## This is One of the 40,366

Testimonials received in two years. "Ours is a New England farmer's home, and as we are twenty miles from a large town, we are obliged to depend largely upon family medicines we keep on hand all the time.

"For two years I had suffered greatly from nervous prostration, and in six months lost 38 pounds in weight. Naturally my spirits became depressed, so that I lost all hope of ever being well again, having tried many medicines without any good results.

"A neighbor who had used Hood's Sarsaparilla with the most PERFECT SUCCESS advised me to give it a trial. I did so, and so decided was the improvement that when I had taken three bottles my health was restored. I was soon able to sleep soundly, to rise in the morning and face the day's work with a light heart. Hood's Sarsaparilla is a wonderful medicine.

"Capt. J. McGlade, Kingston, Ont."

Hood's Sarsaparilla combines the utment ingredients, each greatly strengthened ost remedial values of more than 20 differ- and enriched by this peculiar combination.

Begin taking Hood's Sarsaparilla today. 100 Doses One Dollor.

## THE STEEL-COAL NEGOTIATIONS

### What Has Been Effected Toward a Settlement of Their Famous Dispute

Montreal, March 23—The following shows what has been effected since the Steel-Coal negotiations started a couple of weeks ago:—

1 Agreement drawn up and its terms approved by the Dominion Iron and Steel Company, the Dominion Coal Company, and the National Trust Company. This has not been signed.

2. Amending the order drawn up to allow assessment in present suit of damages to date.

3. The coal company now wants a full statement of the steel company's claim, with vouchers so far as possible.

4. On signing and delivery of these on the same moment the coal company will pay $2,500,000 on account.

5. So far as vouchers in excess of $2,500,000 are approved and verified by the coal company the latter company will pay the claims.

6. The steel company has presented a claim for excess money paid to the coal company, which amount has been based upon the coal company's own vouchers. These vouchers the coal company have been asked to check, but evidently have not done so.

## LUMBERMEN MEET AT FREDERICTON

### Lumbermen and Limit Holders Will Present a Memorial to the Goverment

Fredericton, N. B., March 23.—Hon. John P. Burchill presided at a large and representative meeting of the members of the New Brunswick Lumbermen's & Limit Holders' Association held in a committee room of the parliament building this afternoon. R. A. Lawlor acted as secretary. Others present included Allen Ritchie, Newcastle; Randolph Croker, James Robinson, Millerton; J. Fraser Gregory, Henry Hilyard, John E. Moore, St. John; A. H. Fitz-Randolph, Fredericton; F. M. Anderson, Campbellton; T. M. Burns, Bathurst; John Maloney and D. J. Buckley, Rogerville.

Several matters were discussed, including the qualifications of scalers and fire wardens, and a committee composed of Messrs. Ritchie, Anderson, Hilyard, Randolph and J. E. Moore was appointed to prepare a memorial to the government embodying the views of the lumbermen, and will submit the same for approval to another meeting called for tomorrow afternoon.

There was some discussion in regard to crown land leases and the consensus of opinion among those present was that at the expiration of the leases the government should compensate the holder for any improvements made. Possibly a memorial to be drawn up may recommend that perpetual leases be granted.

## Vague Pains Point to Rheumatism

There is no disease more sneaking, treacherous and insidious than rheumatism,—today you're well—tomorrow perhaps in bed. The pain may settle in your back, arms, legs, thigh bones, knees, fingers—not even the heart is exempt.

Nerviline is the cure—a few vigorous rubbings with this trusty liniment proves what wonderful healing powers a good medicine can possess. Deep into the aching tendons and muscles, right through the bones and sinews goes the penetrating, pain-destroying properties of Nerviline. Failure is impossible—Nerviline always cures rheumatism, sciatica, neuralgia and lumbago,—in fact there is not an ache or a pain that a liniment should cure that won't yield quickly to Nerviline.

Don't hesitate to try "Nerviline"—it has restored thousands of despairing, broken-down men and women, has astonished physicians with its rapid cures, and in your case, as in others just as bad, Nerviline will cure quickly. Refuse substitutes—use "Nerviline" only. Large 25c. bottles. Sold by all dealers.

### A GOOD USE FOR ALCOHOL.

Washington, March 24—"All the breweries and distilleries in the country will not be adequate for the production of the alcohol needed when engines for its economical and effective use are perfected," said a speaker at the meeting of the American Association for the Study and Cure of Inebriety and Alcoholism yesterday. It was admitted that alcohol had a future as a power produced only, and that as a base for popular beverages its popularity was doomed. It was denied a place in therapeutics except side by side with poisons.

## MORE AID TO THE EMPIRE

### Canadian Government Has Under Consideration a Plan to Provide for Coast Defence

Ottawa, March 23.—The present alarm felt in Great Britain over the disclosures with respect to the invasion of the British naval supremacy by Germany is causing considerable interest among the members of parliament and will undoubtedly lead to an important debate on the resolution on the order paper, in the name of Hon. Mr. Foster, declaring that Canada must delay no longer in providing for her own coast defence.

Considerable pressure is being brought to bear upon the government to take steps looking to a more active participation by Canada in bearing the burden of imperial defence.

Members of the opposition in caucus this morning unanimously decided to support Mr. Foster's resolution. The whole question is now under the consideration of the government and the resolution will probably be accepted in spirit if not in actual wording. The policy of the government is to gradually work both towards an army and a navy adequate for the defence of Canada and maintained solely by Canada, thus insuring a proper share by Canada of the burden of imperial defence.

## KIDNAPPERS OF WILLIE WHITLA UNDER ARREST

### Man and Woman Caught Last Night with $9,990 on Them

Cleveland, Ohio, March 23.—In the arrest here tonight of a man and woman having $9,990 in their possession, the police believe they have captured the kidnappers of Willie Whitla. In fact the woman in the case who is somewhat befuddled, admitted that she had been responsible for the kidnapping. When placed in custody at the central police station she said to Captain Shattuck: "I am the one who planned the whole thing. There will be trouble for me and hell in Sharon tomorrow."

Beneath the woman's skirts was found $9,990. All of it but $40 was bound in packages with the original slips placed on the money when Whitla took it from the bank still around it.

Captain Norman Shattuck and Detective Frank Wood made the arrests in the east end of the city.

When near the police station the man broke away from Detective Wood and ran towards an alley. The police officer fired two shots from his revolver into the air and the man stopped. The woman made no attempt to escape.

The woman appears to be well educated and is refined in manner.

The couple declare they are not man and wife.

According to the police they were intoxicated when placed in custody. Due to their condition, they were not questioned closely by the police and were locked in separate cells. Both will be arraigned in the police court tomorrow on the charge of abduction, according to Detective Wood.

### WOMAN'S AUXILIARY

The annual meeting of the women's auxiliary of St. John's (Stone) church was held yesterday and the following officers were elected: Honorary president, Mrs. G. A. Kuhring; first vice-president, Mrs. A. H. Hanington; second vice-president, Mrs. John McAvity; third vice-president, Miss Barlow; secretary, Miss Edith Skinner; treasurer, Mrs. G. Fred Fisher; Dorcas secretary, Mrs. C. W. deForest; leaflet secretary, Mrs. A. E. Ellis; literary secretary, Mrs. Morrissy; representative to diocesan board, Mrs. John McAvity; superintendent of juniors, Miss Helen Frink.

The rector appointed Mrs. Thomas McAvity and Mrs. Lucius Allison to the diosesan board. The reports of the officers showed the auxiliary to be in excellent condition. A feature of the meeting was the presentation of a life membership to Miss Elizabeth Patton. The presentation was made by Mrs. George F. Smith on behalf of the ladies. Mrs. G. A. Kuhring read the membership certificate and Mrs. A. H. Hanington pinned on the gold pin of membership.

It was announced that the diocesan board would meet in St. John's school room this year.

Forty-six thousand Chinese are resident in the Philippines (about 22,000 in Manila) The net gain in five years has been 3,594.

## Girls Earning Their Living Should Read This Carefully

One of the marvellous developments of modern life is the advent of woman as a co-laborer with man throughout the entire industrial field.

It follows then that woman must adapt herself to new conditions. But this can't be done in one generation, nor in ten. In consequence, she lives in an environment of unhygienic conditions, unsuited to her temperament and constitution.

The incessant strain upon her nervous system by reason of the new vocations she has taken up, strikes at the very foundation of her physical stability.

Work becomes worry, and this means destruction to the nervous system.

Very complex in her physical relations to life, disease early seizes upon the woman who works, and she must therefore guard jealously anything that would tend to destroy her vitality or health.

Probably nothing is of more service than Dr. Hamilton's Pills, and every girl and woman can employ this grand remedy with gratifying results.

As a system tonic and blood renovator, no treatment gives such results.

For maintaining good digestion, healthy appetite and the proper performance of the duties of the liver and kidneys, it is impossible to equal Dr. Hamilton's Pills.

Dusky, sallow complexion is changed to a healthy, ruddy glow, which proves that Dr. Hamilton's Pills circulate blood that is rich and nourishing.

Weak organs are filled with new life and vitality; weakness, irregularities and the common ills are prevented, and this means much to those who have lived in that half-sick, half-well condition that seems so hard to overcome.

When you feel poorly, when the head aches, back feels lame, and a drowsy, tired feeling creeps through you—that's what tells of the need of Dr. Hamilton's Pills; try them.

Sold in yellow boxes, 25c. each, or five for $1.00, at all dealers, and satisfaction guaranteed.

## SOME OF THE CHANGES IN THE LIQUOR LICENSE ACT

### All Screens Must Be Removed From Saloons and They Must Close on all Public Holidays and at 5 p. m. on Saturday —No Local Opion Election Until 1910—Proceedings in the Legislature

Fredericton, March 23—Much business was discussed at this afternoon's session of the house. Although the legislature is gradually getting down to business it will hardly be in full working order until next week.

The amendments to the liquor license act were discussed and are quite numerous and drastic.

Screens will have to be removed.

Saloons will not be permitted to open on holidays or before 7 a. m., and will close on Saturday at 5 o'clock.

There will be no local option election until 1910.

Hon. Dr. Landry, in reply to Mr. Copp, gave the particulars of the cost of the last horse importation. The horses were inspected by William R. Rowe, government veterinary of Ohio, for diseases, but not for blemishes.

Twenty horses were purchased at a cost of $3,260.

The cost of keeping the horses in Kentucky was $984.50, including feed to St. John and care of horses on the journey.

The transportation charges were $436.35 and the cost of keeping the horses in St. John from their arrival to the date of sale was $971.30.

The advertising cost $229.46, and the auctioneer's fee $52. Delivery of the horses was at St. John.

The total cost of the importation was $6,805, and there are bills unpaid amounting to $1,056.

There is still due from the purchasers $4,315.03, which is secured by joint notes of responsible persons.

Mr. Clinch was paid $325 for his services and $610.38 were paid him for his own and other expenses.

The debate on the address was advanced another step, but it is not likely that it will be finished tomorrow. Mr. Byrne, of Gloucester, finished his address today, dealing first with government promises to Gloucester County, and the proposal to develop the Gloucester iron mines.

To Mr. Byrne belongs the credit of bringing to the notice of the house the scandalous misrepresentations of Mr. Hazen and Mr. Flemming during the election campaign of 1908, regarding the bonded debt of the province. These gentlemen had gone up and down the country shouting with blazon effrontery that the debt of the province was between ten and twelve millions of dollars. "Yet," said Mr. Byrne, "in the first auditor-general's report they have placed before this house the debt is given at $5,834,533, which includes the amount added this year.

The people of New Brunswick had been deluded by the untruthful statements of opposition leaders into the belief that the province had been plunged into debt to an extent that threatened its future, but they were now undeceived, as had been proved by the vote in Carleton and Northumberland counties.

The immigration policy of the government was reviewed by Mr. Byrne, who put the question plainly to the commissioner of agriculture, if he wanted the crown lands settled. Mr. Landry said he did. "Then," said Mr. Byrne, "why do you not deal with the request for land grants from 200 people in Quebec who want to settle in New Brunswick? You say the matter is under consideration. It has now been under consideration so long that those who made the application are getting tired waiting for an answer."

He next placed the surveyor-general on the grill and told him that all the difficulties concerning the settlement of the vacant lands of the province could be solved by carrying out the provisions of the public domain act. But that act was still under consideration. The importance of separating the lands fit for settlement from those only suitable for forest production gives the solution to a problem which can be solved in no other way.

The inaction of the government in all matters relating to crown lands was also touched upon. They had not only reduced the size of the log but they had announced an increase in stumpage on some classes of lumber, only to withdraw it a few days later.

The enforcement of the game laws came in for some criticism, because licenses had been issued before the season opened and permits were granted allowing those having the licenses to carry firearms into the woods during the close season. This was practically extending the open season, as it was well known that moose are more easily called at the beginning than in the middle of September.

Mr. Wilson, of St. John, followed Mr. Byrne and in a brief speech closed with a reference to school books. Among other things that Mr. Wilson said were that the sale of school books was not restricted to friends of the government. His remark that he did not believe in the policy that took away from men whose business had been to sell school books, caused the solicitor general to shift uneasily in his chair and this is what he has done in Fredericton.

Dr. Sormany, of Gloucester, was the next speaker. He is one of the independent ticket who decided to throw in their lot with the opposition since the session opened. This action on the part of the members for Gloucester has been referred to in somewhat uncomplimentary language by the Moncton Times and called out the statement from Dr. Sormany that the independent members from Gloucester had never made any overtures to the government nor asked for the patronage of the county. And the further rather startling statement that there was one gentleman who sat on the government side of the house who knew that the members for Gloucester could not be bought. He explained that the Gloucester representatives had come to Fredericton prepared to give an independent support to the Hazen government. They had reached this conclusion because Mr. Hazen had promised in his platform to mete out even justice to both political parties. They had failed in this and displayed the most violent partizanship in dealing with the patronage at their disposal, instead of showing fair play.

The highway act and the school book questions were dealt with. Regarding the latter Dr. Sormany said he was in favor of free school books. It had been claimed that the people were saving 40 per cent on the purchased school books. He knew many poor children who were not able to go to school because they had no shoes. "This being the case," said the doctor, "why do the government not add the shoe business to the school book questions?" He concluded his speech by expressing some practical views on tuberculosis.

Notices of inquiry were given by Mr. Robinson, in regard to territorial revenue; by Mr. Leger, about road work done in October last in Westmorland, and by Mr. Currie about road work in Victoria; by Mr. Upham, regarding the sheriff of Carleton county; by Mr. LaBillois, in reference to the appointment of C. S. Shaw to a position in the crown lands department; by Mr. McKeown, as to special warrants issued last year, and by Mr. Leger, in reference to repairs on Memramcook bridge.

Mr. LaBillois suggested that a copy of replies to inquiries be given to the member making such after being read by the minister in the house.

Hon. Mr. Hazen said the suggestion was a good one, and would be complied with.

Hon. Mr. McLeod introduced a bill in amendment to the probate act and stated that the chief object of the bill was to reduce the fees on stamps in petitions under $1,000, which under the proposed amendment would be reduced twenty-five per cent. Another proposed amendment made provision that a commission may issue for taking evidence without a citation at the discretion of the judge of probates.

Hon. Mr. Hazen introduced a bill in amendment to the coroner's act, which he explained was made necessary by conditions during the construction through the province of the Transcontinental railway. It has particular reference to adjoining parishes in the counties of Carleton and York.

Hon. Mr. Landry asked for leave of absence for one week for Mr. Sheridan, because of illness, which was granted.

Mr. Hartt presented the petition of the town council of St. Andrews in favor of their bill relating to trust funds.

Fredericton, March 23.—Hon. Mr. Hazen, in reply to Mr. Upham's enquiry as to whether the government was aware that an inmate of the county jail, of Carleton county, was allowed to leave the jail and vote on the 26th of October last, said: "No," and as to who was the keeper of the jail, he replied: "John R. Tompkins, high sheriff of the county of Carleton."

Hon. Mr. Flemming, in reply to Mr. Tweeddale's question: "Has Mr. T. J. Carter, of Andover, submitted a claim to the government for services in connection with liquor prosecutions in Victoria county, rendered previous to March 1908?"

A—Yes.

Q.—If so what is the amount of each claim? When were the services performed? Who authorized such prosecution, and what action has the government taken on the claim?

A.—The claim is for the prosecution of two cases in the supreme court, one between John W. Niles and Collingwood Rogers, and the other between Charles W. Lewis and Samuel Lovely and were actions for the cancellation of wholesale liquor licenses, the costs as taxed by the clerk of the pleas, Mr. T. Carleton Allen, were in the two cases $357.50 and $257.30 respectively. The services were performed in the year 1903. The prosecution was undertaken at the instance of a large number of the leading citizens of the village of Perth. The government has the claim under consideration.

Hon. Mr. Morrissy, in reply to Mr. Copp's question, as to "what amount of money was expended on the public roads in the parish of Sackville under the supervision of James Smith prior to the 31st October last?"

A—$2,423.46.

Q—Was all work performed under the supervision of the said James Smith prior to said 31st day of October last paid for before said date?

A—No.

Q—Has there been any work performed in said district since the said 31st of October last, if so, what amount and has the same been paid?

A—The sum of $572.32 is the total amount paid to the parish of Sackville since October 31, 1908, and out of this sum $460.40 was paid Supt. James Smith for work performed in July, August, September and October, 1908.

Q—Who are the road superintendents in the said parish of Sackville and what remuneration do they receive?

A—Winslow Milner and James Smith. Ten per cent commission on the amounts expended is the remuneration allowed.

Hon. Mr. Morrissy, in reply to Mr. LaBillois' questions:

Q—Has the hon. chief commissioner of public works taken occasion to visit the location of the Metapedia inter-provincial bridge during recess?

A—Yes.

Q—If so, did the provincial engineer accompany the chief commisioner and who else was present during the examination of the site?

A—The chief engineer did not accompany the chief commissioner. There were several men working at the site putting the bridge in shape.

Q—Has the commissioner made any report to the governor-in-council in this matter? If so what decision has been arrived at?

A—The chief commissioner made a report to the governor-in-council recommending a grant. The government has decided to make a grant of $5,000 for a bridge also to make a road on the New Brunswick end of the bridge.

### Unsightly Warts Removed.

The operation is simple and painless—just apply Putnam's Wart and Corn Extractor. For fifty years it has been curing warts and will cure you too. Try Putnam's.

### GUILTY OF MURDER

Toronto, Ont., March 23—(Special)—The jury at North Bay last night found Morris Ryan guilty of murdering his brother, Francis Joseph, and the prisoner will be sentenced later.

W. S. Fisher gave a very interesting address before the Natural History last evening on the problem of transportation, dealing with the growth of the winter-port business and the extension of trade to the western provinces.

The New Brunswick Fish, Forest and Game Protection Association will apply to the legislation for incorporation.

## Biliousness

## SOUTH AFRICA MEN HONOR H. D. McLEOD

### Treasurer of Patriotic Fund Presented With a Pair of Diamond Cuff Links Last Night

An interesting ceremony took place in the Dufferin Hotel last night when Capt. Fred C. Jones and a number of the men of G. Company, 1st South African contingent, waited on Mr. and Mrs. H. D. McLeod and presented to them valuable tokens of good will and esteem.

Mr. McLeod was treasurer of the New Brunswick patriotic fund and in recognition of his services in that connection as well as of many kindnesses since, they presented to him a very handsome pair of diamond cuff links. To Mrs. McLeod, who had frequently shown her good will towards the men of the company in substantial ways, they presented a beautiful gold enamelled maple leaf brooch. The design of the maple leaf was chosen because it was a prominent feature of the uniform of the men of the company.

Those present besides Capt. Jones were: Fred Kirkpatrick, William Unkauf and Walter H. Irving. The ceremony took place in the rooms occupied by Mr. and Mrs. McLeod. Capt. Jones made the presentation and spoke of the gratitude felt by the men towards Mr. McLeod for his services in connection with the fund and other matters, and also to Mrs. McLeod.

Mr. McLeod, for himself and wife, made a feeling acknowledgment of the gifts.

## DINED AND TALKED ON WOMAN SUFFRAGE

### Portland Y. M. A. Held an Enjoyable Dinner Last Night.

More than 250 people sat down to a dinner given in the school room of the Portland Methodist church under the auspices of the Y. M. A. last evening. Dr. C. M. Pratt, president of the Y. M. A., presided. On his left was Rev. C. W. Squires and on his right Rev. Neil McLaughlin.

After due justice had been done to the bountiful repast, a debate on woman's suffrage was enjoyed. Speeches in support of votes for women were given by Rev. Dr. G. Flanders, Rev. Mr. McLaughlin and Rev. Dr. G. M. Campbell. The franchise for women was opposed by Rev. C. W. Squires and D. G. Lingley, city chamberlain. No decision was given.

The committee who had charge of the dinner was composed of Mrs. Charles Cowan, president; Mrs. Boyd, Mrs. Grass, Mrs. McIntosh, Mrs. Herbert Breen, Mrs. Thomas Armour, Mrs. Wm. Turner, Mrs. McInnes, Mrs. A. G. Myles, Mrs. Vincent, Mrs. Sinclair, Mrs. Thomas, Mrs. Morrell, Mrs. Crosby and Mrs. Pratt. Mrs. McConnel and Mrs. Dales poured tea and coffee. The young men of the Y. M. A. assisted as waiters. The meeting closed with the benediction by the Rev. Mr. McLaughlin.

## THE HARBOR PROPERTY

### City Wharf Properties are Valued at $3,000,000 in Estimate Sent to Ottawa.

A report prepared by S. A. Corbett, accountant, Adam Macintyre, comptroller, and William Murdoch, city engineer, and submitted to the harbor facilities committee yesterday afternoon placed an estimated value of about $3,000,000 on the wharf properties owned by the city. Private wharves, fisheries and other property must be calculated before the total value of the harbor property is ascertained, but it was decided to forward to Hon. William Pugsley a detailed statement of the information already secured, so that the minister of public works might have the figures at his disposal as soon as possible. A plan of the harbor showing the location of the wharves will also be sent to Ottawa.

In the valuation of about $3,000,000, the improvements on the west side are figured at about $1,270,000. Being of recent date, little difficulty was experienced in arriving at the city's expenditures on these wharves. The valuation of the older wharves on a basis of expenditure gave considerable trouble. It was found that payments in the past had been made out of revenue and out of the assessment and in some instances it was impossible to obtain accurate figures as to the first cost. In these cases the city engineer had several valuations taken, and appraized the valuation from this data.
