tice of motion that admission to the that the increased those at present notion will be de- g of the society. n on Lionel Han- nit those who had t. Allison and St. o take a three ther examination, endment that the prescribed by the

oved by Mr. Bliss, was accepted by the society that the whole matter be left with the council of the society to take into consideration, together with the idea of making the law department, as recognized by the province, a part of and under the control of the University of New Brunswick.

Before adjourning, the attorney-general announced that in a short time it would be announced when the judicature act would be brought into force. There had been some little delay in the matter of printing indexes, etc. In a short time he would have a consultation with the chief justice regarding the most convenient time of bringing the act into force. The attorney-general said that he felt safe in saying, however, that the act would come into effect either in the spring or early summer. He felt that the profession should be given a certain time to look into the new practice before the same was brought into operation.

The meeting then adjourned.

In the trial debate at Dalhousie last night to select a team for the debate with U. N. B., the subject was "Resolved that the House of Lords should be abolished." The subject will be the same when the New Brunswick and Nova Scotia Colleges meet. The men chosen for Dalhousie were J. P. MacIntosh, J. C. McLellan and D. Vain.

THE NORTH COUNTRIE

Oh, fair grow the gowans and green, green the trees
Where southland waters wander still and sleepy to the seas,
And at hame on brim black peat-hags the mist crawls, drearilie
And the spates are up and cryin' in the North Countrie.

Ye may wander by the waters in shade o' leafy trees,
And dream the lang, lang summer's day to drowsy dronin' bees;
I'd liefer be in Clova when wind and rain lash free
And the gray mists fill the corries in the North Countrie.

E'en tho' it should be winter and summer days were by,
And white beneath a pit-mark lift the snaw-wreaths risin' high,
I'd thole the nip o' frost-bite and cauld right cheerilie
Where the north wind whirls the snaw-drifts in the North Countrie.

But I'll win yet to Clova, when the sun breaks thro' the rain,
And smell the heather honey and wet birk trees again,
And see the great green hillsides in the land where I would be
Where whaups are whistlin' clearly in the North Countrie.
—O. Stewart in the "Odd Volume."

IN LIGHTER VEIN

REAL CLEVERNESS.

A man is really clever if he can make you like an old story when he tells it.—Chicago Record Herald.

EVANESCENT GLORY.

How quickly fame and honor flit!
You may be loudly hailed today
And in a week or two be hissed,
If you have left no debts to pay.
—S. E. Kiser in Chicago Record-Herald.

DOMESTIC.

"Name the domestic animals" asked the teacher one afternoon, when she was giving her small pupils a quiz.

Philip frowned, sucked his pencil, and then manfully did as he was told.

"The cat, the dog, and the hired girl," he wrote in his big, round hand.

PLAYING SAFE.

"Written it 1910 yet"

"No; I'm leaving the year blank until I'm sure of myself."—Newark Star.

CACKLES.

Mary had a little hen
That laid an egg each day,
And thus it is that some will work
While some will loaf and play.
—Baltimore Sun.

HELPFUL.

Husband—"Have you done your best to economise this month, Mary, as I requested'' ?

Wife—"Oh, yes; I spoke to the grocer, the butcher, and the landlord, and got them to put off presenting their bills until next month."

THE WINTRY SETTING.

The world's a stage, as poets past
Have said. And this is likewise sure;
Although it keeps the self-same cast,
The scenery, just now, is poor.
—Washington Star.

UNCLE EZRA SAYS:

"Waitin' fur dead men's shoes has put many a man on his uppers."—Boston Herald.

IN A BOOK STORE.

The young man who said he'd never eaten any to somebody who asked him if he liked Trollope was outdone the other day in a New York book store. A girl of seventeen came in and asked the clerk for Prometheus, "by a man named Kelley or Sheets, or something like that." "Oh," said the clerk "Shelley's 'Prometheus Unbound'?" "Yes," replied the girl, "that's it. But, if you please, I'd rather have it bound. It's so easy to lose the pages, you know, if it isn't."—New York Sun.

CAMERA COURTSHIP.

She gave him a cabinet photo,
He gazed for a moment or two,
Then pleaded, 'Sweetheart, won't you give me
The lovely original, too?"

"If you're positive, dear, you love me."
She said, through a film of tears,
"A negative I cannot give you—
I'm yours to the end of our years."

So the courtship was quick to develop,
Their marriage was fixed up in town,
And now in a middle-class suburb
She is steadily toning him down.
—Judge.

HIS SHIP.

(S. E. Kiser in Chicago Record-Herald.)
"My ship," he said, "will come some day,
With riches in its hold for me."
He let his best years drift away,
What time he watched beside the sea.

When age had made him blind and weak
He wondered at the long delay;
The reason was not ar to seek;
He'd never sent a ship away.

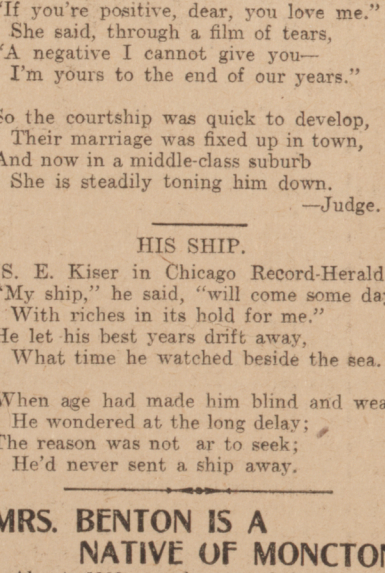

MRS. BENTON IS A NATIVE OF MONCTON

About 1100 people attended the 25th wedding anniversary of Col. and Mrs. Everett C. Benton at their home, The Belmont, on Oakley road, Belmont, Mass., on Monday evening. Col and Mrs. Benton received in the southwest parlors from 8 to 10 o'clock.

The Masonic friends of Col. Benton in St. Bernard commandery, Knights Templar presented to the couple a butterfly clock, an exact duplicate of one sent to America 150 years ago.

Col. and Mrs. Benton were married in Somerville Jan. 24, 1885, by the Rev. Pitt Dillingham, and since that time have resided in Belmont. Mrs. Benton was Willene Rogers, daughter of Mr. and Mrs. Samuel T. Rogers of Moncton, N. B. There were seven children, six of whom are now alive. They are Jay R. Benton, Charles E. Benton, Blanche A. Benton, Dorothy Benton, Hannah S. Benton and Josiah H. Benton.

Col. Benton is a prominent member of the Masonic fraternity.

CERTAINLY ENDS KIDNEY TROUBLE

Backache, Kidney Disorder and All Misery from the Bladder

Hundreds of folks here are needlessly miserable and worried because of out-of-order kidneys, backache or bladder trouble.

If you will take several doses of Pape's Diuretic all misery from a lame back, rheumatism, painful stitches, inflamed or swollen eyelids, nervous headache, irritability, dizziness, wornout, sick feeling and other symptoms of overworked or deranged kidneys will vanish.

Uncontrollable, smarting, frequent urination (especially at night) and all bladder misery ends.

This unusual preparation goes at once to the disordered kidneys, bladder and urinary system, and distributes its healing, cleansing and vitalizing influence directly upon the organs and glands effected, and completes the cure before you realize it.

The moment you suspect any kidney or urinary disorder, or feel rheumatism coming, begin taking this harmless medicine, with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a fifty-cent treatment of Pape's Diuretic, which any druggist can supply.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Only curative results can come from taking Pape's Diuretic, and a few days' treatment means clean, active, healthy kidneys, bladder and urinary organs—and you feel fine.

Accept only Pape's Diuretic—fifty-cent treatment— from any drug store—anywhere in the world.

The St. John Railway Co., chimney at the corner of St. James and Wentworth streets, is being razed, the company intending to use the place for a machine shop. Ald. Sproul has the contract for the removal of the chimney which was 125 feet in height.

When a millionaire points out the road to riches he invariably designates one that leads away from his own private hunting grounds.

Andrew Ferguson and Chas. Nevins, the two young Scotchmen, who came out on the steamer Athenia as stowaways, will be deported.

SIMULTANEOUS EVANGELISTIC MEETINGS

Have you considered the importance of this campaign of evangelism ?

It has not been carelessly devised by flippant men.

It is not a new form of entertainment for reluctant church goers.

It is not the cheap and silly imitation of the latest fad in church work.

It is not a novel and desperate effort of the churches to gain recruits for declining ranks.

It is not a wholesale offer of a false and pernicious short-cut to christian culture.

A campaign so devised would deserve the cordial condemnation it would receive.

But, we believe that the universe has a meaning, that life has a purpose, that there is a work of eternal worth for man to do.

We believe that the meaning and the purpose and the work are made manifest in Jesus.

We know that we have not yet learned to order our lives by His Spirit.

We have not established the Father's rule in St. John.

But we believe that such a society is the ultimate end of life.

We know, moreover, that there are people in this city who are humbly seeking to follow the leadership of Jesus.

We believe that the opportunity and the challenge of such discipleship should be impressively placed before every responsible person in the community.

That is the purpose of the campaign.

"Who With a Body Filled and Vacant Mind Gets Him to Rest, Crammed With Distressfull Bread."

Shakespeare in King Richard V.

"Distressful Bread"—How apt the term of the immortal bard of Stratford-on-Avon.

BUTTERNUT BREAD comes to emancipate you from "Distressful Bread". It comes to exchange impoverished bread for a bread full of nourishing qualities. It comes with a flavor as delightful as the flavor of crushed nuts.

A favorite bread because it is a Flavor-right Bread.

Beware of Imitations—Examine the Label.

Christmas Flowers

Very choice Roses, Carnations, Narcissus, Violets, Lillies, Hyacinths, Swansonia, &c.

Also fine plants in bloom, suitable for Xmas Presents.

Holly and Mistletoe.

COLLAR BUTTONS OF CHEESE

An Austrian chemist, Dr. Ziru, has invented a process whereby casein—the essential element of cheese and butter—may be soldified and shaped into various articles that are now being made of celluloid. It is claimed that the new product possesses many advantages over celluloid. It is not inflammable, so that the danger of fire sometimes encountered in the use of articles made of celluloid is eliminated. The new industry is now being leveloped at Surgeres, one of the great centres for the manufacture of butter and cheese.
