The ST. JOHN GLOBE *is published every afternoon, that of Sunday excepted by* JOHN V. ELLIS *and* RICHARD O'BRIEN, *under the firm name of* ELLIS, ROBERTSON & CO. JOHN V. ELLIS, *Editor.*

St. John Globe

ST. JOHN, N. B., AUG 1, 1896.

TO-DAY'S PAPER.

In the extra sheet to-day there is a very large amount of reading matter, including a letter from our Paris correspondent, a sketch of Nell Gwyn, an article by Wm. Kennedy on athletics, etc. Altogether the GLOBE to-day contains twenty-eight columns of reading matter.

LOCAL POLITICS.

The *Herald*, of Fredericton, makes this remark:

The GLOBE should look pleasant. Two Liberals have been elected by acclamation this week to the Local Legislature. But what worries our contemporary is that they are both supporters of Premier Mitchell, and one of them is a member of his government.

The GLOBE views the situation with the greatest serenity and even delight, and is not worrying itself half as much over the situation as are some of its contemporaries. It is glad that two Liberals have been elected, and when enough are in the House it is quite certain they will see good reason why the Local government should be constituted on Liberal lines and be led by a Liberal. When the day comes, who will be so eager to throw up its cap and rejoice as the Fredericton *Herald?* The *St. Croix Courier*, a Conservative paper, is very anxious for the existing arrangement to continue and intimates some inconsistency on the part of the GLOBE, because it wants a Liberal leader in Local politics, and seeks to end the existing conditions under which the government is riding two horses. The GLOBE in enunciating its views on this subject now is but enunciating views to which it has given utterance for several years. The government of this Province would be improved if the administration were responsible to a political party. In a very short time the situation will be within Mr. Emmerson's grasp, and he will show whether he is equal to the crisis which is approaching.

If the Liberals of New Brunswick insist upon Mr. Emmerson taking the premiership, or call upon him to lead them in a contest and get control of the Local government, what can he do about i? He cannot prevent the demand from being made. His opinion upon the matter will go for something, but it will not stop the movement, for there is always the alternative of some other man taking up the work. Probably it may be more convenient for Mr. Emmerson and Mr. Dunn to have things as they are, but they are not the only persons who are to be suited. The Liberal party must be satisfied. They are not all satisfied now. Mr. Emmerson tells for political purposes a humorous story of a farmer who owned a bull, and sometimes the owner led his animal out to fresh pasture ground. While doing this one day he tied the leading rope around his waist. Something started the sturdy animal upon the run and the farmer was jerked and tossed and hustled and hurled around at a pace he could not control. In this plight he was met by a neighbor who asked him where he was going. "Oh, I do not know," ejaculated the much-tossed man, "you must ask the bull." For the moment we forbear asking Mr. Emmerson as he is now tied the leading question of his own story.

THE GOVERNOR GENERALSHIP.

The home government, before it appoints a governor for Canada, or for the great Australian colonies, usually intimates to the colonial government the name of the person whom it proposes. If there be objection then it can be stated. There are reports in the press which convey the idea that the home government has indicated to the Canadian government that it would not be unwilling to appoint Sir Charles Tupper to the office of Governor General of this Dominion. Specifically, it is said that Mr. Chamberlain has suggested Sir Charles Tupper's name to Lord Salisbury, and that the English premier is not unwilling. Then it is said that Sir Donald A. Smith has conveyed the information to Mr. Laurier. The report may be true, but the publication of such a rumor at the present stage of the business is calculated to throw doubt upon the matter. Sir Charles Tupper is not, speaking generally, the kind of man this country would, at the present time, select for its Governor General, but, nevertheless, his appointment would give much satisfaction to a very large number of Canadians. It would be pleasing to the great majority of the Conservative party, and a large number of the advanced Liberals who believe that this country should be wholly governed by Canadians would willingly accept Sir Charles Tupper under the circumstances.

THE BAY SERVICE.

The bay service—mail and passenger—probably gives fair satisfaction. With the Prince Rupert it is done as well as it ever was done. So far as the carriage of passengers is concerned that is a matter for the public at large. In the carriage of the mails the government, of course, has a say. Apparently a steamer travelling at a high rate of speed is subject to great risk of accident, and when she is hung up the people relatively suffer more than they would with a less effective service, for they depend on the prompt service in their business arrangements. There should be some provision made, some personal provision, to meet, as far as possible, the difficulties arising from accidents like that of this week, which completely deranged the service and caused a great deal of inconvenience. Apparently there ought to be two boats in constant readiness, and, perhaps, the simplest plan would be for the Prince Rupert people to acquire the Monticello or some other equally good boat.

The punishment of Dr. Jameson and his co-conspirators in South Africa is not too severe. Measured by any of the existing standards of morality by which nations regulate their conduct towards each other the men who planned and carried out the attack upon the Dutch republic were guilty of a serious crime. Their conduct was indefensible as regards the state which they invaded; and it was most dangerous in its effect upon England's relations with the great nations of Europe. It might have plunged the mother country into war, and cost thousands of lives. It was freebooting of a very bad description, and even the pluck or bravery of it did not in any way condone its dishonesty and injustice.

ACROSS THE OCEAN.

IRISH TORY PEERS OPPOSE THE LAND BILL.

Lord Wolseley and Indian Troops—Balfour's Failure as a Leader—Another Strike of Dockmen Threatened.

LONDON, Aug. 1.

A cabinet council lasting over two hours was held yesterday, at which, it is understood, the Russo-French proposal to establish a blockade of the Island of Crete was the subject under consideration. Subsequent to the adjournment of the council the opinion was expressed at the Foreign Office that Lord Salisbury was opposed to the adoption of the proposal for a blockade and would reply to the suggestions that such a course be taken by counter proposals for the granting of autonomy to the island.

The Marquis of Londonderry, the Earl of Dunraven and the Earl of Winchelsea took part in yesterday's debate on the Irish land bill in the House of Lords and, although consenting that the measure should go to its second reading, the three peers threatened what they would do when the bill should have reached the committee stage. Despite these threats, however, the conviction prevails among ministerialists that the peers will not dare to tamper seriously with the measure.

Field Marshal Lord Wolseley, commander-in-chief of the British forces, has created a sensation by a statement made to the Indian military commission on Wednesday that he wouldn't like to put Indian troops in front of European soldiers, adding: "I should not like to fight the army of France or Germany or any other army with Indian troops." Military officers now in England who have served in India declare that there is no ground for General Lord Wolseley's remarks. The Indian troops, they declare, are an admirable fighting force, equal in every way to the soldiery of Russia or any other country. It is the consensus of opinion in military circles that the commander-in chief was animated in making his statement by a feeling of jealousy towards General Lord Roberts, whose high opinion of the Indian soldiery is based upon experience. Field Marshal Lord Wolseley's action has caused an indignant protest on all sides and has placed him in evil odor.

An influential popular organ, the *Weekly Echo*, predicts that if Mr. Bryan be elected and gold bonds become payable in silver there will be war between England and the United States, as the great capitalists behind the English government have power to compel them into conflict. From the agitation of the financial policy of the United States and the socialistic feeling emanating from the Chicago convention there has been such doubt thrown over the minds of the people that points to the possibility of a greater panic than we have yet seen. Should the laboring men of the country be thrown out of employment (now only half employed) there will be great labor trouble, such as will call on our military and cause much mistrust as to the future outcome. We prefer to do nothing till there is more stability, rather than take the chances of losing what we have, and would advise all our friends to stay out of debt.

After Mr. Chamberlain and Sir Michael Hicks Beach simultaneously spoke up for Mr. Balfour and disowned all desire to take his place as leader in the House of Commons there was some pause in the club and lobby criticisms of Mr. Balfour's management of the government bills. The Conservatives concluded that Mr. Balfour might be tolerated for another session and might improve by keeping. This week there are signs of the adverse current against his leadership setting in again. But for his relationship to Lord Salisbury and the strength of the Cecil family influence Mr. Balfour would be obliged to seek the leisure of the Upper House. There are now even within the Carlton Club yearnings and talkings over a reformed cabinet, in which the two Balfours, Arthur and Gerald, would have no working part, and the Duke of Devonshire would have the leading role, with Lord Salisbury still Foreign Secretary. There are certain to be important cabinet changes during the recess.

The leaders of the great London dock strike of 1889 are organizing another of equal magnitude. Tom Mann, Ben Tillet, and J. H. Wilson, M. P., are working to get the various Thames unions to federate and strike simultaneously. It has long been known that the six pence rise supposed to have been conceded by the dock companies was a delusion. The dockers are really worse off than ever. Strike combination agents are actively canvassing the men at Dutch, Belgian and German ports to help the Thames strikers. The dock companies have refused all the men's demands.

The rumor which for some time has been in circulation in social circles that the Queen was about to abdicate is entirely without foundation.

A GENEROUS GIVER.

A Scotch newspaper publishes the following item: A new hospital at Stornoway, in the Island of Lewis, has been erected by public subscription. It is one of the finest in the north of Scotland, and is situated near the farm of Goathill on the outskirts of the town. The hospital has been furnished and equipped by J. Ross Robertson, a Toronto publisher, in memory of his mother, Margaret Sinclair, who was born at Goathill in 1800, and who lived there with her father, Hector Sinclair, up to 1822. A condition of the gift is that two beds, one for a boy and another for a girl, shall be free to the children of Free Masons of Lodge No 108 Grand Lodge of Scotland, to which Mr. Robertson's grandfather belonged from 1798 to 1822 The *Highland News* says: "Sheriff Brand, of Stornoway, in opening a bazaar recently held in aid of the endowment fund, said that besides local effort the promoters of the hospital had been fortunate in finding willing subscribers from a wide area, and that, amongst others, Mr. J. Ross Robertson, of Toronto, had come forward handsomely. Having a special attachment, through his mother, to the farm of Goathill, which is in close proximity to the hospital, he has signalized the occasion by himself ordering and paying for the whole furnishings required for the existing wards of the building.' Thus does a man who has achieved success in one of our greatest colonies evince and perpetuate the affection he has never ceased to cherish for the land where his mother was born."

Mr. Robertson is one of the newly elected members for Toronto, and will sit among the independents.

GERMAN—FIRST LESSON.

Next Monday the first lesson of Professor Haupt's course will be given in the Y. M. C. A. Good sized classes have been formed at 10 45 a. m., 5 and 8 p. m, at which time everybody is cordially invited to hear the first lesson. Yesterday afternoon Professor Haupt lectured in the parlors of Mr. Pugsley's hotel at Rothesay. A large class will commence next Monday at 3 with the first lesson there. The professor is only here for the summer, and no one should miss this opportunity of his lifetime to enrich himself by taking this teacher's course of lessons, as it means a thoroughly practical use of the German language, also a most enjoyable series of entertainments of a most instructive nature. Do not fail to attend at one of the above hours in St. John or Rothesay.

THE MARKET to-day was well supplied with country produce, and for a while business was quite brisk. It was a case of the early bird getting the worm, for by ten o'clock the best of the stock was pretty well cleaned out by thrifty housekeepers, who with basket on arm got a line on all the bargains, and those who came after came out second best. Lamb brought 9c. by the hind quarter, some extra good ones bringing 10c Chickens brought from 60c. to 75c. a pair. Raspberries brought $1 a pail. Gooseberries and blueberries 50c. a pail. FREE PUBLIC LIBRARY—Among the donations received by the Free Library Commissioners is a very valuable work for which the library is indebted to the chairman of the Board, Mr. Jas. R. Ruel. This is a "History for Ready Reference and Topical Reading," by J. N. Larned, librarian of the Providence library. There are five volumes, handsomely bound in morocco. The work is one of established repute. It has been examined, tested and recommended by a large number of literary men, writers and officials in the United States, and is a splendid acquisition to the library. The Boston *Journal of Education* said of this work: "Never before has there been an attempt to give statements of fact and theory upon all questions of history, written by the best scholars, the most brilliant writers and the most vigorous thinkers when at their best. It is literally the cream of all the histories of the world in the 'Gem' paragraphs of all the historians." The *Literary World* says: "The work as a whole is a library of historical extracts taken from a wide range of authors, extending to all parts of the world and all times—a storage warehouse, in fact, of enormous extent."

As the funds placed at the disposal of the commissioners by the Common Council are very limited and only sufficient to enable them to obtain a few volumes of current literature, the chairman has been authorized by Mr. Joseph Allison, one of the oldest and best friends of the library, to purchase on his account several books beyond their reach which are of great interest and value to students and others. The first of these are Kerner's Natural History of Plants in four volumes, a work of standard authority, in regard to which Mr. G. U. Hay writes:

ST. JOHN, N. B., May 26, 1896.

J. R. RUEL, Esq.:

MY DEAR SIR—Accept my sincere thanks for the pains you have been to in procuring the works on botany for which I asked and which I need. I scarcely expected to be so fortunate, as I know well your scarcity of funds, and the trouble the commissioners must have in meeting the demand for books on general literature, without meeting the requirements of specialists even in a moderate degree. Very sincerely yours

G. U. HAY.

Other donations are: From Mr. Jonas Howe—The First Year of the War, by Edward A. Pollard; Proclamation (mounted in a frame) issued by the Halifax Committee of Trade in 1813, announcing what steps have been taken by the naval authorities for protection of fishing vessels on the coasts of Labrador and Nova Scotia From T. B Brown, Limited—Cocos: All About It From Chief of Engineers, U. S. Army, Washington—Annual Report of Chief Engineer, 1895, in seven parts.

FUNERAL.—At 8.30 o'clock this morning a large number of people met at 74 Camden street to pay their last tribute to Alexander McPeake, whose death occurred on Thursday last. The remains were taken to St. Peter's church, where Requiem Mass was celebrated at nine o'clock by Rev. Stephen Connolley, C. SS R., assisted by Rev. Father McInerney, C SS R, and Rev. E Weigel, C. SS. R From the church the remains were taken to the new Catholic cemetery, where interment took place. The pall-bearers, mostly classmates of the deceased, were Messrs. Frank Leger, Frank Kane, James O'Neill, Frank McMahon, Wm. McMillan and Wm. Fitzgerald.

LAND TO BE TAKEN.—In order to carry out the improvements on the western side of the harbor the Common Council find it necessary to take possession of some property there. Mr Levi Ring has one lot, Mr. Gershon Mayes two lots, and Mr. W. Frank Hatheway ten lots. As a preliminary step a sub committee of the harbor improvements committee—that is Alds. Christie, Smith, Robinson, Ruel and Daniel—has had under consideration the offer to be made to these property owners for their possessions. It has been agreed to offer the assessed value of the properties, which is as follows: Mr. Ring's $1 500. Mr. Mayes's $3,200, Mr. Hatheway's $500. Of course, none of the owners will accept this offer, and the next step for the city will be to take proceedings under the expropriation act. Some canvassing has been done in behalf of the appointment of Mr John A. Chesley as valuator for the city. It is said the value placed on the Mayes and Hatheway properties is considerably over $5,000 each.

Building Society

The loan is getting smaller and smaller, and is finally paid off and discharged. The property is freed from encumbrance, and forms for the owner and his family a comfortable home.

There is none of the worry and anxiety that is felt by one who is simply a tenant, or whose property is covered by a mortgage which is rapidly eating it up.

One of the oldest and most successful institutions in existence.

—IS MADE OF—

Peptonized Extract of Beef,
Citrate of Iron,
Sherry Wine and
Aromatics.

If you will stop and think for a minute of its composition—the Nutriment of the Peptonized Beef, the Tonic power of the Iron, the Stimulating properties of the Wine—you must see that it is an ideal Tonic and Blood Restorer.

We claim it is the best made. Another reason for this claim is that by OUR METHOD of making it the Peptonized Extract of Beef is held in solution.
