TIMMERMAN MUCH IMPRESSED WITH THE POSSIBILITIES AT MINTO

C. P. R. Industrial Agent At Inspection of Coal Areas, Talks of Possibilities of Minto—Gibson Railway—Several Surveys Have Been Made.

That the coal areas at Minto, Queens county, are much greater than is generally supposed and that a considerable increase in the output would result from better railway facilities, is the opinion expressed by H. P. Timmerman, industrial agent of the C. P. R., who arrived in the city last evening, after a visit to that section of the country.

Mr. Timmerman said he had been much impressed while at Minto with the enormous extent of the coal areas and with the good quality of the output. He thought that if a railway was built from Minto to Gibson along the line of surveys that had been made that a great impetus would be given to the mining. There was no doubt, he thought, that the coal could be disposed of in Fredericton.

FORT WILLIAM RIOTERS ARE SENT TO PRISON

Four are Sentenced for Terms of Seven or Nine Months

Port Arthur, Ont., Aug. 26.—(Special) Convicted of riotous and disorderly conduct in connection with the recent strike trouble at Fort William, four men were sentenced to the central prison by Judge McKay yesterday as follows: Toni Panagoulis, seven months; John Palaris, seven months; Charles A. Ring, nine months, and Thomas Timber, seven months.

All were convicted on evidence of the police who identified them as in the crowd of rioters on the day the shooting was done.

FRANCE AND THE AMERICAN TARIFF

Paris, Aug. 25.—M. Dupuy, minister of commerce, today received the officers of a commission from the French Traders' Council who called attention to the grave apprehension existing in the commercial world on account of the new American tariff.

The delegates insisted that serious injury was likely to result to French traders in certain articles by the date of its application to France.

M. Dupuy replied that the government was keenly solicitous regarding the question and that his department was giving it closest attention.

DOWN TO FINALS IN TENNIS MATCH

Newport, R. I., Aug. 26.—Under bright skies and before an enormous gallery, the final match in the 29th all-comers tournament for the tennis championship of the United States, was started this morning on the specially-prepared court at the famous casino, the contenders being William J. Clothier, of Philadelphia, a former champion, and Maurice F. McLoughlin, the young champion of the Pacific coast and a tennis expert.

Tennis experts were about equally divided as to the probable outcome when the two cracks started. One section seemed certain that the steadiness, coolness and experience of the eastern player would bring him through a winner, while the other group was equally sure that the western youngster's speed, aggressiveness and brilliancy would give him the right to challenge the national champion, William A. Larned, for his laurels on Friday.

HELD FOR TRIAL

New York, Aug. 25.—Sterling Birmingham, the discharged loan clerk of the Windsor Trust Company, under arrest on a charge of having received \$250 commission from a broker in connection with the Joyce-Heintze corporation waived examination in the police court today and was held in \$500 for trial. His counsel furnished the bail.

Theodore P. Shoutz and August Heikster, directors of the Windsor Trust Company, were appointed a committee of two this afternoon to make thorough investigation of the loan.

WALL STREET TODAY

New York, Aug. 26.—Wall Street—the stock market continued today to suffer from the effect of liquidation, 15,000 shares of Union Pacific at the opening selling at 203 1/2 down to 202 1/2, compared with 205 1/2 yesterday's closing. Losses reaching a point or more showed in many other representative stocks, including Y. C. Reading, Southern Pacific, Great Northern pfd., the ore certificates, Erie, Consolidated Gas, Colorado Fuel and National Lead.

York, England, Aug. 26.—The Middlethorpe selling of 150,000 shares of 10s. for three-year-olds and upward, distance, six furlongs, was won today by Saucy Queen; Athlete second, Cinderpath third. Among the eleven starters was August Belmont's Laconian.

MAY HAVE SUNDAY TRAIN SERVICE ALL WINTER

It is thought to be likely that the Sunday C. P. R. train is here to stay, and that it will be continued summer and winter. After next Sunday the branch connections will be discontinued, but the main line trains will be continued.

General Superintendent Downie, when asked this morning if the Sunday trains had been a success financially, said they had been very successful, and the business had been quite up to their expectation as far as the main line was concerned. As

TORONTO HAS HOTTEST DAY IN MANY YEARS

Ninety-six Above, a Number of People are Prostrated

ONE MAN KILLED

Horse's Kick Ends Robert O'Brien's Life—Aged Woman Dies on way to Funeral of Friend—Notes of Canadian News

Toronto, Aug. 26.—(Special)—Yesterday was not only the hottest day of the season here, but also the hottest Toronto has known since 1840. The observatory thermometer at 2 p. m. registered 96 degrees. The hottest previous day this season was Aug. 8 when the thermometer went to 93.3.

Several cases of heat prostration were reported yesterday. One man, Joseph Dillon, of 128 Wallace Avenue had to be removed to the hospital.

Hamilton, Ont., Aug. 26.—(Special)—Robert O'Brien, an old man employed by Hamilton Gas Light Co., was killed yesterday by a young horse he was leading from a blacksmith's shop. The horse wheeled and kicked his chest in. O'Brien leaves a grown-up family.

Kingston, Aug. 26.—(Special)—A fatal accident under peculiar circumstances occurred at Seely's Bay yesterday. While crossing a road to attend the funeral of an old friend, Mrs. Almén Eaton, aged 81 years, fell and struck her head dying in a few moments.

Hamilton, Ont., Aug. 26.—(Special)—The pumping station shaft here broke yesterday and the city is temporarily dependent on an antiquated pump in connection with its water service.

Toronto, Aug. 26.—(Special)—The Ontario legislature will probably meet about the middle of January.

Kingston, Ont., Aug. 26.—(Special)—R. A. Ross of Montreal, an Engineer has been appointed city expert in the street railway power arbitration.

TWELVE LASHES FOR WIFE BEATER IN WINNIPEG

Winnipeg, Man., Aug. 26.—(Special)—Hon. T. A. Daly, Winnipeg's police magistrate, has been a long believer in the lash for men who beat their wives, but yesterday was the first time he included this in the sentence for such offence.

The prisoner is F. Rich, and the magistrate sentenced him to twelve lashes in addition to three months in jail.

MONTREAL STOCKS

Montreal, Que., Aug. 26.—(Special)—Dom. Steel was a feature in today's stock trading. It closed at 45 1/8 yesterday, weakened from 45 to 44 1/2, but later rallied to 45, while Pfd. was firm at yesterday's advance to 131 1/4. Duluth Superior was easier at 64 1/2 to 65, as was Illinois at 94 5/8. Other features were Montreal Power 125 1/4 to 124 3/8; Pacific 185 1/2; Rubber, 85.

LATHAM TODAY AFTER RECORD IN AIR MADE BY PAULHAM

Looks Like Winner of Speed Contests at Rheims—A Spirited Chase Above Ground at Rheims This Morning—Twelve Machines Flitting About.

Betheny Aviation Fields, Rheims, Aug. 26.—The fifth day of aviation was ushered in with ideal weather conditions. The light air and overcast sky brought the flyers out early and before noon no less than a dozen machines, like huge gulls were circling above the plain.

The programme today includes the continuation of the trials for the Grand Prix de la Champagne, the endurance test, the lap event, the speed event, a race between dirigible balloons, and a landing competition for spherical balloons.

Latham First Away

Latham, in a beautiful monoplane, was the first to get away. He announced his intention to make a genuine effort to beat Paulham's record for the endurance for the prize made yesterday, 2 hours, 33 minutes and 24 seconds. Latham started flying at a great height. Sommer, Cockburn, Bureau-Varrault, Delagrè and Glenn H. Curtiss followed Latham into the air.

Curtiss' purpose was to improve his record in the speed lap contest, and to classify for one of the six prizes in the endurance contest. He accomplished three rounds in an impressive manner, but his speed was disappointing. His total time was 28 minutes, 50 3/4 seconds. By rounds his showing was as follows:

Eight minutes, 32 1/2 seconds; 9 minutes, 30 1/2 seconds and 10 minutes 30 1/4 seconds.

In the meantime the other flyers, excepting Latham and Delagrè had alighted without doing anything. A noteworthy feature was witnessed

GOULD'S WIFE ALLOWED TO MARRY AGAIN

Will Retain Name of Mrs. Frank J. Gould She Says—The Divorce Result

New York, Aug. 26.—The important part which the millions of Frank Gould played in the recent divorce which his wife, Helen Kelly Gould, obtained, comes to light through the admission of her attorney, Herbert C. Smyth.

His explanation was that the husband, although the losing party to the suit, was able to dictate such terms (because he controlled an immense fortune) that the custody of the two children became his during seven months of each year.

"Mrs. Gould was well satisfied," Mr. Smyth stated, "but she acquiesced for the sake of the children. Mr. Gould, as master of many millions, had a right to be heard when it came to the disposition of his children, and Mrs. Gould thought it to their advantage to make an amiable agreement. She did not wish to fight in the court regarding their children. Another reason that Mrs. Gould yielded is because the father has promised to look after the education of the children. This will be to their advantage."

When the case was called next day none of the attorneys for either side was present. Justice Giegehr therefore refused to affix his signature to the document separating the rich young couple. But he would do so if both sides were present.

Mr. Gould's lawyer said later that he had not been notified of Justice Giegehr's action, and expressed surprise that the final decree had not been signed. He said there was no opposition upon the part of the defendant, and that, but for the technical objection, the papers would have been approved without a hitch.

Mrs. Gould was asked if she would resume her maiden name, permission to do so having been granted by the court. She replied, "I certainly will not. I am Mrs. Frank J. Gould, and intend so to remain."

Mrs. Gould is living at present in her mansion in Park avenue. "I have rented this place for several years, and intend to make it my home," she said. "Helen and Dorothy, the two children, are at present with Mrs. Helen Gould at Irvington-on-the-Hudson."

Mrs. Gould was asked regarding the agreement between herself and Mr. Gould with relation to the time each should have the custody of their two daughters.

"It is no arranged unequally," she replied. "Each of us have the children an equal time—six months of each year. It matters not how the court decree reads. That is the way it is fixed."

When Justice Giegehr signs the final decree of divorce, Mrs. Gould will be at liberty to remarry, if she chooses to do so. It is provided that the young husband shall not remarry in this state during the life time of his former wife.

Although no provision is made in the decree for alimony it is understood that Frank Gould has provided liberally for Mrs. Gould.

Lower Cost of Paper

Detroit, Aug. 26.—George H. Tousey and Walter H. Dickenson, two New York chemists at Muskegon, Michigan, have discovered a process for utilizing the waste liquor from pulp mills in the manufacture of an extract for tanning leather. The result will likely be a considerable lowering in the cost of making paper.

ENROLL BOYS AGAINST THE CIGARETTE

St. John Woman, Secretary of Massachusetts League, Talks

MRS. E. R. WHITE

Tells Times About About Work Being Carried on—Co-Operation of Clergy and Medical Men of State Enjoyed

Mrs. Elizabeth Reid White, formerly of this city, but for the last fourteen years a resident of United States, who is spending a holiday with her mother, Mrs. I. W. Holder, Main street, is now state secretary of the Massachusetts Anti-Cigarette League, an organization founded in 1908, and to a Times reporter Mrs. White last evening gave interesting facts regarding the league, its work and progress.

The object of the society is to combat the use of tobacco in any form by boys, to prevent the use of the cigarette especially, to circulate and publish matter relating to the work of the league, to hold public meetings in its interests and to see that the laws regarding the sale of cigarettes are rigidly enforced.

The law in Massachusetts forbids the sale of cigarettes to boys under eighteen years of age, the penalty for such offence being a \$50 fine.

The legislatures of several of the other states have passed severe measures for the extermination of the cigarette evil among young boys. Minnesota has probably gone the furthest into the subject, having enacted a sweeping measure, prohibiting the sale, manufacture or giving away of cigarettes or cigarette paper. Every such law is a stepping stone to the downfall of "King Nicotine," said Mrs. White, and the league of which she is secretary, gives careful attention to the bettering and enforcement of existing laws and the securing of needed legislation. She says they have met with wonderful success.

Mrs. White explained the methods employed to checkmate the growing consumption of cigarettes. One of the first branches of the league, she said, "is opening the subject in the public schools and organizing leagues. I have addressed more than 21,000 boys in the last few months. In each school we organize a league composed mostly of boys, from whom the officers are chosen. Between last October and last June thirty-five new leagues were opened in public schools in Massachusetts. We receive the heartiest co-operation of clergymen and school teachers in our work. We carry the aims of the anti-cigarette league into boys' clubs and Sunday schools."

"The boys are requested to sign a pledge in which they bind themselves to refrain from the use of tobacco in any form for a year's time. About 99 per cent of those taking the pledge keep it. There are thousands of boys to whom the temptation to smoke will eventually come, but they will not yield because of their pledge."

Interest Employers

"I have interested employers to a great extent in our campaign," continued the secretary, "I visited the leading manufacturers and owners of large business houses in Boston and secured a promise from a large majority of them not to employ any boy under eighteen who smokes cigarettes. This is expected to be of use."

(Continued on Page 3)

FREE SPEECH TO BE BARRED FROM SALE ON P. E. ISLAND NOW

Any Sent Will be Seized and Vendor Arrested—Schooner Ashore at Bonne Bay, Nfld.—F. J. O'Connell Matters Appear to be Tangled

Charlottetown, P. E. I., Aug. 26.—(Special)—Acting on advice of the attorney-general, Mayor Prowse has instructed Marshall Cameron to seize any copies of Free Speech offered for sale, and to arrest any vendors. The names of correspondents are in possession of the authorities, who are contemplating action against them.

The hundred ton schooner J. W., owned by George Wightman, of Montague, is ashore thirty miles north of Bonne Bay, on the west coast of Newfoundland. Effort is being made to secure a steamer to tow her off. The crew were saved. The schooner was bound from Green Bay to Bonne Bay to load lumber for Sydney.

Election Tangle

There is another legal tangle in the Read-Delaney election in the fourth district of Prince. Monday last was fixed

as declaration day, but the court adjourned till yesterday. Objection had been made to one vote by Read and two by Delaney. Yesterday another adjournment was made till the 31st, but no business was done. It is said that the sheriff's duty was to hold court at some date not less than eleven days, and not exceeding sixteen days, but that he figured the time from Dominion Day, instead of the day of the polling and when his attention was called to it, he further adjourned the court until the 31st, to obtain independent advice on the matter.

When court reassembles the returning officer, it is understood, will again count votes and head objections to votes being polled void. All this will still leave undetermined the question as to whether the court is properly adjourned to the 31st, or not and whether he can legally transact business thereat, if he cannot then he cannot declare Mr. Delaney elected. Delaney's majority was 2 on the 18th.

FAKIRS AT CIRCUS MADE SOME MONEY IN FREDERICTON

One Man Lost \$30—Two Hundred New Pupils at School Today.

Fredericton, N. B., Aug. 26.—(Special) Fakirs, who pretended to be selling reserved seat tickets for the Norris & Rows circus, separated quite a number of unsuspecting people from their cash here yesterday. A man from New Maryland, who consented to exchange some large bills for others of smaller denominations was out \$30 on the transaction. An attempt to work the game on several well known citizens resulted in failure.

Others lost smaller amounts, and one man, who threatened to make a fuss, had \$7 refunded to him.

A colored man named Tyler Hudin was fined \$10 in the police court this morning for brutally killing a cat on the circus grounds yesterday.

The city schools re-opened this morning with a large attendance. Permits for 200 new pupils have been issued by the trustee board. Miss Edith Davis, late of Moncton, joined the high school teaching staff in succession to A.S. Farlane, appointed to the Normal School. Miss McDougall, of Shediac, succeeds Miss Richardson in the model school.

MONCTON I. C. R. MAN DIES IN AMHERST, N. S.

Amherst, N. S., Aug. 26.—(Special)—Diados Comeau, a brakeman on the shunter of the I. C. R., at this station, died in Highland View hospital this morning following an operation for appendicitis. He was operated on a day or two ago, but it was then seen by the doctors that there were no hopes for him. He was a young married man belonging to Moncton, and is survived by wife and one child. The body will be taken to Moncton for burial.

SWORD FISH FOR DINNER TOMORROW

The latest treat in the supply of fresh fish in this city is a dish of sword-fish. The first to be sold here was offered today in Smith's fish market, Sydney street, and was quite readily bought up at 18 cents a lb. The fish is a large one weighing 175 pounds without head, and entrails, and about 250 pounds as it came from the water. It is about 8 feet in length. The fish was caught near Canso (N.S.). The supply of other fish in the market was only fair today. The following prices prevail—Cod and haddock, 5 cts. a pound; halibut, 15 cts.; finnan haddies, 7 cts.; smelt, 10 cts. a pound; mackerel, 20 cts. each; shad 25 to 35 cents each, and kip-pers 25 cts a dozen.

BANK OF ENGLAND

London, Aug. 26.—The weekly statement of the Bank of England shows the following changes: Total reserve, increased \$215,500, circulation, increased £19,000; bullion, increased £334,102; other securities, decreased £311,000; other deposits, increased £439,000; public deposits, decreased £435,000; notes reserve, increased £221,000. Government securities unchanged. The proportion of the bank's reserve to liability this week is 33.11 per cent; last week it was 32.54 per cent.

STEAMERS ANNOUNCED FOR FIRST EIGHT WINTER SAILINGS

As stated in a Montreal dispatch a few days ago, the first C. P. R. steamer to sail from St. John this winter will be the Lake Erie, which is scheduled to leave here on Saturday, November 27. The Erie will leave Liverpool on Nov. 10, and will probably arrive here about the 20th.

From St. John. Steamer. From Liverpool.

Sat. Nov. 27, '09 Lake Erie Wed. Nov. 10, '09

Fri. Dec. 3 Empress of Britain Fri. Nov. 19

Sat. Dec. 11 Lake Manitoba Wed. Nov. 24

Fri. Dec. 17 Empress of Ireland Fri. Dec. 3

Sat. Dec. 25 Lake Champlain Wed. Dec. 8

Fri. Dec. 31 Empress of Britain Fri. Dec. 17

Sat. Jan. 8, '10 Lake Erie Wed. Dec. 22

Fri. Jan. 14 Empress of Ireland Friday, Dec. 31

Hubert Latham

today when a fortunate jump from his machine, that had turned turtle, saved him from being mangled by the whirling propeller. The official measurement of Paulham's record-breaking flight of yesterday gives his distance at 133,676 metres, (83,077 miles). In the contest for the international cup on Saturday Cockburn, the English flyer, and Curtiss will compete against three Frenchmen, Lefebvre, Bleriot and Fournier.

The regulations provide that the races must start between 10 a. m. and 5 p. m., and finish not later than 5.30. In case of bad weather the contests will be postponed until Sunday.

Latham's fast time of this morning gives him a splendid chance in both the international cup and the speed contests. His time for the first three rounds was 25 minutes, 50 1/2 seconds, which is 2 minutes and 12 seconds less than the best record by the Wright models.

C. H. Lee, manager of the Bank of New Brunswick, North End branch, is spending his vacation with his family at Mount Vernon.

Fournier's Nose Broken

Fournier was about with a broken nose this morning. He received many congratulations on his narrow escape of yes-
