The Maple Leaf forever."

GOOD PROSPECTS

There is a universal feeling among business men that 1910 will be a year of greatly enlarged business in Canada. The chief expansion will be of course in the west, but the lower provinces must feel the effect. The factories in these provinces are enlarging their western market, and the demand for our manufactured goods must increase, and thus improve the general industrial conditions in the east. These provinces do not experience booms, nor on the other hand is there severity of depression, but the outlook for next year is bright. The large crops, the great amount of railroad construction, the better feeling with regard to lumber, the public works made possible by steadily increasing revenue, will all have a beneficial effect upon the general trend of industry and trade. There is, of course, an element of danger in a period of expansion. There is the temptation to attempt too much, and to be too sanguine of results. The speculator is abroad in such a period, and visions of sudden wealth are dangled before longing eyes. Having due regard for this fact, and paying close attention to business, the investor should be able to regard the developments of the next few years in Canada with the utmost confidence. In these lower provinces there are avenues of industrial and commercial expansion which should not be neglected for the perhaps more alluring but less certain prospects of the distant fields.

THE ADVENT OF PEARY

Commander Peary has accomplished the task to which he has devoted so many years and so much energy and enthusiasm, only to learn that another had been before him at the goal. He has won to the North Pole, but Dr. Cook was there before him.

The world heard with amazement yesterday that Peary had reached the Labrador coast, and that he had been successful in his dash to the Pole. The truth of his statement is not questioned, for there were other white men with him, and it is assumed that he has ample evidence to prove it.

If Peary reached the Pole, why doubt the story of Dr. Cook? The latter was unaccompanied by white men, but there is no more reason why he should not succeed than that Peary should fail.

The remarkable fact is that out of the northern silence should flash so quickly after each other the messages of the two explorers, each proclaiming the accomplishment of that for which so many men have so ardently striven for centuries past.

When told that Peary had reached the Pole, Dr. Cook expressed pleasure, and remarked that Peary's observations and reports would confirm his own. The statement that Peary has declared he found no traces of Dr. Cook's visit to the Pole will not be regarded as an expression of skepticism on his part. He would be too courteous and too generous a man to make any such insinuation until he had got more information, no matter how keen might be his disappointment at his own failure to be first on the spot. His appearance on the scene lends a new interest to the whole subject, and the rest of the world must suffer the somewhat painful experience of reading endless boasting about the stars and stripes. Where is Capt. Bernier?

LORD BERESFORD

The Canadian Club of St. John began early and sought persistently to persuade Lord Charles Beresford to visit this city and address the club. His lordship was at first uncertain, but after his arrival in Canada he wrote that owing to developments he would be unable to spare the time. But he addressed the Canadian Club of Toronto, and made a great impression upon the patriotic members who crowded to hear him. The Toronto News thus summarizes and comments on his address: "Five hundred members of the Canadian Club never showed more enthusiasm than they did at the conclusion of Lord Charles Beresford's address. At the outset the jovial Admiral got into immediate touch with his audience. Standing on a stool to increase his inches so that those in the rear of the large audience might see

and hear him over the floral Dreadnought on the table, his overflowing spirits communicated themselves to those before him. He happily prefaced his more serious remarks with two or three characteristic hi-bernisms, and a vein of humor ran throughout the entire speech.

"Admitting that, because of his activity in relation to imperial defence, he had sometimes been regarded as a crank, or what they call a 'lunatic' in the old country, he defended the crank as a necessary mustard-plaster applied to the back of humanity to draw it out and make it take notice. He no doubt had Colonel Denison, who sat near, in his mind when he added that the crank or enthusiast was often in the right. This was shown by the fact that in the course of time the country generally adopted the policy for which the enthusiast first fought often singlehanded. In passing he quietly rebuked those who have been painting the Mother Country as played out. The Old Land, he declared, is not degenerate. Her people are all right yet.

"His characterization of Imperialism as not irritant or aggressive, and as being concerned with drawing the sister states together for their mutual benefit, met with approval. So did his advocacy of the adoption of a tariff and the extension of a preference to the rest of the Empire by Great Britain. The British manufacturers could not sell their goods at home because of foreign dumping, and they were hampered in selling abroad because of the extraordinary foreign tariffs. Great Britain was being beaten under free trade, and it was about time that she tried the other thing. He instanced Canada's advance since the adoption of the protective tariff in 1879, and indicated that the next imperial government would try the same policy.

"With great good taste he refused to say what sort of contribution Canada should make to imperial naval defence. That he considered to be her own people's business after consultation with the authorities in London. So far as they have been disclosed in the press he regards the results of the Imperial Defence Conference as satisfactory. He happily phrased the situation when he said that each of us should consider himself a fortunate shareholder in the greatest concern the world has ever seen—the British Empire Unlimited. Surely it will pay us to develop its internal commerce and to defend its trade routes. We, all of us together, should show the world that we are determined to defend our own. We must not go messing with the affairs of other nations, but see that our own are in such shape that no powers will dare attack us. Thus we should avoid war, even victory in which is so costly nowadays as to amount to defeat."

St. John was a very quiet city yesterday. The holiday was almost universally observed, but there was not a single unusual attraction. The people went to the country, or up river, or to the bay shore, or other resorts. The day was especially fine, and as it was the last of what may be termed the summer holidays there was a general desire to make it a day of genuine recreation. There was little or no drunkenness about town, and the streets presented a remarkably quiet aspect throughout the day.

The reports show that the Sussex exhibition is a very interesting one, and doubtless many St. John people will pay it a visit. The address of Hon. Mr. Flemming yesterday once more pledged the government to do something for the improvement of facilities for agricultural education. The province awaits the fulfilment of these promises.

With the approach of winter comes the cheering news of a number of small breaks in the water pipes. One of the humors of the situation on Sunday morning was the spectacle of the harbor master going with pails for a supply of water, the supply near his residence being cut off for several hours. In Halifax they would no doubt say that the harbor was out that morning.

The most interesting topic in Wall Street today is the health of Mr. E. H. Harriman. The despatches indicate that the great railroad financier has not been successful in his search for renewed vigor, and his permanent withdrawal from the affairs of the railroad world would at least temporarily affect financial conditions.

The great celebrations at Westfield, Millidgeville and Renforth this summer indicate how eagerly St. John people have taken to suburban life during the past few years.

The Every Day Club and the city of St. John will be well represented at the maritime championships next Saturday.

Rev. D. B. Bayley

Rev. Daniel B. Bayley, B. A., died at his home in Apohaqui on Sunday night after having been in declining health for nearly five years. He was 41 years of age and leaves, besides his wife, two sons, Earl and Gordon; three brothers, Robert and James of Elgin, and Rev. S. A. Bayley of Saskatchewan; and one sister, Mrs. R. W. Church of Petticoat. The funeral took place at two o'clock this afternoon, Rev. James Crisp of St. John officiating at the service. Rev. Mr. Bayley was a graduate of Mount Allison and after receiving his degree entered the ministry.

Stores close at 6 p.m. St. John, September 7th, 1909.

An Overcoat Now A NECESSITY

No matter how mild and warm it may be in mid-day, we must expect to have increasingly cold nights now. Every man needs an Overcoat after six o'clock. It is not safe to leave home without one. Our New Fall Stock is now ready. The Overcoats shown are made from very neat patterns in fine imported cloth. They have all the style and snap to them that your custom tailor can give you for about twice the price.

Men's Overcoat Prices, \$7.50 to \$22.50
Boys' Overcoat Prices, - \$3.50 to \$15.00

THE WAY OF DREAMS

The way of dreams—the bluebird song—is never hard to find. So soon as you have really left the ground you will find it. So soon as you have come to see that what the others call realities, for such as you are never real at all! So soon as you have ceased to care what others say or do, and understand that they are they, and you—thank God—are you, then is your foot upon the path, your journey well begun. And safe the road for you to tread. Moonlight or morning sun. Pence of this world you shall not take. A wild rose gathered in the wood. I will buy you all you need. Hungry, the birds shall bring you food. The bees their honey bring. And, thirsty, you the crystal drink. Of an immortal spring. For sleep, behold how deep and soft. With moss the earth is spread. And all the trees of all the world. Shall curtain round your bed. Enchanted journey that begins, Nowhere, and nowhere ends. Seeking an ever-changing goal. Now faith winds and weaves. For destination yonder flower. For business yonder bird. Aught better worth travelling to? I never saw or heard. O long dream-travel of the soul! First the green earth to tread—And still you on your starry track To travel when you're dead.

IN LIGHTER VEIN A SUFFRAGETTE.

She could not cook. She could not bake. She could not mend. She could not darn. She could not knit. Socks out of yarn. And she could not. A husband get. So she became A suffragette. And joined a club. Whose motto said: "Till we can vote. We shall not wed."

—Houston Post.

SAID UNCLE SILAS:

"When a feller has a job in a foundry he tells about the place where he works, but he's in a bank he speaks about the concern by which he is employed."—Los Angeles Express.

DANGEROUS.

"Why do you run your motor so slowly?" "With every body taking home gardening tools, you can't run over a man without risking a puncture."

NOT ROMANCE.

"Yes, her husband left her suddenly seven years ago, and every night she puts a lighted candle in the window to guide him to the door." "How sentimental!" "Well, not exactly. She puts the candle there so she can see to hit him with the club she keeps on the window ledge."

THE PACE THAT KILLS.

He went the pace that kills. He went that pace for years. But he is living yet. Strange as the fact appears. He was a chauffeur bold. For years, day after day. He went the pace that kills. Those who get in the way. —Chicago Record-Herald.

WHAT HE FOUND.

"He went into the country to find solitude. Did he find it?" "No quite the opposite; he sat down on an ant-hill."

EASY.

Gallup—"There's one thing I can't do, and that is to sit in a street car or railway coach and see women standing." "Highbush—"But don't you tire of always giving up your seat?" "Gallup—"I don't give it up." "Highbush—"If you can't bear to see women standing how do you avoid doing so?" Gallup—"I shut my eyes."

PUZZLE.

Oh, when in wild aerial flight, We fly home some time late at night, How will we know upon our way, Which house has got the right key-hole. —Baltimore Sun.

Laid Behind the Counter Until Relief Came.

TERRIBLE SUFFERING OF AN OWEN SOUND CONTRACTOR AND BUILDER.

Mr. WM. KRANTZ, Owen Sound, Ont., writes: "Having read some of the testimonials of Dr. Fowler's Extract of Wild Strawberry, I thought it advisable to say a word of praise for its merits. "Some years ago I was much troubled with stomach troubles and cramps. I used to roll on the floor in agony, and on one occasion I went into a faint after suffering intensely for four hours. A short time after this, in driving to town, I was attacked again and had to lie down in my rig, seeking relief. "When I reached the drug store I asked the druggist for a quick remedy and laid behind the counter until relief came. The remedy I received from the druggist was Dr. Fowler's Extract of Wild Strawberry. Whenever, after that time, I felt cramps coming on, I found speedy relief in the above mentioned remedy, and I am now cured of this dreadful malady. The bottle is small, but its contents afford a marvelous cure. I can recommend it highly for the cure of cramps."

Dr. Fowler's Extract of Wild Strawberry has been on the market for 65 years. It is not a new and untried remedy. Ask for it and insist on getting what you ask for. Refuse substitutes. They're dangerous. Price 35 cts. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

WEDDINGS

Coughlan-Mitchell

A very pretty wedding took place at Coughlan's, Northumberland county, on the last night, in being the marriage of John T. Coughlan to Miss Margaret G. Mitchell. The bride was Miss Margaret Mount, daughter of John T. McDonald, nephew of the groom, acted as best man. The bride was dressed in white with veil and train. The ceremony was performed by the Rev. T. H. Cuthbert in the presence of near relatives and friends of bride and groom. After the ceremony the guests sat down to a most tempting supper. Mr. and Mrs. Coughlan have the best wishes of a large circle of friends for a long and happy life.

Simmons-Melliday

A pretty wedding took place at the Cathedral of the Immaculate Conception Monday morning at 8 o'clock when Rev. A. W. Meaham united in marriage Alexander E. Simmons and Miss Anna E. Melliday, daughter of Francis H. Melliday, of this city. The bride was attired in a tailor-made traveling costume of grey cloth and wore a hat of old rose. She was attended by her sister, Frances, who wore

SUSSEX EXHIBITION OPENS, THEY HAVE A GOOD SHOW

Sussex, N. B., Sept. 6.—The Sussex exhibition was formally opened this evening by Hon. J. K. Flemming, provincial secretary, who addressed the assembled audience in an interesting manner. Col. H. M. Campbell, president and among those on the platform were Dr. McAllister, M. P., J. A. Murray, M. P., Geo. B. Jones, M. P., W. B. Dickson, M. P., S. C. McCully, Jas. A. Moore, M. A., McLeod, Inspector Steeves, Wm. Jamieson, Manager Goodfellow and H. D. Buchanan.

The provincial secretary duly congratulated the society on its splendid agricultural showing and gave a lucid idea of the partnership existing between the farmer and the stock raiser. He made reference to the keen competition in the agricultural world, and how the improved transportation facilities had improved the situation for the farmer generally. These increased facilities had brought about keen competition among our agriculturalists, but had also opened other markets in other directions. He also alluded to the need of better educational methods along agricultural lines, and spoke most hopefully of the outlook for the future, pointing out that they raising poultry producing and potato growing were lines well adapted to New Brunswick, making a strong prediction that this province stood to capture the best potato markets of Canada. He also looked for good results from the Cuban market, which would be opened up by the 1st of October, as arrangements had been made for a direct line from St. John to Cuba.

As to better agricultural education he promised his best efforts to encourage agricultural training in the common schools and the establishment of a New Brunswick agricultural college, probably at Fredericton, in such a manner or direction.

He also alluded to the need of better educational methods along agricultural lines, and spoke most hopefully of the outlook for the future, pointing out that they raising poultry producing and potato growing were lines well adapted to New Brunswick, making a strong prediction that this province stood to capture the best potato markets of Canada. He also looked for good results from the Cuban market, which would be opened up by the 1st of October, as arrangements had been made for a direct line from St. John to Cuba.

As to better agricultural education he promised his best efforts to encourage agricultural training in the common schools and the establishment of a New Brunswick agricultural college, probably at Fredericton, in such a manner or direction.

After the ceremony a wedding breakfast was served at the residence of the bride's parents. The happy couple left by steamer Prince Rupert for a two weeks' honeymoon trip through the Annapolis valley and other parts of Nova Scotia and on their return will reside at 19 Castle street. Numerous and beautiful gifts were received by the bride and groom. The groom's gift to the bride was a gold and pearl bracelet; to the bridesmaid a gold and pearl crescent brooch, and to the groomsmen a pearl stick pin. John G. Melliday, brother of the bride, came from New York to attend the ceremony.

Robilliard-Sutherland
Trinity church will be the scene of an interesting wedding this afternoon at 4 o'clock, when Dudley S. Robilliard, of Croydon, England, employed in the St. John branch of the Canadian Fairbanks Company, will lead to the altar Miss Florence May Sutherland, second daughter of W. J. Sutherland, M. R. A. L., of St. John. The ceremony will be performed by the curate of Trinity, Rev. J. W. B. Stewart, in the presence of the intimate friends and relatives of the contracting parties. The bride will be given away by her father, will be gown in white silk, wearing the conventional veil and orange blossoms and will be attended by her sister, Miss Maude S. John Sutherland, while Howard C. Gallant will support the groom. After the ceremony Mr. and Mrs. Robilliard will leave for a wedding tour of American cities and on their return will reside in St. John.

The popularity of the young couple is attested by a number of very beautiful wedding presents, among them a handsome brass clock from the Canadian Fairbanks Company and local staff, and a Morris chair from the groom's friends and fellow boarders at 41 Sewell street.

Among the few really artistic ideas that have marked late summer fashions is the band of ribbon tied around the hair with the bow on top.

Boiled or fried potatoes make an excellent garnish for three courses with the addition of parsley and lemon.

FROM THE BEN CH

A Judge Commends Pure Food.

A Judge of a Colorado Court said: "Nearly one year ago I began the use of Grape-Nuts as a food. Constant confinement indoors and the monotonous grind of office duties had so weakened and impaired my mental powers that I felt the imperative need of something which neither doctors nor food specialists seemed able to supply."

"A week's use of Grape-Nuts twice each day convinced me that some unusual and marvelous virtue was contained therein. My mental vigor returned with astonishing rapidity; brain weariness (from which I had constantly suffered) quickly disappeared; clearness of thought and intellectual health and activity which I had never previously known were to me the plain results of a few months use of this food."

"Unhesitatingly I commend Grape-Nuts as the most remarkable food preparation which science has ever produced as far as my knowledge and experience extends."

The judge is right. Grape-Nuts food is a certain and remarkable brain builder and can be relied upon. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are Genuine, true and full of human interest.
