RELIGIOUS CONFLICTS BREAK OUT AGAIN

More Than Fifty Deaths So Far — Earthquake in France—German Visit of Political Significance

St. Petersburg, Jan. 25—The religious conflicts at Bokhara between the Sunnites and Shiahs, were renewed today. The merchants made an effort to resume business this morning but at noon the Sunnites began their attacks, declaring their intention not to desist so long as a single official of Persian origin remains in office.

Even the arrival of a company of Russian Cossacks proved ineffectual to restore order. The massacre of Persians continues unchecked. At least 50 persons have been killed and many times that number wounded. The disorders arose in consequence of an insult offered at a Persian service by a Mohammedan Mollah. The Persians maltreated the Mollah and the latter's supporters began a massacre.

Paris, Jan. 25—A violent earth shock is reported to have occurred today at Ruelle, in the department of Charonte. The movement lasted three seconds and came from the southeast.

Berlin, Jan. 25—An event regarded as having a political meaning occurred here today when the emperor and empress, Crown Prince Frederick William and the crown princess, Prince Henry of Prussia and some twenty other German royal personages spent the evening at the French embassy. They were entertained with striking examples of French dramatic and operatic art. This is the first time the emperor has visited the French embassy since the period of the Algeciras conference and is the first visit there of the empress since she was crown princess.

"Caught Cold."

Had a Distressing, Tickling Sensation In The Throat.

Mr. Albert MacPhee, Chignecto Mines, N.S., writes: "In Oct., 1908, I caught cold by working in water, and had a very bad cough and that distressing, tickling sensation in my throat so that I could not sleep at night, and my lungs were so very sore I had to give up work. Our doctor gave me medicine but it did me no good so I got a bottle of Dr. Wood's Norway Pine Syrup and by the time I had used two bottles I was entirely cured. I am always recommending it to my friends."

Dr. Wood's Norway Pine Syrup combines the potent healing virtues of the Norway pine tree with other absorbent, expectorant and soothing medicines of recognized worth and is absolutely harmless, prompt and safe for the cure of Coughs, Colds, Bronchitis, Croup, Sore Throat, Pain or Tightness in the Chest, and all Throat and Lung Troubles.

There are many imitations of "Dr. Wood's" so be sure and get the genuine when you ask for it.

Put up in a yellow wrapper; three pine trees the trade mark; price 25 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

CAPTURE DUE TO WIT OF WOMAN

Keeps Deceiver at 'Phone While Detectives Rush to Arrest Him

Had Stolen Her Diamonds--Giese Tried to Shoot Himself When Caught — Had Been "Flying High" He Said—Jewels Recovered

New York, Jan. 26—The resourcefulness of a woman deceived by the man she believed she was to marry her, effected the capture yesterday, of Frank A. Giese, wanted in Chicago and New York for forgeries, just before he had time to blow out his brains. He had robbed Mrs. Frieda Sommers of $10,000 worth of diamonds.

Giese spent the evening with Mrs. Sommers and with their supper in her apartments, they had a bottle of champagne, Giese, according to Mrs. Sommers, raised his glass in a toast and said, laughingly: Take off those diamonds, they're so bright they make me dizzy."

"They'll be just as bright on the table as on my neck," protested Mrs. Sommers, spreading them out before him.

"That's true," admitted Giese: "put them in this," and he drew a small chamois bag from an inner pocket and tossed it across to her. Mrs. Sommers placed the diamonds in the bag and laid it on her dressing table. It was there this morning, or one like it, but the diamonds had gone.

At the discovery of her loss Mrs. Sommers went into hysterics and the appearance of two detectives who had been shadowing Giese did not reassure her. At that moment, Giese called her on the telephone He told her he was buying a $275 fur coat and the detectives rushed to the shop named. Meanwhile Mrs. Sommers kept him hanging to the other end of the wire until he was caught.

When placed under arrest Giese tried to shoot himself with a ten-shot automatic pistol, but the detectives were too quick for him. They found another revolver in his hotel room, loaded and full cocked. "I always kept ready to go," Giese told them. "I knew it couldn't last long, but it has been high flying while it did."

The diamonds were recovered and identified.

THE DEADLOCK IN THE BRITISH ELECTIONS

Speculation As to What Will Be the Outcome of it All — Parliament February 15

London, Jan. 25—The elections will continue throughout the week, but the chances of the Unionists obtaining a majority, or of the Liberals securing enough seats to render them independent of the Laborites and Nationalists, have now disappeared and it becomes a most interesting question as to how the Liberal government is going to meet the difficulties before it.

The air is full of suggestions of compromise, but nothing is likely to be decided until the prime minister calls a meeting of the cabinet next week for a preliminary discussion of the terms of the royal speech for the opening of the new parliament.

Various measures are expected to be promised in the king's speech, including Welsh disestablishment, unemployment insurance and the veto of the house of lords. The veto question will be the first to be taken up after the address in reply to the king's speech is disposed of.

The king will open parliament with full state ceremony, Feb. 15. Queen Alexandra will accompany him.

According to a rumor from a reliable source tonight Premier Asquith's present idea is only to propose that the house of lords be deprived of the power of vetoing finance bills, but it is practically certain such a restricted measure will not satisfy the Nationalists, to say nothing of the Radicals, and unless the government propose to limit the lords' veto on all legislation, it is exceedingly likely there will be a split in the Liberal ranks.

Chancellor Lloyd-George, speaking at Stourbridge tonight, seemed to have some notion of this kind in his mind. He said the election had been won by a bold, strong policy and if the Liberal leaders now listened to the counsels of timidity and faint-heartedness, the democracy would be disgusted and abandon them.

London, Jan. 25—(Special)—The following are today's election results:

Lanarkshire (Partick)—Balfour, Liberal, 10,093; Maconachie, Unionist, 9,522.

Govan—Hunter, Liberal, 6,558; Duncan, Unionist, 5,128; Brownlie, Labor, 3,543.

Yorkshire West (Morley)—France, Liberal, 8,026; Charlesworth, Unionist, 3,395; Smith, Labor, 2,191.

Yorkshire (Normanton)—Hall, Labor, 9,170; Bartlett, Unionist, 3,540.

Stirling Burghs—Ponsonby, Liberal, 4,471; Patrick, Unionist, 2,419.

Lanarkshire (NW)—Pringle, Liberal, 8,422; Thomson, Unionist, 7,528; Small, Labor, 1,718.

Renfrewshire—Gilmour, Unionist, 9,645; Laidlaw, Liberal, 8,771.

Leicester (Loughborough)—Levy, Liberal, 6,760; Carrington, Unionist, 6,007.

Monmouth (West)—Richards, Labor, 13,295; Cameron, Unionist, 3,075.

London, Jan. 25—Austen Chamberlain, for Worcestershire East, and Sir A. F. Acland-Hood for the west division of Somersetshire, the chief Unionist whip, are among the more prominent tariff reformers whose elections by increased majorities were announced today.

The Unionists also succeeded in making inroads upon the Nationalist phalanx, capturing Mid Tyrone where a Healeyite and a Redmondite candidate divided the Nationalist vote.

HALIFAX AMATEURS SING ROBIN HOOD

Halifax, N. S. Jan. 25—The Orpheus Club gave their first performance of De Koven's opera Robin Hood tonight before a large audience. The opera will be continued all the week and he house is practically sold out. The performance was very artistic and went almost without a hitch. The chorus, orchestra and principals number more than eighty.

NO LIQUOR INTO PLACES PROHIBITED

Canadian Senate Considers Bill Regulating Action of Companies

Sir Wilfrid, in Commons, Moves for Committee to Investigate Charges Made by Lumsden—Inquiry into the Cost of Living in Canada

Ottawa, Jan. 25—(Special)—Hon. R. W. Scott introduced a bill in the senate today to regulate the transportation of intoxicating liquors, which forbids any transportation company or individual to carry liquor into any province, county, city or municipality which has declared for prohibition for use in such a place.

An exception is made allowing an individual himself to bring in liquor to the amount of five gallons for his own use. There is another exception in favor of provinces to enable liquor to be taken in for sale under medical prescriptions or for industrial purposes.

Ottawa, Jan. 25.—Sir Wilfrid Laurier today moved a resolution for the appointment of a committee to investigate the aspersions on National Transcontinental engineers made by Mr. Lumsden, the chief engineer of the commission, in his letter of resignation.

The prime minister, by his action, gave another evidence of his determination to have a clean administration of all departments of the government and to have either cleared or condemned, according to their deserts, those against whom charges have been made.

The classifications on two sections of the National Transcontinental are involved in the charges and these will be thoroughly sifted by a competent committee.

The opposition affected to see indications that the investigation was not going to be full enough to suit them and objected to a committee of five, claiming that seven would be a more suitable number.

The resolution was debated throughout the sitting and will be continued on the next government day.

One of the notable declarations of the debate was made by Hon. Mr. Graham, minister of railways, who declared that instead of resigning himself, Mr. Lumsden should have investigated the work of the engineers, in whom he declared that he had lost confidence and if they had not done their duty he should have made them resign.

Ottawa, Jan. 25.—Investigations into the cost of living in Canada are being made under the direction of Hon. Sydney Fisher, minister of agriculture, and of Hon. Mackenzie King, minister of labor.

The investigation by Hon. Mr. Fisher will be confined to an inquiry into the prices of food and the abnormal increase which has taken place in recent years in the price which the householder has to pay for farm produce, without an increase of similar proportion in the price which the farmer receives for his produce.

The department of agriculture will include in its investigation an inquiry as to whether the rise in the price of such commodities as butter, eggs, meats and bread are in any way due to combine influence or to middlemen independently of any combine influence.

The investigation will disclose whether it will be desirable to take any action under the combines bill, which is now before parliament.

The investigation by the labor department will go into all details of the cost of living, dealing with wages, raw material, finished products and wholesale and retail prices, as well as rents.

Toronto, Jan. 25—The opening of the Ontario legislature today was attended with the usual ceremonies. Lieut. Governor Gibson driving to the parliament buildings accompanied by an escort of the Royal Canadian Dragoons.

The most interesting matter in the speech was that the dominion government should be asked to institute an inquiry into the high price of food.

FIVE MORE BODIES

Montreal Jan. 25—Word was received at the C. P. R. offices this afternoon that five more bodies had been taken from the Spanish River. Two of these have been reported as missing so that the total number of victims is now placed at forty. The bodies recovered yesterday were:

Frank Morrison, going from Frankham (?) to Ekoba (Ont.) No such place as Frankham (Ont.), is known, but the company is endeavoring to locate it under the impression that it may be Frankville or Franklin.

Dr. McLelland, veterinary surgeon, of Sudbury (Ont.)

Charles Carey, airbrake inspector of Montreal. His wife and family are now in Toronto, and the body is being sent to that city.

C. J. Pucant, travelling from Ottawa to Rhinelander.

Palpitation of the Heart.

One of the first danger signals that announce something wrong with the heart is the irregular or violent throb. Often there is only a fluttering sensation, or an "all gone" sinking feeling; or, again, there may be a most violent beating, with flushings of the skin, and visable pulsations of the arteries.

There may also be experienced a smothering sensation, gasping for breath, and feeling as though about to die.

In all such cases the action of Milburn's Heart and Nerve Pills in quieting the heart and restoring it to its normal beat, is, beyond all question marvellous, as our thousands of testimonials will show.

Mrs. Martha Mason, Marlbank, Ont., writes:—"Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I have been troubled with weakness and palpitation of the heart, would have severe choking spells and could scarcely lie down at all. I tried many remedies but got none to answer my case like your pills did. I can recommend them highly to all with heart or nerve trouble."

Price, 50 cents per box, or 3 boxes for $1.25 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

REV. J. A. GORDON TAKES HAND IN THE ELECTIONS

Free Montreal from Clutch of Vampires, Says Former St. John Clergyman — Issue a Moral One

(Montreal Herald)

"The issue before the citizens of Montreal today is not a matter of man or their respective merits, but a question of choice between lawlessness and law, honesty and dishonesty, the "23" or the men who stand for them and the men who have sworn to give the city an honest administration and who have already given us confidence in the value of their promises."

In a powerful sermon the Rev. J. A. Gordon, of the First Baptist Church, Sherbrooke street, last evening, made a strong arraignment of the past administration of the city and predicted the consequences of voting for other than the candidates of the Citizens' Committee. Mr. Gordon said the issue was a moral one not a question of persons. He made a stirring appeal to his audience to see that their votes were cast against those men who had made Montreal a national disgrace.

"If you have a vote to cast go and cast it. If you are not for the candidates of honest government you are against it, wrong condoned involves responsibility for the consequences. If these vampires the '23' get back into power your's will be the responsibility for the results.

"Take the city out of the control of these vampires and put it in the hands of honest men. The men to vote for are the candidates chosen by the Citizens' Committee. There may be good men opposing them, but whoever is against them is for the infamous '23' and their lawlessness. The better men they are and the bigger their reputation, the more will they help the grafters to take up their reign at the City Hall once more.

"Can we expect men who have themselves broken the laws to make and enforce them?"

"If the next civic administration is the most iniquitious that ever inhabited the City Hall your's will be the blame.

What Grafters Want

"What the grafters of the last administration want you to do is to pass a vote of confidence in them, to throw aside the findings of Judge Cannon and reinstate them as honest citizens. If you vote for the opponents of the citizens candidates you will grant them their wish.

'It fills me with indignation when I look at Montreal, to see how her civic affairs have been run and how they will likely be run if we open the door for the same administrators to come back.

"We are laughed to scorn by the tourists who come from the well-kept cities of the United States when they see our filthy streets, badly lit and badly kept. They wonder that a city of such size could be so badly governed.

"The trouble has been that the people of Monteral have been so preoccupied making money that they were blind to the state in which the city was.

"Last September for the first time they were aroused to the true state of affairs, and by the referendum decided for a change and an investigation."

Black Plague Threatens

Dr. Gordon compared the city of Montreal to a sick man. Judge Cannon had been the doctor, had diagnosed the case, and given a prescription.

"We have heard a lot of the white plague in our city, and the efforts being made to stamp it out, but what of the black plague that is threatening our city's progress? Judge Cannon found the city dying from lawlessness, and eight of our aldermen in the last stages of the disease. His report was what roused the people of Montreal from their lethargy to the truly awful state of affairs.

"Last September, you voted for a clean house, are you going to leave the door open for a renewal of the same conditions!".

"You have given your expression of opinion by the referendum and have been told of the state the city was in, are you going to let the vampires come back?

"The responsibility rests with you and the consequences of your votes on the 1st of February will be on your heads and the heads of your children. If Montreal remains one of the most lawles cities in Canada it will be your fault. You have the opportunity to make it one of the best and see that you take advantage of it."

Some people are too honest to take advice they haven't paid for, and others are too wise.

WITH THE SOCIETIES

The installation of officers of Branch No. 133 of the Royal Arcanum was held in the Oddfellows' hall, Union street, last evening. In connection with the installation a very enjoyable smoking concert was carried out. The installation was of a public nature and there was over 100 in attendance. Addresses of an inspiring nature were given by leading citizens, including Ald. J. H. Frink and D. McArthur, who spoke on civic affairs.

ANOTHER ITALIAN MURDER CASE

Toronto, Jan. 25—(Special)—In a drunken row at Grafton today, George Meronto got into an Italian boarding house and shot Frank Marino, the foreman, dead, with a Winchester rifle, besides wounding two other Italians, one probably fatally.

The murderer, still carrying the rifle, ran away and got into the woods near Colborne, but was pluckily followed and arrested by constables. The quarrel took place among laborers employed on the Canadian Northern construction.

Kingston, Ont., Jan. 25—(Special)—Prof. William L. Grant, M. A., (Oxon), will be the new professor of Canadian and Colonial History to be established at Queen's. Mr. Grant is a son of the late Principal Grant.

Fallacies About Health

Fuller Knowledge of the Body Needed.

Thousands of useful lives are yearly sacrificed just because people lack knowledge of simple things about the body.

We must remember that little failures of the stomach, kidneys, or liver bring about lack of nutrition. At first the body bends before its burden, but finally it breaks down.

Health depends upon unity of action between all the organs, and in no way can it be secured more satisfactorily than by the use of Dr. Hamilton's Pills. From the blood they remove every impurity,—to the stomach they impart digestive power, to the bowels they ensure painless and thorough action.

It is easy to see how quickly Dr. Hamilton's Pills will restore health, how surely the system will rebuild, gain strength and endurance. For general family use in the cure of languor, headaches, weak stomach, backache and kidney complaint no medicine ranks with Dr. Hamilton's Pills; they will make you look and feel always your best. Refuse any substitute for Dr. Hamilton's Pills; 25c. per box, all dealers, or The Catarrhozone Co., Kingston, Canada.
