THIS MORNING'S NEWS.

CANADA.

An explosion of chemicals in the laboratory of the Central Experimental Farm at Ottawa on Monday destroyed the laboratory building, involving a loss of $4,000.

The Peary expedition will sail from Sydney, C. B., on July 14th, the whaler Hope having been chartered at St. John's, Nfld., to convey the party to Greenland.

GREAT BRITAIN.

Sir Hercules Robinson, governor of Cape Colony and British High Commissioner in South Africa, has been elevated to the peerage.

The House of Commons by a vote of 275 to 19 rejected an amendment by Mr. Morley protesting against a government proposal that the Indian government should bear the cost of the Indian troops sent to the Soudan to participate in the Nile expedition against the dervishes.

UNITED STATES.

Daniel D. Youmans, the well-known Broadway (New York) hatter, and his wife were drowned in a lake near Bergen, Norway, on Saturday while driving along a carriage road at the side of the lake.

The fifty-second annual convention of the Sons of Temperance of North America is in session at Washington. Most Worthy Scribe Jewell reported a loss of members during the year of 7.567, the total membership now being 52,163.

FOREIGN.

Severe shocks of earthquake have occurred throughout the Island of Cyprus, and inhabitants of the towns of Limesal and Carnaca have deserted their houses and taken refuge in the open fields, where they are living in tents.

MINOR LOCAL MATTERS.

A stone retaining wall owned by Count de Bury, on Harrison street, fell out on Monday over the street.

Martin Ring, of Carleton, was injured slightly on Monday by falling from a load of lumber on North Rodney wharf.

The Grammar School boys, at a meeting held on Monday evening, appointed committees to make arrangements for the summer camp at Upper Westfield, to be held next week. The camp this year will not conform so much to military rules, but will be run more on social lines. The teachers will have supervision over the discipline of the camp.

The Salvage Corps and Fire Police held their regular monthly meeting on Monday night and passed a resolution of regret at the death of Sydney W. Dinsmore, one of its members, and of sympathy with his parents in their affliction. Mr. John I. Robinson was elected foreman of No. 3 district. A resolution calling for a more strict enforcement of the by laws was adopted.

Rev. Mr. Campbell announced at the close of last evening's service that his church had given him a month's leave of absence, during which he hoped his voice would be fully restored. He also spoke warmly of the many marks of kindness he had received from the congregation since he came to the city. During the pastor's absence Rev. Mr. Lodge with the board of management will arrange for supplying the pulpit and other services.—*Charlottetown Guardian.*

Mr. James Patterson, of South Wharf, has received a prize from the World's Fair commissioners for the exhibit sent to Chicago in 1892. The diploma is a fine steel engraving and is awarded for an exhibit of pickled herring and shad, "for the clearness and strength of pickle and excellent qualities of the article." There is also a medal of bronze in an aluminum case, bearing allegorical figures commemorative of the Columbian Exhibition.

FROM THE WEST INDIES.

S. S. Taymouth Castle, Captain Forbes, arrived on Monday evening from the West Indies with 1,600 tons of cargo and a large passenger list. She left Bermuda on the evening of the 2nd and had very fine weather all the way up. The passenger list is as follows:

From Bermuda—Mrs. W. E. Talbot, jr., and Miss Talbot, for Halifax; Miss E Walker, Miss Rosalie Wattington, Mrs. Hilton A. Pitt, two children and nurse, for Wolfville; Rev. and Mrs. T D. Trenington, Kenneth and Eldon Trenington and Mrs. Trenington's nurse; Lieut. Whitton, 2nd Leinster Regiment, and Mr. Rowe, R. N., for England; Mrs. W. Easton, Misses Mabel, Carrie, Kittie and Vera Easton, Master Archie Easton, for the United States; Miss Grantham, Misses Mary and Beatrice Fraser, Mrs. Kendrick and child, for Halifax; Wm. Bradley, for Halifax; Willie Fraser, for Sackville; H. B. Powell and F. E. Harriott, for Halifax.

From Demerara—Rev. Mr. Rea, Rev. Mr. Smith, Mr. McLeod and Mr. Boswright.

From Trinidad—Lee Lun, wife and child, and Lee Cang, wife and five children, for Hong Kong.

ARTISTIC ENTERTAINMENTS.

Of the Grecian Art Tableaux Company, which is shortly to appear in the Institute under the auspices of the W. C. T. U., the American papers speak in terms of the highest praise.

The company contains a large number of trained artists who interpret scenes and episodes in history and mythology in a wonderful, beautiful and realistic manner. Mrs. Elizabeth Flower Willis, who designed and arranged the groupings and posings, is a brilliant elocutionist and impersonator, and the illustrated songs and readings with the grand effects produced by the calcium light and the added charm of the musical accompaniment, make up an entertainment which is certainly unique and delightful—the work of undoubted genius.

All lovers of the refined, the beautiful and artistic will be charmed with this entertainment.

FOR NEW-BORN INFANTS, USE ONLY LACTATED FOOD.

When it is found impossible for the mother to nurse her infant, it should be remembered that Lactated Food is a perfect substitute for mother's milk, and in very many cases can be used with great safety.

When Lactated Food is regularly used, infants are always free from the prevailing hot weather plagues, such as cholera infantum and diarrhœa. Lactated food makes the baby happy, hearty and vigorous. Give Lactated Food a fair trial during the hot weather, and protect your dear one.

MAN, AN UNGRATEFUL ANIMAL.

As a race we succeed in showing a good deal of dissatisfaction with the weather, and grumble a great deal about it. In summer we're too hot, in winter too cold, and during bright spring days we complain that it won't last long. The great secret for doing away with all complaint is to dress appropriately. In summer, don't dress, wear a neglige suit and watch your neighbor work. You'll be cooler than if you worked yourself. But in winter that's different, indulge in all the active work you can find, but instead of burdening yourself with a number of garments, have your outer coats interlined with Fibre Chamois. It will keep out all wind, rain and frost and yet is inexpensive and so light in weight that you don't feel its presence.

HIS NINTH DIVORCE.

A special to the Cincinnati *Tribune* from Laporte, Ind., states that Alexander Rhimes, Indiana's much-married benedict, has returned to Fulton county to prosecute a suit for his ninth divorce, he being credited with having that number of wives.

He married his first wife in 1876, since which time divorces and marriages have been almost of annual occurrence.

His career is said to be without a parallel in the Indiana courts. All of his wives are living.

Y. M. C. A. CONVENTION.

The following circular has been issued by the Maritime Committee:

TRURO. N. S., July 6th, 1896.

To the Maritime Young Men's Christian Associations:

The Twenty-ninth Annual Maritime Convention will be held in Pictou, Nova Scotia, August 6-9, 1896.

A hearty invitation is extended to all members of the college, railroad and city Young Men's Christian Associations to be present and participate in the work and enjoyment of the convention. Representatives from boys' branches and women's auxiliaries are also invited. The committee will issue no posters and will depend upon the associations to make the representation to, and the spirit at, the convention the best we have ever had. Associations will be entitled to the usual number of representatives, and are urged to elect these at once. The securing of others to come to the gathering who are in sympathy with our efforts for young men, will be left largely in the hands of the officers and members of the local associations.

THE PICTOU ASSOCIATION

has thrown open its doors and will give a "royal Pictou county welcome" to all who come. Regularly accredited delegates whose names reach the secretary, Frank MacQuarrie, before Aug. 1 will be entertained as the guests of the Pictou association. Concessions on railroads, steamboats and hotels will be secured, of which further notice will be given in the next issue of "The Lever."

The helpers of whose presence we are assured are: Fred S. Goodman, State Secretary of New York, who will have charge of the Bible Study; L. Wilbur Messer, General Secretary Chicago Association, who will, with the assistance of Capt. Winn, of the Royal Engineers, Halifax, give an illustrated lecture on the Association Buildings of the World; J. T. Bowne, Superintendent International Y. M. C. A. Training School, Springfield, Mass., who will have charge of the "Quiet Hour" and the questions, Full programmes will reach you soon as possible.

GATHERING OF THE LEADERS.

It is the desire of the committee that whatever the size of the convention it shall be a gathering of the leaders in this work for young men. We want not the largest, but the strongest and most helpful gathering we have ever convened in these Lower Provinces

To this end we need the aid of the Holy Spirit. It is utterly vain for us to plan or to gather unless He be in all. Associations and workers are therefore asked to frequently remember the convention in their meetings for prayer. We recommend that Sunday, Aug. 2d, be observed as a day of special prayer for the outpouring of the Holy Spirit upon the delegates and the work, and suggest that the pastors be asked to unite with you in this request, in their regular services.

The "Secretarial Institute" for Bible Study, Study of Association Work, Social Problems and Physical Development will meet for three days succeeding the convention. J. T. Bowne will superintend it. All young men who are looking forward to Association work as their life work, or who desire better training in the Bible or Association work, are cordially invited to stay to this "feast after the feast."

PLAN FOR THE FUTURE.

Each association is asked to come to the convention in the person of their representatives ready to present a two minute report of last year's work; to plan for the future, and pledge such an amount toward the general work as the growing need demands.

Please remember:—That in this convention the Maritime Committee are leaving the large share of the work of securing attendance and making the gathering truly a "gathering together with Him," in the hands and on the hearts of the Local Association.

Faithfully yours in His work,

THE MARITIME COMMITTEE,
J. C. MACKINTOSH, Halifax, Chairman.
J D. MACKAY, Truro, Secretary.
W. D. MCCALLUM, Truro, Treasurer.
FRASER G. MARSHALL, Maritime Secretary.

S. OF T. INSTALLATION.

The officers of Gordon Division, No. 275, Sons of Temperance, were installed Monday evening by G. W. P. Maxwell and D. G. W. P. Lawson as follows:

John Law, W. P.
S. P. McCavour, W. A.
J. B. Allan, Rec. Sec.
John Orr, A. R. S.
Thos. H. Lawson, F. Sec.
Chas. Ledford, Treas.
Robt. Wills, jr., Chap.
H Sheridan, Con.
Samuel Orr, A. C.
H. A. McKeown, O. S.
Robt. Maxwell, I. S.
John Kenney, P. W. P.

Earnest and practical addresses were delivered by G. W. P. Maxwell, P. G. W. P. Robinson and the other officers. The speakers condemned the present license system; more drunkenness, they said, is seen on the streets than under any previous law. It was a sad thing, they declared, to see many men who had tried to reform wending their way home under the influence of drink—liquor being procured at any and all times. Gordon Division has re-opened with new zeal and vigor.

WISDOM! STRENGTH! BEAUTY!

The careful and economical housekeeper displays great *wisdom* when she selects as her standard colors the Diamond Dyes. Her wise experience leads her to use the Diamond Dyes because of their great *strength*, as one package has the dyeing power of two packages of the poor imitation makes. A grand characteristic of the Diamond Dyes is their *beauty* of shade and color, and they are always fast, firm and unfading. Carefully avoid imitations and vile substitutes.

"I've been thinking it over," said young Mrs. Torkins, "and I have concluded that this country had better go right ahead and get some silver money before it's all gone."

"What are you talking about?" her husband asked.

"Why; I saw a piece in the paper which said that silver money is cheap money."

"Of course."

"Well, Charley, dear; doesn't that mean that it's a bargain?"—*Chicago Journal.*

A business man in Muncie, Ind., to avoid a threatened boycott, tore out the foundation walls of a new building, which had been laid by non-union men, and engaged union men to relay the stones.

BALFOUR IS NOT WANTED.

IF HE WILL RESIGN HIS PARTY WILL BE GREATLY PLEASED.

He Has Neglected the Details of Leadership and Has Made a Botch of Everything—He May Go to the Upper House—Mr. Chamberlain's Position.

LONDON, July 4.

The discontent in the government ranks with Mr. Balfour's leadership has grown apace since the abandonment of the Education bill. His management of the debate on the next great Ministerial message, the Land Rating bill, displayed so little tact and so little desire to be tactical, as to cause the House to think that he is wearied of the game of politics or of the cares of leadership.

The impression has become general that he will soon relieve his party by resigning and going to the Upper House. He is wearied, his intimates aver, of the worries of Ministerial life and tells them that he is "sick of the whole thing," and would give up office if the Conservative party could find another leader who would keep the Unionists together.

Mr. Balfour seems to be of the opinion that Mr. Chamberlain's leadership is impossible or that it could only happen at the risk of breaking up the party. The Unionists are not so absolutely dependent on Mr. Balfour's continuance in place for their safety. In the lobby and club discussion of the situation there is less anxiety expressed about the choice of his successor than about his finally consenting to go.

He has succeeded not only in convincing the bulk of the Conservative members that he has no strong heart for his work, but also that he thinks himself above caring about mastering its details. His superior airs and impatience of criticism have led him into blunders which the Speaker and his own colleagues have been obliged to correct. Outside a very limited circle of personal associates his pretensions to superior political insight are laughed at, much as his book on the "Foundations of Belief" was pronounced by competent thinkers, Herbert Spencer among others, to be the crude production of an immature thinker. Still, he thinks so much of himself that he told the House recently that he "never read the papers," and took his own way independent of public opinion as obtained through the press.

His party does not appreciate his lofty level of impractical elevation. In seeking to replace him three names are under consideration—Mr. Chamberlain, Mr. Goschen and Sir Michael Hicks-Beach. In this cable correspondence recently the difficulties connected with Mr. Chamberlain were partly mentioned. Mr. Chamberlain, who knows the situation thoroughly, appears to recognize that tory opposition to him would be too strong, and there is high official authority for saying that he would accept the lead of Sir Michael Hicks-Beach for a time.

Mr. Chamberlain has been opposed to the cattle diseases bill, a cool and indifferent supporter of the Land Rating bill, and would have the next Education bill shaped anew if it were presented next session under his leadership of the House. Now both the Conservative and Liberal papers announce the Education bill for 1897 as certain to be a brand-new measure. It can be predicted here, on absolutely reliable information, that the bill of next year is to be the bill of this year in all its essential proposals. The knowledge of this decision, to which the whole cabinet is committed, is one of the reasons weighing with Mr. Chamberlain in keeping out of any contest for the leadership.

Mr. Goschen has now next to no following in the House. The younger members of the Conservative party, who might rally to Mr. Chamberlain, have no admiration for Mr. Goschen, whose limitations as a politician have long been known. When the change occurs, Sir Michael Hicks-Beach will obtain the leadership with almost the unanimous assent of the Unionist party.

The Deceased Wife's Sister bill, though read a second time in the Lords, is by no means out of danger. Once before the Upper House passed the bill on its second reading by a "fluke," the bishops failing to rally against it. On the third reading nearly the whole episcopal bench appeared and threw it out.

President Isaac Lewis of Sabina, Ohio, is highly respected all through that section. He has lived in Clinton Co. 75 years, and has been president of the Sabina Bank 20 years. He gladly testifies to the merit of Hood's Sarsaparilla, and what he says is worthy attention. All brain workers find Hood's Sarsaparilla peculiarly adapted to their needs. It makes pure, rich, red blood, and from this comes nerve, mental, bodily and digestive strength.

"I am glad to say that Hood's Sarsaparilla is a very good medicine, especially as a blood purifier. It has done me good many times. For several years I suffered greatly with pains of

in one eye and about my temples, especially at night when I had been having a hard day of physical and mental labor. I took many remedies, but found help only in Hood's Sarsaparilla which cured me of rheumatism, neuralgia and headache. Hood's Sarsaparilla has proved itself a true friend. I also take Hood's Pills to keep my bowels regular, and like the pills very much." ISAAC LEWIS, Sabina, Ohio.

I, James Dillworth, of the City of Hamilton, in the County of Wentworth, and Province of Ontario, ironworker, do solemnly declare:

1. I live at 374 Bay street north, in the City of Hamilton.

2. About three years ago I was attacked with Sciatica and Rheumatism, which was intensely painful, and most of the time since then I have been unable to work, owing to such Rheumatism, and during the last year I have been unable to do any work whatever.

3. The Rheumatism was in my shoulders, back, hips, legs and feet. I was confined to my bed with the disease for four months, from the 7th May, 1894.

4. On the 10th of April, 1895, Mr. S. S. Ryckman, M. P., gave me some medicine, Kootenay Cure, to cure such Rheumatism, and I have taken about two and a half bottles.

5. Before Mr. Ryckman gave me such medicine I could hardly walk at all, and last Monday, the 6th May, 1895, I started to work at lifting iron in the Ontario Rolling Mills, and I am now able to work without any trouble.

6. The Rheumatism has now completely left, with the exception of a slight soreness occasionally in the bottom of my feet, and such soreness is gradually disappearing.

7. During such period of three years I doctored with three different doctors, and have tried all kinds of patent medicines, and without any beneficial effect whatever.

8. My health has continued improved since I started taking this medicine, and I cannot praise too highly the splendid curative properties of this medicine.

And I make this solemn declaration, conscientiously believing it to be true, etc.

JAMES DILLWORTH.

Declared before me at the City of Hamilton, County of Wentworth, this 11th day of May, 1895.

FRANCIS FITZGERALD,
A Notary Public in and for the Province of Ontario.

BOSTON, July 10th, 1895.

MR. S. S. RYCKMAN, Hamilton:

DEAR SIR,—I have no hesitation in recommending Kootenay Cure as a great medical discovery and a first-class medicine for Rheumatism, Scrofula, Eczema or any Blood Disorder, as after several other medicines failed to give any relief to my brother, who was suffering from a very severe attack of Rheumatism, your medicine gave him almost instant relief and effected a cure.

Yours, etc.,

SHIPPING NOTES.

CHARTERED.—S. S. Saturnina, 1,785 tons, is fixed to load deals here for Liverpool at 38s.

STRUCK THE BRIDGE.—Schooner Joseph Hay struck the Suspension bridge while going through the falls on Monday evening. Her mainmast was broken off close to the deck, and the flooring of the bridge was thrown up considerably.

TO BE REPAIRED.—Brigt. Curlew, which has been laid up for several months, in a few days will be towed to Port Greville, where she will undergo extensive repairs by the Elderkin Company. The Curlew will receive new decks and will be reclassed. Tug Springhill will tow her to Port Greville. It is said if the work is satisfactory the barquantine Albatross will also be taken to Port Greville for repairs.

THE WRECK OF THE HESPER.—Steamer Hesper, Capt. Bowles, Penarth Roads for St. John, struck Emulus Breakers at the entrance to Lockeport harbor, at noon on Sunday, during a dense fog. The captain was on soundings all day and judged himself around Cape Sable. There are breakers all around, and she lies in six feet of water. At noon yesterday the bottom was out of her, and telegrams stated it was useless to send tugs or pumps, to her as the vessel would be a total loss. The Hesper is a vessel of 1,766 tons net and 2,720 gross. She was built at Stockton in 1890 of steel and hails from West Hartlepool. Her dimensions are: Length 290 feet 3 inches, breadth 40 feet, depth of hold 19 feet 4 inches. She has engines of 190 horse power. Her owners are Matthew H. and George Horsely, of West Hartlepool.

ESTEEM FOR DEPARTING MINISTERS.

At a meeting of the Methodist ministers, on Monday, the following expression of opinion was adopted on motion of Rev. Dr. Pope:

> The revolution of the inexorable wheel of the itinerancy having removed to other spheres of usefulness three of our beloved brethren, Rev. J. J. Teasdale, Rev J. C. Berrie and Rev. F. A. Wightman, the members of the St. John Methodist Preachers' meeting, cannot allow them to depart from their association without placing upon record some expression of the high esteem in which they have ever been and are still held, for their own and for their work's sake, by ourselves as well as by the Methodist congregations of this city, and our citizens generally. By their personal excellence, their unreserved and divinely honored consecration of their varied and sanctified gifts to the manifold duties of their ministerial, pastoral and fraternal relations, they have greatly endeared themselves to all within the circle of their influence. While we cannot but deeply regret the loss devolved upon us by their removal, we shall follow them in their new fields of holy endeavor in the Master's service with our kindliest sympathies and earnest prayers for their continued and largely extended success in reaching the highest possibilities of their sacred calling. We tender them and their families the assurance of our loving Christian regards, animated by the hope that with them and ourselves the pleasant and profitable association of time may prove but the earnest of the indissoluble and blissful fellowship of eternity.

Rev. Mr. Wightman, the only one of the three present, replied.

SAFETY BOARD BUSINESS.

At a meeting of the Safety Board on Monday it was decided to recommend that forty-five Auer lights be placed in the fire stations and the City hall. Frank Potts's request that he be allowed something on account of the space in the Market building given up to the new stalls, was laid on the table. P. N. Hanlon and others sent in a petition relative to a Salvage Corps for the North end. A sub-committee was named to look into the whole matter. The Board decided that a house be built between hook and ladder house and the Central police station on King street east for the accommodation of the ambulance wagon. The tenders for supplying the fire stations and the City hall with coal were referred to a sub-committee. The tenderers are Messrs. Starr, Magee and Gibbon.

THE ONLY ONE OF ITS KIND.

Paine's Celery Compound a Life-Renewer in Hot Weather.

Thousands of people feel weaker and more unhealthy during the summer months than at any other time of the year. This is due to the depressing and weakening hot weather.

The weakest system may be fortified and made strong by Paine's Celery Compound, earth's greatest blessing to suffering humanity. We quote the words of one of Canada's best physicians; he says: "If men and women during the heated days of summer would use Paine's Celery Compound three or four times a day they would find their vitality and strength greatly increased, and their digestive organs would be more vigorous and in better condition."

The greatest boast of Paine's Celery Compound is, that it cures when all other medicines fail, and it is the only advertised remedy that is regularly prescribed by physicians.

CONFIDENCE MAN ARRESTED.

He Was Implicated Some Years Ago in a Halifax Bank Robbery.

NEW YORK, July 7.

Edward Rice, a well-known confidence man, was arrested here Monday. He had what purports to be a $1,000 gold bond issued by the United States Silver Mining Company of Denver, Col. Captain O'Brien says in his opinion the paper is spurious and Rice had it for the purpose of swindling some countryman. Rice also had blank checks of two Minnesota banks. Rice helped in the robbery of a bank in Halifax in 1870. He was arrested here in 1878 on the charge of robbing the National Bank of Cambridgeport, Mass. In 1881 he was arrested on the charge of bank robbery in Detroit.

Oscar Wilde, in Reading prison, is a complete physical and mental wreck.

A SWINDLER CAUGHT.

Edward McBerney Arrested in Halifax—He Was Wanted in St. John.

Of the arrest of an alleged swindler in Halifax, a man who also plied his vocation in St. John, the *Mail* has the following:

A man apparently thirty-five years of age, who registered at the Albion hotel as "E MacBerney, Montreal," was arrested to-day by Detective Power upon the authority of a warrant sworn out by Hodge, of the Kandy Kitchen, charging the stranger with swindling and fraud. McBerney wears dark clothes, a brown, hard hat, and stands about 5 feet 8 inches. He wears a black moustache. It was a week Sunday since McBerney, with a friend and a lady registered at the Albion. The "friend," who is agent for a well-known Montreal brand of cigar, signed the hotel register for all three.

It is charged against McBerney that he entered the Kandy Kitchen this morning and bought a 20-cent package of candy and tendered in payment to the cash girl a ten dollar bill. He was handed back $9.80 in change, consisting of a $5 note, four $1 notes and 80 cents in silver. The man dropped the silver in his pocket and expressed surprise that he had given a $10 bill to the girl. He said he thought it was a $1 note. Being assured it was a ten, he laid the $9 in notes on the counter with the $5 note underneath and asked for a $5 note in exchange for the ones. The cash girl placed one hand on the money and with the other hand got a $5 note from the register and handed it to McBerney, which he pocketed at once. Hodge appeared by this time himself and asked what the matter was. McBerney said he had given a $10 note to the cash lady. "Well," said Hodge, counting the money on the counter, "there is $9 here and you have 80 cents in your pocket."

"Well, well," answered McBerney, "I must be losing my wits."

"Here," he said, taking another dollar bill from his pocket, "take this with it and give me back my ten dollar bill."

This was done and he went away taking the 20 cent package of candy, the $5 note given by the cash girl, the 80 cents in silver and his own ten dollar note. He made $4 80 by the transaction and went away and tried the same game at L. Higgins & Co.'s, where he passed three male clerks in the store and bought a 25 cent bottle of dressing from the cash lady, presenting the same $10 in payment which had been used at Hodge's and starting the same argument to confuse the girl. The proprietor overheard the matter and intervened and straightened it out.

In the meantime Mr. Hodge discovered how he had been swindled and he notified the police, and after some manœuvring they located McBerney at the Albion Hotel. Knowing he was wanted here, word was telegraphed to Chief Clark, who wanted him held for offences committed here, but Chief O'Sullivan wired later that McBerney had been committed for trial.

Several people in St. John will probably remember McBerney, some of them to their sorrow. The man, if he is really the same, pursued the same swindling dodge on some stores here, and was successful at least in two places—a Charlotte street and a Union street grocery. They will probably rejoice at his capture.

The young man who is studying medicine has a fondness for that pursuit which is not surpassed even by his devotion to his bicycle. He found the tire very much collapsed, and a member of the family remarked:

"You had better pump it up, right away."

"Yes," was the reply; "I shall immediately proceed to give it a hypodermic injection of atmosphere."—*Washington Star.*
