He and Ketchel May Also Come Together — Ring Game Resumes in Montreal—Diamond, Turf and Athletic News of Interest

BILLY PAPKE SPRING VALLEY

Billy Papke has wired his manager, Bob Clark, in New York, to match him with Sailor Burke, for a twenty-round go at New Orleans, and a side bet of $500. Burke and Clark got together and had no difficulty in arranging the match. Burke being so glad to get the match he waived all conditions. The battle is set for Oct. 31, and Burke and his manager will start for New Orleans in a few days.

San Francisco, Oct. 20—A telegram from Papke has been received offering to fight Ketchel on a winner-take-all basis and an unlimited side bet, is an aftermath of the Johnson-Ketchel fight of Saturday.

Sam Langford has been matched to meet Klondike, the massive colored heavyweight from Chicago. The two ebony ones will meet in the main bout at the Armory A. A., Boston, Tuesday, Nov. 2. Langford claims that he would like to get a crack at Jack Johnson when he (Langford) returns from his European trip.

New York, Oct. 20—President and Matchmaker Fred Grundy of the National Athletic Club is completing arrangements for the opening of the club the latter part of the month. The board of directors is elated over the court decision in favor of the club to test its right to hold bouts, and from now on feel certain they can hold their mills without interruption. Not only is the club planning an active social season, but the track candidates are busily engaged for the many indoor meets. Every evening the cross-country runners take a limbering up jaunt from two to five miles. The basketball candidates will be called out in the near future.

Says the Montreal Herald:—Just when everyone round Montreal had begun to think that the fighting game was gone for good here, Arthur Briere comes out with the announcement that he will start things going for the season at the Maisonneuve Opera House on Tuesday, October 26, with a ten round bout between Napoleon Dufresne, of Lewiston, Me., and Tommy Rawson, of Boston. For a starter this battle should be something out of the ordinary. Dufresne is well known here and the match that Rawson made of it with Billy Allan of Ottawa is still remembered by fight followers here.

San Francisco, Oct. 20—W. W. Naughton, in reviewing the Johnson-Ketchel fight, says: "Ketchel had about as much chance with the giant negro as a rabbit would have with a greyhound, Johnson toyed with his man for eleven rounds, and then put Ketchel to sleep with a volley of punches, so fierce that the skin of Johnson's gloves was torn through the contact with the middleweight champion's teeth in the clinches, and gave an idea of Johnson's immense strength.

"After watching the champion closely in his recent fights, it seems to me that even the big frame of Jeffries will not be able to take any liberties with Ebony Johnson when they lock arms and begin to pull and haul."

Willie Lewis, the middleweight fighter, accompanied by his wife and his manager, Dan McKetrick, and his wife, sailed Wednesday on the steamship Adriatic for Paris, where Lewis is guaranteed $750 for each fight, with the privilege of accepting 30 per cent of the gross receipts. Willie will not have such an easy time on this trip in knocking out opponents as he did on his two previous visits to that country, for he has to meet several good American fighters.

Charlie Harvey, the representative of the big fight club in Paris, where all the American fighters are to battle, announces that he is trying to sign up Jimmy Gardner, Mike "Twin" Sulivan, Al Gubiak, the western heavyweight, Marvin Hart, Tony Ross, and Harry Mustaine, the Seattle heavyweight, to make the trip. If Charley can get this delegation of chamois pushers to make the trip there will be some great fighting in that city.

The Turf

Paris, Oct. 20—W. K. Vanderbilt captured two stakes at the Bois Du Boulogne course Sunday. His Marcaurele won the Prix Des Champs-Elysees, a selling event at five and a half furlongs, while his Silver Streak finished first for the Prix Du Cedre, a stake of $4,000 for three-year-olds at eleven furlongs.

Boston, Oct. 19—Dan Sullivan, national 158-pound amateur champion, a brother of the Twin Sullivans, of Boston, was knocked down and out in two minutes in his first professional bout by Harry Lewis, of Philadelphia, at the Armory A. A. tonight. Sullivan showed grit and landed two or three hard blows but was no match for the experienced fighter he went against and dropped under a right and left swing to the head after being badly cut up about the face.

The fastest trotting performances of 1909 have been:

*World's records.

The trotters that have won more than $10,000 on the grand circuit this season are seven in number. Of these, two, Margin and Bob Douglas, were owned and driven by Lon McDonald, the Cambridge horseman. The following is a list of the trotters to win more than $10,000 and the amounts they have won: Pensia Maid, $20,470; Margin, $15,000; Baron Alcyone, $15,000; Baroness Virginia, $12,500; Bob Douglas, $11,250; The Harvester, $10,850, and Jack McKerron, $10,850.

Baseball

Wild Bill Donovan and Trainer Tuthill, of the Detroit team, will have to make good their charges that the Highlanders used a system to tip the signals of the catchers of opposing teams. Ban Johnson has told Tuthill to produce the mechanical device which Tuthill claims he captured. Ban has intimated that a failure to so produce will be the end of the trainer in the American League. No so many years ago a prominent Philadelphia catcher was accused of tipping off signals, but the evidence was lacking.

Pittsburg, Oct. 20—"My success in pitching can be attributed to the slow drop ball," said Charles "Babe" Adams. "I discovered in the first game that the Detroits could not hit this kind of a ball to any great extent. When they would connect it would be for a short hit to the infield, and Pittsburg has an infield which can take care of such hits.

"The slow drop I alternated, first out and then in. It went to the outside of the plate, beyond the reach of the batter, but if he was within hitting distance, the ball was low and its slowness caused a false estimate of strength required from the batter. In such quick feats as batting a false estimate is a dangerous thing for the batting side. The ball which went inside the plate and dropped at the same time was the most effective I used. Detroit could do nothing with that at all.

"But I did not overwork the drop ball. To do so would have been to lack control. Gibson sized up the batters and we knew when it was safe to put them straight over the plate. Detroit has a good batting aggregation and it was necessary to take every precaution with them."

Hans Wagner was the batting star in the world's series, having an average of .375 in the seven games. His nine hits included one three-bagger and two doubles. Most of his hits came very opportunely. Tommy Leach stood second among the batsmen with a mark of .360. Delehanty led the Tigers with .346, making his famous team-mates, Cobb and Crawford, look like selling platers. The only .300 batsman was Bush, who was just over the mark with .304. Cobb batted .231 and Gibson .269.

Football

New Haven, Conn., Oct. 17—Because the Yale football coaches kept three injured veterans out of the scrimmaging at West Point Saturday, all the trio are ready for work. Captain Ted Coy, Acting Captain Logan and Halfback Deeming have improved rapidly in condition and will all resume play immediately.

* * *

Annapolis, Md., Oct. 17—The injury to Earl D. Wilson, the Naval Academy quarter-back, sustained in Saturday's game against Villa Nova, has proved to be more serious than at first thought. Wilson sustained a twisted neck, resulting in paralysis of the motor and sensory nerves of the limbs and the upper part of the body. His speech and brain are not affected. The medical officers believe that he is not dangerously hurt and that the paralysis will wear off. There is no doubt that he is out of the game for the remainder of the season.

Harvard has a long way to go yet before her football team can be in shape to meet the three teams which wind up this season's schedule. Five weeks is none too much to give to such a task, and it will require all of it. From now on the games will be severe tests, and can be won only by the hardest kind of work on the part of coaches and players at Harvard.

Aquatic

New York, Oct. 20—Now that Lipton is on his way to this country with a challenge for the America's Cup, yachtsmen here renew the interest in the possibilities for the international race for the old trophy in 1910. Many here have expressed the hope that the contest may be arranged but the same old stumbling block always arises—the New York Yacht Club's refusal to accept a challenge under any except the old rules of measurement. British designers have declined to design a yacht under that rule, and Lipton is averse to sending such a vessel across the Atlantic, so there is practically no chance of a race in 1910. The last issue of London Field, just received here, makes a bitter attack on the New York Yacht Club.

Athletic

Abbie Wood and Hans Holmer, the two old rivals, each of whom claims the fifteen mile record, are going to have a race on Thanksgiving day, in the afternoon, at the Base Ball Park, Montreal. There has been keen rivalry between them ever since the last big Montreal Star race, when Holmer beat Wood by a few inches, and when both claimed that they had been interfered with by vehicles. Holmer also has never been satisfied with the result of their race on May 24, and both men will do their utmost to try and win.

It is barely likely that Shrubb may ask to be given an opportunity to see what he can do with the men. His leg has been bad, but he has written to this city stating that although he intended to take a longer rest, the temptation to try how good he is still, is great. Nothing definite in regard to him has been decided, however.

Sport Briefs

Hans Wagner's work in the games against Detroit has certainly convinced ball fans that he is the finest in the game.

Fred. Meadows and Percy Sellen will run a matched race at Galt on Thanksgiving day.

A torchlight procession will be the feature of Catcher George Gibson's reception to London.

Seattle won the Northwestern Base Ball League championship with a percentage of .652.

Dangerous Relief

Many people believe that when a drug gives relief it is doing good. That's a big mistake. Drugs can only give temporary relief, and it is always at the expense of the nerves and vital organs.

If you have a pain or an ailment of any kind, you don't want to fool with it with the belief that you are getting well when you are not. That's all you do when you dose yourself with drugs.

It is easy enough to stop a pain by stupefying the nerves with poisonous dope but the pain will return as soon as the stupor passes off. You can force a weak organ to act by giving it a powerful stimulant, but you can't restore its natural strength that way, and it will be weaker than ever when the drug stops working.

That is why temporary relief is dangerous. Drugs do not remove the cause of disease, and every minute that they give relief the disease is getting a firmer hold upon the system. As long as the cause remains the trouble stays there, and the only way to get rid of it is to assist nature. Nature wants strength, vitality, power to fight disease and drive it out, no poisons, which only make it worse.

Electricity is Nature's medicine, and the proper use of it will restore you to perfect health.

My electric Belt is a scientific appliance for saturating the body with electricity while you sleep. The current is powerful in its action, but is soothing and pleasant to the nerves. For hours at a time my Belt sends the glowing electric fire through the nerves and vitals, renewing the energy and giving to every weak organ the power to do its work as nature intended.

It cures all such troubles as lumbago, sciatica, nervousness, rheumatism, insomnia, varicocele, weakness of any kind, and stomach, kidney, liver and bowel disorders.

Dear Sir:—I must say a few words about your famous electric appliance. It has made a wonderful change in me. I have not been wearing your Belt so very long, not four weeks yet, but there is a wonderful lot of difference in me now to what there was before I started to use the Belt. I haven't had to take a cent's worth of medicine since I first wore your Belt, and today I am feeling stronger and better in every way, from the sole of my feet to the crown of my head. I have tried all kinds of patent medicines without benefit. I am feeling just like you told me I would. I know now that it is true, and you do not praise your Belt half enough.

THE NOVA SCOTIA COAL CASE

Halifax, N. S., Oct. 19—The charge of conspiracy brought against coal company officials was resumed this afternoon.

At the commencement of the afternoon session J. J. Ritchie asked that the charge be more defined. He contended that the defense should know what it had to meet in order to prepare for it. W. B. A. Ritchie said that the summons mentioned meetings of the coal operators in Halifax and elsewhere in the province since 1900.

M. R. Morrow was then called. He said he was appointed agent of the Dominion Coal Company at Halifax shortly after the Dominion Coal Company was formed.

Mr. Morrow was asked if he could produce letters from Mr. Dick and other documents relating to the summons. Mr. Morrow said he had not brought them with him. Mr. Morrow said he had not, to his recollection, received letters bearing on this case. He had not been instructed to bring anything with him.

The stipendiary said that if the letters were in the charge of witness, the subpoena instructed him to produce the letters received by witness from the defence. He should have brought them with him. It looked as if the neglect to bring them was premeditated.

"Since 1899 have you had any conversation with Mr. Dick in regard to some agreement made regarding the supply of coal?"

"I think not. Anything of this nature would be by letter," said Mr. Morrow.

"By whose direction do you decline to produce the letters in reference to such matters?"

"By the direction of the directors of the Dominion Coal Company," was the reply.

"Is there any arrangement in regard to the different collieries supplying different concerns from your personal knowledge?" was asked.

"I have not positive knowledge of that kind. I do not know from Mr. Dick what concerns I am to supply with coal. Most of my orders from him are by letter. I doubt if I have spoken once a year to Mr. Dick about the concerns to be supplied."

Mr. Morrow professed to have little knowledge of such an arrangement. The stipendiary suggested to Mr. Ritchie that witness be approached in regard to a "working agreement."

Mr. Morrow said he knew of no working agreement. Mr. Dick had never told him directly of such an arrangement.

"Have there been times when you have quoted higher prices to some concerns than you would charge ordinarily?"

"Yes, when the season's contracts have been made and we have not had the coal to spare. There might be some cases where, having the coal to sell, the Dominion Coal Company would not sell. Under my instructions from Mr. Dick, I might assume there was an arrangement, but might not know it.

Visitors Find Handsomely Arranged, Attractive Place in Waterloo Street Hall—None Better For Pleasant Evening

The autumn fair of the Every Day Club was opened under auspicious circumstances last evening by His Worship Mayor Bullock. There was a large attendance. The work of decorating and preparing the booths had been completed before the doors were opened. The scene with the elaborate and artistic decorations and very pretty effects was one of great beauty. The booths are all decorated with flags and bunting and all framed with cedar branches, representing the autumn.

Mayor Bullock stated in his address that of the various fairs he had attended this season there was none to equal this one in the beauty of its decorations. His worship paid a high tribute to the Every Day Club and congratulated the president and members on the evident success that had attended their efforts to organize a strong institution of this kind in the city. The Every Day Club was, he believed, the best institution of its kind east of Montreal. He dwelt upon the splendid work that had been done by the men, united together, in such a club, and expressed the hope, in closing, that the fair would prove a financial as it certainly was a great artistic, success.

NEW YORK MEETING MUCH DISTURBED OVER FERRER DEATH

New York, Oct. 19.—Five thousand men and women met tonight in Carnegie hall and shook their fists across seas at King Alfonso and the others whom they hold responsible for the death of Francisco Ferrer who was shot last week at Barcelona as a revolutionist.

"The echo of that shot will shake down every throne in Christendom," declared Charles Edward Russell, chairman of the meeting.

"Now is the time for us to dip our hands in the blood of a martyr and protest against tyranny and absolutism," he continued. "Why does America keep silent at this time?"

Resolutions were adopted declaring that "in the light of all known facts, Ferrer's life was taken because of his unselfish devotion to the work of education and enlightment."

"We denounce the murder of Ferrer and we trust that his memory will stimulate our Spanish brothers to increased efforts to overthrow oppression.

"We further feel deep humiliation at our government's maintenance of diplomatic relations with the Russian and Spanish governments, which have alike proved themselves outside the pale of civilization."

London, Oct. 20.—The Daily Chronicle's Madrid correspondent asserts that owing to the foreign agitation King Alfonso is much dejected. He is suffering from insomnia and is almost a prisoner in the palace, having abandoned his daily outings. Threatening letters in large numbers are being received daily at the palace and at the residences of the ministers.

THE TIVERTON MURDER CASE

Fall River, Mass., Oct. 19—On the partially substantiated theory that Miss Amelia St. Jean, whose mutilated body was found in Tiverton (R. I.), died in the office of "Prof." Frank Hill, in this city, the police authorities tonight stated they had formed the basis of the case which they will press against "Prof." Hill when he is brought into court on Monday next.

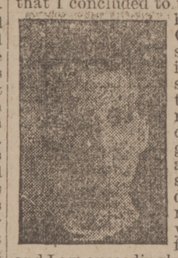

The statement from Police Inspector Medley today, fixing the probable scene of the crime in Hill's office, indicates that the matter is one for Massachusetts jurisdiction principally. It had been thought that the prisoners might have to be extradited by the Rhode Island officials, as the early indications pointed to the commission of the crime in Tiverton. As yet no autopsy has been conducted by the Massachusetts authorities, and Acting City Marshal John Fleet stated tonight that he would suggest the holding of an autopsy here. That held in Tiverton is considered to be wanting in desired information.
