BISHOP RICHARDSON IN STRONG CHARGE AT SYNOD OPENING

Against Raising Funds By Holding of Picnics

THE DIVORCE MATTER

States Church Position on This—Hopes for Advance in Stipends to Clergy—His Position on Prohibition and Local Option

Fredericton, N. B., Nov. 3.—(Special)—Bishop Richardson in his charge to the diocesan synod this morning reviewed the work accomplished in the diocese during the past year. He paid a tribute to deceased members, ably advocated the claims of Kings college, defined the church's position in regard to marriage and divorce, and made a strong deliverance on the temperance question.

The Bishop's Charge

The bishop's charge occupied upwards of an hour in delivery, and was followed with closest interest. He spoke of the pleasure it gave him in welcoming the delegates to Fredericton for the first time since his becoming bishop of the diocese, and called attention to improvements made to the cathedral since they met here three years ago. He referred to the loss the synod

Bishop Richardson

had sustained since last meeting by the death of Rev. Thomas Wetmore Pickett, Rev. James Hunter, Judge Hanington, and Hurd Peters, and paid a graceful tribute to the memory of each.

In regard to diocesan missions, he declared that marked improvement had been brought about and the outlook was brighter than it had been for many years. The number of vacant missions had been reduced during the year from sixteen to six and he regarded that as a most excellent showing. He was glad to note a small improvement in stipends of mission clergymen, but thought the standard was far too low. Any change in this direction, he declared amidst applause, must be in a forward direction, and not backward. The plan of grading stipends of mission clergymen, according to the length of service was discussed at some length by the speaker and cordially approved.

Against Raising Funds By Picnics

His Lordship strongly deprecated the adoption of indirect methods, such as parish picnics, adopted for raising funds for church purposes, such methods, he said, were unworthy of the end in view, and served to discredit the church. Public dances, which were sometimes carried on in connection with these picnics, he regarded as indefensible and exposed young people to a moral menace. In his opinion, churches should be supported by free will offerings of the people. He was convinced that the trouble experienced in some parishes in raising sufficient funds, was due to lack of systematic effort and it was for the clergy to bring about improvement.

The bishop strongly endorsed the Laymen's Missionary Movement, and he sincerely hoped the Church of England would not disregard the call now being made throughout the land.

The people were inclined, he said, to sometimes refer to New Brunswick as an insignificant province. He knew something of conditions in the west, but after ten years' residence in New Brunswick and three years spent in travelling over it, he dared to say that New Brunswick need not fear comparison with other provinces. It has fertile soil, good climate, and he believed had splendid future before it.

Memorial in St. John

He spoke highly of work being done by Canon Smithers, the Medley memorial missionary, and hoped arrangements would soon be made to provide him an increased stipend. His Lordship next defined duties of archdeacons and rural deans, and explained some changes he had lately made in the regulations. He trusted that the synod would take some action with reference to the proposed memorial to the late Bishop Kingston, which would be a lasting recognition of his work in the diocese and his brilliant, scholarly attainments. He was inclined to think that the memorial should take the form of a church house and that St. John, as the most populous

The boys were severely lectured by his honor, but remanded until witnesses could be secured.

Sgt. Ross said that the damage done to Mr. Baskin's place was about \$30, but in the store of Timothy Donovan about \$50 was the amount of damage done. Whereas the members of the Saint John Law Society have heard, with feeling of the most profound regret, of the death of Alexander W. MacRae, Esq., K.C., D.C.L., a member of the society and an active and public spirited citizen, and

Whereas, during the twenty-one years that he passed since his admission as a member of the legal profession, he has commanded the good will and esteem of his brethren at the bar, and has ever been loyal to the interests entrusted to him by his clients, and has steadily but surely been advancing to the position of a leader in the profession, a position for which his education, as well as his industry, ability and forensic talents admirably fitted him, and

Whereas, he found time, not only to give his close attention to the demands of an exacting profession, but also to take an active part in the public affairs of the community, having been for many years a most valued member of the common council, and having at all times evinced the deepest concern in all questions affecting the welfare of the city and county, and the Dominion of Canada, which resulted in his being selected at the last general election as a candidate of the political party, with which he was associated for the constituency of the City and County of Saint John, and which would no doubt have caused him to occupy at no far distant day, a conspicuous place in the public life of Canada, therefore

Resolved, that the members of this society place on its records this resolution as a slight evidence of the esteem and appreciation in which Doctor MacRae was held by his associates in the legal profession, and further

Resolved, that a copy of this resolution be forwarded to his widow, to whom and to whose children, he was a loving and devoted husband and father, with the expression of the most sincere sympathy and regret on the part of the members of the St. John Law Society.

It was decided that the members of the society should attend the funeral tomorrow afternoon and march in a body.

GAYNOR CARRIED NEW YORK BY A PLURALITY OF 73,016 VOTES

HEARST AND BANNARD ISSUE STATEMENTS AFTER DEFEAT

WILLIAM RANDOLPH HEARST

New York, Nov. 3.—William R. Hearst declares himself satisfied with the result of the election yesterday, inasmuch as an anti-Tammany board of estimate was elected. He said:—

"If an anti-Tammany board has been elected, I consider my efforts well rewarded. I went into the campaign to accomplish exactly that, as I have stated in my letter of acceptance.

"I hope that Judge Gaynor will make a satisfactory mayor and I am sure of one thing at least, that he will make a better mayor surrounded by an honest and independent board of estimate than

PAY \$200 FOR SEATS AT SENSATIONAL PARIS TRIAL

Paris, Nov. 3.—Not since 1892 when Frederic and Therese Humbert were convicted of the most infamous crime in the history of the world, has the public interest in the case of Madame Adolphe Steinheil been so keen as it is today. The trial, which is now on trial for her life charged with the murder of her husband and her mother-in-law, Mme. Japy. The alleged motive is found in the defendant's hatred of her mother-in-law and a desire to rid herself of the husband in order that she might marry Maurice Borel, a wealthy merchant and had become infatuated with her. The talents and attractiveness of the woman, combined with the mystery of her career and her connections with persons high in the public life of France, have fed the popular imagination and led the public to believe that the most startling disclosures are imminent.

Judge Devalles had received 25,000 applications for seats in the court room but refused with the exception of those made for members of the press, the bar and others directly concerned with the trial. The first hundred persons who stood in line outside this morning were also admitted. Places of vantage in this line commanded as high as \$200. Most of today's session was occupied with the selection of a jury and the reading of the indictment.

The man was of short, stout build, and dark complexion. It looks as though he took his own life inasmuch as Collier's magazine, a large number of the delegates have already left for their homes, and the remainder will probably leave today or tomorrow. The delegates express themselves as being heartily pleased with the manner in which they had been entertained while in the city, and said they would cherish with pleasure the memory of this convention.

Tammany Forces Are Routed in Fight For Offices

COMPLETE RETURNS

San Francisco Has Gone Back to the Rule of Graft But Heney Says Fight Will Go On—Massachusetts Democrats Jubilant

New York, Nov. 3.—Complete returns on the vote for mayor tabulated this morning, show the following:—Gaynor, 250,673; Bannard, 177,602; Hearst, 153,843. Gaynor's plurality, 73,016.

The complete vote of New York City for president of the board of New York, gives Mitchell (Fusion) a plurality of 71,031 over Galvin, the Democratic nominee.

London, Nov. 3.—The election in New York yesterday was watched here with keen interest. The Pall-Mall Gazette says:—"New York, like London, has achieved a substantial victory in municipal reform and will receive the congratulations of the municipal reformers under all skies."

The Westminster Gazette says:—"The result again demonstrates that New York city has sufficient forces working for good to rid itself of Tammany if only they would unite."

New York, Nov. 3.—In Kings county the Democrats saved their county ticket. While a Fusion borough president was chosen, the Democratic candidates for sheriff and other county officials pulled through on the Gaynor wave in Brooklyn by pluralities ranging from 5,000 to 7,000.

Hearst received eighty-seven more votes than Bannard in the borough of Manhattan and the Bronx.

Tammany elected twenty-two of its candidates for the board of aldermen in New York county as against twenty-three elected by it two years ago. It will have forty-two votes in the new board for the greater city and the fusionists, thirty-six.

Latest returns indicate that the New York state assembly of 1910 will contain ninety-four Republicans and fifty-six Democrats, a Republican majority of thirty-eight. The present assembly has a majority of forty-eight. Forty-five of the candidates elected to the assembly yesterday are pledged to the support, in some form or other, of Governor Hughes' direct primary plan.

New York, Nov. 3.—The forces of fusion will be in practical control of New York city's government after January 1 next, although Tammany Hall's candidate for mayor, Wm. J. Gaynor, was elected yesterday by approximately 72,000 plurality. With the exception of mayor the fusion sweep was complete.

Not another Tammany candidate on city or county tickets won. The success of the fusion forces in electing their candidates for comptroller and president of the board of aldermen, together with the victories of the fusion and anti-Tammany candidates for the presidencies of all five boroughs will give the opposition to Tammany thirteen out of sixteen votes in the important board of estimate. This board will have in its hands during its term of office the expenditure of practically \$1,000,000.

On the county ticket the fusionists elected their candidates for district attorney, sheriff, county clerk, register and city court judge, which with the other victories will place nearly every bit of patronage in the greater city in their hands.

Below mayor, the fusionist candidates on the city ticket won by substantial pluralities.

The borough presidencies all went to the fusion or anti-Tammany candidates. The strength of the fusionist cause in New York county was indicated by the plurality of 22,000 votes, which Charles S. Whitman, the fusion nominee for district attorney, received over George Gordon Battle, the Tammany candidate. Even more significant was the victory of John S. Shea, fusionist for sheriff, an office with rich emoluments, over Christopher D. Sullivan, Tammany, by a plurality approximately 27,000.

The fusion triumph in New York county extended to its candidates for supreme court judgeships, all three of its nominees for those offices being successful.

Democrats Jubilant

Boston, Nov. 3.—The Democrats of Massachusetts were far more gratified in looking over the results of yesterday's election today than the Republicans, for while the latter succeeded in keeping Governor Eben S. Draper and the balance of the state ticket in their present positions, their victory by a margin of 8,000 votes in a total of 370,000, was too close for comfort. The election was the closest in this state since 1892, when Wm. E. Russell was elected governor by the Democrats by a margin of about 2,500 votes. It was the narrowest victory in the history of the Republican party in Massachusetts.

The Democrats also made gains in the legislature and today some of them went even so far as to predict a defeat of Senator Henry Cabot Lodge two years hence.

San Francisco, Nov. 3.—After three years of reform government, which followed the bribery graft disclosures in the Reuf and Schmitz union labor administration in 1906-07, San Francisco yesterday again chose a union labor administration by electing P. H. McCarthy mayor and Charles M. Fickert district attorney.

Opposed to Fickert was Francis J. Heney, who for three years has conducted the bribery graft prosecutions. Mr. Heney's defeat was decisive, his vote running behind that of W. H. Crockett, Republican, for mayor, and that of Dr. Leland Demarest.

Continuance of the graft prosecutions was the dominant issue. Mr. Heney promised, if elected, to carry it on with unabated vigor. Mr. Fickert asserts that he will prosecute only such of these cases as can probably be carried to a successful result.
