DICK BURGE FREE AFTER SEVEN AND HALF YEARS

Ad. Wolgast and Harlem Tommy Murphy Fight a Draw—The Chatham Y. M. C. A. Sports—News of Sporting Events, Local and General

After having served seven and a half years of his sentence the professional boxer, Dick Burge, who, in February, 1902, was setnenced at the Old Bailey to ten years' penal servitude for frauds on the Bank of Liverpool, has arrived at Petonville, from Portland, having been released on ticket-of-leave.

The trial of Burge, with whom was indicted Thomas Peterson Goudie, a clerk of the Bank of Liverpool, occupied five days and excited extraordinary interest at the time, the amount of money involved in the swindle, which was engineered and carried out by Goudie, by the clever forgery of the name of a customer to cheques varying from £3000 to £30,000. being very considerable.

At the time of his conviction Burge was in the height of his popularity as a boxer, and sympathy was evinced for him. According to his own admissions in the witness-box he had made no less than £30,000 by his fists.

During the time that Burge had been in Portland his conduct is reported to have been exemplary. He had gained the highest number of marks obtainable which count for remission of sentence. In addition to general good behavior, Burge has obtained a considerable remission of his sentence for an act of gallantry in protecting a warder from a murderous assault while at Portland.

Baseball

President O'Brien, of the American Association, believes there will not be a series of games between the Eastern League pennant winners and the flag winners of the American Association.

"It is up to the players themselves," says O'Brien. "If they want a series of games we will be glad to take hold of the scheme, and let the players stand their share of the expenses. But as a league proposition I do not think there will be anything done. The last time the respective winners met it was a losing venture, as it is too late in the fall, and the weather to uncertain, especially in view of the long trips. However, if the players of the winning teams should decide to take a chance, we will do all in our power to assist them."

Moncton, Sept. 1—(Special)—Timely hitting won the Y. M. C. C. team the city base ball championship in the game with the Y. M. C. A. this afternoon. The teams were tie for first place and today's game decided the winner of the city league and local championship. Great interest was taken in the game and feeling ran so high that McAllister, the St. John umpire, was brought here to umpire. He did his work well, umpiring with the utmost impartiality and giving the best of satisfaction to both teams and spectators. The Y. M. C. C. scored in three innings and the Y. M. C. A. in two, total scores being 6 to 2.

Football

A Rugby team selected from the best teams on the Pacific coast has been invited to visit Australia next year by the New South Wales Rugby union.

According to W. J. Howe, who reached Victoria, B. C., from Australia a few days ago, the formation of a great international Rugby football union is being seriously considered by enthusiasts in the game. England, Wales, New Zealand, Australia, South Africa, the United States, Canada and France are to be represented, and other nations as they take up football in earnest.

Tennis

It is not generally known that Capt. J. F. Foulkes, the Canadian lawn tennis champion, who was recently defeated at Niagara by Hodges, the Buffalo champion, played five sets with the American later on in the tournament, but before a private gathering, owing him fifteen every game, and defeated him. On Thursday, August 26, Capt. Foulkes met Hodges, just after he had played an extremely hard game immediately on arriving at Niagara. Hodges won, 4—6, 6—4, 6—4, but the Canadian was not satisfied that he had met his match, and challenged his opponent to play under the conditions named. Friends of the Canadian champion at once subscribed $100 for a trophy, and the match took place late Saturday afternoon, in the midst of great excitement, and despite the heavy handicap, Capt. Foulkes defeated his rival, 6—4, 0—6, 2—3, 7—5, 8—6.

Golf

Entries for the Stetson Cup match play handicap, closed yesterday at the Golf Club. The following players have entered for the match:—F. B. Francis, P. Longley, H. W. Schofield, F. A. Peters, E. W. Athletic

Two of the world's greatest long distance runners will probably be seen in action in Vancouver in the course of a couple of weeks, if present plans can be brought to a head, for Manager Wattellet, of the Royal Athletic Park of the western city, is in communication with John D. Marsh, holder of the world's professional marathon record, and Alfred Shrubb, the fleet little Englishman, who can run anything from one to fifteen miles as fast as any of them.

Hockey

The Montreal Star says that serious upheaval in hockey circles is imminent.

In the serious talk about the immediate future and next season, two things stand out most prominently, and those are a French-Canadian team, and a professional Montreal team.

For some years, ever since the failure of the Federal League almost compelled them to drop out of hockey, the French-Canadian lovers of the sport have been trying to get into the big senior league.

For that time there was considerable objection of one sort or another, but it looks now as if time and circumstances had swept most of these objections away, and that a place would be found for a French-Canadian team if one were to apply. And that one will apply is almost certain.

The situation, therefore, would be simply this:

Montreal would take its former place, the French-Canadian team would take Victoria's place, and a new team in the course of formation would take the Wanderers' place.

If Montreal should have a professional team again, it looks very mucch as if the Vics would be rather lonely.

San Francisco, Cal., Sept. 1—A complete ratification of the action taken by Sam Berger, in signing tentative articles with Jack Jackson at Chicago, several weeks ago is the subject of a cablegram received by Berger from Jefferies, who is now at Carlsbad, Germany.

The cable reads as follows

"Agreement satisfactory, inform newspapers. Your action authorized by me.
(Signed) "Jefferies."

The Ring

Duquesne Gardens, Pittsburg, Pa., Sept. 1—Neither Ad Wolgast nor Harlem Tommy Murphy could show a shade at the end of the six-round bout before the National Sporting Club tonight. Throughout the bout each struggled to assume the lead but fight followers declared that it was the cleanest draw held here for years. Each fighter clamored loudly for a return match. Despite his defeat of Battling Nelson, Wolgast failed to show the form which is expected of a champion. After three rounds of cautious fighting, Murphy tried aggressive tactics, which proved a dismal failure.

The Chatham Sports

Yesterday in the Y. M. C. A. annual sports at Chatham, Joseph Wood proved himself the best all round athlete, taking five firsts and being a member of a winning relay team

Michael Thomas, the P. E. Island Indian, carried off the one and five mile contests. There was a good crowd present, but a downpour of rain spoiled the last three events to some extent. The results were:

100 yards dash, Wood, time 11 1-2 seconds.

Running broad jump, Wood, 18 feet 3 inches.

100 yard sack race, Watling, 24 seconds.

220 yards dash, wood, 24 1-5 seconds.

Shot put, Trainor, distance 32 feet 8 inches.

Two mile junior, Moore, 11.30.

125 yards hurdles, Wood, 24 1-5 seconds.

Mile run, Thomas, time, 5.02.

Running hop step and a jump, Wood, 38 feet 1 inch.

440 yards, Watling, 59 seconds.

Three mile special, Cribbs, 17 minutes 23 seconds.

Running high jump, Lea, 4 feet 9 inches.

Half mile walk, Lea, 4 minutes and 11 seconds.

Five mile senior, Thomas, 29.24.

One mile relay race, Chatham winner, 4 minutes 31 seconds.

The officials were: Referee, Dr. W. Stuart Loggie; timers and measurers, R. A. Lawlor, S. D. Heckbert, R. A. Loggie; judges of finish, H. Pout, W. L. T. Weldon, F. S. Peacock; starter, Mayor Snowball; announcer, J. D. K. MacNaughton; clerk of course, F. E. Jordan.

LUSITANIA AFTER RECORD

New York, N. Y., Sept. 2—The latest bulletin by wireless, via Halifax, from the Cunard liner Lusitania, now speeding wesward, confirms earlier indications that she will land her passengers tonight, thus realizing for the first time the ambition of her owners to cut the time between New York and London to five days.

The Lusitania at 5 o'clock yesterday afternoon, was 609 miles west of Sandy Hook, as against 1,204 miles east at 6 p.m. yesterday.

PLENTY OF MONEY FOR THE CROPS

Winnipeg, Sept. 1—Regarding the all-important question of the money for handling the crop, Sir Edward Clouston, head of the Bank of Montreal, said:—"There will be no difficulty in this respect. The Bank of Montreal and the other institutions have ample funds in the west at their disposal for this purpose, and the condition of the money market will enable a low rate of interest to be charged."

PULP FIRMS ARE NOT CUTTING STAFFS

Ottawa, Sept. 1—There was a report around town that on account of the operation of the United States tariff on pulp as it affects Ontario and Quebec the output of local firms would be reduced. It was stated that J. R. Booth would cut down his output by forty per cent. Mr. Booth stated however, that he had authorized no such announcement and that he did not contemplate such action.

W. H. Rowley, of the E. B. Eddy company stated that his firm had no fears of the ne wtariff particularly as its business is confined almost exclusively to Canada.

QUARANTINED AT PORTLAND

Wilmington, Del., Sept. 2—Word reached here tonight from Portland, Me., that the steam yacht Tech, owned by T. Coleman Dupont, president of the Dupont Powder Company, is quarantined at that place because of the illness of his daughter Alice, aged eighteen years, with diphtheria.

Mr. Dupont, who recently underwent an operation for stomach trouble in Philadelphia, is on a cruise with his family for the benefit of his health.

NORTH POLE DISCOVERED BY DR. FRED. COOK

(Continued from page 2.)

No official action was taken tonight by the Arctic Club, the Explorers' Club, or the American Geographical Society, for none of these associations had received any formal notification of Dr. Cook's success. Arthur M. Huntington, president of the American Geographical Society, is out of the city, as is Admiral Schley, president of the Arctic Club. The officers of the Explorers' Club could not be found.

Today's message from Cook to his wife was dated at Lerwick, Shetland Islands, the first available point of transmission in the course between Greenland ports and Copenhagen, whither he is bound. Because of its briefness, the assumption is that the message was sent primarily to assure his wife of his safety and not to apprise the world of his discovery.

Cook Bound to Copenhagen

Copenhagen, Sept. 1—Dr. Cook, the American explorer, reached the North Pole April 21, 1908, according to a telegram just received at the colonial office here. The message was received from Lerwick, Shetland Islands. Dr. Cook is on board the Danish government steamer Hansegerde, which passed Lerwick at noon today en route for Denmark.

The telegram announcing Dr. Cook's achievement was sent by a Greenland official on board the steamer, and reads as follows: "We have on board the American traveler, Dr. Cook, who reached the North Pole April 21, 1908. Dr. Cook arrived at Upernivik (the northermost Danish settlement in Greenland, on an island off the west coast) in May of 1909 from Cape York (in the northwest part of Greenland, on Baffin Bay.) The Esquimaux of Cape York confirm Dr. Cook's story of his journey."

It is understood that the Danish consul at Lerwick, where the Hans Egede remained for two hours, was officially notified of Dr. Cook's success in his attempt to reach the pole but that he was bound to secrecy concerning the extent and nature of the explorer's discoveries. Director Ryberg, head of the Greenland administration bureau, said tonight that he did not expect to receive any further details of Dr. Cook's achievement before the arrival of the Hans Egede at this port, which probably would be Saturday afternoon. The vessel will make no stops on the voyage from Lerwick to Copenhagen.

Director Ryberg proceeded to the American legation and informed the minister, Dr. Maurice F. Egan, that Dr. Cook had reached the North Pole. The announcement caused the greatest enthusiasm throughout the city and the legation was overcrowded with visitors tonight.

The noted explorer, Commander Hovgaard, leader of various North Pole expeditions, was convinced that the message that Dr. Cook reached the pole was true but remarked that it was strange that no mention was made in the cable whether or not there is land at the pole. It is the intention of the people of Copenhagen, on Dr. Cook's arrival here, to give him a most enthusiastic reception.

Dr. Frederick A. Cook, accompanied by a Norwegian, left Etah, Greenland, March 3, 1908, taking with him eight Esquimaux, four sledges and twelve dog teams. He was to make his way through Ellesmere Land. Dr. Cook lives in Brooklyn.

Brussels, Sept. 1—The observatory here received the following telegram tonight dated Lerwick, Shetland Islands: "Reached North Pole April 21, 1908. Discovered land far north. Return to Copenhagen by steamer Hansegede.

(Signed) "FREDERICK COOK."

The American officials at the observatory state the despatch is surely authentic and that the North Pole has been reached for the first time, and by an American.

Copenhagen, Sept. 1—The Esquimaux at Cape York mentioned in the despatch from the official on board the steamer Hansegede, are said to be connected with the expedition of the Danish explorer, Knud Rasmussen, who is now at Cape York.

It is believed here that Dr. Cook was accompanied on his dash to the pole by only a few Esquimaux.

The news of the achievement of the American explorer has created intense excitement in Copenhagen.

Times Credits it

London, Sept. 2—A despatch from Lerwick to the Times says that the statement is made there that Dr. Cook has reached the magnetic pole.

In an editorial, the Times says that such a man is, prima facie, not likely to mislead the world about his achievements.

Conway Centre, N. H., Sept. 1—"The most extraordinary feat in Polar expedition" was the estimate of Dr. Cook's attainments tonight by Commander Greeley, commander of the Lady Franklin Bay expedition from the United States in 1884 when informed by the Associated Press of the cablegram announcing Dr. Cook's success. General Greeley said:

"Dr. Cook's achievement must be viewed as the most extraordinary feat in Polar exploration. He was practically without what had previously been considered to be indispensible equipment for extensive Polar travel. He could have performed his work only by extraordinary endurance, aided by fortuitous conditions in the Arctic Ocean."

New York, Sept. 1—"Single-handed and alone, Dr. Cook has apparently accomplished what hundreds of more experienced and better-equipped explorers have been trying for in vain for years." was the comment tonight of Herbert L. Bridgman, of Brooklyn, secretary of the Peary Arctic Club and an intimate friend of Dr. Cook, when he was shown the cable advices reporting that his Brooklyn neighbor had succeeded in reaching the Pole.

"He appears to have waited a favorable time and then, when things looked right, pushed northward, accompanied only by two Esquimaux and depending for his supplies largely on the musk oxen which he subsequently ascertained were plentiful along the route he planned to take.

"He is the Columbus of the Arctic. What he has done no one can ever excel. There is no point further north—nothing left for any rival explorer to accomplish which can outdo his performance.

King Edward Greatly Interested

London, Sept. 1—Captain Robert F. Scott, commander of the British Antarctic expedition of 1900-04, in an interview tonight, expressed the opinion that the absence of Francke, his only civilized companion, placed Dr. Cook in an awkward position, if he wished to return with corroborative evidence, but it could scarcely be expected, when he saw the possibility of reaching the pole simply with the aid of the Eskimos, that he would forego the journey only because he was not accompanied by another civilized man. Dr. Cook's feat has created tremendous interest among all classes here, especially geographers.

There is the greatest curiosity to hear the story of the explorer's triumph. The news was immediately telegraphed to King Edward at Marienbad and was communicated to his majesty while at supper after the theatre. The king displayed the greatest interest in Dr. Cook's success.

The London morning papers give this the premier place, and print every available item concerning Dr. Cook's explorations, together with his record and portrait. Editorially, however, the papers in general, while giving ungrudging honor to Dr. Cook as a man of reputation, well fitted to achieve the triumph, are inclined to skepticism. Some disappointment is expressed that Great Britain has thus been robbed of the envied honor, but there is satisfaction that it goes at least to a man of Anglo-Saxon blood, bearing a name already famous in sea story.

Other Attempts to Reach Pole

The dream of finding the North Pole has for centuries lured explorers, scientists and daring adventurers. It now seems that this dream has become a reality by the achievement of Dr. Frederick A. Cook, of Brooklyn.

Some of the most recent or noteworthy attempts to reach the North Pole are enumerated below:

Walter Wellman, an American, left the island of Spitzbergen for the pole in a balloon August 15, 1909. His airship became disabled after he had traveled thirty miles and he was forced to return.

In 1906 Commander Robert E. Peary, U. S. N., reached 87 degrees 6 minutes, equivalent to about 203 miles from the pole. Commander Peary is now in the polar regions on another expedition. A relief ship was sent out a month ago to endeavor to pick him up. He started from Sydney (N. S.) July 17, 1908.

On September 3, 1905, Captain Roald Amundsen, a Norwegian, completed the first voyage through the Northwest Passage. He left Christiana on the Gjoa, June 17, 1903, and arrived at Nersohele Island, in the Arctic Ocean, in September of 1905.

In 1904 Baron Tell, a Russian, led a polar expedition by way of Siberia but all the men perished from the cold.

In 1903 Erickson, a Dane, headed an expedition and got as far as Saunders Island, where they were rescued in a destitute condition. In the same year Anthony Fiala, a young Brooklyn explorer, sailed on the ship America and proceeded further north than the Duke of the Abruzzi. His party endured great hardships before they were rescued.

The Duke of the Abruzzi made his expedition in 1900.

In 1895 Dr. Nansen reached eighty-six degrees, fourteen minutes on the vessel Fram, which left Inger Strait August 4, 1893.

Prof. Andree made his fatal balloon trip in 1897. He left Tromsoe, Norway, in his balloon, the Eagle, bound for the pole. Since his departure nothing authentic has been heard of Prof. Andree.

In 1883 Captain DeLong's expedition, in the Jeannette, was lost near Henrietta Island.

In 1882 the Greeley expedition reached 83 degrees 24 minutes, and in 1845 Sir John Franklin made his disastrous attempt to penetrate from Lancaster Sound to Behring Strait.

At a meeting of the Explorers' Club of New York in October, 1907, a letter from Dr. Cook, dated at Etah, Aug. 26, gave this information:

"I find that I have a good opportunity to try for the pole and therefore I will stay here for a year. I hope to get to the Explorers Club in September, 1908, with the record of the pole. I plan to cross Ellesmere Land and reach the Polar Sea by Nansen Strait. I hope you can induce some of the members of the club to come and meet me at Cape York. Here's for the pole with the flag."

About the same time Herbert L. Bridgman, of Brooklyn, received this letter from Cook, similarly dated:

"I have hit upon a new route to the North Pole and I will stay to try it. By way of Buchanan Bay and Ellesmere Land and northward through Nansen Strait over the Polar Sea seems to me to be a very good route. There will be game to the eighty-second degree, and here are natives and dogs for the task. So here is for the pole. Mr. Bradley will tell you the rest. Kind regards to all."

Alberta. 'The Pick of the Basket'

In discussing the future of Alberta in the September 4th issue of Collier's, Premier Rutherford refers to Alberta as the "Pick of the basket" among Canadian provinces. In 1850 Alberta was practically uninhabited; in 1900 it had seventy thousand inhabitants. It became a province in 1905, and today has a population of three hundred thousand people. No magazine has ever published a series of articles so absorbingly interesting to the Canadian people as this story of the future of the provinces told by the premiers and lieutenant governors themselves.

PITTSBURG COAL STRIKE SETTLED

Pittsburg, Pa., Sept. 1—Another victory was recorded by the Schoenville strikers today when it was reported that the members of the Brotherhood of Railway Trainmen, employed on the Pittsburg, Fort Wayne and Chicago R. R. had refused to bring any more strike-breakers to the Pressed Steel Car Company's plant.

A committee representing the trainmen called at the strikers' headquarters at McKee's Rocks, and after the conference, Chairman Wise, of the strikers' executive committee, said positively that no more imported men will be transported over the Fort Wayne route.

According to an authoritative statement, but 300 men were at work in the big plant today.

THE PULP DUTIES

(Toronto News.)

The imposition of countervailing duties against Ontario wod pulp and paper entering the United States will not move the people of this province to abandon their policy of preserving their own timber for the upbuilding of milling and paper industries here at home. Both political parties are committed to this policy, and the public is a unit upon it. Sooner or later the United States must have our pulp and paper at any cost.

A HINT FOR ST. JOHN

(Ottawa Journal.)

Vacant lots covered with weeds and rubbish are an eyesore and disgrace to the city. They discourage citizens who wish to keep their lawns and boulevards in good condition. If one of our numerous city by-laws does not cover this evil, it is not to late to draft one requiring that grass should be cut and rubbish cleaned up. In fact these open spaces might well be used as temporary playgrounds.

An exhibition of temper is invariably a free show.

SUICIDE EVERY WEEK, AVERAGE IN GERMAN SCHOOLS

Berlin, Sept. 2—The extraordinary frequency of cases of suicide among the pupils attending the German schools of the higher and lower grades has become a subject of genuine concern to educators and medical men. Accordingly, Prof. Albert Eulenburg, nerve supecialist of the University of Berlin, has been making an especial study of the subject with a view to finding, if possible, what remedial measures can be taken.

Prof. Eulenburg's researches, which cover a period of years, have led to the astonishing disclosure that the number of cases of youthful suicide in the German Empire average fifty-three a year, one each week. Out of 1,258 cases which he investigated he found that 473 made away with themselves either because of fear of impending punishments or because of anxiety regarding examinations or despair of failing to pass.

Traces of mental derangement were discovered in only 120 cases, or hardly 10 per cent. o fthe whole number. Of 2350 cases the causes prompting to self-destruction had to be set down under the category "motives unknown."

Dr. Eulenburg comes to the conclusion that the responsibility for these shocking conditions is divided between the children's parents or guardians and defects in the school system, lack of proper supervision at home bearing the brunt of the blame. He recommends, however, changes in school methods, including a reform of the system of examinations.

MILLION DRY DOCK FOR PORT ARTHUR

Port Arthur, Ont., Sept. 2—Directors of the new Eastern Drydock and Shipbuilding company, who have been here from Cleveland, Duluth and Chicago, state that the work of construction will commence inside of two weeks on a plant to cost $1,000,000 at Bare Point. The visitors included J. C. Wallace of Cleveland, president of the American Shipbuilding company, and A. L. Krown of Chicago, chairman of the board of directors.

THE CLEAN LIFE

(Ottawa Journal.)

The splendid work on Saturday of Barney Quinn, the veteran lacrosse player, is a striking tribute to the advantages of leading the clean life. Quinn, who is in the neighborhood of 40 years of age, played a game more than equal in merit to that of any youngster on the field. He showed himself on his occasional sprints, one of the speediest on the field. Quinn's personal character during the many years since he came here from Prescott, has been unimpeachable from any view point. He has always kept himself in the pink of condition physically. And today at an age when most athletes give themselves up to easy life, Quinn is able to put up a game quite the equal in the opinion of many to that which he put up 10 or 12 years ago. It pays to live the clean life.
