

## SOME STIRRING ADDRESSES GIVEN IN CITY YESTERDAY

Dr. Flanders Says Temperance People Should Turn Aldermen Out Because of Recent Actions—Rev. Dr. Raymond Speaks to Every Day Club on Liquor Question—Hon. Robert Maxwell Before Thorne Lodge.

In the course of his sermon in Centenary church last night, Rev. Dr. Flanders said that it was a mark of imbecility for the citizens to criticize the aldermen because when they voted for them they had virtually said they were all right. He touched upon the questions of rents and the housing of the poor and the proper ventilation and medical inspection of the schools, and also referred to the existence of the saloon and brewery and the refusal of the members of the common council to submit the question of local vote to a vote in some of the city wards recently.

The subject of the sermon was the Ideal City. Dr. Flanders said that since coming to St. John he had been taxed. In Ontario and Quebec they did not tax ministers and while stationed in these provinces he had often felt like speaking on public topics, but had always refrained because, under the circumstances, he thought it would have been indelicate. Now, however, that he had paid his taxes this handicap was removed and he could speak freely.

The text was Hebrews, xi-16: "For he hath prepared for them a city." He reminded his hearers that, while it was well for them to anticipate the joys of heaven they ought to remember that the eternal city was not the only city God had prepared. They were citizens of a terrestrial city and that carried with it serious duties and responsibilities. He believed that God had projected the plans for a terrestrial city into His revealed word and had called upon His people to help realize them.

After paying a tribute to the scenic beauties of St. John, the speaker said that he believed it could be made into an ideal city. The first thing to be considered in such a city would be the pleasure and well-being of the citizens. Not only would each study his own convenience but that of others as well. The principles of hygiene and sanitation would be given a prominent place and there would be no narrow lanes or alleys. The sun would shine and the breeze would blow. There would be no damp basements or homes filled with abject poverty.

The whole problem of housing the poor, Dr. Flanders said, would be settled only when Christians and women were aroused to a sense of their duty. Within his own knowledge no less than three sick persons had been moved lately from their homes because the homes were unfit for them to live in.

Rents in this city were unreasonable and in too many instances clearly beyond the means of the tenant to pay. He said that in going about among his own people he was often called into homes which were so miserable he almost felt it was useless to pray in them and that he would be better employing his time getting food and fuel and helping to make the home like what it ought to be.

Some landlords, he said, seemed to care only for the rent and not for the comfort of the tenant. Ten days ago, he said, a man took a house and moved in. Unfortunately he had neglected to sign a lease, and several days later, after sickness had come into the family, the landlord called with a lease in which a higher rent than had been agreed on was named. Protest was in vain, and the tenant was compelled, under the circumstances, to sign.

In the ideal city emphasis would also be laid on the intellectual and moral life of the citizen. Public schools would be sufficiently large so that it would not be necessary to put sixty pupils in a room which ought to contain forty or forty-five. Men wrote down their estimate of the value of education in the school buildings they erected. In the ideal city the ventilation would be properly attended to and a medical inspector would be appointed so that citizens would know that they would not be exposing their children to disease.

In the ideal city, the church would occupy a large place. The ministers as well as the occupants of the pews alike would take greater interest in civic and national questions. The church found it hard to get rid of the old idea that, when a man becomes a Christian, he must retire into a monastic cell for meditation and prayer. There would be no place in the ideal city for the saloon, the brewery or the unclean house.

Dr. Flanders took issue with the aldermen for refusing to take a vote on the local vote in some of the wards recently, and said that if the temperance people did their duty these men could resign their office and retire into silence.

The speaker went on to inquire what would be the proper form of government for the ideal city. Abraham Lincoln's theory of government by the people, for the people, he thought, was too self-centered. The two great principles, "Thou shalt love the Lord thy God with all thy heart and thy neighbor as thyself," would be incorporated into the government of such a city. The men who would be elected to representative positions would be men of ability and above reproach. People had no right to be so much fault with the aldermen of the city. It was a mark of imbecility on their part, because when they voted for them they approved of them, their character and ability. He urged that the citizens should choose men of good ability and spotless character for office, and then stand by them. The trouble was that people are so busy with their own affairs that they could not give up the time to attend to the affairs of the community.

Other Meetings  
Rev. W. M. Fraser of Halifax, preached in Calvin church twice yesterday to large congregations. In the morning his

## This Tells How Female Ailments Are Best Treated and Cured

Ask any intelligent physician what causes nine-tenths of all female disease, even including anaemia, nervousness and consumption—Back comes the answer—"Constipated Bowels." There is scarcely a single female ailment that had not in its earlier stages symptoms of constipation. How much better off the patient is without the poisonous accumulations caused by constipation. How much clearer the complexion, how much fresher one feels when the system is pure and clean. Think it over yourself. Isn't it apparent that a bowel regulator and liver stimulant like Dr. Hamilton's Pills is sure to do you good? Gay spirits, good looks and happy health have returned to many a sick woman through Dr. Hamilton's Pills.

Better get a few boxes today; Dr. Hamilton's Pills will assist you in a thousand ways. As delay is always dangerous, your plain duty is to follow the example of Mrs. F. Rowe, who sent the following letter from Graves, Port au Port, Newfoundland: "Four years ago I got kidney and bladder trouble, I thought it was female trouble, and treated it accordingly. Even my doctor in St. John said it was."

In reading about Dr. Hamilton's Pills I noticed symptoms like mine and I bought six boxes. These pills went right to work on my sick condition and helped me from the first. My supposed female trouble, which was bladder disease, was cured. My weight increased eight pounds and never before was I as well as today. Dr. Hamilton's Pills did it all."

All dealers sell Dr. Hamilton's Pills 25c. per box or five boxes for \$1.00.

## TRY THIS FOR YOUR COUGH

Mix a half-ounce of Virgin Oil of Pine with two ounces of Glycerine and a half-pint of good Whisky; shake well, and take a teaspoonful every four hours. It is claimed this mixture will break up a cold in twenty-four hours, and cure any cough that is curable. Being free from opiates and drugs, it is far preferable to the ordinary cough remedies, and as it provides a quantity sufficient to last the average family an entire year, is as inexpensive as it is effective.

The necessary ingredients can be secured from any good prescription druggist, and the mixture easily prepared. It is well to remember, when having this formula put up, that the genuine Virgin Oil of Pine is never sold in bulk, but is put up for dispensing only in half-ounce vials, each vial sealed in a round wooden case. Rank imitations, resembling the genuine only in name and style of package, are sometimes offered, but these are essentially ineffective and often cause nausea. It is better to purchase the ingredients separately and prepare the mixture at home. Be sure to get the genuine Virgin Oil of Pine, prepared only by Leach Chemical Co., Windsor, Ont.

subject was "Comfort in the Time of Trouble," and in the evening he spoke on the "Responsibilities Attaching to the Birthright." Both were eloquent sermons. Rev. Mr. Woods, of St. Andrew's church, Chatham, preached here twice yesterday. In the morning he occupied the pulpit of St. Andrew's church and that of St. Stephen's in the evening.

Referring to the Every Day Club, he said its new hall might be regarded as illustrative of its work. Turned out of its former quarters, it had converted an old hay loft into an attractive hall. It aimed to convert men in like manner to a sober and helpful life. Conversation, after all, was ceasing to do wrong and proceeding to do right. There should be no half measures. The man who merely ceased drinking would be likely to drink again, unless he engaged in something that would take up his attention; and the best occupation was helping some others to overcome bad habits.

Men had been making great progress in material things, but there was room for great progress in the field of moral reform. The people as individuals must be educated in great scientific and material progress, said they still had the old habit. He intimated that an answer from the government relative to the appeal for prohibition was expected this week, and dwelt upon the importance of all organizations standing together to secure better laws relating to the liquor traffic.

The hall was crowded. There was a meeting at 4 o'clock, addressed by Mr. Wason, R. H. Cother and the president. At the men's meeting in the W. C. T. U. hall on the west side, the speakers included J. W. McCosh, B. L. Sheppard and C. S. Humbert. Mr. McCosh went quite fully into the history and methods of the Every Day Club.

Thorne Lodge Meeting  
Hon. Robert Maxwell addressed the Thorne Lodge temperance meeting on Sunday afternoon, and made an announcement as to the government and prohibition. E. N. Stockford presided, and F. Allaby conducted devotional services. The St. Mary's orchestra assisted in the musical programme. Mrs. S. Willis gave a reading, which was much enjoyed.

Mr. Maxwell began his address by commending the meetings held by Thorne Lodge for their educational effect. This must be carried on until the efforts of the temperance people were crowned with success. He traced the efforts for temperance reform from their inception, showing gradual change of attitude toward the liquor traffic and its products and great growth of sentiment along legislative lines. While today there might be a difference in the methods adopted by temperance people to remedy the evil, the greater sentiment was in favor of the abolition of the saloon and prohibition of the sale of liquors.

A writer lately had stated that economic arguments against the saloon were based less and that the revenue now received from the licensing of the traffic would be lost to the community under prohibition. The writer did not state that in order to get this revenue the money needed to add to the comfort of the working man must first go over the bar to become that revenue.

That the saloon was an economic evil might be proven when it was argued that any institution that did not produce something beneficial or further production of something valuable, was a burden to a community. Factories producing clothes, boots and shoes, and other lines that were necessary to the life of a community were assisting the well-being of that community. The liquor traffic did not produce anything valuable, was a burden to a community. Factories producing clothes, boots and shoes, and other lines that were necessary to the life of a community were assisting the well-being of that community. The liquor traffic did not produce anything valuable, was a burden to a community.

James Logue, a respected resident of South Bay for fifty years, died suddenly of heart trouble, at his home there on Sunday morning. Mr. Logue, who was in his seventy-seventh year, had been ill for a week, following a fall on the ice, and was confined to bed for that space of time. A little before 8 o'clock yesterday morning he was unable to take food, and fasted, but expressed his disinclination to eat. At 8 o'clock his daughter, Miss Kate, passed the room and thought that her father was breathing somewhat heavily. She investigated and found that he had passed away. He had not been seen since, and his death was therefore entirely unexpected.

Mr. Logue was born in Ireland. His wife, four sons, two daughters and one brother survive. The sons are Edward and Alfred of Boston; Fred, of Woodstock, and George, at home. The daughters are Mrs. Patrick Duffy, of South Bay, and Miss Katie at home. The brother is Edward, at South Bay. The funeral will take place on Tuesday at 2 o'clock.

Miss Lottie VanDine  
Fredericton, Feb. 28.—The death occurred yesterday afternoon at the Richards private hospital, of Miss Lottie VanDine, daughter of David VanDine, of the customs house staff in this city.

Miss VanDine had been in ill health for some time and recently underwent an operation for an internal trouble from which peritonitis afterwards set in. The late Miss VanDine was for many years a member of the teaching staff of the York street school, this city, and as such endeared herself to the scholars and their parents alike. Upwards of a year ago she obtained leave of absence owing to ill health, and had an enjoyable trip to the old country, which was much enjoyed, returning in somewhat better health, and resumed her duties at the school, only to have to give them up later on.

The late Miss VanDine was about 37 years of age and is survived by her parents, Mr. and Mrs. David VanDine, and two brothers, R. B. VanDine of VanDine & Company, of Toronto, who has been at her former home in this city for some days. The funeral will take place Monday at 3 o'clock.

## BISHOP RICHARDSON AT MONCTON MISSION

Moncton, Feb. 28.—(Special)—Bishop Richardson today began a week's mission in St. George's church, preaching at Sunday Brue this afternoon and St. George's this evening. All the services were largely attended and the mission opened very auspiciously.

Rev. Charles W. Gordon (Ralph Connor) has been named as representative by the department of labor in a dispute between the Winnipeg (Cartage) Company and its employees. The company refused to appoint a conciliator, so the department asked the author to step in.

## PAARDEBERG MEN HAD PLEASANT DINNER

Anniversary Celebrated by Dinner at the Clairmont House on Saturday Evening.

The St. John South African veterans observed the ninth anniversary of the battle of Paardeberg on Saturday. Between forty and fifty of the volunteers and their friends went to Torriburn at 7.15 p.m. on a special train. After reaching the station they assembled in the dance hall of the Clairmont House where a programme of songs and vocal selections and piano music was enjoyed. At 8.30 all adjourned to the dining room where a tempting spread set by Wm. Newcomb engaged their attention pleasantly for some time.

The toast list was then taken up. The King was proposed by Capt. F. Caverhill Jones. The City of St. John was proposed by Norman McLeod and responded to by Hon. R. J. Ritchie and ex-Mayor Sears. Judge Ritchie spoke very briefly. Mr. Sears outlined the growth and advancement of the city and referred to the interest manifested by its residents in the first contingent and how minutely every movement of the Canadians was followed throughout the war. He also spoke of the heroism of the boys at Paardeberg, in which engagement they particularly distinguished themselves.

The Canadian Permanent Forces were proposed by Captain Jones and responded to by Lieut. Col. Ogilvie. The New Brunswick Veterans of the Northwest Rebellion were proposed by H. V. McKinnon, to which President Andrew Emory, of the N. B. Militia Veterans' Association, and James Hunter replied in reminiscent vein, recounting experiences in the uprising of '66.

The Civil Service was proposed by Capt. Jones and responded to by H. D. McLeod, ex-deputy receiver general. Mr. McLeod, who was treasurer of the New Brunswick Patriotic Fund, spoke feelingly of his pleasure in being present and of his connection with the work of the contingents.

Our absent comrades were proposed by J. H. McColeman and The Men We Left Behind Us were proposed by William Donahue and the toast drunk in silence.

G. Company was proposed by Edward Sears and replied to by Capt. Jones in a brief speech. Between the toasts the party was entertained by Messrs. Davidson and Smith in bango selections and Messrs. Williams, Burt and Penny in vocal solos and Messrs. Power and Hunter with recitations.

A letter from the president of the P. E. I. South African Veterans' Association was read, congratulating the local men on the celebration of the ninth anniversary of the battle. Col. G. R. White, D. O. C., and Chief of Police Clark, who were invited, were unable to attend the dinner. At 12.30 the return to the city was made.

## LUMBAGO VICTIM GIVES GOOD ADVICE

Tells of a Wonderful Remedy That Brought Him Health and Comfort

"The man whose back is lame and sore can't afford to trifle with the hundred and one so-called cures for lumbago. He needs a powerful, penetrating, pain destroying, liniment—one that will quickly sink into all the tendons and muscles—such a liniment is 'Nerviline,' which acts like lightning. Right to the spot it goes, carrying healing, soothing properties to the nerves and muscles that cause all the pain."

"When my back was so painful that I couldn't turn in bed, when rubbing hot poultices over my back failed to ease, when I cried aloud with agonizing twinges—then it was that I used Nerviline and got quick relief and was ultimately cured. There is something in Nerviline that its power over pain and its facility for sinking into the core of the sore parts is simply a marvel. After getting rid of the pain and when I started back to work of course I was a Nerviline Porous Plaster over the weak spot. I have friends that use Nerviline for Rheumatism, Neuralgia, and Sciatica. They all think as I do that Nerviline is the strongest, best and safest liniment made."

The above statement of F. R. Muchmore, the well-known editor of the "Globe," is ample proof that Nerviline can't be beaten, try it yourself—but be sure the dealers give you "Nerviline" only. Large bottles, 25c. each.

## MURDER TRIAL ON TOMORROW

Men Charged With Slaying Paddy Green Will be Arraigned at Andover.

Fredericton, Feb. 28.—Hon. H. F. McLeod, solicitor general, will leave on Monday for Andover, where on Tuesday the trial will be held of the two Italian men charged with the murder of Paddy Green, the Montreal jewelry peddler, who was murdered during December on the Grand Trunk Pacific construction line, and his money, amounting to about \$2,000, taken from his dead body.

Judge Laidry will be the presiding judge at the trial and it is expected that it will last for about a week.

The Italians who have been sent up for trial on the charge of murder are Tony Arvato and Leo Seppilli, who are said to have their headquarters in this country in Montreal; they are said to be connected with the Black Hand Society and are charged with one of the most fiendish crimes in the history of New Brunswick.

## OCAMO HAD ROUGH TRIP

West India steamship Ocamo, Captain Coffin, arrived in port last night at 9 o'clock from Bermuda, Windward Islands and Demerara. She had a very rough trip from Bermuda. Last Thursday and Friday a gale from the northwest caused a very heavy sea and the vessel rolled considerably. Some damage was done about the deck and the bridge. The Ocamo again proved herself to be a good sea boat.

She had as passengers W. B. Dierden, from Demerara, who is going home to Europe; Gordon Taylor, from Trinidad, and J. M. McDonald, from Bermuda, both Canadians returning home; also one Chinese for Hong Kong. The steamer, after discharging her St. John freight, will proceed to Halifax.

Rev. Charles W. Gordon (Ralph Connor) has been named as representative by the department of labor in a dispute between the Winnipeg (Cartage) Company and its employees. The company refused to appoint a conciliator, so the department asked the author to step in.

## The Mission

Of those corpses in your blood that have been called "Little Soldiers," is to fight for you against the disease germs that constantly endanger your health. These corpses are made healthy and strong by the use of Head's Sarsaparilla.

This medicine is a combination of more than 20 different remedial agents in proportions and by a process known only to ourselves and it has for thirty years been constantly proving its worth. No substitute, none "imitation."

## CAVANAUGH RESIGNS FROM POLICE FORCE

He Returns His Uniform and Equipment to Chief Clark and Will Go Back to the Fire Department.

Patrolman Matthew Cavanaugh, who was suspended for three days last Friday for delay in reporting to Chief Clark charges which he preferred against Patrolman Ira D. Perry, has resigned from the force. About 7 o'clock last evening he called on Chief Clark with his uniform and equipment and stated that he wished him to accept his resignation.

The chief replied that he thought Cavanaugh was acting impulsively and added that it was usual to give a week's notice and to put the resignation in writing.

Cavanaugh explained that he had a position offered to him. Chief Clark said he would not stand in his way, adding that he had nothing against him and as far as the suspension was concerned Cavanaugh knew the cause and there would be no purpose in discussing it.

A little later Cavanaugh handed the chief his resignation in writing, and it was accepted. He joined the police force on Aug. 21 last.

When interviewed after the occurrence Chief Clark said beyond confirming the fact that Cavanaugh had resigned he had nothing to say. He was surprised when Cavanaugh came in and made the announcement.

A coincidence, in view of the recent investigation, is a report on the police books that the side door of the Brayley Drug Company in Mill street was again found open early on Sunday morning. Acting Sergeant Scott and Policeman Totten made the report and say that they found the side door of the building open between 3 and 4 o'clock yesterday morning. The door is in a hallway off Mill street. The police say what attracted their attention was a light burning at the foot of the stairs. There were also a number of lights in the upper flat.

Acting Sergeant Scott opened the outer door, which was unlocked, and, going to the side door, he turned the knob and this door also opened. The key of the door was in the lock on the inner side. After locking this door the policemen went through the office and out of the front door, which they secured with its spring lock.

Chief E. Farrand, the manager of the drug company, was communicated with yesterday and said he could not understand the side door having been left open. It was the duty of one man generally to see that the place was locked up. That employee assured him that to his knowledge the door was secured Saturday evening. Mr. Farrand said he also supposed that the janitor always locked the outside door. As far as he could tell, nothing had been taken.

## WEDDINGS

Fowler-Beyea

In Duluth (Minn.), on Wednesday, Feb. 28, Miss Charlotte P. Beyea was united in marriage to Ernest Fowler, by Rev. Mr. Ryan, rector of St. Paul's church, Duluth. Both Mr. and Mrs. Fowler are natives of Kings county (N. B.), and many friends will join in wishing them every happiness in their married life.

## Kennedy-Burke

Newcastle, Feb. 26.—James Kennedy and Miss Cora Burke, both of Blackville, were married at the home of Allan Kennedy at Blackville Tuesday, by the Rev. F. T. Snell.

## Miller-McIntosh

Harcourt, N. B., Feb. 27.—The home of Mr. and Mrs. Andrew McIntosh was the scene of an interesting event on Friday evening, Feb. 26, when their only daughter, Bessie, was united in marriage to Harry Miller, of Campbellton. The ceremony was performed by Rev. R. H. Staver, in the presence of only the relatives and immediate friends of the contracting parties. The bride, who was unattended, was gown in a pretty traveling dress of navy blue chiffon broadcloth. After the ceremony a dainty luncheon was served and the happy couple left on the Maritime Express for their future home in Campbellton. The bride, who was one of the most popular young ladies of the town, received many pretty and useful presents in silver, china and cut glass. On Tuesday evening previous, the bride-deer was surprised by a number of her lady friends, who gathered at her home and gave her a linen shower.

## Wall-McCrum

Oak Bay, Char. Co., Feb. 26.—An interesting event occurred at the residence of Robert McCrum, of Rolling Dam, Charlotte county (N. B.), on the 24th inst., when his daughter, Esther E., was married to Herbert Wall, of Liverpool (England). The bride looked lovely, gown in a handsome suit of cream chiffon and was attended by her little sister, Myrtle, who wore a pretty suit of pink dressin silk. The nuptial knot was tied by Rev. J. F. Estey, of Oak Point, assisted by Rev. Percy A. Fitzpatrick. Only the immediate relatives of the bride were present. After luncheon the bridal party took the C. P. R. for Boston and other American cities. After their return they will take up their residence in Yarmouth (N. S.), where Mr. Wall is agent for Simpson & Roberts & Co.

## THE SENLAC

Percy W. Thomson, who returned from Ottawa on Saturday, when asked as to the future of the Senlac, said the question of placing the steamer on the Gaspé route had been discussed but nothing definite had been decided by the government. The Senlac is still in quarantine here and has her crew and passengers on board. They will probably be released about the middle of the week. It is expected that the freight will be removed by scows today.
