COOK STARTS FOR HOME; PEARY USED SOME OF HIS STORES

Copenhagen, Sept. 10.—Dr. Frederick A. Cook left Copenhagen this afternoon on the first stage of his journey homeward, apparently happy and confident and with the cheers of a great crowd ringing in his ears. Formal interviews were exchanged between Dr. Cook and committees of the Geographical Society and the University of Copenhagen. As he departed the explorer stood on the high bridge of the Melchier, which is taking him to Christiana, and raising his hat in response to the shouts of the spectators.

The yacht will arrive at Christiana tomorrow at noon, where the ship Oscar II will be ready to start for the United States as soon as Dr. Cook has been transferred to her deck.

Managing Director Cold, of the Scandinavian American Steamship Co., who is a former governor of the Danish West Indies, accompanied Dr. Cook. He said that the Oscar II could reach New York Monday, Sept. 20, but that he thought it better to keep her to her scheduled time and arrive Tuesday, the 21st.

Before the gang plank of the Melchier was drawn up this afternoon there was a pleasant ceremony in the cabin of the yacht which was attended by Maurice F. Egan and Miss Egan, the rector of the University of Copenhagen and a number of geography students. Admiral Dekitchetcu thanked Dr. Cook for returning to the United States under the Danish flag.

"I am perfectly willing to put my records before the American Coast and Geodetic Survey to be compared with those of Commander Peary's, but I do not see why I should ask for such a comparison first."

St. John's, Nfld., Sept. 10—Commander Robert E. Peary is expected to sail from Battle Harbor, Labrador, where he has remained since last Wednesday, for North Sydney (C. B.) tomorrow. The Roosevelt was at Battle Harbor late today and the wireless station at that point was still working overtime on Peary's detailed account of his far northern journey. It is understood that Peary's long stay at that point was no so much for the purpose of coaling, but was decided upon as a stopping place where the commander could send the account of his trip to a syndicate of newspapers.

It is not known here what time Commander Peary expects to reach North Sydney, but mariners acquainted with the Roosevelt do not look for her appearance at the Cape Breton port before next Monday or Tuesday. Much will depend on the weather conditions in the Strait of Belle Isle and upon the state of the vessel's machinery. Unless it is necessary to put into Blanc Sablon for a fresh coal supply, Peary will possibly not stop at any port until he reaches North Sydney.

The Peary-Cook controversy is of intense interest throughout Newfoundland, and while the majority of the people favor Commander Peary, there are some who criticize him.

Today Captain Moss Bartlett, of Brigus, who commanded Dr. Cook's schooner, John R. Bradley, which was fitted out at Gloucester (Mass.), in 1907, issued a public statement, as follows:

"Dr. Cook is correct in stating that Peary took his provisions after the steamer Erik returned to Brigus last fall. Three of her crew who belonged to Brigus told me that when Peary arrived at Etah that summer he took possession of all the stores I had left there the previous fall for Cook, against his return from the north. These men say they helped to move the stuff from where I left it. They are now on the Labrador coast. This supply consisted of two dory loads of stores, food and kerosene which our crew piled on the beach and then placed the dories over them, bottom up, piling stones around and above them to make a cache. At Annatook, thirty miles north, where Cook landed, I had previously put ashore two years' supplies for Cook and five tons of hard coal. Our vessel, the John R. Bradley, was laden with stores, and ten tons of hard coal. When Cook landed we gave him half the coal and the stores, except what we required to bring us home. Cook could not steal Peary's provisions, because Peary had none."

When seen tonight, Richard Pike, chief engineer of the steamer Erik, which served as an auxiliary vessel for Commander Peary last year, by conveying stores and coal to Etah to supplement those on the Roosevelt, said that Peary did not take Cook's provisions nor were they put on boar Peary's ship. Pike said:

"Peary left two men of the Roosevelt, the boatswain and one of the firemen, with the immense accumulation of supplies he left at Etah when the Roosevelt went north and the Ekir came south. These men apparently in mistake took some of Cook's stores that were also cached there."

Sydney, N. S., Sept. 10—John E. Kehl, the American consul here, is going to North Sydney tomorrow to meet Mrs. Peary and her two children, who are to arrive at the junction at 7 o'clock tonight. He will invite them to be his guests at his residence until the arrival of the commander.

Mr. Bridgman had received many telegrams offering Commander Peary large sums of money for magazine articles, books, lectures, etc. One magazine tells the explorer to name his own price. Secretary Gilbert H. Grosvenor is arranging for Commander Peary to give his first lecture before the National Geographical Society in Washington. President John H. Finlay, of the College of the City of New York, has tendered Commander Peary the use of a hall for a public lecture in New York city.

Sydney, N. S., Sept. 10—(Special)—A big reception is being planned for Commander Peary on his arrival at Sydney. A flotilla of ships will proceed to sea to meet Peary and the Roosevelt will be escorted in state up into the harbor. A banquet will be tendered to Peary, one of the chief features of which will be an address of congratulation by Governor Fraser.

OF COURSE.

Knicker—Why did Mrs. Henpeck speak in such a rasping tone to her husband?

Bocker—She was simply filing her answer.

COTTON MILL STRIKE THREATENS

Fall River, Mass., Sept. 11—A strike that would affect the 6,000 operatives of the iron works controlled by M. C. D. Borden, is threatened on next Monday by the action of the weavers of those mills tonight in unanimously agreeing to quit work Monday unless their request for a ten per cent increase in wages was granted. There has long been unrest among the employes of the Iron Works mills regarding the wage question.

MRS. SAGE ON 80th BIRTHDAY GIVES $10,000

New York, Sept. 11—Mrs. Russell Sage this week celebrated her eightieth birthday and it was announced that among other gifts made by her in honor of the occasion is a bequest of $10,000 to the First Presbyterian Church, at Syracuse.

Mrs. Sage was born in Syracuse and attended the church. Her father, Joseph Slocum, was one of the founders and a charter member, and her mother was also a member. It was in rememberance of her parents that the gift was made. She previously gave two memorial windows, costing $30,000.

GREAT PRESENCE OF MIND.

Mrs. Newwed—My husband always knows what to do at just the right time. Yesterday the baby got a tack caught in his throat.

Mrs. Knowsitt—And your husband immediately summoned a doctor?

Mrs. Newwed—No. He went after a tack-puller.

CIRCULATION AND ADVERTISERS

The kind of circulation that is profitable to advertisers is the kind that goes direct to the homes of the people who buy—people who read and respond to newspaper advertisements.

Quality as well as quantity circulation is desired and advertisers get both when advertising in

THE EVENING TIMES

the only evening paper in St. John that publishes a circulation statement month by month. It is not afraid to let advertisers know the condition of its circulation.

The Times has the largest circulation of any evening paper in the Maritime Provinces.

P. S.—Call up Main 31-11 or 15 and a representative will call and talk advertising.

The following is the average daily circulation of The Times for the last seven months:

January,		-	6,716
February,		-	6.978
March,	-	-	7,165
April,	-	-	7,189
May,	-	-	7,003
June,	-	-	7,029
July,	-	-	7,028

SEPTEMBER 11th.
