A regular $1.00 Wash Boiler for 59c.

CHARLES BARKER

WAS PROFITABLE TO HIM.

Tom—It must cost a pile to keep an airship.

Jack—It does; yet mine has been a source of profit to me.

Tom—Why, how's that?

Jack—But for it I probably would never have collected my accident insurance.

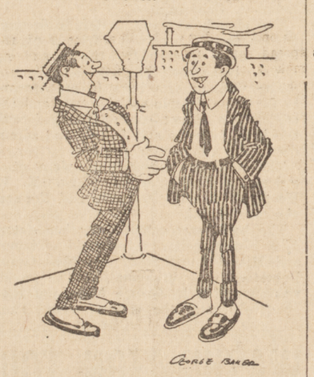

CHARLES BARKER

TWO REASONS.

"Why is an ordinary man like a ball player?"

"Hates to be put out."

"Well, yes. And he likes to reach home without being touched."

CHARLES BARKER

WISE.

Knicker—How is it that your mother-in-law never stays very long when she comes to visit you?

Bocker—I treat her just like one of the family—give her the tough end of the steak and the neck of the chicken.

CHARLES BARKER

WOULDN'T LOOK NEAT.

Tess—When you open my letters you tear the envelope so dreadfully.

Tom—Well, I'm anxious to see the contents.

Tess—I know—but just think how they would look if you ever had to produce them in court!

BIG SALMON CATCH

The Lorneville fishermen are happy over a great catch of salmon made on Monday night. They have been doing pretty well since the season opened but Monday's catch eclipsed all. Several boats took fifty fine fish, some others had forty or more, several had thirty and quite a number were in the "teens."

The fish were of good size and the price has been ranging well so that the fishermen are elated. Some of the catch comes to St. John, but a good proportion finds a market in the States.

W. B. HOWARD, D. P. A., C. P. Ry., St. John, N. B.

A BAD BREAK.

She—Do glasses hurt one's eyes?

He—Depends upon how many you drink and what they are full of.

GAVE HIMSELF AWAY.

Miss Bilyuns—Am I the first one you ever loved?

Lord Getthecyone—Yes; you're the first girl I ever knew who had all her money in her own name.

LIFTED BY CANDLE HEAT

(Louisville Courier.

The heat from the flame of an ordinary candle, applied for a fraction of a minute to a curious little machine just invented, lifted a man weighing over 150 pounds several inches.

The machine is known as the "regitherm," and is the invention of an ingenious resident in Knoxville. Its purpose is to control the temperature in dwelling houses by closing and opening the draught in stoves and furnaces.

Hermetically sealed within the regitherm is a small amount of volatile liquid, the vapor of which changes its pressure at the rate of one-half pound per square inch for each degree of change in temperature.

A change of a single degree in the temperature develops a force of fifteen pounds within the motor. This force acts to expand the vessel through a distance of half an inch, and this movement is magnified eightfold in being transmitted to the dampers, thus imparting to the latter a movement of four inches.

General superintendent Downie of the C. P. R. returned last evening from Fredericton.

Every Woman is interested and should know about the wonderful **MARVEL Whirling Spray** The new Vaginal Syringe. Best—Most convenient. It cleanses instantly.

Ask your druggist for it. If he cannot supply the MARVEL, accept no other, but send stamp for illustrated book—sealed. It gives full particulars and directions invaluable to ladies.
