An Unbreakable Set of Teeth

There is a class of patients who do not object to paying a fair price for artificial teeth, if they can really secure comfort, usefulness and naturalness.

I have a set of teeth, such as is unobtainable in any other office in this city, to my knowledge. It is out of the ordinary line and unlike the teeth in general use. Its beauty is at once apparent, and it is practically unbreakable.

It will pay those who are desirous of obtaining the best to be had in the dental line, to call and inspect this for themselves. I will gladly demonstrate its superiority over other plates, even if you have no immediate intention of investing.

To satisfy these the firm promised definitely today to remove their sign. They state that their chief object in placing the sign there was to attract American tourists.

THAT BURIAL GROUND

To the Editor of the Times:

Sir,—Kindly allow me a small space in your valuable paper for a reply to the individual "Fair Play," concerning "Private Burial Grounds."

Sir,—Just a few words to you concerning the bill passed in favor of the Redeemers, moving the remains of some former owners of St. Peter's, from their present resting place to the site in question. It would be advisable for you to look up or find some information as to the primitive condition of St. Peter's grounds and vicinity, before the Rev. fathers took up the laborious task of converting those grounds into their present condition.

On good authority, I can tell you that St. Peter's grounds, were the places of burial, and deposition for the old residents of the north end, possibly our respected ancestors long enough ago to today turn a sod where you will on St. Peter's grounds, and you are liable to come across some of these former remains. Therefore if the residents of Douglas Avenue had taken this into consideration, they probably would not have been put to the inconvenience which the execution of the said bill will undoubtedly put them, according to your assertion.

The Redeemers' Fathers are law-abiding citizens, unsophisticated in their views as they may be, and it would be their remote intentions, as well as the Hazen government, to do anything, which would either mar the esthetic beauty of Douglas Avenue or cause the exodus of its present inhabitants to other parts of our city.

And pray, why has the execution of the said bill in favor of the Redeemers, to do with diphtheria, school board and different other items mentioned in your "Private burial grounds," of last evening's Times. Petition the common council in their next sitting to investigate the sanitary conditions of Bentley street school and thus secure the residents from their contaminating microbes.

Then when the exhuming and deposition of the venerable clergy takes place, if it causes one moment of unrest to any portion of Douglas Avenue, or its residents, then is the time to interfere.

In conclusion I will say there are more antique reminiscences about north end and its residents than were ever dreamt of in your philosophy.

Respectfully yours,
PLAY FAIR.
