A NEW PRIZE OFFERED
IN THE BABY CONTEST

The First Baby Having Its Picture Taken for Our Baby Contest at Erb's on Monday Will Get a Handsome Silver Spoon—Here is a Picture of Little Willie Rudge.

William John Rudge, Aged Five Months, One of the Leap Year Babies in the Borden Contest

"Will baby win?" is the theme in scores of households whose little ones are entered in the Times Baby Contest, and to look at the splendid array of photos of "just the sweetest," now on hand, the task of picking the prettiest is by no means an easy one.

Messrs. Erb and Son are kept busy with the numerous babies being presented to be photographed.

Remember the picture costs nothing, and the conditions couldn't be easier. Only babies three years old and under are eligible, and the contest closes on the 20th of the present month, so hurry up and send that photo.

To add to the interest, if such were possible, it has been decided to present a silver pap spoon to the first baby present-

ed at Erb's on Monday for a photo. Get there early if you want baby to have that spoon.

The picture for today is William John Rudge, born Sept 7th, 1908, consequently five months old. Baby Rudge weighs 14 pounds.

Look at him, isn't he a fine, healthy, promising boy?

He is a son of Mr. and Mrs. W. J. Rudge, 101 Duke street, and Papa Rudge thinks he's a dandy and looks good for that \$10.

"But you ought to see ours," you say. Well, that's just what we want, we want to see yours, if you think he or she can land a winner send the photo, the sooner the better. Don't forget 40 chances, five in cash as follows: \$10—\$5—\$3—\$2.50—\$2.

The 80th birthday of General William Booth, of the Salvation Army, will be celebrated by the Army all over the world. The birthday will fall on Saturday of Holy week.

In the police court yesterday Michael Harney was fined \$20 for having two doors to his bar. In the Sheffield street case, after hearing the evidence of Lizzie Johnson, wife of the defendant, and Lotie Harned, Judge Ritchie fined Johnson \$100, or two months in jail.

The crew and passengers on the steamer Senlac, which has been lying at inner quarantine, were examined yesterday by Dr. C. M. Pratt, under instructions from the board of health, and will be released from quarantine this afternoon, after the necessary disinfecting has been done. The steamer will then be taken through the falls and laid up in Marble Cove.

Work on the building of the new stairways in the general public hospital is proceeding satisfactorily and will probably be completed within the next two weeks, and the new elevator will likely be in readiness in about a month. It is proposed to rearrange the outdoor service, which at present is divided two days a week for eye and ear treatment, and two days for medical and surgical treatment, to provide for three days a week for each.

It is probable that during the coming summer the steamers of the Eastern S. S. Co., which arrive here in the mornings, will leave Boston an hour earlier, so as to reach here in time to connect with the Digby boat and early I. C. R. train. Calvin Austin, the president of the company, who was in the city yesterday, expressed his satisfaction with conditions here and announced that during the summer there would be a service of five trips a week, the same as last year, except for the earlier arrival of the direct boats.

AN EXCELLENT PAPER

Dr. Emery Discussed Tuberculosis Before the Medical Society Last Night

At the meeting of the St. John Medical Society last evening, Dr. A. F. Emery read a paper on tuberculosis, which proved one of the best yet heard before the society.

As the fight against the great white plague has now been taken up in St. John and New Brunswick, the paper was of the greatest possible interest.

Dr. Emery spoke of the danger of infection. One patient would disseminate seven million germs in a day, mainly through the sputum which was reaching with germs. This was gathered up in various ways, on shoes or skirt edges, and brought to uninfected homes. House flies are also fruitful agents in transmitting the germ. He therefore pointed out the great care that should be taken. Dr. Emery urged the appointment of a medical inspector for the schools of St. John. This city in that respect was far behind other cities. He also urged that all cases of tuberculosis be reported to the Board of Health. This latter the Medical Society have been urging for some time, but without much success.

THE CANADA LINE

William Thomson & Co. Have Been Appointed St. John Agents for the New Service

The new company, under the title of the Canada Line, is composed of the Hamburg-American Line, the Holland-America Line, North German Lloyd, Cie Gle, Transatlantique, Austro-Americana Line and the Red Star Line, a combined regular steam service between Hamburg, Rotterdam, Bremen and Halifax and St. John in the winter, and the same European ports and Montreal as its Canadian terminus in the summer.

At present three steamers have been nominated, to be increased by others later on. The first sailing will be the Prinz Oskar, 6226 gross, which leaves Hamburg March 22nd for Halifax and St. John, calling at Rotterdam and Bremen. There will be only one sailing from St. John this winter. These steamers will carry passengers, and a fortnightly service will be kept up.

The general agent for Canada is Mr. James Thom, of Montreal, and William Thomson & Co. have been appointed agents at this port.

STEAMSHIPS ARRIVE

Donaldson line steamship Salacia, Captain McKelvie, arrived in port this morning at 9 o'clock, from Glasgow, with a general cargo. The steamer had a very fine trip, except one day, when it blew heavy. She had on board eleven Clyde-dale stallions for John Graham, and they will be shipped to Calgary, and nine Clyde-dale fillies, two hackney stallions and five Clyde-dale stallions for John Leitch, Lafayette, Illinois. The Salacia is berthed at the new city wharf. She was only 12 days on the passage, which is considered a quick trip this time of year.

Steamer Manchester Shipper, Captain Perry, arrived in port this morning from Manchester via Halifax, with a general cargo.

Work will begin at once on the steamers of the Star Line Steamship Company, to have them put in first class shape, and all ready for the opening of the river in the spring.

Kenneth Woodrow left this morning for Edmundston, N. B., where he joins the Bank of Montreal staff.
