ST. JOHN, N. B., FRIDAY, JULY 16, 1909

EIGHT PAGES—ONE CENT

WILL MAKE THE CANADIAN CITIES ABSOLUTELY DRY

Sons of Temperance Planning an Energetic Campaign to Take in All Canadian Cities—A Paid Organizer Appointed to Look After the Work Which Includes St. John.

Boston, July 16—(Special)—J. O. McCarthy, of Toronto, has been appointed by the Sons of Temperance, to pick a good man to organize at St. John and several other Canadian cities, leagues to carry on an elaborate fight against the drink evil. The organizer will be paid a salary of one thousand dollars a year by the association, and the ultimate aim is to make the cities in which the fight is to be waged, absolutely dry. The move was determined

because of a report at the convention holding sessions here, that the Canadian membership has been falling off and it was decided that something must be done. Rev. Geo. Lawson, of Nova Scotia, addressed the convention and told of the benefits of no licenses, the Nova Scotia divine having first opened the session with prayer. The association voted to pay the Canadian organizer in addition to his salary, all expenses in connection with the holding of meetings and travelling.

ANOTHER CASE OF FRESH YANKEE OFFICIALS

U. S. Immigration Officers in New York Stop and Deport Worthy Young Man Bound for Canada—Will be Trouble Over it.

Toronto, Ont., July 16—(Special)—Immigration Commissioner Joseph Gurofsky adds one more to the already long list of outrages of United States immigration authorities in New York in the arbitrary detention and turning back of incomers bound via that port to Canada. Louis Gurofsky, 133 West Queen street, received word by wire from the Hamburg-American line that Mordiche Gromen, whose brother Joseph lives at 64-12 Centre avenue, arrived in New York on the steamer Pennsylvania, on July 3, but was about to be turned back, as he did not have the necessary funds. The brother at once sent the necessary cash by post office order to the steamship company, but he was notified July 10 that his brother had been excluded in spite of this.

Then Commissioner Gurofsky took up the matter and he employed Edwin Bell as solicitor, and wired to the Baron de Hirsch, secretary at New York, saying affidavits showing the man would not become a public charge were being sent on and asking that everything possible be done to prevent turning back of the young Russian.

On Monday last a bond of \$500 was executed by the brother, guaranteeing to the United States government that the man would not become a public charge, and a like bond was also executed indemnifying the Canadian government. Next day following a wire was received from the Secretary of the Society, "Mordiche Gromen placed on steamer for deportation, appeal dismissed, have wired Washington for rehearing." The wire was returned asking that a fight be put up for the young man, and Mr. Gurofsky is taking the matter up with the Secretary of State at Ottawa.

WOLGAST QUICKLY GETS MATCH OFFER

Coffroth Wants Conqueror of Nelson to Meet "Fighting Dick" Hyland

San Francisco, July 16—Jim Coffroth, is after Al Wolgast the Milwaukee lad who fought Batting Nelson in Los Angeles Tuesday night and wants him to appear at his Colma club next month. He has offered him a large sum to box "Fighting Dick" Hyland, and he probably will accept.

MIKE DONLIN'S PLANS

If He Gets the Money He Will Play for New York Nationals

Chicago, July 16—Mike Donlin, former captain of the New York National League team, declared his willingness to resume his place on the team if his terms are met. "We had intended to sail for Europe Saturday," said Donlin, "but the doctors decided that my wife needed the country air more than salt water, so we have postponed the trip until July 28. We shall depart for New York tomorrow and then we will go out on a farm in New Jersey for a week.

"As for playing with the Giants, that is all up to Mr. Brush. I gave him my terms last spring, and I have not changed them. We have had no words over a contract. If he meets my terms I am willing and ready to play at a day's notice."

JEFF CONTINUES TO TALK FIGHT

Chicago, July 16—"If there is any doubt of my covering Jack Johnson's forfeit of \$10,000 next Saturday just tell him to make it any amount he pleases and I will be on hand with the coin. I can make any amount he will post look like thirty cents." So declared James J. Jeffries who reached the city yesterday and departed almost immediately for Kansas City.

"We will be back from Kansas City Sunday morning," he said, "We are going there simply to give an exhibition. It won't take me long now to get into trim and then I will meet any man in the world."

Intrigue, Love, Mystery, Romance, in "THE MESSAGE," Louis Tracey's most thrilling story starts in Saturday's Times.

THE CITY STUNG AGAIN; NEW WATER SYSTEM IN REPORTED BAD SHAPE

Concrete Pipes Gradually Crumbling Away—New Break Discovered Today and Water on High Levels Will Be Off Until Monday—Whole System May Have to Be Relaid With Iron

One of the questions to which considerable anxious thought is being given by some of the aldermen is: What is to be the outcome of all these leaks in the concrete water pipe on No. 2 section of the Loch Lomond extension?

For some weeks a gang of 40 men have been at work uncovering the pipe and stopping up innumerable small leaks, while several large breaks discovered have made it necessary to shut off the Loch Lomond supply for a time in order to affect repairs.

On Wednesday a break about eight feet long by some six or seven inches wide was discovered and the supply had to be shut off while repairs were made. It was expected that all would be well so that the

water could be turned on about noon today but now comes a report of another break worse than any yet found. The workmen while making repairs from the inside of the conduit discovered a bad break near the one they were repairing. It was located in the bottom of the pipe and the concrete was removed in handfuls, there apparently being very little cement in the mixture.

The new break is located at a place where repairs were made before, but so poor was the concrete that it crumbled away as soon as the earth was removed from it.

In consequence of the finding of this new break it will be impossible to turn on the water from Loch Lomond until Monday next and meanwhile the Little River supply will be used and people on

the high levels will have to get along as best they can without water. Engineer Murdoch says repairs are being made with clear cement and several hundred barrels have already been used. The cost will probably be considerable and it is impossible now to tell when the end of the trouble will be seen.

Thus far all the work has been done within 1000 feet of the wood stave pipe and there is a great deal more to be done. Apparently the two ends of the conduit are in very bad shape as water oozing from the ground indicates many leaks. Some of the city fathers are seriously considering whether it would not be wise to replace the entire concrete main in the McArthur & McVey section, with iron pipes. It is contended by some that it would be cheaper in the end.

WILL KEEP RECORD OF ALL ACCIDENTS

Canadian Corporations are Determined to Stop the Faking in Railway Accidents

Toronto, Ont., July 16—(Special)—As the outcome of the arrest of three foreigners in Montreal, July 7, for "faking" railway accidents, a bureau of information and identification is soon to be established in Canada, whereby a tab will be kept on all accidents so as to guard against any attempts to "repeat" with an idea of "holding up" the corporations of this country. This announcement was made yesterday by James Forrest, claims agent of Toronto Railway Company, on the occasion of a picnic to Buffalo, in which all the chief officials of the company participated.

SAVINGS BANK ROBBED

Three Men Looted Safe of Small Bank and Got \$500.

Ashland N. H., July 16—The safe of the Ashland Savings Bank was blown open by three robbers early today and \$500 stolen. The robbers escaped under cover of revolvers, residents having been aroused by the explosions.

P. E. I. RUNNER COMING

(Moncton Transcript.) Michael Thomas, the unbeaten Prince Edward Island runner, is likely to be seen before long in a number of races in New Brunswick and Nova Scotia, if plans of a well known local sports promoter mature. It is planned to have the Indian run at Springhill, Amherst, Moncton, Chatham, Campbellton, and perhaps at St. John. The Springhill sports are very anxious to see the redskin go against Seymour McKenzie, the crack distance man of the mining town. In Amherst he is likely to be pitted against Fred Cameron, and in Moncton may run against a relay team. At Chatham, "Wizard" Cribbs is anxious for a go with the Island Longboat, and Campbellton has a couple of runners who want a second chance.

STERLING RAN IN FIVE MILE BUT DID NOT SECURE A PLACE

Winnipeg, July 16—(Special)—Stirling, of St. John, ran in the five mile race here yesterday at the C. A. U. games, but did not get placed. For the first three miles Stirling ran well, and was well up with the winner, Harold Parsons, of Neepawa, but soon after he collapsed, the pace being too hot. This event was the only one in which westerners carried off a victory. Chandler of Vancouver and Schofield of Toronto ran well in the first three or four miles, but on the last quarter Parsons drew away from them and won handily.

The four hundred and forty yards race went to Lou Sebert of Toronto who came within a fifth of a second of the Canadian record on a heavy track.

In the heats of the other sprints the Toronto men had it almost all to themselves, and are certain of first places in the 220, 1,000 yards and hurdles.

SUMMARY.

Events Decided: 440 yards, J. J. Sebert, Toronto, first; F. M. Knox, Toronto, second; H. Mapples, Winnipeg, third; Al-

so ran E. L. Selee, Brandon; F. S. Jenks, Calgary; A. E. H. Coo and H. G. Alexander, Winnipeg. Time 49:15 seconds.

Five miles—Harold Parsons, Neepawa, first; F. C. Schofield, Toronto, second; R. Chandler, Vancouver, third. Also ran: W. E. Stirling, St. John, N. B.; D. MacMillan, Kenora; J. E. Edwards, Port Arthur; A. E. Thornham, Port William, and eight Winnipeg entrants. Time 26 minutes, 1:15 seconds.

PRELIMINARY HEATS.

100 yards—First, heat, George H. Barber, Toronto, first. Time 11:15 seconds. Second heat—Sebert, Toronto, first. Time 10:15 seconds.

220 yards—First heat—Sebert, Toronto, first. Time 28:35 seconds. Second heat—Howard, Winnipeg, first. Time 23 seconds. Third heat—Barber, Toronto, first. Time 23:45 seconds.

Heat—E. B. Archibald, Toronto, first. Time 32 seconds. Second heat—Barber, Toronto, first. Time 28 seconds.

THE TIMES NEW REPORTER

ANNOYING THE NEIGHBORS.

The neighbors say that something must be done to deaden the sound that comes from the Standard office each afternoon, when the first copy of the Globe is received there. It appears that there is always something in the Globe's editorial columns that throws the Standard staff into a condition of wild and unbridled exuberance of spirit. They say that one explanation of the daily outbreak is that a Globe editorial of the right sort means large type, top of column, next to reading matter. But the neighbors are growing tired of the noise and unless it subsides they will be compelled to appeal to the authorities for protection.

HIRAM'S OBSERVATIONS.

Mr. Hiram Hornbeam remarks that it is a good thing the St. John county farmers are a thrifty people, or the present invasion headed by Mr. Hazen would leave them worse trimmed than the brown-tail moths leave a young apple tree. Hiram says he would like that trip to Cuba first-rate, if Mr. Mosher doesn't get it in place of that stewardship.

JOHN WANTS MORE TIME.

It is stated that Hon. John Morrissey wants the by-election postponed for a few days, as he fears he cannot say all he wants to say about the merits of the Hazen government between now and

Tuesday. He had only got as far last night as the statement that Copp was a grafter and Robinson was the leader of a gang and that there were thieves in the old government, and that Senator Ellis wears a halo, exactly like the one he wears himself. Following these observations Mr. Morrissey would like to tell what the Hazen government has done for the people. Necessarily he would have to wait until it had been done, and that would take longer than until next Tuesday. He said to the Times new reporter that if he had known about it in time he would have tried to do something himself. He did a neat job in the federal elections, but was also too late beginning, and the Liberals were elected.

CLAIMED HER HUSBAND USED "EVIL EYE" ON HER

Hypnotism a Factor in Marital Differences of Stackhouse Family Aired in Police Court—A Strenuous Conflict of a Legal Affinity and an "Affinity."

Focused this morning on Charles Stackhouse, aged 33, the police court searchlight revealed him to be a brutal husband, a heartless and negligent father and one who in the depths of his faithlessness installed Mrs. Lizzie Denico, his affinity, in the apartments at 62 Richmond street occupied by his wife and four children. Stackhouse was arrested last evening by Detective Killen on the steps of the police building on the strength of two warrants for non-support and assaulting his wife.

Mrs. Maud Stackhouse, his wife, testified this morning that twelve years ago she married Stackhouse and four children have been born to the union. The boys and girls are equally divided and the eldest is a girl twelve years. The youngest is a boy of two years.

She stated that one month ago he accompanied the Denico woman to the Stackhouse quarters. Mrs. Stackhouse said she did not realize that the woman was a usurper for a week but after ineffectually persuading her husband to cease living so intimately with the woman in full view of his wife, she suggested that the woman be ejected. This excited his ire and clutching her by the throat and mouth he threw her on a bed where he prevented her from arising by placing his knee on her stomach. He repeated this act at least six times when she would attempt to escape from him.

In the latter part of June he left her penniless and joined the Army Medical Corps at Camp Sussex and on returning last Saturday he contributed \$3 to her maintenance and that of the children. She provided the necessities of life while he was absent. On Monday night he informed her that he intended to seek employment at Fredericton, but unknown to him she had interested two anonymous epistles from the Denico woman addressed to Stackhouse from Sussex where the woman had joined him while he was attending

camp. Letters were couched in endearing terms and invited him to Sussex again. He departed for Sussex on Monday night and returned to St. John yesterday. She entreated him to abandon the Denico woman particularly while the woman was in the house with the wife, but he ignored the latter. He delighted in engaging in whispering sessions with Denico in the room allotted her, during her lengthy sojourn at his habitation. Prior to leaving with the Medical Corps for camp he presented Mrs. Stackhouse with the magnificent sum of fifty cents to exist upon with four children for a period of twelve days and subsequently he obtained the money on a pretense.

Mrs. Stackhouse alleged that her husband hypnotizes her frequently and induces slumber as she falls a ready victim to what she describes as hypnotism. When Mrs. Stackhouse, who is a frail woman, concluded her testimony the magistrate extended her husband the privilege of being sworn, but when Stackhouse perceived Sergeant Hastings approaching with the Bible he vouchsafed that it was not necessary to issue a statement under oath. He contended that many of his wife's allegations were incorrect. He said he was aware that the Denico woman was in his flat, but the object of meeting her was farthest from his mind. He sought employment and desired to desert his wife and children as Mrs. Stackhouse, he claimed had advised him to leave her repeatedly. In alluding to the assault he asserted that Mrs. Denico was engaged by him to paper his flat. His wife accused him of unfaithfulness and he resented the imputation on his good name, as he was innocent. After what he designated a "pow-wow" he accidentally threw her backwards on the bed and also accidentally placed his knee on her stomach and his hand was gripped on her throat and mouth to prevent her from screaming. These "accidents" occurred six times. He was remanded to jail.

THREE HUNDRED KILLED OR HURT

Special Despatches Tell of an Awful Earthquake in Southern Greece.

London, July 16—Special despatches received here from Athens, say that 300 persons were killed or injured by the earthquake that occurred yesterday in the province of Elis, in Southern Greece. The damage to property also was very great.

Hot water is flowing, while the water in the rivers and brooks has turned a reddish color.

PERSONALS

Miss Cunard returned from Boston today accompanied by her sister, Mrs. E. F. Maine, of Dorchester, Mass., and daughter.

David Lang, of St. John, is a late arrival at Pointe au Pic, Canada, where he has taken apartments at the Manoir Richelieu for a part of the season. The Richelieu is the centre of social life along the lower St. Lawrence, and with the large cottage colony, there is much social activity. Fred R. Taylor is another late arrival at the Manoir and is among the enthusiastic golfers playing over the course of the Murray Bay Golf Club.

The Misses Hains of Montreal, are spending a few days in the city en route to Digby.

Miss Idles, of Waterloo street, was a passenger to Toronto last evening, where she has accepted a position.

George Ross, of Ottawa, chief superintendent of post offices is in the city today inspecting the local office.

D. J. Seelye was a passenger to the city on today's Boston train.

Mrs. A. G. Monroe, of Houlton, Me., is visiting her parents, Mr. and Mrs. J. K. Brown, Cedar street, north end.

Miss Helen Fowler, arrived in the city on today's Montreal express.

THE WALL PAPER MAN

(Kansas City Times.) Oh, I'd sing you a song of the wall-paper man, Who's with us once again, Who comes with the flies and who every where lies. With his ladders and buckets ten; I'd sing of the ease with which bric-a-brac breaks. At the soft, gentle touch of his hand, I'd sing of the joy which it seems that he takes. In upsetting a jardiniere stand; I'd sing how he figures the cost of a job To a dot (except extras worth ten). Of his tracks in the hall and paste buckets that fall. And the way the new rug appears then; Oh, I'd sing of the wonderful litter he leaves. And the household he puts in a fuss— Yes I'd sing of him now if I didn't somehow, Have to pass up all singing to cuss.

J. E. Walsh, manager of the transportation department of the Canadian Manufacturers' Association, and Mr. Broderick, manager of the tariff department of the same association, both of Toronto, arrived in the city last evening and this morning met a number of the St. John members in the board of trade rooms and discussed matters affecting tariff and transportation.

The St. Peter's and St. Joseph's baseball teams will play on the Shamrock grounds tomorrow afternoon.

SOLDIERS ARE IN GLACE BAY TO STAY

Troops Called Out to Quell Strike Disorders Are Making Preparations for a Prolonged Visit.

Glace Bay, July 16—(Special)—The soldiers appear to be here to stay. More or less permanent quarters have been secured for them and the company has given them every consideration in regard to comforts. The company had supplied wire to soldiers to light huts with and engineers are busy making the shacks more homelike. Church of England Mission Hall at No. two is now a dining room for the soldiers at that mine.

The citizens, or some of them, prefer the room of the soldiers to the company and a petition, the circulation of which was started yesterday is being largely signed. It deplores the calling out of the militia and attributes revoking of the resolution of the council to improper motives on the part of the coal company employees in the council. With a desire to test the feeling of the rate payers in regard to the presence of the soldiers a public meeting is asked for.

The coal output yesterday was 4015 tons from the mines and 200 tons from banks. The company will work double shifts on the bank, and the amount of coal shipped will be larger in future. In fact, the company expects that at the beginning of next week, half the normal output will be reached. The output for yesterday is as follows: No. 1—1,722. Numbers two and nine, 446. No. 3—211. No. 4—347. Nos. 5 and 10—1,049. No. 8—291. No. 12—79. Bank 2,395. Total 6,608.

Tomorrow is payday, and under the usual conditions, there would be a great falling off in the output. Under the present circumstances it is anticipated that the output will not be materially affected.

President James Ross, who mysteriously disappeared after his visit here of the first of the week, was on deck this morning bright and early, having arrived by train from Sydney. His visit may or may not have any significance. He refused to be interviewed when the correspondent called upon him. It transpires that the supposed tube of nitroglycerine found yesterday afternoon at New Aberdeen, was nothing more than a pill bottle full of water. Thus are satanic exploits here.

Peter Patterson, of the International U. M. W. board, said matters from their standpoint never were more satisfactory. While there was nothing special to indicate a settlement, prospects were favorable to the U. M. W. The half dozen men arrested, and lodged in Sydney jail for attempting to leave the town while supposedly owing to the coal company, will probably be released tomorrow, as the day is pay day, and the amounts coming to the men are in excess of the amounts they owe.

JACK JOHNSON IN AUTO SMASH

Crown Point, Ind., July 16—Jack Johnson, champion heavyweight pugilist, is reported injured in a mysterious automobile collision last night. Women occupants of the car were badly hurt.

Get Saturday's Times for opening chapters of "THE MESSAGE," Louis Tracey's great romance.
