

Three Months gone!

Three months of this year have gone and you are run right down! If you are "played out" in 3 months how can you hope to keep up for the rest of the year? Read the following story from B.C. and receive the hope it gives to every weary, worn and played-out man and woman.

COULD SCARCELY GET AROUND

"Mrs. Worden has taken four bottles of PSYCHINE and it has made a new woman of her. Before she started to take PSYCHINE she could scarcely get around to do her work, and now she can do it without feeling the least fatigue. I will strongly recommend PSYCHINE to any one. It will relieve their suffering."

W. J. WORDEN, Works Point Barracks, Victoria, B.C.

This is just what PSYCHINE was intended to do. Thousands of weary toilers have praised God for PSYCHINE, the Greatest of Tonics, and many were on the verge of decline before they heard of it. But no matter how far gone, PSYCHINE has proved their friend and wrought deliverance. PSYCHINE goes to the seat of the trouble, and while it is creating Rich, Red Blood, it attacks any diseased parts of the Throat, Lungs, Chest and Stomach. PSYCHINE rightly merits the title given it by thousands, viz., the "Great Tonic Healer." PSYCHINE is highly recommended by the Medical Profession because of its great Tonic properties. It creates an appetite and gives new life when all else has failed.

All Druggists and Stores sell PSYCHINE at 50c and $1.00 a bottle. Send to Dr. T. A. SLOCUM, Limited. Toronto, for a FREE TRIAL.

PSYCHINE (PRONOUNCED SI-KEEN) THE GREATEST OF TONICS FOR HEALTH AND ENERGY

PYTHIANS ARE PLANNING FOR ANNIVERSARY TIME TOMORROW

Tomorrow evening, Union Lodge No. 2, Knights of Pythias, will celebrate their 35th anniversary by a past chancellors' night. On that evening the team working the rank of Knight will be made up entirely of past chancellors of the lodge. The long form will be used and the rank will be conferred on three esquires.

Members of the Knights of Pythias report a great boom in the order in the maritime provinces, and that the three city lodges are moving ahead by leaps and bounds. The cards of invitation to the past chancellors' night to be held by Union Lodge have been issued. They are very neatly gotton up and will prove useful to the members not only as mementoes of what promises to be a very interesting evening, but also for the information they contain touching the history of the order here.

They are in booklet form. The first page is taken up with the usual notice to members and the second tells what are the nature and purposes of a past chancellors' night. The third has the list of the officers for the evening, after which follows a list of the members of Union Lodge for 1909.

An interesting part is a list of the charter members in 1874 and of the reorganizers in 1878 after the great fire, with the officers at the institution in 1874 and the present officers.

The following is the list of officers and team for the evening: A. Dodge, Chancellor Commander; LeB. Wilson, Vice-Chancellor; W. A. Stewart, Prelate; J. Thornton, M. of W.; H. H. McLellan, K. of R. and S. and M. of F.; E. M. Smith, M. of F.; W. A. McGinley, M. at A.; W. McAdoo, I. G.; Robt. Sime, O. G.; R. S. Ritchie, K.; R. A. Watson, P.; F. A. Godsoe, M.; John A. Ewing, E.; J. H. Hayter, E.; H. Kinnear, H.; S. J. Smith, H.; H. E. Darling, S.; W. C. Clarke, 1; E. B. Nixon, 2; S. W. McMackin, 3; R. M. Bartsch, 4; F. F. Burpee, 5; F. A. Kinnear, 6; N. L. Brenan, 7; M. V. Wilson, 8; E. C. Wilson, 9; F. C. Jones, 10.

The list of past chancellors of the lodge in order is: Geo. Stewart, John R. Armstrong, A. J. Armstrong, A. L. Rawlins, A. J. Armstrong (P. C.), A. J. Armstrong (P. C.), Thos. S. Adams, Thos. S. Adams, Thos. S. Adams (P. C.), James Adam, John W. Gilmor, Geo. A. Frazer, Wm. H. Melvin, Chas. A. Pritchard, Thos. A. Vaughan, Jos. F. Whittaker, A. J. Armstrong (P. C.), Frank Fales, Wm. A. McAdoo, J. Fred Sullivan, Park A. Melville, A. W. Adams, Hedley V. Cooper, John A. Ewing, William S. Baldwin, James D. Seeley, E. Allison Powers, G. W. Fairweather, R. O'Shaughnessey, Arthur M. Duff, James A. Ewing, A. S. Pattison, LeB. Wilson, Samuel J. Smith, W. Robert May, T. Fred Johnston, Frank A. Godsoe, Frank E. Holman, Geo. A. Troop, A. Dodge, W. A. McGinley, James Duffell, William White Eustace Barnes, R. S. Sime, E. B. Nixon, W. A. Stewart, F. Ferguson, Harrison Kinnear, E. C. Wilson, S. W. McMackin, M. V. Wilson, F. F. Burpee, F. A. Kinnear, R. S. Ritchie, Robert A. Watson, N. Louis Brenan Fred C. Jones, Wm. C. Clarke, J. L. Sutherland, Jas. H. Hayter, A. S. Dinsmore, R. M. Bartsch, H. H. McLellan, H. H. McLellan, Alfred Dodge (P. C.), R. T. Patchell, John Thornton, E. Milton Smith, E. Milton Smith, E. G. McColough.

The charter members and the members at the reorganization in 1878 were:

Charter members, 1874—George Stewart, Jr., A. L. Rawlins, George G. Drake, John R. Armstrong, Andrew McNichol, John C. Moriarity, Robert P. McNichol, Thomas S. Adams, J. H. Dickie, Wm. J. Morrison, John Campbell, W. H. Horn, Wm. Melvin, Alex. McNichol, James Dinsmore, Robert Clarke, Wm. Reid, George W. Crawford, Andrew J. Armstrong, J. Morris Robinson, Jacob S. Clarke, S. H. Spiller, J. W. Dykeman, Wm. A. King, Thos. A. Chipman, James Boyd, Robert Spellane, F. W. Dorman.

List of re-organizers, Jan. 9, 1878—Thos. S. Adams, C. C.; James Adam, V. C.; John W. Gilmour, P.; F. W. Dorman, M. of E.; Geo. A. Fraser, M. of F.; P. R. Disbrow, K. of R. S.; W. H. Melvin, M. at A.; Geo. L. Partelow, I. G.; R. Wilson, O. G.; J. R. Armstrong, P. C. and D. S. C.; J. H. Dickie, James Dinsmore, George G. Drake, P. C.; Arthur Rankin, R. P. Farren, W. H. Knowles, R. McNichol, Charles R. Partelow, W. H. Horn, William A. King, S. H. Spiller, LeB. Godsoe, James Dening, Alexander McNichol, P. C.; A. J. Armstrong, P. C.; Thomas Splane, John C. Moriarty, T. S. Knowles, James Donahue, J. A. McLeod, Robert Clarke, A. L. Rawlins, P. C.; Andrew McNichol.

The officers at the institution 1874 were: Geo. Stewart, Jr., Chancellor Commander; A. J. Armstrong, Vice-Chancellor; J. R. Armstrong, Prelate; Alex. McNichol, Past Chancellor; J. M. Robinson, M. of E.; E. L. Rawlins, M. of F.; Andrew McNichol, K. of R. and S.; W. A. King, M. at A.; James Boyd, I. G.; R. Clerke, O. G.

The present officers are: E. G. McColough, Chancellor Commander; R. B. Price, Vice-Chancellor; W. H. Holder, Prelate; J. Thornton (P. C.), M. of W.; H. H. McLellan (P. C.), K. of R. and S. and M. of F.; E. M. Smith (P. C.), M. of E.; H. H. Reid, M. at A.; W. J. Wetmore, I. G.; Fred Doig, O. G.

GOT NEW VITALITY INCREASED APPETITE

True Strength, Vigor and Buoyant Health Quickly Followed.

VITOL. Almost instant in its wonderful results—better than any other tonic in the world. Vitol invigorates, braces, builds up. You will feel the thrill of vitalizing blood and strong nerves at once. You may have sound, lasting health if you will take Vitol. Mrs. Strong, Port Dalhousie, Ont., writes: "At last when given up by doctors, I was advised to try Vitol. For the first time in years I enjoyed freedom from headaches. My joy, well you can imagine it, when I could see my strength, color and spirits returning; day by day I improved, gained twelve pounds and have been robust ever since." If you are thin, wrinkled and hollow cheeked, pale, worn out and nervous, Vitol will cure you. Get a box today. Price 50c. per box or six boxes for $2.50.

For sale by all drug stores. E. Clinton Brown, corner Waterloo and Union street, wholesale agent.

The curtain sale advertised by F. A. Dykeman & Co., ought to interest every householder in St. John, inasmuch as there is always some curtain requirements at this time of year. A great saving can be made by taking advantage of this special sale.

Preventics—those Candy Cold Cure Tablets—will safely and quickly check all colds and the Grip. Try them once and see! 48-25c. Sold by all druggists.

Seagoing tug Leader has been purchased from Philip Weaver & Sons, Baltimore, by F. P. Loggie, of Canada, and it is reported she is to be used by her new owner at St. John.

ELIMINATING THE DIPHTHERIA RASH

(Collier's Weekly.)

Recently an unannounced discovery has been made by Dr. Banzhaf of the Laboratory of the Department of Health in New York City that will result in an alteration in diptheria treatment. The discovery is a notable gain in the elimination of the non-antitoxic substances in diphtheria antitoxic solution. This unsightly and painful after-effect has tended to make the treatment unpopular with the ignorant. Dr. Banzhaf heats the diphtheria serum for eighteen hours at a temperature of 57 degrees. As the result, twenty per cent. more of the insoluble substances, leading to the patient's breaking out, are eliminated. By a fortunate chance experiment in another direction, Dr. Banzhaf happened on the discovery. He tested it on guinea-pigs, and found that a serious retardation in diphtheria treatment had disappeared. Quietly, by letter and conversation, the news has spread, and the method is bein adopted in various cities.

JUST HIS LUCK

(Toronto Globe.)

A young Toronto doctor, who has more fondness for frolics than for physic, gave a party some time ago to a few choice maculine friends. The host donned a suit of amour, which was one of the hall "ornaments," and, in the midst of the hilarity, an imperative ring was heard at the surgery door. Thinking it was another guest, the armoured physician removed his helmet and rushed to the door, battle-axe in hand.

There stood a timid old lady, who faltered "Is the doctor in?" and then, seeing the fearsome creature, uttered a shriek and fled.

"Who was it, Charlie?" asked a curious friend, on the doctor's return.

"Just my luck!" was the reply. "The first patient I've had in six months."

MUCH CRITICISM OVER THE GLOUCESTER IRON LEASES

Opinion is By the Eighty Year Lease the Drummonds are Securing too Valuable Terms—Opposition Asks That oyalty Be Revised Each Twenty Years But Government Refuses This

Fredericton, N. B., April 19—This afternoon's session of the house was taken up almost entirely with routine business. None of the committees met in the morning, but a brief session of the corporations committee was held in the evening. Tomorrow is likely to be a field day for committee work. The Tobique dam bill, which the corporations committee instructed Mr. Powell to redraft, will come before that committee again. This is the bill which is being so vigorously opposed by the lumber and fishing interests of the Tobique and because they propose to establish holding grounds in the St. John also by the lumbermen who operate on the upper St. John. The minister of marine and fisheries has also asked for information concerning the powers sought and protesting against anything being done that would injure the fishing on the Tobique river.

Most of the time of the house this afternoon was taken up considering the bill to aid in the development of the Gloucester iron deposits. It was a foregone conclusion before the bill was introduced that it would go through practically as originally drafted. Mr. Byrne endeavored to have the eighty years lease modified so that the government would have power to increase the royalty at the end of each twenty years period and also that the Nepisiguit water power should be a source of revenue to the province. The government refused to yield on the terms of the lease, but Mr. Hazen expressed his willingness to add a clause to the water power agreement providing that the company should pay an annual rental, but the amendment was not made to the bill. The province is now committed to a bond guarantee of $390,000 and the company so generously treated is under no obligation to smelt a single ton of ore in the province. Mr. Hatheway, who made such a serious attack on the old government for granting the Grand Falls franchise, which provides for an annual payment to the province, was in the house during the entire debate, but never rose to make a protest when the government he supports were making a free gift of one of the most valuable franchises owned by the province. Evidently it makes some difference to Mr. Hatheway who grants them when his political masters want to give away valuable provincial rights.

There is a growing feeling in the house that the government should secure accurate information regarding the water powers of the province and be in a position to place a value on the hydraulic powers of the province. When Mr. Emmerson was premier this matter was discussed by the government and it was about ready to have something of this kind done but the province had so many irons at fire about this time that no final action was taken. Mr. Hazen has a largely increased revenue at his command and should be in a position to acquire this information which would be an effectual block to those who would acquire valuable franchises for merely speculative purposes. The conversion of wood into paper should be a great industry in New Brunswick and now that the Grank Trunk Pacific is opening up a vast area of wilderness land where there are innumerable water powers, great and small, accurate information concerning them would be of immense practical benefit and would undoubtedly lead to great industrial growth besides furnishing a new market for Grand Lake coal.

Several answers to enquiries were brought down today. In reply to Mr. LaBillois Hon. Mr. Morrissy said that the Hartt bridge at Fredericton Junction had been let to the Dominion Bridge Company at 5.47 cents per pound and that the probable cost, completed, would be about $12,000.

To Mr. Byrne he said that the government had not received a petition for the completion of the Mill Stream marsh bridge in the parish of Beresford, Gloucester county.

To Mr. LaBillois he said the government was not aware that easterly gales had done damage to the highway at Eel River bar, Restigouche, but that it was the intention of the department to examine the location.

Hon. Mr. Grimmer, in reply to Mr. Lowell's inquiry, said:

Q.—1—Did any official of the crown land department take charge of the fire which started at Ludgate Lake, in St. John county, in July last and burned for over ten days towards Grand Bay?

A.—No official of the crown land department took charge of the fire spoken of but Chief Warden Dean on the 13th, 14th, 15th of July visited the scene of the fire and kept an eye upon same.

Q.—2—If so, what is the name of such official?

A.—Answered by No. 1.

Q.—3—Did he employ anyone to assist him in extinguishing said fire?

A.—No.

Q.—4—If so, who were employed by him and how long was each man employed?

A.—None were employed.

Q.—5—What was the wages paid to each man?

A.—None.

Q.—6—What was the total cost to the government for services in connection with said fire?

A.—Nothing.

Q.—7—How long was the fire burning before it was extinguished?

A.—The fire was first noticed on the 12th day of July and was extinguished by rain on the 16th.

Q.—8—How long was the fire burning before any government official visited the scene of the conflagration and how many visits did the official of the government make to the Backland road where the fire was extinguished?

A.—The department has no positive information how long the fire was burning before any government official visited it but the chief game warden visited it on July 13 and found it was burning entirely on private lands and did so burn on private lands until it was finally extinguished. At no time did the fire extend to the crown lands. Chief Game Warden Dean visited the scene of the fire four times, viz., on 13th, 14th, 15th and 16th of July, on which last named day the fire was found to be out.

Some important municipal legislation was introduced this afternoon. Mr. Munro introduced a bill to make clear the right of the municipality of Carleton to erect a new court house in the town of Woodstock. The present building is at Upper Woodstock, some distance from the jail and town.

He also introduced a bill to authorize the town of Woodstock to issue $50,000 bonds for purification of the water supply of the town. This bill provides that the town may either put in a purification plant or look for a new source of supply, which at present is taken from the river St. John.

Hon. Mr. Grimmer introduced a bill to authorize the town of St. Stephen to provide a system of water works. The object of the bill is to remove doubts and to define the authority of the town council and St. Stephen water commissioner respectively.

The appearance of Dr. Spangler around the lobby of the house today revived interest in the medical act. The doctor talked with a number of members and impressed upon them that numerous changes would have to be made in the bill unless it was the intention to shut out those who practice the healing art without the use of medicine. The omission of the objectionable section would not enable osteopaths to practice in New Brunswick. The phraseology of the new act is totally different from that of the old act in many particulars.

At a meeting of the press representatives attending the legislature it was unanimously decided to pass a resolution of thanks, first to the Hon. John Morrissy, chief commissioner of public works, for the very comfortable arrangements made for the newspaper reporters in fitting up a room in the parliament building for their use and providing the same with every convenience; also to Hon. J. K. Flemming, provincial secretary, for providing the press room with stationery and other requisites for the use of the reports during the session. It was further ordered that the copies of this resolution be presented to Hon. Messrs. Morrissy and Flemming.

The corporations committee met this evening and considered the bill of Corinthian Lodge of Hampton which was favorably reported on.

The bill of the Tobique & Campbellton Railway was also considered and favorably reported on. It provides for an increase of capital stock from $40,000 to $89,000 with power to bond the road to the extent of $15,000 per mile from Plaster Rock to Riley Brook.

The Tabusintac Boom Company's bill was considered but not completed. The committee will further consider this bill tomorrow.

Fredericton, N. B., April 19—The house met at 3 o'clock.

Replies were given to a number of enquiries.

The speaker gave his ruling upon points of order raised Saturday last in connection with the bill introduced by Mr. Hatheway to amend the New Brunswick Election Act. He ruled that any member who wished to introduce a public bill must give two days' written notice for leave, specifying the title of the bill. The speaker also ruled that a petition against a private bill should not go to the committee on standing rules, but to the committee of the house, to which the bill is referred after its introduction.

Mr. Byrne introduced a bill to authorize the municipality of Gloucester to make a temporary loan.

Mr. Hatheway gave notice of motion for Thursday for leave to introduce a bill to amend the New Brunswick Election Act.

The committee of the whole considered the bill to enable the town of Edmundston to issue debentures for the encouragement of industries, and a bill to authorize the city of Moncton to appoint a water and light commission and agreed to both with amendments.

The house went into committee and considered the bill in aid of the development of the Gloucester iron deposits.

Mr. Byrne said he wished to correct an impression that seemed to have gone abroad that he was opposed to giving assistance to the Drummond Iron Company. He was at all times desirous that the company should have every encouragement, but he did object to the clause of the bill which fixed a royalty of five cents a ton for a term of eighty years. He thought the provision was altogether too liberal. In other mining leases issued by the government there was a provision that the royalty could be increased or diminished at the will of the government and he thought such a provision should have been retained in the leases issued to the Drummond Company. Eighty years was a long time, longer than any member of the house would live to see and the house ought not to legislate so far ahead. He was in accord with guaranteeing the bonds for a railway, but disapproved of the terms of the royalty clause. He would be a bold man who would arise in the house and move that stumpage on lumber from the crown lands be fixed at a $1.25 per thousand for a period of eighty years. All knew that increased demands were made from year to year upon the revenue of the province and that the demand would have to be met in some way. No further increase could be looked for from dominion subsidies and the resources of the province must contribute to meet the demand. Every person was glad that the prospects for the development of the iron industry in Gloucester county were so bright and it appeared to him that after a period of twenty years the Drummond Company ought to be in a position to pay a royalty of ten cents per ton. In his opinion it would be much better and wiser to fix a period of years for royalty of five cents per ton and if at the end of that time the prospects of the enterprise were not realized the same royalty could be extended for a further period of twenty years, whereas if the company met with the success looked for it would be in a position to pay larger royalty into the revenue of the province. He believed the

WONDERS OF THE HUMAN BODY

Why Many People Never Need a Doctor

You have a natural laxative in your body. Why, then, should you use a false purgative to move the bowels?

Bile is nature's laxative. It is bile—and bile alone—which moves the bowels as they should be moved. The liver is the store-house for the bile. The liver pours forth the bile into the bowels, which stimulates them to move, and thus causes the waste matter to pass from the body.

Constipation is a disease, OF the bowels, but CAUSED by the liver. When the bowels do not move regularly and naturally, it is because the liver is not giving up enough bile. And the only possible way to cure Constipation, is to cure the liver.

Calomel, cascara, salts, senna, common pills and sweet lozengers and all the other purgatives do not act on the liver at all. They merely irritate and inflame the bowels.

"Fruit-a-tives" cure Constipation because they act on the liver. The fruit principles stimulate the liver to secrete and give up enough bile to move the bowels, while the tonics and antiseptics tone up and invigorate the muscles. "Fruit-a-tives" are the only medicine ever discovered that will cure Constipation. Biliousness and all other troubles due to a Torpid or Disordered Liver. 50c. a box, 6 for $2.50, or trial box, 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

WAITING FOR ROOSEVELT

African Natives and Lions are Anxious to Meet Him—Big Welcome Planned

Mombasa, April 19—A cablegram has been received here from Theodore Roosevelt, changing his original plan not to stop in Mombasa, but to proceed at once to the ranch of Sir Alfred Pease on the Athi River. Mr. Roosevelt has accepted the invitation to dinner extended by the Mobasa Club and he will stay two days on the coast before going up country. The new house on Sir Alfred's ranch has been completed and Mr. Roosevelt will be entertained in it.

The manager of the railroad has come down from Nairobi. The superintendent of traffic also is here and both officials will go on the special train that is to take Mr. Roosevelt and his party inland. Mr. Roosevelt will be accompanied on this journey by the governor of the protectorate.

Natives are coming into Mombasa from all parts of the country to witness the disembarkation of "the great white chief."

The rains are going away and there has been a decrease in the smallpox cases in the interior. There is still a heavy seaway at the harbor entrance. The report of a record group of lions on the Nandi plateau and elephants in the Elburgon forests is now confirmed. It is possible, however, that before Mr. Roosevelt arrives, other reports will come to hand of royal game worthy of a great sportsman being closer to hand than Nandi. If Mr. Roosevelt's party have to come in the Nandi and Elburgon districts and the Athi and Tana rivers there will need to cover many hundreds of miles of stiff marching, including many weeks during which little shooting will be obtained.

The details of the official programme have not yet been decided upon, but it will be "as it should be." British East Africa and Uganda have entertained probably more "great" people within five years than any other portion of the British empire. Royal reigning dukes, brothers and cousins of kings and emperors, British and continental statesmen of high degree have all received that unostentatious but genuine welcome which characterizes colonial peoples, no matter what their nationality. The occasion of ex-President Roosevelt's visit will be unique in the fact that he will be the first famous American statesman to set foot on East Africa.

The British East Africa colonist has been drawn chiefly from the hardier of Great Britain's aristocracy and from the educated middle classes. All are sportsmen in the best sense of the term; all are men with whom the ex-president immediately will be on friendly terms. There will be no crowding on the privacy of a visitor nor will there be, when once the shoot commences, any unsportsmanlike attempt to spoil sport by following close on the party's track.

The route when finally mapped out for Mr. Roosevelt will be his route and his route alone; other big-game sportsmen and inland traders will respect that route as if it were a drive in a private park.

JOE MARTIN OPENS HIS BRITISH FIGHT

He Doesn't Expect to Win But Says He Will Put Up a Good Fight

Montreal, April 19—A special London cable says:

Joe Martin begins his campaign in Stratford-on-Avon tonight in high hopes not of winning, the three-cornered fight precludes that, but of showing English politicians that he means business and can fight. The ministerial whip, desiring to give Mr. Martin time, is not moving for a writ until April 26. The earliest possible date for the election is the end of the first week in May.

Martin is going dead against the preference, contending that Canada does not want it, and that all protection is basely corrupting.

Much will be made against him of his advocacy of Canadian reciprocity with the United States. A hot fight is certain, but the Unionist organizers assert that it is a foregone conclusion that the victor will be their man, Foster, who is a strong local candidate and a former member.

The members of "The Gang" had a very enjoyable time last evening at the home of its secretary-treasurer, W. Gordon Sancton. Refreshments were served and several of the members gave musical selections. The club has been meeting weekly through the winter months, during which time a series of games were played in which Willis Jones won the majority with Bayard Trueman second. In the ten pin league Mr. Trueman's team was victorious. Mr. Jones' team came second, followed closely by the team of Gordon Sancton.

NATURALLY.
