NEW YORK FINANCIAL BUREAU.

The general stock market continues in the trading area with special movements up and down as suggested would be witnessed. Daily operators should be governed by individual positions expecting extension to move either way. There is a great deal of manipulation with the intent to confuse. There is a catering to the short interest which of course invokes uncertainty and special weakness, so that a temporary dragging tendency with over sold rallies may develop. On heavy activity after reactions purchase may be made for turns with the protections in the stock, while "weak sisters" may be sold on rallies under like conditions.

Senator Platt is reported this morning as saying that Hughes nomination would endanger Taft by jeopardizing New York. Interior Secretary Garfield says Taft will carry the point. There is an effort being made by the bear party, said to be headed by Reid interests to work up political scares in connection with postponement of the freight rate advances. We do not believe a contest in the stock market for supremacy as rumored. The bull party with its cheap money and good crops is in an impregnable position, but is evidently not averse to accumulation on declines what it distributed recently on the bulges when we suggested caution in buying. There are some further evidences of better business. Washington advices reporting customs receipts increasing. The Atlantic Coast Line is reported as ordering 500 cars while inquiries are received for 15,000 according to the Journal of Commerce, 20 railroads reports are reckoned as showing $170,000,000 spent for maintenance during the last fiscal year against 173,000,000 last year, which does not bear out the talk that the railroads are starving themselves to make good net returns. It is highly probably that Oyster Bay felt that the administration would be accused by Lawson as working with the system if the postmaster general were to bar the Lawson national stock mail as contemplated for several days with plans changed as reported yesterday because of political expendiency. We desire to call attention to the fact that it is our business in addition to giving editorial market opinion in this bulletin each morning to print without prejudice bullish or bearish reports that may be circulated in responsible quarters of the street, whether or not they accord with our views. We have found this policy serves the best interests of readers.

DETAILED REPORT.

Bear reports continue on N. Y. C., on which we have been bearish for several days. U. P. selling of it is plausible. Penna. may sympathize with rumors of odd lot selling of Penna., So. Pac., U. P., N. P. G. Q. may be bought on weakness after reactions for turns. Steel may be sold still on rallies. Smelters limits are 96-98; B. R. T., 51-53; Led, 84-87; Reading, 122-125. If they are removed, extension of move either way is probable. Acp. is well bought on declines. Westinghouse may go higher soon. The Herald to-day confirms our recent Wis. Central loan statement.

J. J. HILL WOULD AID TRADE WITH CANADA

Time Favorable for Movement Toward Reciprocity, Delares Railroad Man.

James J. Hill, chairman of the Great Northern Railway, makes a strong argument in favor of reciprocity with Canada.

"The present time is a favorable one for a practical movement toward better trade relations with Canada," said Mr. Hill.

"During her infancy Canada was always anxious for better relations with her southern neighbor. After she had been shut out and forced to rely upon herself she carried forward plans for self development that have fostered a feeling of independence.

"Let us for a moment drop political theories and all the prejudices and preconceptions trailing after them and look at the situation as a plain business problem. Great Britain is our best foreign customer, Germany next and Canada third. Under these conditions she is a neighbor to be well considered and taken note of."

THE SCOTCH HARD COAL PRICES now being quoted by Gibbon & Co for cash orders are the lowest yet for this season of the year. Buy Scotch Hard Coal from Gibbon & Co. before the prices advance.

It is claimed that Rhode Island and Delaware have 5,000 sheep each; New York, 700,000; and Pennsylvania, 850,000.

EXHIBITIONS SHOW WHO ARE ENTERPRISING

Exhibitions show something besides the Goods of the Merchant, the Product of the Manufacturer and the Harvest of the Farmers.

Exhibitions show WHO ARE THE **Enterprising Men in the Country**-Look over the lists of Entries in the Exhibition the last Ten years and you will find the names of concerns who are wide awake who are looking for business--and find it.

This is part of the work of Exhibitions. They afford **Business Men chances to show what is in them**-to show that they are alive-wide awake not only to their own Interest but to those of their Communities.

Did you ever think about it in that way?

The Bankers and the wholesalers as they walk the streets pass the business places of customers-They **are quick to note Enterprise** and eager for it's success wherever they see it.

The men who see what you are doing in the Exhibition may not be your bankers or those you buy from, but they are likely to be more important still. They will be the people who buy from you, and it's up to you to make good, to show that you have the spirit and enterprise **to take part in a Great Public Exhibition** promoted for the benefit of business — the business of the manufacturers, the farmer and the merchant.

The St. John Exhibition--September 12th to 19th will be a great success---a great unqualified success.

Are you going to help it along and get some of the benefit yourself.

R. H. ARNOLD, Manager.

THE SARDINE TRADE

Less activity in the sardine business is reported this week, the supply of herring which had been very good during the past ten days, having considerably fallen off since the opening of the present week. Fish are now being brought to the factories chiefly from the westward, but they are not being received in quantities sufficient to the need and capacity of the factories. Employes are not kept at work more than half of the time and with the season so far advanced, makes the outlook for those dependent upon this work for a livelihood somewhat discouraging.—Eastport Sentinel.

In Vienna it is necessary for a man to get his wife's consent before he may ascend in a balloon.

MARINE NOTES

The Yarmouth steamer Usher is now on the passage from Newport News for Auckland, New Zealand, with a cargo of soft coal for the American fleet. It is impossible for the Usher to reach Aukland on time, and so she will be despatched to Sydney, New South Wales, to discharge.

The new Furness Line steamship Westerwald made her official trial trips recently, on which she exceeded her contract speed of 12 knots. She was built at the company's Middleton yard, Hartlepool, and is designed mainly for emigrant and first-class passenger trade to the West Indies. She is about 400 feet long, has triple-expansion engines, a refrigerating system and is splendidly fitted up for passengers and the rapid handling of cargo.

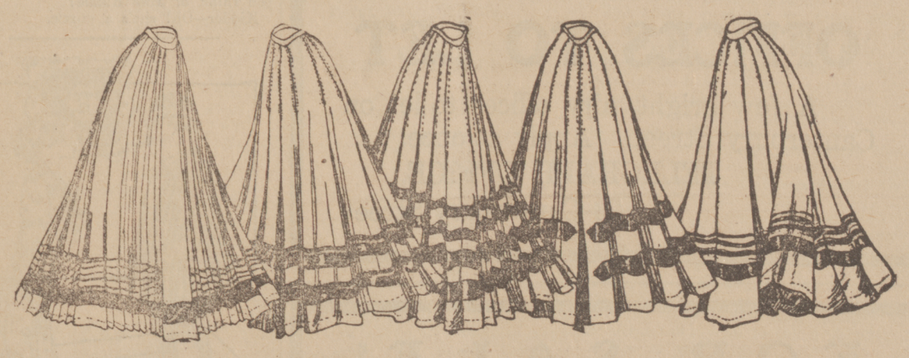

Howard Brookhart's two little boys, Norman and Ralph, killed a large garter snake and 63 young ones, near Dungannon.

On August 12, Chicago was 75 years old.
