HAZEN CABINET ASSUMES OFFICE

**Sworn in Yesterday Afternoon and
Proceed to Business**

Bye-Elections Called for April 7 and Polling a Week Later
—Hon. Robert Maxwell Chosen President of the Council—Several Appointments Recommended—Likely Men for New Offices—Other News of Fredericton.

Fredericton, March 24.—The Hazen cabinet was sworn in this afternoon before Lieutenant Governor Tweedie in the executive council chamber. A meeting was afterwards held and the date of the bye-elections to fill the vacancies caused by the ministers' acceptance of office was fixed. Nomination will take place on April 7 and polling April 14.

Hon. Robert Maxwell was appointed president of the executive council. A number of appointments were made but they must have the sanction of the lieutenant governor before being made public. It is mentioned that Col. J. R. Armstrong will be judge of probates for St. John, and W. H. Harrison supreme

court reporter, while H. O. McInerney is slated for the position of registrar of probates. R. B. Hanson will be appointed registrar of probates for York and H. G. Fenety, registrar of the divorce court.

John Valentine, caretaker of the Provincial Normal School, has resigned. He will remove to the United States. The position is worth upwards of \$700 per annum.

Under the will of the late Timothy Lynch, Jas. Robinson, ex-M. P., J. H. Barry, K. C., of this city, and deceased's widow are the executors.

Austin Dunphy has purchased the property on Regent street owned and occupied by R. Lewis Phillips for between \$2,000 and \$2,500.

WORK IS THE GREAT CURE FOR NERVOUS TROUBLES, SAYS EXPERT

Boston, March 24.—"Work is the king of all cures in nervous troubles," said Dr. Richard C. Cabot, speaking at the Harvard Medical School yesterday. The rest cure is good for some, but for most of them work is the rest they need, because most nervous patients are born tired and never get over it, unless they can be got to work. The work cure sums up all the others.

The audience that gathered to listen to Dr. Cabot was one of the largest that has thus far attended these free Sunday afternoon lectures. His subject was "Psycho-Therapeutics," which, he said, was a type of mental healing that ought to continue to grow in use. He declared that it differs from all other healing movements in that it is not a lay movement, but a scientific one that was founded in France fifteen years ago, and has been steadily growing there and in Germany.

Referring to the difference between mental healing and Christian Science Dr. Cabot declared that the latter had done much good. He said there was no doubt that people died of cancer and diphtheria while the Christian Science treatment, but by a happy chance most of that kind of cases do not fall to Christian Science for treatment. Christian Science differs radically from psycho-therapeutics in that it does not require a diagnosis of disease before beginning treatment, which psycho-therapeutics does. For that reason the latter will live while Christian Science will insist in finding out what the matter is before attacking an evil, for the cure is already begun with an accurate diagnosis.

"Psycho-therapeutics is often merely an explanation of the truth and encouragement, demonstrating that the client really has no disease. The best way to encourage people is to show that they have a place in the world by finding work at which they can be useful."

"Suggestion plays a large part in the treatment of osteopaths, homeopaths and the rest of us. The cures at Lourdes and St. Anne de Beaupre in my opinion are brought about by suggestion. The sufferer has heard of many former cures there, he has heard the place and its cures talked about for months before visiting it, and expectation is raised to a high pitch. Many people are susceptible to slight impressions, and if they have a purely functional trouble they may thus be cured."

PENETRATING POWER OF 12-INCH SHELL IN WATER A PROBLEM

Washington, March 24.—The experts of the Navy Department have under consideration some experiments which will show to what extent a twelve-inch shell fired at service velocities will penetrate water. During the hearings before the Senate Naval Committee a difference of expert view was disclosed in the testimony given by Commander S. Sims, inspector of naval target practice, and Lieutenant Commander Cleland Davis, of the Bureau of Equipment and an inventor of note. The former officer is of the opinion that the twelve-inch shell cannot penetrate water to any extent, while the other officer entertains an entirely different view. It is proposed to construct a tank and fill it with water, placing a twelve inch gun so that it will discharge the projectile at service velocity into the mass of water, in which shall be inserted screens to mark the passage and time of the shell in its travel. By this means it will be definitely and practically determined to what extent the projectile will go through the water. The importance of the demonstration is in the fact that it will show whether it is necessary to extend the armor belt of ships of war much below the water line. One of the opinions expressed by Lieutenant Commander Davis was that the bottom of the ship was not sufficiently protected and that a shell going beneath the water could strike the hull below the armor belt and do its damage there. Other officers hold that the water is sufficient protection and offers a greater resistance to the shell than armor.

Nickel's New Show Today.

The fine weather last evening made it possible for thousands to attend the Nickel's most refined and varied entertainment and every item on the long programme was enjoyed to the full. Mr. Keyes, baritone, was most favorably received on his first appearance before Nickel-goers and the manner in which he rendered the ballad "As Long as the World Rolls On" was artistic and most pleasing. The little man with the rich big voice jumped into instant favor and shared honors with Mr. Maxwell, tenor, who made his bow Monday. Mr. Keyes will sing again tonight.

Today's new list of pictures has for its headline the American-Chinese comedy "The Yellow Peril," and the adventures of a Mongolian cook. Another new picture is "The Beauty Parlor," or the transformation of a homely woman. A particularly good thing is "The Yankee Man 'O Wars," a Fight for Love, an incident of the cruise of the American squadron in Pacific waters. This is a whole reel, showing how the many art can be used honorably. Altogether the show for today is exceptionally strong.

DEATHS

MAC DONALD—In this city March 24. Edith, beloved daughter of Robert and Margaret MacDonald, aged 12 years and six months. Funeral from her father's residence 66 High street, Wednesday, 24th inst., at 3:30; service at 4:45.

CAMPBELL—At West Quaco, on March 25, William A. Campbell, aged 72 years. Funeral Wednesday from his late residence at 2:30 p. m.

GRAHAM—In this city on the 23rd inst. Margaret, widow of Robert Graham, aged 83 years leaving two sons and one daughter to mourn their loss.

Funeral on Wednesday afternoon, at 2:30 o'clock from her late residence, 15 Frederick street. Friends and acquaintances invited to attend.

COXMAN—At the residence of Robert Burges, Kingston, Kings county, on Sunday the 22nd inst. Peter Lawson Coxman, aged 91 years and 3 months, leaving one son and two daughters to mourn their loss.

Notice of funeral in evening papers.

OTTAWA MEMBERS CHARGED WITH SELLING SUPPLIES TO THE GOVERNMENT

Ottawa, March 24.—In reply to Mr. Foster today Sir Wilfrid Laurier said that an order making immigrants come direct did not apply to the Hindoos more than any other nationality. The order was general applying to Europeans as well as Asiatics.

Mr. Fielding said that he intended bringing down the civil service commission report tomorrow.

A senate bill to amend the gold and silver marking act was read a third time and passed. It postpones the time for coming into effect of the measure until March 30, 1939.

Mr. Aylesworth's bill to rearrange the list of hearings of the supreme court was read a third time.

In order to meet contingencies a vote

of some \$11,000,000 of the estimates was concurred in. A supply bill of some \$17,000,000 or \$18,000,000 will be adopted tomorrow and the royal assent will be obtained as speedily as possible.

In supply Mr. Bennett and other opposition members complained that the drug company which Mr. Bole, M.P., was interested in, the Campbell Milling Co., in which Senator Campbell was the leading figure and the W. C. Edwards Company of which Senator Edwards is head, were all selling goods to the justice department.

Mr. Owen of Northumberland wanted to know why the supreme court registrar charged his uniform, costing \$150, to the government.

Mr. Aylesworth was a little surprised himself but said that his predecessor passed the order.

LOUISIANA RHODES SCHOLAR DROWNED

Oxford, March 24.—Ralph C. Many, a Rhodes scholar from New Orleans (La.), at Oxford, was washed off the rocks and drowned at Port Isaac, Cornwall, today.

Ralph C. Many secured his appointment

to Oxford in 1935. He was a student at Queens. A peculiar coincidence is the fact that A. K. Read, the 1934 Rhodes scholar from Louisiana, died in March, 1936, from meningitis.

TORONTO LABORER KILLED IN SHANTY

Toronto, March 24.—A murder took place in a shanty occupied by laborers on the waterworks tunnel at midnight. Two shots out of the dark went through a broken window of the shanty, and big Yeo Meketich, who had just arrived from Slavonia, fell dead with bullet wounds in left breast and hand.

Leonard Bakunin, is under arrest, charged with the murder.

CAPITALS DEFEAT NORTH SYDNEY SIX TO TWO

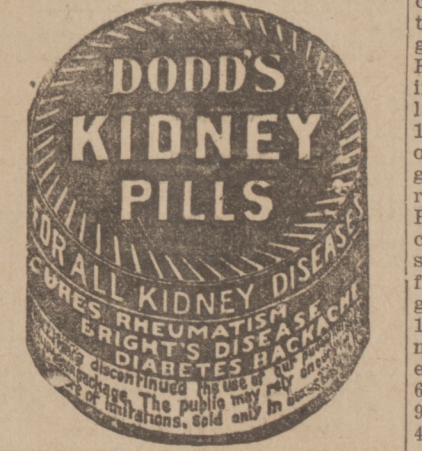

Sydney, N. S., March 24.—The Fredericton Capitals tonight defeated the North Sydney team by a score of 6 to 2.

Nominated for Mayor of Calais.

Calais, Me., March 24.—At a gathering of Republican voters in Calais this evening, Wm. J. Fowler, judge of the municipal court, was unanimously nominated as the party candidate for mayor.

Men's Furnishings at Harvey's Clothing Sale.

The first three days of the big anniversary clothing sale at J. N. Harvey's stores in the Opera House Block have been a great success, far beyond his expectations. The people now fully realize that a sale at Harvey's means a genuine saving and each sale the response has been more immediate and generous. This sale extends to every department; special attractions in men's and boys' furnishings and hats today.

JAPAN AND THE UNITED STATES.

ST. PETERSBURG, March 23.—The invitation extended to the American fleet by Japan is applauded as a diplomatic move in the Japanese press. The Bourse Gazette, speaking of this says: "America naturally could not refuse to accept the invitation, yet its acceptance will serve as a public attestation of the peaceful intentions of Japan, of which she is especially in need in view of her towering financial and loan credit. The invitation has a touch of the picturesque—to-morrow we may fight; to-day be our guests."

TOKIO, March 23.—The press without exception is enthusiastic over the announcement of the visit of the American fleet and the government is receiving considerable praise for extending the invitation. The consensus of newspaper opinion is that the prompt acceptance of the invitation shows the friendship of America for Japan, while the visit of the fleet will suffice to show the world the impossibility of a breach of the friendship existing between the two countries.

All Women

should assist Nature at those times when the system is upset, the nervous tone low and a feeling of depression or languor exists. An experience of over 50 years warrants the statement that no medicine gives such prompt relief as

GREAT BRITAIN says NO ALUM IN FOOD

and strictly prohibits
the sale of alum
baking powder—

**So does France
So does Germany**

The U. S. Congress has made the sale of alum foods illegal in Washington (District of Columbia), and alum baking powders are everywhere recognized as injurious.

To protect yourself against alum,
when ordering baking powder,

Say plainly—

**ROYAL BAKING
POWDER**

and be very sure you get Royal.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar. It adds to the digestibility and wholesomeness of the food.
