

NEWS AND VIEWS OF SPORT

June 16 has practically been decided upon as the date for the meeting in Chicago of the National League's Board of Directors to consider the protest of the Cincinnati club over the game of April 23 with Pittsburgh. President Ebbetts of Brooklyn, Murphy of Chicago, Herrmann of Cincinnati and Dreyfuss of Pittsburgh have all agreed to June 16, and it is thought President Doolittle of Boston will accept the views of the majority of the board. Should the meeting be held on that day the members of the board will be able to witness the ceremony of raising the second world's championship pennant by the Chicago team. Brooklyn will be Chicago's opponent June 16.

Alfred Shrubbs did not meet Longboat at Toronto Monday night. Tom Coley consented to take his place. Though Shrubbs gave one grand performance against St. Yves, his leg was bothering him. It became worse, and he was compelled to retire from the contest on the advice of his physician. Tom Sinnett, manager of Shrubbs, received a wire from him giving the facts. A peculiar fact is that Coley and Longboat have never met. Tom Longboat had no trouble in disposing of Tom Coley in the 25-mile race at Hanlan's Point. The Indian was in fine trim. He led Coley by over a mile when he crossed the line. Longboat's time for the 20 miles was one hour, 55 minutes and 16 seconds.

James J. Jeffries the former heavyweight champion of the world is anxious to have a look at the earth from among the clouds and will therefore make a balloon ascension from Springfield early in June as the guest of Leo Stevens, his aeronaut. Leroy Taylor of New York, who was one of the party to make an ascension with Mr. Stevens in the All-American balloon on Thursday, is a friend of Jeffries. He told Mr. Stevens that the big fighter is very eager to try ballooning and Mr. Stevens, therefore, consented to take Jeff with him on one of his flights.

Hugh Jennings of Detroit is strong for the fans. He says: "It has long been a hobby of mine that the man who comes out to a baseball game with 25, 50 or 75 cents, or maybe \$1 in his pocket, should be given all attention. Treat him as kindly when he is trying to fight his way to a spot to stand in a crowd of 25,000 as if the stands were practically empty, and he had his choice of 1,000 empty seats."

"The average fan is unreasonable or hard to convince. In that big outpouring at Bennett park, a few weeks ago Sunday, the crush was terrific. Just a little argument by our boys on the field served to make everybody give way graciously, and there was no trouble."

Alf. E. Lauder, whose home is in Cal-

gary is only a boy in years, but in knowledge of aerodynamics, materially and theoretically, is wiser than 999 out of 1,000 men. He has studied kites and flying machines of varying devices for years, and has originated some clever ideas, so much so that Alexander Graham Bell, the great experimentalist, has seen fit to commend him for suggestions. Mr. Lauder is working on an experimental flying machine.

Battling Nelson seems to have experienced a change of view as to the probable length of his fight with Hyland on Saturday. When he arrived in San Francisco he told some of his cronies that he would dispose of Hyland in six rounds. When he was informed that a local sportsman stood ready to bet several hundred at even money that Hyland would last twenty-five rounds, Nelson remarked that he was not looking for a bet of that kind. He said he would make a modest wager that Hyland would be on the deck after the thirty-third round, but intimates he was not eager to bet on the length of the fight at all. Nelson was on the road on Sunday, and later took a crack at his favorite game, roko, and then went in for an hour's work at the gymnasium. As usual he boxed with Dick Wheeler and Jeff Perry. It was given out that Nelson weighed 156 pounds.

Hyland is making the weight so easily that Manager Perkins intends to have him slacken off so as not to be at the fighting notch in the advance of the contest. On Sunday Hyland did his last road work, but no change will be made, so far as the gymnasium schedule is concerned.

"Every man who visits the racetrack may mark on his programme, opposite the name of each horse the odds he thinks that horse should be. There is nothing in the anti-betting laws that prohibits such marking. According to a decision of the courts it is permissible to put figures opposite a horse's name and on a separate slip of paper if you so desire." This was the statement made by one of the counsel of the New York Jockey Club at a conference held in August Belmont's down town office.

Manager William J. Clarke, of the Albany baseball team, announced that he had received a check for \$250 from Senator Grady of New York, \$150 of which is to be given at the end of the State League season to the player making the most timely plays throughout the year and the remainder to be divided among the pitchers with the best averages. The Albany team at a meeting today decided not to accept the check, fearing it might involve a violation of the rules of the National Commission.

Billy Papke, the man who bankers after the middle-weight title again has accepted every term suggested by Jimmy Coffroth for a meeting with Ketchel at the Colma open air arena on July 5. Papke admits that he was in the last fight with the Michigan Assassin, and thinks that if given the chance he will win his title back. If Willis Britt is willing there isn't any doubt about Ketchel being anxious. He hasn't any love for the Kewanee man, and wouldn't rest easy if the former claimed the title.

Battling Nelson is still training for Hyland and far from giving up thought to a meeting with McFarland on July 5. He wants Johnny Thompson and Coffroth doesn't. He believes that Coffroth will finally change his mind and Coffroth thinks the same of the Battler. It is up to the manager to insist, the Ketchel-Papke middleweight battle is as good as on.

STERLING WON AMHERST RACE

St. John Runner Was the Victor in an Excellent Five Mile Race on Monday

The Amherst News in its account of an athletic meet held there on Monday says of the five-mile race, which was won by Ernest Stirling, of St. John: "There were thirteen starters, but the pace set by Cameron, of Amherst, and Sterling, of St. John, was too fast for the other competitors and one by one dropped out of the contest, so that long before the race was over there were only five left and Cameron and Stirling had a two-way lead on the remaining three. Stirling and Cameron ran a beautiful race, there was not a foot between them for the whole 28 laps. Unfortunately for Cameron, in the final sprint, he tripped and fell, giving Stirling a gain of several yards. He was quickly to his feet, but the distance was too short for him to retrieve the lost ground and Stirling thus carried off the 'Barker's Cup,' probably the finest trophy offered for any amateur event in these provinces. The time was 28 minutes and 35 seconds."

Stirling is an experienced runner and the splendid showing that Cameron made against him yesterday was highly satisfactory to the latter's many friends."

ENTRIES FOR THE QUEEN'S RINK RACES

Distance Events in Carleton Cornet Band Meet are Well Filled

The following entries for the Carleton Cornet Band races to be held in the Queen's Rink tomorrow night had been received up to last evening:
One mile walk—J. L. Condon and Arthur Rawlins, E. W. C. Burrows, unattached; J. M. Morrow, A. L. Rees, Every Day Club; E. W. King, Y. M. C. A.

Three mile run, for boys under 18—Eric R. Titus, Charles Cromwell, Y. M. C. A.; Alfred Ritchie, E. Steen, Idle Hour Club; W. H. Smith, E. A. Belding, R. Pendleton, Every Day Club; Gordon Holder, St. James' Junior Boys' Club; W. Rostee, Victoria A. A. Club.
Fifteen mile run—E. Stirling, George Stubbs, A. Rees, Every Day Club; Stirling W. Stackhouse, Temple of Honor, E. W. King, John F. Horsman, Y. M. C. A.; Charles Alchorn, Victoria A. A. Club; Samuel Gallet, Every Day Club; F. G. Coward, Fredericton A. A. Club; E. Mc Burrows, unattached.

More entries were expected after this list was made up. There is promise of an exciting evening on the Queen's Rink track.

OLD COMPAGNER

SOLD AT AUCTION

Gloria Disposed of for \$610 at the Fasig-Tipton Horse Sale Yesterday.

Readville, Mass., May 25.—But three horses went under the hammer at today's opening of the annual Fasig-Tipton sales. Va. Ka, 2:23 1/2, owned by the estate of the late Leander B. Peck, of Providence, brought the highest price, \$1,125. Another horse from the same stable, Renen Robinson, brought but \$625. The buyers respectively were William G. Bradley, of New York, and John A. Miller, of Somerville, Gloria, an old campaigner on New England and provincial tracks, with a mark of 2:10 1/4, owned by Frank Fox, of Medford, went but for \$610 to P. J. Allen, of Boston.

A NEW TUG BOAT

Work on the New Tug Boat, Frederick A., Progressing Well at Grand Lake.

L. P. McLean, of the Range, Grand Lake, is making good progress with the new tugboat which he is building for Captain C. D. Wasson, of the tug Frederick A., and others. Captain Wasson reports that the frame work is well commenced. The new tug will be an addition to the river craft of this description and is expected to prove a credit to her designer, Captain C. D. Wasson. Captain Wasson also built the model from which the boat is being constructed. The new tug will be sixty four feet over all, with a beam of seventeen feet three inches. She will be seven feet three inches deep. The length of her keel will be fifty-two feet. The boat will be built of the best timbers procurable as it is the intention of the builders to have a stout, staunch craft able to be used for all purposes. It is intended that the tug will be finished as quickly as possible.

After she is launched she will be brought to the city to be fitted with her engines. The purpose is to take out the engines of the Frederick A., which are especially strong and adapted to towing purposes, and to place them in the new boat. A new boiler is being built by the St. John Iron Works. The Frederick A. will be dismantled and her hull will be sold.

This is the second tug boat that Mr. McLean has built this year. He has just finished a fine boat for Andrew Ruddick and others, which was launched at the Range last week.

WILL NOT OPEN POST

OFFICE ON SUNDAYS

The proprietors of the Royal Hotel have received a communication from the postal authorities in Ottawa declining to grant the petition to have the St. John post office lobby open certain hours on Sunday.

The petition, which was sent to Ottawa about a month ago, set forth the desirability of the Saturday night mail being available on Sundays for business men and hotel guests.

MORE MONEY FOR TEACHERS

A meeting of the teachers' committee of the school board was held last night for the purpose of adjusting the promised increases in salary. These will range all the way from \$20 to \$50 and the list of those entitled to the increase will be laid before the next full meeting of the board.

Architect F. Neil Brodie made formal announcement of calling for tenders for the school house to be built by Bishop Casey at the corner of Brunswick and Erin streets.

J. C. Warwick
J. C. Warwick, a well known blacksmith of Lawrencetown (N. S.), died there on Monday. He was a brother of Mrs. L. D. Chesley of Britain street.

MORRISON GOES

TO JAIL FOR YEAR

Akerley is Freed, But Must Attend Sunday School Church and Revival Meetings.

In the county court yesterday the case of boys Morrison and Akerley, charged with breaking into and stealing from D. B. Pidgeon's store, was finished. Morrison was sentenced to a year in jail and Akerley let go on promising to go home and mend his ways.

In the afternoon the case of the King vs. Daniel Morrison was taken up. County Clerk Ferguson prosecuted and Edmund S. Ritchie defended. Morrison, who is 19 years of age and who hails from 247 Broadway, Cambridge (Mass.), was charged with being an accomplice with Harry Akerley, aged 15, in breaking and entering and stealing money and goods from the store of D. B. Pidgeon, Main street, on the night of May 9. Akerley, who up to two years ago lived in the city, but since then has resided with his parents in Cambridge, pleaded guilty. At the conclusion of the evidence his honor sentenced Morrison to one year in the common jail. Before long Morrison will likely be deported. Akerley was allowed to go back to his parents on the condition that he attend Sunday school and church and also any revival meetings that were held. This the lad promised and took his departure from the court with his uncle.

William Morris and Walter Livingstone, both charged with breaking and entering an I. C. R. box car on the night of May 19, pleaded not guilty. Mr. Ritchie appeared for the prisoners. At the conclusion of the case his honor found both men guilty, but they were allowed their liberty on the condition that they would take the pledge. Morris is to take the pledge before His Lordship Bishop Casey and Livingstone before Father Convers. The men promised to do this and were liberated.

In Morrison's trial Leonard T. Roberts, of D. B. Pidgeon's employ, and Mr. Pidgeon gave evidence.
Scott Scribner, a boy of 12, testified that he was on a scow at the foot of Inlandtown and that Akerley called to him; that he went over and stayed with them for sometime. He saw them some state bread as they said they were hungry. He said he was also with them in the Star line warehouse where Morrison took some candy from a pail, a bottle of pickles and a can of peas.

Cross-examined by Mr. Ritchie the witness said that he knew nothing about the Pidgeon affair.

Fred L. Corey, manager of the Star Line Company, told about catching the boys in the warehouse.

Kendall Hall testified that Akerley came into his store and left a parcel on May 19. Detective Killen told of the arrest and of a confession made by Akerley. Akerley did not implicate Morrison.

Deputy Chief Jenkins corroborated the detective and this closed the evidence for the crown.

For the defence Akerley said that he alone stole the articles, that Morrison knew nothing about the crime.
Under cross-examination by his honor Akerley acknowledged that Morrison was an ex-convict and that he (the witness) ran away from home.

His honor remarked that he believed Akerley was shielding Morrison.
His honor asked Morrison if he desired to make a statement. Morrison answered in the negative. He was found guilty and received the sentence of one year.

The case against Morris and Livingstone was then commenced. Arthur Read, Thos. McGloan and Philip McBride, I. C. R. employees, told of finding the car open and Mr. McGloan told of finding the men asleep in the car. Night Detective Lucas told of arresting the prisoners.

His honor found them guilty and they were allowed their liberty as stated.
The court then adjourned until this morning when the jury case of the King vs. Dominic Kerrigan will be taken up.

EDDIE WELSH WON

Boston, May 25.—Eddie Welsh, of England, outought and outclassed Phil Brock, of Cleveland, Ohio, during 12 rounds of hard fighting in the 133 pound class at the Armory A. A. tonight. In no round did the Ohio boy have any advantage, although he put up a plucky fight and fought hard until the end. Welsh jabbed Brock in the face with a stiff left repeatedly and in the second round sent Brock to the floor three times with the right and left swings to the head. Before the fight was half over Welsh was bleeding profusely from the mouth. Welsh accepted punishment by clever ducking. In the opening round Brock accidentally fouled Welsh, but the latter declared he was not hurt and declared his willingness to continue.

In the semi-finals Jim Flynn, of the West End, had the giant negro, Bob Lee, on the canvas at the end of the first two minutes of fighting.

Young McDougall, of Manchester (N. H.), won a splendid battle against Matt Baker, of Boston. The fight was a hard, slogging match throughout, in which the New Hampshire boy showed cleverness and good hitting ability, and won the match.

Edna Shelvin, of Cambridge, won from Young Redford, of Boston, at the end of the fourth round, the latter's seconds throwing up the sponge.

The spring shad fishing here has been somewhat of a failure so far and it will soon be over. Hundreds of the fish have been taken to supply the local demand. A few salmon are being taken in the harbor but the number so far has been small.

IT WAS REALLY DYSPEPSIA

Though They Thought She Had Heart and Lung Disease.

The case of Mrs. James Russell, of Armstrong's Brook, N.B., is typical of many really suffering from stomach trouble, who think the heart or some other organ is diseased.

She writes: "For years ago I suffered with pain in my heart which would leave me so weak I could scarcely walk; at night I would have to sit up in bed to keep from smothering. I was treated by doctors for heart disease. Then the pain moved to the shoulder and my left arm would be numb at times. Then the doctors treated me for lung disease, but the pain kept getting worse. At last a friend advised me to write Father Morrissey. I did, and the answer I got was I was suffering from dyspepsia. I got medicine, which consisted of a box of tablets. The tablets I took twice, when I was completely cured and have never been troubled since—two years now."

Curing the stomach puts the whole system right, and there is no quicker way to cure Indigestion, Dyspepsia, Heartburn and the other forms of stomach trouble than by taking Father Morrissey's "No. 11" Tablets, 50c. at your dealer's, or from Father Morrissey Medicine Co., Ltd., Chatham, N.B.

A Country Road

A country road is a treasure-box of entertainment for the man with a wheel. It offers a pleasant method of building up his system with exercise taken in sunny, fresh air. It is the ideal modern method of storing up health during our beautiful summer, so that the rigorous winter may find us prepared to meet the heavy call it makes on our resources.

Also the bicycle will take you to and from your work in the city, in comfort, beyond the worry of

crowded, sweaty street cars. The new wheel, the

SILVER RIBBON MASSEY BICYCLE

comes to you this year with many improvements, designed to add more comfort and more pleasure to wheeling.

The Hercules Coaster Brake is the latest and greatest of Coaster Brakes. It has no side arm—can be taken out and replaced in any bicycle in one-third of the time required by the other kind.

St. John, N. B.

HARBOR COMMITTEE DID MUCH BUSINESS

Harbor Transfer Matters Will be Allowed to Stand Until Dr. Pugsley Arrives.

At a meeting of the harbor committee yesterday afternoon, the harbor master submitted a report showing that further dredging could be done in Sand Point to increase the depth to thirty-three feet without injury to the wharves, provided the work was not carried within forty feet of the shore wharves on the south side. The committee informed J. K. Scammon, engineer of the public works department, that the fielding could be put to work there as soon as he could make the necessary arrangements.

The question of the transfer of the properties on the West Side of the harbor was discussed, and it was decided to let the matter be over until the committee had an opportunity of consulting with Hon. William Pugsley. It is understood the department was anxious to secure possession of the 1,600 foot strip as soon as possible, so that dredging at the northern end and the first new berth in the scheme of development south of Sand Point could be proceeded with.

As this area will remain in the possession of the C. P. R. until the transfer to the government is made the committee could give no authority for the work to proceed. Mr. Scammon, however, was authorized to start the dredging on the 400 feet belonging to the city immediately south of the property. With regard to the flats which the C. P. R. wish to acquire in exchange, for the purpose of additional yard room, the committee decided that as there would have to be an understanding with the company as to rights of way and drainage, and as to the date on which the improvements would begin, the transfer could not be advanced further at this stage.

There was considerable discussion over the announcement that A. A. Wilson, K. C., acting for Robert Seeley, trustee for J. F. Seeley and others, intended to apply to Chief Justice Barker on Friday for an injunction to prohibit the Francis Kerr Company from building a wharf on the Charlotte street extension, and for a mandamus to remove the piling already driven in the slip.

The city leased the water lots to the Kerr company last year on an application asking for increased facilities to develop their coal business.

As the city is not at present directly interested in the proceedings it was decided to leave the matter in the hands of the recorder to await developments.

It is understood to be the contention of Mr. Seeley that the proposed wharf, which

REV. MR. DICKIE HOME

He Officiated at the Ordination

of Rev. H. C. Fraser at Grand Falls on Monday

Rev. Gordon Dickie returned to the city last night from Grand Falls where, on Monday evening, at a largely attended service in the Presbyterian church, he ordained Rev. H. C. Fraser. Rev. F. W. Murray addressed the minister and Rev. Gordon Pringle addressed the people.

Rev. Mr. Fraser will remain for the present as ordained minister at Grand Falls, but it is understood the congregation there will ultimately invite him to become their pastor.

Grand Falls, May 25.—The Presbytery of St. John met here last night for the special business of ordaining to the office of the holy ministry H. C. Fraser, M. A., a recent graduate of the Presbyterian College, Halifax.

Rev. Gordon Dickie acted as moderator, conducted public worship, assisted by R. A. Watson, student, and formally received Mr. Fraser for ordination, after which Mr. Fraser was set apart by the laying on of hands, the moderator offering the ordination prayer.

The congregation was then suitably addressed by Rev. Gordon Pringle, and the minister by Rev. F. W. Murray.

The congregation are at present erecting what will be one of the finest manses in the synod. They have an excellent building lot and their manse will be equipped with the most modern heating arrangement and water service. The church and manse site is an unusually suitable one, within sight of the beautiful falls which just now are at their best.

The whole town shows an air of up-to-dateness and prosperity with the development of electrical energy bids fair to be one of the chief manufacturing centres in the eastern provinces.
