

GERMAN CRUISER SINKS A GLOUCESTER SCHOONER

Nine Fishermen Drowned in the Collision Including Six Nova Scotians—The Captain Went Down With His Vessel.

Halifax, Aug. 9.—The German cruiser Freya, from Fayal, arrived this afternoon. She reported having sunk the Gloucester schooner, Maggie May, on the Banks of Newfoundland. Nine men were lost, four saved. The collision occurred yesterday in a fog.

The captain of the schooner was among the lost. The schooner sank almost immediately after being struck. The four rescued men were brought to Halifax.

The list of saved and lost on the schooner is:

The saved—Leo Farn Bellowan, Fortune Bay (N. F.); Silvan White, John Muse and Wm. Muse, Ed Brook, Yarmouth.

The lost—Captain Erick, McCathran, Gloucester; Koch Wenzel, Lunenburg; Walter Finner, Codry (N. F.); Patrick English, Conception Bay (N. F.); Ruben Porter, Delon Porter, Thomas Muse, Guste Ludeger and Alfred Muse, all of Ed Brook, Yarmouth.

The German protected cruiser Freya can down and sank the Maggie and May at 11.30 last night about sixty miles southeast of Halifax. The cruiser which is commanded by Captain Maas, left Fayal on August 2 for Halifax. When she reached this coast fog was encountered. Captain Maas expressed great grief for the sad accident which followed. He said he was steaming about seven knots an hour, and that his fog whistle was going. He heard the schooner's fog horn and it appears as though the men on the schooner heard the whistle of the approaching cruiser.

Captain Maas could see nothing but he thought the sound of the fog horn came from about one point to port and then two points. This was but a moment before the collision and to clear the vessel he ordered the cruiser to starboard. Just as he did this he was able to see the schooner. She was not to starboard but directly ahead.

Almost at the moment that he crashed into the schooner, the German captain made out a blue pilot light on the schooner. The cruiser's engines were instantly reversed and this lessened the force of the blow, but still it was terrible enough and it appears as though the men on the schooner heard the whistle of the approaching cruiser.

Captain Maas could see nothing but he thought the sound of the fog horn came from about one point to port and then two points. This was but a moment before the collision and to clear the vessel he ordered the cruiser to starboard. Just as he did this he was able to see the schooner. She was not to starboard but directly ahead.

F. B. CARVELL IN CARLETON

He Was Nominated in a Liberal Convention Held in Woodstock on Saturday.

Woodstock, N. B., Aug. 8.—(Special).—The convention for the nomination of a liberal candidate for the next federal election was held in the new theatre this afternoon and was well attended. Jas. A. Barter, president of the Liberal association for this county, was in the chair.

F. B. Carvell, M.P., was given the nomination by a standing vote and in his address he expressed thanks for the nomination. He said he could give no information as to the date for the general election.

Addresses were also made by Rev. Burton Morgan, Hon. W. P. Jones, Wm. Hayward, Dr. Curtis, Frank Hagerman, Harry Carvell and Geo. U. Upham.

POLICEMAN WAS BEATEN TO DEATH

Methuen, Mass., Aug. 9.—Brutally beaten to death in the performance of their duty, the bodies of Chas. H. Emerson and Frank McDermott, of the Methuen police department, were found in a peat meadow on the outskirts of this town today. They were sent out last night to catch petty marauders who had been causing loss to the farmers by robbing of hen yards and vegetable gardens. The officers failed to report for duty this morning and Chief Jones organized searching parties, but it was not until late in the afternoon that one of the posse stumbled across the bodies of the two officers in the bushes of the peat meadows.

Nearby were two large blood-stained stones. McDermott's head was crushed in and there were other ugly bruises as if he had been beaten to death. Close beside him was Emerson's body. This, too, was covered with bruises. The bushes were splattered with blood and trampled, evidently by a struggle.

Tracks were seen leading from the place, but the immediate vicinity was so thoroughly tracked over by the searching parties that it was impossible to trace the steps. The most intense excitement has been caused.

The only clue found tonight was a loaf of Syrian bread picked up near where the bodies were found. Numbers of Syrians and other foreigners from the mills of Lawrence within the past few years have been taking up wild land in the vicinity of Methuen where they have tried farming on a small scale.

The value of the whole of the estate which passes in consequence of the death of the Duke of Devonshire will probably be £2,500,000.

USEFUL HOUSEHOLD NOTES

When cleaning pantry shelves fold together at least three sheets of newspaper the longest way of the full sheet. Place the fold to the front of the shelf; fit carefully, and when next clean papers are needed slip a silver knife in the fold of the outer sheet, put along the entire length and remove the soiled part. In this way your shelves may be cleaned often and with little labor.

When canning fruit, put two rubbers on the glass jar and there will be no possible chance of air getting in. Sometimes there are sharp little edges on the jar that seem to cut the one rubber. The next rubber on top of this will keep out the air, even if the lower one be cut. The top can be screwed on tighter as well.

To save space in the refrigerator put all liquids, such as milk, soup, or cold drinks, in glass fruit jars with cover on. Keep a glass jar of drinking water also. You will not need ice in it.

Dressmakers save time, when cutting

out two corresponding pieces of a pattern by not pinning the pattern to each piece separately in order to mark all the tucks, but instead place a piece of carbon paper under the two pieces of material. Then with a common lead pencil mark all the perforations. Thus both pieces are marked exactly alike in half the time usually required.

Unless very much soiled a white mackintosh may be cleaned by washing it with soap and water, but if it is exceptionally dirty dip it first in cold soft water and then lay on a clean table or board. With a soft scrubbing brush scrub with yellow soap on both sides until the dirt is removed. Then dip in three or four waters until the soap is removed entirely, and hang it out without wringing it. If the mud stains around the bottom have been in long and are obstinate, it is just as well to send it to a cleaner.

Fruit that is cooked with the skins on, such as plums or cherries, should never be plunged into boiling hot syrup, as this with toughness and wrinkle the skin. It is better to cool the syrup before adding it to the fruit.

KNIGHTS RETURN FROM BOSTON TRIP

They Came Home on Saturday—Col. Dodge Speaks of Fine Time at Convention.

Returning from a week of unalloyed enjoyment of the proceedings of the International Convention of the Knights of Pythias at Boston, about thirty of the local contingent reached home on Saturday evening, accompanied by the Artillery band. Col. Alfred Dodge, who commanded the Maritime province regiment during the big camp, spoke for the whole contingent last evening when he said that they had been given the time of their lives by the Massachusetts regiments who had proven excellent hosts. There was little in the stories respecting the looting and hooding of the tents, and the whole thing was arranged and carried out in a masterly way.

When asked as to the flag incident, Col. Dodge said that it had caused little excitement as the New Brunswick knights had good naturedly complied with the orders of the policeman who was, however, in error as to his position. As a part of the great Pythian army under the same major-general, they were not a really foreign body and were empowered to carry the flag of their own country.

Col. Dodge had heard of no cases of looting or theft among the tents occupied by the maritime province men. No report had been made to him, he said, and he thought little would have been taken without notice being given at headquarters. The first night he had heard reports from other sections of the camp, but after the organization was perfected, there was no chance for such work. The members themselves did picket duty and the camp was thoroughly patrolled.

Thursday last, the colonel mentioned, was the day on which the rain was very heavy, but the New Brunswick regiments were out of camp on an excursion to Point au Pines as the guests of the 2nd Massachusetts regiment and a fine time was enjoyed.

Col. Dodge could not say enough for the courtesy and good spirit of the Massachusetts knights. There could be no question, he said, that the camp had been the most successful yet held, and this, he felt, was due largely to the attention given to the details by the entertaining knights.

Fowler Company No. 6 of Fredericton, was the detachment which entered in the competitive drills, and as yet he had received no official notification of the standing made by the team.

Col. Dodge also had good words for the Artillery band which accompanied the contingent. He spoke of the good conduct of the members on all occasions, and of the high class music that was rendered.

The knights are also indebted to the officers of the Eastern Steamship Co. for the attention on the going and returning voyage.

The knights speak in high terms of Le Baron Thompson, the passenger agent of the Eastern Steamship Company for the maritime provinces who looked after their every want to and from Boston.

MONCTON MAN IS BURNED TO DEATH

Montreal, Aug. 9.—While the firemen were extinguishing a small blaze at a stable in Versailles street this morning, they were surprised to find the body of Robert McGilvie, was inside, and the man was burned to death without the fact being known for hours after.

The stable caught fire about 1.40 o'clock and the fire was extinguished in a short time. On clearing away the rubbish and debris, the firemen found the burnt bodies of three horses, but did not suspect that there had been a human victim and, after seeing the fire out, returned to their station.

It was not until 10 o'clock that the owner of the stable, in clearing away the mass of burned rubbish, discovered the charred remains of his employee, who had evidently been overcome while trying to grope his way through the smoke. The deceased was a widower, with one small daughter, but as his address is unknown, the child is still ignorant of the terrible fate that has overcome her father.

HUNDRED MEN BURIED IN RUINS OF FACTORY

Szegedin, Hungary, Aug. 8.—During a hurricane this afternoon, a large factory collapsed and 100 workmen were buried in the ruins. Four bodies and fourteen persons severely injured, have been recovered from the debris. Seventy persons are still missing.

Szegedin is ninety-six miles southwest of Budapest and after Budapest, is the most important city in the kingdom.

It has an immense trade and is noted for the manufacture of food products. In 1900 its population was 103,000.

FIRST CONCERT FROM NEW STAND

Music and Speechmaking Drew Large Crowd to King Square on Saturday Afternoon.

The first concert on the new band stand erected in King square by the City Cornet Band was given on Saturday afternoon and thoroughly enjoyed by a large gathering. The weather was pleasant at first but fog rolled in during the afternoon but did not cause any lessening of the numbers sitting on the settees or patrolling the walks while enjoying the excellent programme of music furnished.

At 3 o'clock the bandmen arrived and took their stations in the stand. James Connolly, president of the band, then introduced Mayor Bullock who spoke for a few minutes.

His worship said the band stand was all that could be desired both in workmanship and material. Even yet it had not been seen at its best and at night with colored electric lights it would be seen in all its beauty. Mr. Connolly and his associates had supplied the city with a long-felt want and certainly had furnished a stand which was a credit to the city. On first seeing the plans he had approved of them. The stand was in a central location, it was easy of access, and the church and of the Every Day Club as well. Responsibility rested upon every individual member, and any man could determine his own position with regard to an organization by asking the simple question: "What's in it for me?" If all were so, the Kingdom of Heaven would be here and now. There were also some who were the purifying forces in life, and if all were so this earth would be a hell.

It was in proportion as people realized this truth and resolved to be of those who mediated the divine life in their conduct every day that the world grew better. An organization was only what men and women made it. That was true of the church, and of the Every Day Club as well. Responsibility rested upon every individual member, and any man could determine his own position with regard to an organization by asking the simple question: "What's in it for me?" If all were so, the Kingdom of Heaven would be here and now. There were also some who were the purifying forces in life, and if all were so this earth would be a hell.

Referring to the petitions which are being circulated throughout the province for signatures, asking the provincial government to introduce a prohibitory law at the next session of the legislature, and copies of which had been sent to the club to secure signatures, Mr. Rose pointed out that this added to the reports of the subject more effectively than by merely attending a temperance meeting.

Rev. Mr. Heany expressed his pleasure at being present, and his surprise at the large attendance. He expressed his personal sympathy with the club in its work, and his desire to assist whenever possible. Those who had listened to Mr. Rose must, he said, feel a stronger sense of their personal responsibility.

The president referred to the club's efforts to raise a fund to aid them in securing a building, and also presented the temperance federation's prohibition petition for signature by any who desired to sign.

The musical programme included solos by Miss Elsie Barker and Miss Lulu Colwell and a duet by Mr. and Mrs. Webb; and Mr. Wasson gave a temperance recitation.

PREMIER WHITNEY OFF FOR ENGLAND

Ontario Will Establish an Emigration Office in London.

Toronto, Aug. 9.—Sir James P. Whitney, Premier of Ontario, will leave tomorrow for Great Britain, where he will probably remain about six weeks. He will be followed next week by Hon. Nelson Mouteth, minister of agriculture, and the two ministers will carry out certain investigations with a view to establishing improved methods of dealing with emigrants leaving Britain with the intention of settling in Ontario.

It is his intention to establish an emigration office in London, probably in the Strand, to carry on with the Liverpool office the work of disseminating information about the province and to select immigrants.

It is probable, also, that an attempt will be made to induce a change in the method of distributing immigrants. For some time this has been left to Dominion officials entirely and there have been many complaints that the work was not done systematically. Provincial officials say that immigrants are now shipped to various centres in Ontario where no arrangements have been made to receive them and where there were no openings for new citizens.

While in the old land, Sir James will meet Dr. Pyne, minister of education, and aid him in prosecuting inquiries regarding methods of technical education. Sir James' visit will prevent his accepting the invitation of R. L. Borden to assist him in the Dominion campaign in the maritime provinces, but it is understood another member of the government will be asked to take the premier's place.

Attorney-General Foy will be acting premier during Sir James' absence.

Out of the 100 counties, which the state of Kansas has within its domain, at least 50 have no paupers. One-half the county poor farms are empty, save for a few lepers, who draw his salary and wait for patronage.

SUNDAY MEETING OF EVERY DAY CLUB

Rev. Mr. Ross and Rev. Mr. Heaney the Speakers—N. B. Temperance Wants Prohibition.

The Rev. Mr. Ross, of Hampton, was the speaker at the Every Day Club Temperance meeting last evening, and the Rev. J. Heaney, of Carleton Place, spoke briefly at the close.

The essential meaning of Christianity, as it relates to the personal lives of men and women, was dwelt upon with great clearness and force by Mr. Ross. He declared that it was as necessary today as ever in the past to have the divine life mediated through its incarnation in men and women. Divine love, sympathy, pity and compassion found expression through human lives, and uplifted the world. There were today, as of old, some people who were the "salt of the earth." If all were so, the Kingdom of Heaven would be here and now. There were also some who were the purifying forces in life, and if all were so this earth would be a hell.

It was in proportion as people realized this truth and resolved to be of those who mediated the divine life in their conduct every day that the world grew better. An organization was only what men and women made it. That was true of the church, and of the Every Day Club as well. Responsibility rested upon every individual member, and any man could determine his own position with regard to an organization by asking the simple question: "What's in it for me?" If all were so, the Kingdom of Heaven would be here and now. There were also some who were the purifying forces in life, and if all were so this earth would be a hell.

Mr. Ross expressed the hope that every one interested in the Every Day Club would resolve to work earnestly and faithfully to make its influence greater in the city.

Referring to the petitions which are being circulated throughout the province for signatures, asking the provincial government to introduce a prohibitory law at the next session of the legislature, and copies of which had been sent to the club to secure signatures, Mr. Rose pointed out that this added to the reports of the subject more effectively than by merely attending a temperance meeting.

Rev. Mr. Heany expressed his pleasure at being present, and his surprise at the large attendance. He expressed his personal sympathy with the club in its work, and his desire to assist whenever possible. Those who had listened to Mr. Rose must, he said, feel a stronger sense of their personal responsibility.

The president referred to the club's efforts to raise a fund to aid them in securing a building, and also presented the temperance federation's prohibition petition for signature by any who desired to sign.

The musical programme included solos by Miss Elsie Barker and Miss Lulu Colwell and a duet by Mr. and Mrs. Webb; and Mr. Wasson gave a temperance recitation.

RESOLUTIONS ON DEATH OF DANIEL J. HENNESSY

(Anacanda Standard.)

The following resolutions on the death of Daniel J. Hennessy were adopted at the recent convention in Indianapolis of the national board of officers and directors of the Ancient Order of Hibernians:

"Whereas, We have learned that since the last meeting of our national board of officers and directors of the Ancient Order of Hibernians in America that Brother Daniel J. Hennessy, ex-national director of our order, was called to his eternal reward on the morning of Jan. 27, 1908, in the city of Butte, Mont., where our late brother had made his home for many years; and

"Whereas, Mr. Hennessy was intensely loved and admired among all classes of our people throughout the country for his deep religious faith and his earnestness in everything connected with holy church or his intense devotion to principle, and his striking integrity and patriotism as an American citizen of Irish blood; therefore

"Resolved, That we, the national board of officers and directors of the Ancient Order of Hibernians in America, in session assembled at the Denison hotel, Indianapolis, July 21, 1908, on the eve of our national convention, deeply and sincerely mourn the loss. He was recognized by all classes of people as the best type of a true Irishman, and a member of our order he was loved and honored

"Resolved, That we, the national board of officers and directors of the Ancient Order of Hibernians in America, in session assembled at the Denison hotel, Indianapolis, July 21, 1908, on the eve of our national convention, deeply and sincerely mourn the loss. He was recognized by all classes of people as the best type of a true Irishman, and a member of our order he was loved and honored

CARMAKERS IN ANGUS SHOPS WENT ON STRIKE SATURDAY

This Makes a Total of over 2000 Men Now Out There—Company Say They Will Not be at all Inconvenienced.

Montreal, Aug. 9.—Two hundred and twenty-four more employees of the C.P.R. went on strike at the Angus shops on Saturday morning, making a total of well over 2,000 men now out there. The latest additions were employees of the car department, most of them in the passenger car shops. They left the works in a body, and marched into the city, where they assembled at the strike headquarters and held a meeting at which it was resolved that they should stay out until the difficulties were settled.

While the strike leaders naturally are not inconvenience them at all, claiming that the men had been kept at work for stated at this, the C.P.R. officials say that the defection of the car workers will months past more because the company did not want to break up the good staff of men it had because it had any immediate need of the cars they were making, and pointing out that ever since the slump in business started, they have had many more cars, both passenger and freight, than they had any need for.

Bel Hardy, chairman of the federation of unions, said this evening that he was well satisfied with the progress of the strike. He said that the men were in a position to win, and that the company was not prepared to meet them on their own terms. He said that the men were in a position to win, and that the company was not prepared to meet them on their own terms.

As to the claim of the company that the men had gone out unwillingly and that many of them were going back to work,

HARVESTING IS UNDER WAY

Grain Cutting Has Now Commenced in the West—G. T. P. Preparing to Move Crop.

Winnipeg, Aug. 9.—According to a report issued by the Ogilvie Flour Mills Company, the cutting of wheat has begun in all localities. The cutting is increasing daily and by the end of the week should be general.

The weather during the past week has been moderate and favorable to the crop. Good showers have materially assisted in filling.

In Southern Alberta the fall wheat yield is running high, forty-five bushels an acre being reported in some cases. From spring wheat districts the reports indicate a crop of very satisfactory quantity and good milling quality.

A statement issued by F. W. Morse, of the G. T. P., indicates that the new road is making active preparations to handle the wheat crop. The company owns 6
