PLAYGROUNDS IN SPRINGFIELD, MASS

What the Citizens Do for the Benefit of the Children of That City.

Springfield, Mass., June 15.—The playground association is making plans to open the playfields of the city about July 1, at the close of the schools. The Emerson Wight playground will be operated this summer by the park commission and will provide for the children at the south end of the city. The association expects to receive sufficient financial assistance to maintain the playground at the north end, the center of the city and at Indian Orchard, which will be provided for by the annual municipal appropriations beginning with 1910.

How to Pop Corn.

It is done in different ways, but the most approved method is to pop your corns with Putnam's Corn Extract—corns pop out for fair, and stay out too when removed by "Putnam's." Try this painless remedy yourself.

FOR BOARD OF CONTROL

At a meeting held in the Montreal Board of Trade of representatives of organizations which joined in the endeavor to secure such amendment of the city charter as would provide for the establishment of a board of control and the reduction of the number of aldermen to one for each ward, the following resolution was passed: "That this committee of representatives of the Montreal Board of Trade, the Chamber of Commerce of the District of Montreal, the Canadian Manufacturers' Association, the Association Immobiliere de Montreal and the Montreal Business Men's League, having secured the amendments of the city charter desired by those organizations, now asks its members to report to their respective boards to that effect, and also requesting those boards to each appoint four representatives to form a new committee, whose duty it shall be to endeavor to secure a majority of votes of the municipal electors at the election on Monday, September 20, in favor of (1) the reduction of the number of aldermen from two to one in each district, and (2) of a Board of Control elected by the people."

GEORGIAN BAY CANAL

(Ottawa Journal) Meantime the Canal project, which has been obliged to stand for many years, is still obliged to stand. Sir Robert Perks has it, it is true, published the proposal that the French River end of the work, which would bring traffic to North Bay, should be begun at once. There is evidence everywhere that the financial stringency of the last two years is passing, and it is permitted to us to hope that during the current fiscal year the Dominion government will give serious attention to the growing demand for the opening up of the Ottawa waterway.

RAILWAY WORK IN NOVA SCOTIA

The Mackenzie & Mann Lines Construct Dock in the Southern Shore.

(Montreal Star.) W. D. Barclay, general manager of the eastern lines of the Mackenzie and Mann railway system in the city. Business on the Canadian Northern is very good at the present time, said Mr. Barclay, when seen this morning by a Star reporter. "Work on the different branch lines is progressing rapidly. At Port Wade, on the Halifax and Southwestern, one of our eastern roads, large docks are being built for the shipment of iron ore. At the present time the company have in operation 370 miles of road in Western Nova Scotia, together with a coal mine, the output of which is 1,400 tons per day. The company also operates a line of coal steamers carrying coal to the different Nova Scotia ports as well as to Quebec and Montreal. When questioned as to when a new connection would be made between the Nova Scotia lines and the company's lines in Quebec, Mr. Barclay shook his head and stated that was a matter of the future.

CITIES AND THE GAS PROBLEM

At a meeting in Toronto this week to consider complaints about gas, information as to procedure concerning gas complaints was submitted. The gas meter is not tested and sealed as accurate by the commission. The commission tests about 300,000 meters yearly, the cost being borne by the city. The commission also tests meters for accuracy upon the complaint of a consumer, a fee from 30 cents to \$2 being charged. The fee is returned and the gas company pays if the meter registers two per cent. or more fast. Approximately 7,000 complaint meters are tested yearly and usually there is a rebate of the percentage fast for half the time the meter has been used. Corporation Counsel Desbcker, of Buffalo, states that private consumers there are paying \$1 net, and the city is paying 70 cents. A commissioner's order, a couple of years ago, fixing the maximum price to be charged in Buffalo at 95 cents had been invalidated. Montreal recently was granted a reduction from \$1.15 to \$1.10 in the price of gas. All complaints in Montreal are made to the Government Gas Inspection Bureau. City Engineer Fisher, of Rochester, writes that that city has a laboratory equipped to make tests of gas. Philadelphia receives \$10,000 a year from the gas company towards paying the expenses of the city's gas bureau. The gas company tests the gas in the presence of a city representative and agrees to supply gas of at least 22 candle power. Gas meters are tested when complaints are made, and bills corrected according as the meter runs fast or slow.

ARE VICTIMS OF THE RUM HABIT

Sensational Address by Dr. MacNicol of New York Before the Medical Association.

Prefacing his address with the assertion that "Children of men and women who use alcohol are the real victims of the rum habit," Dr. T. Alexander MacNicol, of New York, in a speech before the Society for Study of Alcohol and Other Narcotics, caused a great sensation at the meeting of the American Medical Association, by saying that "conditions in the New York public schools rival those of ancient Sodom," and that degeneracy, mental deficiency and other drawbacks to the proper education of youth have increased at a pace that "threatens the future of the republic."

CHARGES AGAINST SUSSEX JUSTICE

It is stated that a commission to be appointed by the local government to enquire into a number of serious charges that have been made against Magistrate Hornbrook, of Sussex. The magistrate is accused of divulging the secrets of the court, losing the confidence of the people and of general incompetence. The advisory board of the Temperance Federation of Sussex county, it is said, is responsible for the attack, which is being engineered by John E. McAulay. Recently the county council appointed a committee to consult with the inspector in the matter of Scott Act violations and a letter to the attorney general setting forth an array of charges has been remitted.

CHARGES AGAINST SUSSEX JUSTICE

The magistrate says he is not worrying over the matter and he courts the fullest investigation.
