liver pills." Those simply purge the child—strain the bowels.

"Fruit-a-tives" are ideal medicine for children. They are fruit juices and tonics in the form of a pleasant tasting tablet. "Fruit-a-tives" stimulate the liver, causing more bile to flow. It is the bile, given up by the liver, which moves the bowels. Fruit-a-tives" regulate the liver and bowels, and thus completely cure constipation. They sweeten the stomach, and are the finest tonic in the world to build up the system and make children plump and rosy. 50c. a box—six for $2.50. Sent on receipt of price if your dealer does not handle them. "Fruit-a-tives" Limited, Ottawa, Ont.

IRELAND AT THE CEDAR

One of the best moving picture performances is that at the Cedar last night and tonight. The principal pictures are two separate films taken in Ireland showing the points of interest and principal cities, including Blarney Castle, Kissing the Blarney Stone, Holyhead, Conway, Dublin and its principal thoroughfares. These pictures also show the industries of the country and the different types of people. Many people with their own ideas of Ireland will receive many surprises, on viewing these pictures of Erin's Isle.

Another excellent picture entitled the Eleventh Hour, tells a beautiful story in which two children play principal parts. They are seen all through the picture, and are the cause of a happy ending to a pathetic play. Another comedy film completes the pictures.

Elmer Holder, the popular North End singer, is making a decided hit in that catchy Irish Indian song entitled Since Arrah Wanna Married Barney Carney. The firemen's voting contest is already proving popular.

If you have Catarrh rid yourself of this repulsive disease. Ask Dr. Shoop of Racine, Wis., to mail you free, a trial box of his Dr. Shoop's Catarrh Remedy. A simple, single test, will surely tell you a Catarrh truth well worth your knowing. Write today. Don't suffer longer. Sold by all Druggists.

It is so easy to cure Constipation. Just a glass of

Abbey's Effer-vescent Salt

every morning makes the liver active — the bowels healthy and regular—and so easy to take.

25c. and 60c. a bottle. At druggists. 153
